The following story is told of the Rev. Dr. Morse. At an association dinner, a debate arose as to the benefit of flogging in bringing up children. The doctor took the affirmative, and his chief opponent was a young minister, whose reputation for veracity was not very high. He maintained that parents often do harm to their children from unjust punishment, from not knowing the facts in the case. "Why," said he, "the only time my father whipped me was for telling the truth!" "Well," retorted the doctor, "it cured you of it, didn't it?"

"Good morning, Pompey." "Good morning, massa." "What makes you carry your head down so, Pompey? Why don't you walk with your head erect, like me?" "Massa, you ever been tro' a field of wheat when he ripe?" "Yes, Pompey." "Well, you take notice some of de heads stand up, and some hang down; dem dat stand up got no grain in 'em."

A generous mind identifies itself with all around it; a selfish one identifies all things with itself. The generous man seeks happiness in promoting that of others; the selfish man reduces all things to his own interest.

At best, life is not very long. A few more smiles, a few more tears, some pleasure, much pain, sunshine and songs, clouds and darkness, hasty greetings, abrupt farewells—and then our little play will close, and injurer and injured will pass away. Is it worth while to hate each other?

A Scotchman asked an Irishman, "Why were half-farthings coined in England?" The answer was, "To give Scotchmen an opportunity to subscribe to charitable institutions."

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known as
Dr. EATON'S INFANTILE CORDIAL,
Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a safe, sure, reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended
FOR CHILDREN TEETHING,
And at this period of infantile life, when your anxious hearts are pained by witnessing the suffering your little one, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relieving all Pain. FOR DISEASES ATTENDING TEETHING, such as Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic, and Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.
IN CONVULSIONS,
From which more infants are said to die than from any other disease, the little sufferer is relieved *instantaneously*, and if used in season, the dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains
NO MORPHINE OR OPIATE,
Of any kind, or of whatever nature, a fact which we are fully warranted in stating cannot be said of any other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the sad and blighting consequences which are certain to result from the use of narcotics disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions. Here in DR. EATON'S INFANTILE CORDIAL differs from every other remedy. It
DOES NOT CONSTIPATE
The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, thro' its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*
Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts. per bottle.
Prepared only by CHURCH & DUPONT, No. 403 Broadway, New York.
And sold by them, and all respectable Druggists.

APPLEDORE HOUSE,
ISLES OF SHOALS.
This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing its capacity. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests. *An abundance of sweet cream and milk is supplied from healthy cows kept on the Island.* The table is faultless. The facilities for fishing have been increased by the addition of new boats and experienced skippers.
To all these advantages are added the purity of the air—the delicious coolness of the ocean breeze, its invigorating and appetizing properties—the little cove, for the scenery—the glory of its sunsets—the cleanliness of its walks—its freeness from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can claim. The equability of the temperature is a natural advantage over the coast or the mountains, which invalids can fully appreciate.
A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Pier Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accommodation for the comfort of passengers which a Packet requires.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.
For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified testimony, and recommend it for all kind of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—
Oak Grove, S. C., June 24, 1859.
Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—
During the year 1854, I was so unfortunate as to be thrown from my saddle against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.
These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; and, if my influence, which I flatter myself is say, is not a little.
You can publish this, if you think proper.
Yours, very respectfully,
M. J. WRIGHT, M. D.
Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.
Professor O. J. Wood:—Dear Sir:—I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your Hair Restorative, which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.
Yours, &c.,
THOMPSON SURGHNOR.
Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restoratives as a very wonderful invention, quite efficacious as well as agreeable.
S. THALBERG.
The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, SEPTEMBER 17, 1860.

ITALIAN REVOLUTION.

It is reported that Sardinia is about to interfere at Naples, and that General Lamormora was about to leave for Naples with 30,000 troops, his object being to prevent Naples from becoming a prey to anarchy, in view of the fall of the Bourbon dynasty. All the disposable vessels of the Sardinian navy were to be sent to Naples, and military preparations were going on more vigorously than ever in Piedmont. The government was hiring every available transport, and it is said that if the rapid conveyance for so large a force is found to be impossible, the Pope will be asked to allow it passage through his dominions.

At the latest dates confusion was increasing at Naples. The Annexation Committee, on the 3d inst., received a communication from Garibaldi, announcing that as the country required a definite solution of the present difficulties he would be in Naple about the 8th, and in the name of Victo. Emanuel assume the Dictatorship of the two Sicilies.

The Neapolitan Ministry had withdrawn their resignations, as an attempt to form a new one under Prince Ischitella had failed.

The King of Naples is to pay an indemnification of three million francs for French losses during the bombardment of Palermo.

It is asserted that the prohibition placed on the departure of volunteers from the Sardinian States is to be removed.

It is rumored that the Cabinets of France and Turin have agreed to prevent any invasion of the States of the Church. The French garrison at Rome is to be increased some 3500 men. But Count Persigny had made another speech, giving the impression that Napoleon will do no more than maintain the Pope's throne in the Vatican, and not help Lamoriciere to keep the Roman States. And the Paris Bourse was quite steady on the 4th, which is a very good sign.

Ancona has been declared in a state of siege, and the Papal delegate recalled.

SYRIA.—The French troops continued at Beirout, and it was thought they would not be required to go into the interior. The details of the executions at Damascus show that individuals belonging to the highest families had been found guilty, and suffered the penalty of death. One hundred and sixty-seven additional executions had taken place there. Tranquillity prevailed.

By the very latest dispatches, it is reported from Syria that the French troops had suffered a reverse at the hands of the Druses, in Lebanon Range.

INDIA AND CHINA.—Bombay mails of August 8th, and Hong Kong of July 17th, had reached England. Sir Henry Ward Governor of Madras, had died of cholera. A famine was impending in the northwest provinces of India. The British forces in China were ready for an attack, but the French protested against commencing hostilities on account of having 2000 less men than the British. On the 28th of June, Lord Elgin induced Goss to withdraw his protest, and an attack was commenced immediately.

RUSSIA.—The Russian Emperor had invited the Prince Regent of Prussia to a hunting party at Warsaw. The invitation was accepted, and the Prince Regent will visit Warsaw about the middle of September. The accounts from the Russian crops are favorable. The yield was expected to be very good. The tallow prospects are unfavorable.

TALL WALKING.—Seven miles within the hour has been about the greatest speed in walking; but a Mr. Hall, in a match with Mountjoy, the pedestrian, accomplished the following:—One mile in seven minutes thirteen seconds; two miles in fifteen minutes twenty seconds; and four miles in thirty-two minutes exactly. This latter is the highest point of speed on record; and the amount of training necessary to arrive at such perfection is immense.

☞ It appears from statistics furnished the Constitution by H. C. McLaughlin, Superintendent of the Statistical Office, Department of State, that during the past twelve months fifteen vessels have landed in Cuba 5569 coolies from China, making an aggregate of 48,970 since 1847. Of the fifteen vessels four were Spanish, six French, four American, one Dutch.

AN EXTRAORDINARY PLOT.—A letter from Trieste in the London Morning Star, gives an account of an extraordinary attempt on the part of the second captain of the Austrian man-of-war Kaiser to blow up the vessel, with every soul on board, the whole of the ships lying in the neighborhood, the yacht of the Archduke Maximilian and all his company, together with the greater part of the town of Trieste.

This Austro-Italian Guy Fawkes was discovered at the critical moment, and blew out his brains.

PLANTATION LIFE.

In DeBow's Southern Review, says the Boston Post, there is an article on "Plantation Life—its Duties and Responsibilities," the general tone of which is of a lofty and benevolent character, calculated no less to benefit society than to reflect credit on the Review. Many of our Northern masters of free "helps" may advantageously meditate on the following passage:—"Old and grey-headed servants are the heir-looms of the house. It is a pleasing thing to see an old family servant cherished. Perhaps he laid the foundation of the family's wealth, and is now listened to as the chronicler of its legends. Let him talk on, and enjoy the evening of life, and repose upon the fruits of labor past. Cast him not off, now that his once active limbs are stiff, and his strong frame is bowed. The almond tree flourishes on his fleecy head, the keepers of the house do tremble, those that look out of the windows are darkened, the grasshopper is a burden, and desire fails—because the old servant goeth to his long home.

"Beyond the sowing and the reaping
He will be soon."

"He bore your father in his arms, and went afield with your grandfather, when he was starting in life, and with those worn hands helped to lay the broad foundation of that estate which is yours to-day. The kind master will for no consideration part with such an one. He will feel his support to be a pleasure, not a burden. He will indulge him—feed him from his own table—treat him with mingled tenderness and respect, and see to it that others treet him likewise. For such a green and cheerful old age should every faithful servant be permitted to hope."

The Post remarks:—"It is very gratifying to see such sentiments as these enunciated in the leading periodical of the South, and still more gratifying to know that such principles form the rule of practice in hundreds of Southern planters' homes."

Truly, so it is; kindness is a currency everywhere; and it alleviates, as in the cases here alluded to, a lot, which would without it be insupportable.

THREE WIVES VISIT THEIR ONE HUSBAND IN PRISON.—A dry goods clerk, a good-looking young man, named Charles Haynes, of Niles, Mich., married a young lady of that place. He left his wife after a short honeymoon, and went to Jefferson County, New York, where he married a second lady. He passed another honeymoon, and then went into Schuyler County, where he married another fair damsel. Being discovered this time, he was sent to the State Prison at Auburn, New York, for ten years.

The other day, three ladies, separate and unattended, went to the Prison, and each inquired for Charles Haynes. The prisoner was brought in, and much to his surprise found himself in the presence of his three wives. There were two too many to made the meeting pleasant. Each of them was in tears, and each pressed forward to grasp him by the neck and exchange salutations of endearment. One brought him choice apples; another took from a basket some fine peaches, while the third forced upon him some sponge and fruit cake—the product of Niles wheat, mixed by her own fair hands.

After a prolonged interview, the trio of widows took up their mournful march for their several homes. The meeting was arranged by the Schuyler County victim, who had made up her mind to heap coals of fire upon the head of her deceiver by visiting him in the manner described, and treating him with kindness, even though he had destroyed the future happiness and welfare of three estimable and worthy women.

CAPT. JACK WILSON.—A subscription is on foot at Chicago to raise a sufficient sum to pay a mortgage on the homestead of Captain Jack Wilson, as a testimony of the esteem in which he was held, and of the heroic devotion he exhibited. He leaves a wife (now absent at Lake Superior) and family at Coldwater, Mich.

On the announcement to the Board of Trade, at Chicago, that the farm of Captain Jack Wilson of the Lady Elgin, was encumbered to the amount of $1500, it was proposed that one-half the amount be raised there, and the balance at Buffalo.—The members, with accustomed liberality, got up a subscription list, and in less than half an hour over $500 had been subscribed.

☞ It is believed that Austria will enter among the number of constitutional States, notwithstanding the endeavors of the military aristocracy to the contrary. Several independent and liberal statesmen have considered it their duty to represent to the Emperor that unless the constitutional tendencies of the empire be complied with, a revolution will become inevitable.

REV. MR. QUINT IN REPLY TO DR. HUNTINGTON.—*Springfield, Sep. 14.*—The State Sunday School Convention in this place, was opened this morning with a prayer meeting conducted by Rev. Horace James of Worcester. After which Rev. A. Quint delivered an essay upon the practical connection between the Church and the Sunday School.

Mr. Quint's discourse is in some sense a reply to Dr. Huntington's, and may be taken as the protest of the Orthodox Congregationalists, against Dr. H.'s views.

MAINE ELECTION.—The Bath Times of Friday morning mentions returns from 333 towns. Washburn has 62,533, Smart 45,138, Barnes 1418.

In the same towns last year, Morrill had 51,754, Smith 40,069.

Washburn's majority in these towns this year, over all, 15,977. Washburn's net gain, 4292.

The remaining towns gave Morrill over 1100 majority last year.

The total vote will not fall more than one or two thousand short of the that of 1856, which was 121,000.

The Republicans claim a gain of five or six Representatives—and the Bath Times says, "They might as well make their claim a little larger, and include the whole."

The Portland Argus says:

The result in this State will tend to unite the peace and union men in every State and thus make the overthrow of sectionalism doubly sure.

☞ The Democratic Standard, at Concord, libels Mr. Douglas in this fashion:

Douglas has commenced an electioneering tour in Virginia, to convince Southern democrats of the great advantages of permitting a gang of squatters in a territory to rob them of their slaves, in defiance of the constitution and the decisions of the Supreme Court. Those democrats who are so anxious to put down slavery in the territories, had better go with Lincoln, as his plan of effecting their object, by Congressional prohibition, is far more orderly and decent than that of Douglas. Lincoln would keep Southern men, with their slaves, out of the territories—Douglas would decoy them into the territories, only to rob and despoil them of their property.

This misrepresents Mr. D. and his party, —for in their *last* resolution, made after they had nominated him, they promise to abide by what the Court says;—and the Court favors slavery, as everybody knows.

DEATH OF AN ELEPHANT WITH A BROKEN HEART.—The performing elephant "Victoria" died at Iowa City, on the 11th ult. The day before, she and her mate "Albert," in crossing a river, were washed down the stream. Upon getting out and missing him, she became very wild, and scattered the people in quick time. Albert was gotten out safely, after some trouble, but Victoria "failed rapidly" and died next day. Her body was dissected, and the heart found to be burst. She was valued at $15,000.

A DISAPPOINTED LOVER SHOOTS HIMSELF.—Oscar Pike, of Windsor, N. Y., had arranged to be married to Miss Hyde, when her friends interceded and induced the girl to tell him she did not want anything more to do with him. Pike walked from the house into the door-yard and shot himself with a pistol, the ball entering his head, but there is hope that he will recover to see the folly of attempting his life for the sake of a faithless maiden.

A NEW CLASS OF LIVE STOCK AT AGRICULTURAL FAIRS.—An itemizer of the Adams Transcript says that a man in Williamstown has a large lot of bullfrogs all fattened for a foreign market. Some of them have been highly fed for several years, and are of enormous size, weighing about 40 pounds. Although no premium is offered on this stock, he intends exhibiting them at the Hoosac Valley Fair.

THE STEREOSCOPE, as now used, was invented by Baptista Porta in 1599. In some inquiries respecting the instrument, Sir David Brewster found that its fundamental principle was known even to Euclid, that it was distinctly described by Galen 1500 years ago, and that Baptista Porta had, in the year above named, given such a complete drawing of the two separate pictures as seen by each eye, and of the combined picture placed between them, that we recognize in it not only the principle, but the construction of the stereoscope.

☞ Paris was astonished not long since by the sight of a carriage, propelled neither by steam nor gas, going with such amazing swiftness as to leave far behind the four-in-hand carriages of the Jockey Club, which endeavored in vain to keep up with it. The inventor is said to be a poor man, and has constructed the vehicle entirely himself, and will not disclose the secret until it is properly secured by patents.

☞ An Italian journal, the Trovatore, states that the number of professional singers of both sexes now in Italy amounts to 1730. This aggregate is composed of 410 prima donne, 330 tenors, 280 barytones, 160 basses, 50 buffos, &c. In addition to these, Italy has 1670 dancers, male and female.

☞ The schooner Gazelle, at Augusta from New York, with 3000 bushels of corn and 200 barrels of flour, fell over upon her side and filled, while lying at the wharf on Tuesday, last week. Insured in New York for about $3,300. The loss falls upon the underwriters. The vessel was righted on Saturday, and the wet cargo has been partially got out and sold at auction.

This life's contradictions are many. Salt water gives us fresh fish, and hot words produce coolness.

NEWS FOUR DAYS LATER FROM EUROPE, viz., from Liverpool Sept. 5, has been received by steamer Melita.

The review of the Lancashire Volunteer, at Lord Derby's park, was a brilliant success.

About 11,000 volunteers were present, and 200,000 spectators.

By a collision on the East Lancashire Railway, 11 persons were killed, 19 badly and many slightly wounded.

The Paris correspondent of the London Herald states that France has just purchased ten large steam transports in the United States.

The Paris corn market was rather lower. Piedmont has considerably reduced the duties of yarns, tissues, etc., of cotton and hemp.

The Ship Owners' Society of London had passed resolutions regretting Mr. Lindsay's scheme and official visit to America, and declaring that he does not possess the confidence of the shipping interest.

The advices from Italy, Syria and India, are quite interesting, and will be found under their proper heads.

In the London Money Market, the funds were buoyant and advancing, under finer weather and improved harvest prospects.

The discount market was easier, and gold was flowing to the bank of England. The rates in open market for best bills were 3 a 3 3-4.

Freights tending upward.

BRECKINRIDGE COMMITTEE PROPOSITION REJECTED.—*New York, Sept. 14.*—The Douglas State Committee met to-day at the St. Nicholas Hotel, for the purpose of considering the proposition recently made by the Breckinridge Committee, viz:—the adoption of ten Breckinridge Electors on the Douglas ticket, and two candidates for State officers. The proposition was rejected by a vote of seven to five. The Committee is still in session (9 P. M.) considering the proposition of the National Democratic Volunteers, viz:—to leave off from six to ten names now on the Douglas ticket, and placing thereon instead such National men from the southern portion of the State as shall be acceptable to the merchants of this city. The general opinion was that this proposition would be adopted.

PHILADELPHIA, Sept. 15.—The Bell and Everett meeting last night was interrupted by Republican Clubs marching through the crowd. A fight ensued in which stones and pistols were used. The meeting was dispersed. Nine of the rioters have been arrested.

NEW YORK, Sept. 15.—In the United States Court, in the case of Durand v. Captain Hollins, of the sloop-of-war Cyane, arising out of the destruction of property at the bombardment of Greytown, the Court decided in favor of the defendant, upon the ground that he was acting under orders from the Secretary of War.

MOSES & DOWNIE

Have made extensive arrangements to show to all the people who may visit Portsmouth during the FAIR,
THEIR LARGE AND SPLENDID STOCK OF
CLOTHING
FURNISHING GOODS,
Free of Cost.

They never were so well prepared to accommodate the public as they are at present, with good Clothing at such low prices. All who wish to buy Clothing at the present time, who live within fifty miles of Portsmouth, can save enough to pay their expenses here and back by buying A SUIT OF CLOTHES of them.

The reasons we give for the above statements, are the following:

1st—The dullness of the times.
2d—Our Stock is so large we want to reduce it this Fall.
3d—We want to keep up our reputation for selling good Clothing at low prices.
4th—We have the *largest and cheapest* Stock of Goods in the City, and we want to sell the biggest pile of Goods of any Store in the City.

Please call and see if the above statements are true?

Rockingham Fair
AND CATTLE SHOW,
AT PORTSMOUTH,
Wednesday & Thursday, Sept. 19th & 20th.

The Society for the encouragement of
Agriculture, Horticulture, and the Mechanic Arts
IN THE COUNTY OF ROCKINGHAM,
Will hold their Eighth Exhibition, in Portsmouth,
AT THE CITY FARM,
as above; and the managers hereby invite the co-operation and assistance of all those interested in Farming or Gardening.

The spacious Field selected is an admirable site for the purpose, and no effort will be spared to render the present one of the best Fairs ever held by the Society.

A LARGE TENT
on the Field will contain the display of Fruits Vegetables, Domestic and Fancy Articles, &c.—as usual at such Exhibitions. The Tent will afford ample and excellent facilities for the display—far better than any available Hall; and even the richest and most delicate articles, may be relied upon as being *safer* than if in a crowded building. The greatest pains will be taken to exhibit articles in the best manner, and particular care taken that none shall be injured in the least.

ADDRESSES
expected from various distinguished gentlemen.

The Full Portsmouth Cornet Band
—AND—
HALL'S BOSTON BAND
Will perform on the occasion, and probably other fine Bands will be present—and there will be
A GRAND PROMENADE CONCERT,
in the
BRILLIANTLY-LIGHTED TENT,
On Wednesday Evening.

THE GOVERNOR'S HORSE GUARDS
with full ranks, and accompanied by a
MOUNTED BAND,
will make an Excursion to Portsmouth on this occasion, and will visit the Fair.

The Mammoth Oxen
belonging to Mr. David Towle, of Hampton, will be on exhibition in the Field.

☞ The usual PROCESSION of Town Teams, &c., will take place on the first day of the Fair.

☞ A large Ring or Track will be constructed within the enclosure, for the exhibition and trial of Horses and other Stock entered for Premiums.

It is designed to have a grand CAVALCADE of Ladies and Gentlemen, and all are invited to join.

Visitors to the Fair will pay FARE ONE WAY only, on the Concord and Portsmouth Railroad, and probably on the other Roads leading into Portsmouth; Return Tickets, good for Two Days.

Life Members are allowed to compete for Premiums, without any entrance fee for articles.

Fancy Articles, Fruit, Vegetables, &c., are subject to no entrance fee.

PREMIUMS.—If any Premiums heretofore awarded remain unpaid, they will be settled by the Treasurer—on the Field—at any time during the Fair; and all Premiums for this year, will also be paid at the close of the second day.

TERMS OF ADMISSION.—Single admission (to both Field and Tent,) 25 cts. Children from ten to fifteen years of age, 10 cts.; under ten years free.

Life Member's Badges, $5. Each Life Member and wife, free throughout the Fair. Life Members will be provided with Tickets at the Secretary's Office.

Life Member's Badges ($5) may be obtained at the stores of W. R. PRESTON, and THACHER.

Each horse, to carriage or saddle, 25 cts., two or more horses and carriage, 50 cts., each admission; and each passenger to provide himself with tickets as above.

OFFICERS OF THE SOCIETY.

JAS. H. BUTLER, Nottingham, Pres'd't.
TRUSTEES.—John S. Godfrey, Hampton Falls; Jacob H. Sanborn, East Kingston; Levi B. Tucker, Plaistow; Frank W. Miller, Portsmouth; Edward Giddings, Exeter.
M. M. COFFIN, Hampton, Sec'y.
JOS. C. HILLIARD, Exeter, Treas.
H. F. WENDELL, Chief Marshal.

GOOD LIGHT.

The spacious Tent at the Rockingham Fair will be brilliantly lighted in the Evening, by
DR. C. A. GREENE & CO'S
Celebrated Safety Gas Lamps,
Which for beauty of light, economy and utility, are really far superior to any method of lighting ever introduced.

DR. GREENE, or an assistant, will also be on hand throughout the Fair, with a choice assortment of his Fixtures, which we recommend to the attention of all who are looking for a good light. **DR. C. A. GREENE & CO.,**
From 55 Washington St., Boston.

GRAND EXCURSION
—TO THE—
State of Maine!
—AND THE—
STATE HORSE FAIR!
AT AUGUSTA.

MR. JOSIAH PERHAM,
At the desire of many gentlemen, has arranged for a GRAND EXCURSION TO AUGUSTA, to take place THIS WEEK, over the Eastern, Portland, Saco & Portsmouth, and Kennebec & Portland Railroads.

The FAIR will be held upon the STATE FARM, Augusta, on the 18th, 19th, 20th, and 21st of September, and promises to be the largest and best collection of Horses ever exhibited in New England.

Maine, at this season, presents many attractions, among them the celebrated Togus Mineral Springs, a short distance from the capital.

We will leave Boston from the Eastern Railroad depot, on Causeway street, on TUESDAY and WEDNESDAY, the 18th and 19th of September, 1860, at 7½ A. M., and 3 o'clock P. M., on each of those days.

Returning, leave Augusta on any of the trains up to, and including SATURDAY, the 22d.

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints. It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

SPRINGFIELD, N. H., April 19, 1855.
My daughter has been troubled with the Scrofulous Humor, causing swelling of the neck, for a number of years, and by the use of four bottles of Dr. S. Swett's Panacea, the swelling has been entirely removed, and her health is good.
JANE B. ELLIOTT.
The above testimony of my wife is true.
ENOCH B. ELLIOTT.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Humphreys' Homeopathic Specifics

CURE PROMPTLY and safely all the more common diseases and ailments to which families are subject. In all acute diseases, such as fevers, inflammations, Diarrhœa, Dysentery, Rheumatism, Croup, and such eruptive diseases as Scarlet Fever, Measles, and Erysipelas, the advantage of giving the proper remedies promptly is obvious, and in all such cases the specifics act like a charm. The entire disease is often arrested at once, and in all cases the violence of the attack is moderated, the disease shortened, and rendered less dangerous.

Coughs and Colds, which are of such frequent occurrence, and which so often lay the foundation of diseased lungs, Bronchitis and Consumption, may all be at once cured by the Fever and Cough Pills.

In all chronic diseases, such as Dyspepsia, Constipation, Weak Stomach, Liver Complaint, Piles Female Debility and Irregularities, old Headaches, Sore or Weak Eyes, Catarrh, Salt Rheum and other old eruptions, the case has specifics whose proper application will afford a cure in almost every instance. Often the cure of a single chronic difficulty, such as Dyspepsia, Piles or Catarrh, Headache or Female Weakness, has more than paid for the case ten times over.

For price, see advertisement in another column.

☞ All the indications are, that old Portsmouth and Rockingham County never saw many, if any, such celebrations and exhibitions as the Fair will bring out on Wednesday and Thursday next. From every quarter, the report is that all the people are "coming to the Fair; and well they may—for hardly will they have opportunity again to witness such splendid decorations as the Portsmouth Car, Arches and Tent will present; while the parade of the Horse Guards, and their drill on the Fair Grounds, will be a rare sight indeed; and the Cattle Show, and the Fair itself will be one of the best ever gotten up in the State.

☞ The fencing and building of pens, at the Fair Grounds, is completed; the large Tent is up in place, and being decorated; good Track, of about a third of a mile, is laid out and fenced; the Fandango men, Actuallers, and others, are locating their stands; and altogether, the premises look decidedly like commencing operations.

☞ It is designed to have a grand Cavalcade of ladies and gentlemen, sometime during the Fair; and all who will join, are invited to inform the Chief Marshal or President.

The Town Teams which are to join the Procession, are also requested to be reported at once to either of the above officers.

☞ To accommodate the throng of people in the city, at the Fair this week, no little of private hospitality will be needed, as well as taxing to the utmost all the public conveniences; and already have many of our most influential citizens proffered assistance to the officers of the Society, in furnishing fit quarters for their guests.

The Young Men's Wide Awake Club have also courteously tendered their Hall for a temporary Armory for the Horse Guards, during their brief stay.

ADVERTISING.—Besides our regular edition of the Chronicle, we shall on Wednesday, and on Thursday or Friday mornings, issue a large number of extra copies, containing the order of exercises and the report of the Fair—which will afford our merchants an excellent opportunity of bringing their business to the notice of the thousands of strangers who will throng our city.

☞ There was an inaccuracy in a statement in the Journal of Saturday last. Rev. Mr. Gage is expected to be settled over the North Church by the middle of October, till which time the desk will be supplied by various clergymen.—*Eds. Journal.*

MILITARY ENCAMPMENT AT NASHUA. Governor Goodwin has ordered the Volunteer Military Companies of New Hampshire out for a grand Encampment at Nashua, on the 11th and 12th of October. There will probably be about fifteen Companies present, besides the Amoskeag Veterans and the Governor's Horse Guards.

While the great torchlight procession at Manchester, N. H., was passing through the streets, a squad of rowdies, who occasionally cheered for Douglas, manifested their adherence to popular sovereignty by throwing stones at the procession. Several Wide Awakes were badly gashed on the head and otherwise bruised. When the Concord delegation was leaving, these graceless vamps collected at the Depot, and after the cars had started threw a shower of stones at the car windows, breaking them badly and injuring some inside. They then withdrew and gave three cheers for Douglas.—*Atlas.*

A DUEL BETWEEN TWO BROTHERS.—The Natchitoches Chronicle of the 25th ult., records the following terrible tragedy:

A quarrel arose a few nights ago, between two brothers named Longino, (William and Burril,) residing a few miles above Campte, when a proposition being made by one of them that they should fight it out immediately with double-barreled shot guns, it was accepted by the other, and firing simultaneously, both of them were instantly killed.

DEFEAT OF MIRAMON CONFIRMED.—A Washington dispatch states that official information received confirms the defeat of Miramon in Mexico. The battle was fought at Tilde, and not at Lagos, as reported, and lasted only one day instead of five days.—Generals Pacheco and Hernandes were killed, and Alfaro, Ortega and Andral, all of Miramon's party, were taken prisoners.

☞ In Austria a revolutionary committee has been discovered at Verona, and the members arrested. The papers seized are said to throw a startling light on the proceedings of a neighboring power.

THE PRINCE AT NIAGARA FALLS.—*Clifton House, Niagara Falls, Sept.* 14.—The Prince and suite arrived this evening, and visited the Falls. They were escorted by a torch-light procession.

☞ Godey for October has for a frontispiece another beautiful plate—"Our Own Correspondent." Also, "Turkey Shooting," elegant fashion plate, "Young Eagle Hunter, &c.

REPUBLICAN VICTORY.—*New Haven, Sept.* 14.—The Republicans elected their candidates for Assessors and Board of Relief by 100 majority over the combined Democracy.

☞ Senator Clingman of North Carolina, who caved after Douglas's Norfolk speech, has gone to canvass for Breckinridge. The defection is not considered damaging, as the Senator's circle of influence is not wide. His talent for service on the stump is quite limited. It will, however, add somewhat to the general confusion.

A JUMPING MATCH came off at Cincinnati on the 1st inst., for a set of silver ware. The one that measured the greatest number of feet in a hop, step and jump was to carry off the prize, which was won by Wm. Abbott, he having made forty-five feet and three inches. There were eighty-five competitors for the prize.

☞ Orestes A. Brownson spoke Friday evening, at Elizabethport, N. J., in favor of the election of the Republican candidates.

☞ In Spain the duty on printing paper has been reduced nearly one-half.

ANTI-RHEUMATIC CORDIAL,

A PREPARATION FOR THE CURE OF INFLAMMATORY AND CHRONIC RHEUMATISM, RHEUMATIC GOUT, NEURALGIC RHEUMATISM, SCIATICA, AND LUMBAGO.

Hundreds of testimonials to the good resulting from the use of this Cordial could be offered—but the following will suffice:

PORTSMOUTH, N. H., Sept. 6, 1860.

I hereby certify that I have used a variety of preparations for the cure of Rheumatism, but have found none of them whose effect was so *immediate and lasting* as *Zollickoffer's Anti-Rheumatic Cordial*, and would advise all afflicted with that painful disease to give it a fair trial.

LYMAN'S

Improved Patent Metallic Soles.

PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and approved by thousands, who stamped penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. **J. C. CARR.**

Peremptory Sale of Real Estate

ON COURT STREET.

Will be sold at Public Auction,

On Saturday, the 29th day of September inst., at 12 o'clock, noon,

ON THE PREMISES,

The two-story HOUSE and LAND No. 45 Court street, corner of Atkinson street, now occupied by Mr. Wilbur B. Waite, and adjoining the estate of James F. Bartlett, Esq.

Said house is in good repair, having recently been put in excellent condition, both inside and out. It has parlor, sitting room and kitchen, with four chambers; also, water conveniently introduced, gas, &c. The Lot has a front of forty-seven feet on Court street, extending twenty-three feet on Atkinson street.

The central location of this estate renders it a desirable place for those whose business calls them to any part of the city, or the Navy Yard. The house now rents to a desirable tenant, at the rate of $90 per year, and is sold only because the proprietor has removed to a distant part of the State. The premises are offered at private sale until the twenty ninth inst., when, if not disposed of, they are to be sold to the highest bidder, without reserve, and may be examined, and further particulars will be given, on application to

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS,

these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, com, pass and clearness, for which purpose they are regularly used by many professional vocalists.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents.

Late Agent of U. S. Patent Office, Washington. Under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of pushing their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one application is under unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

GROVER & BAKER'S
Celebrated Family Sewing Machines.

FOR FAMILY USE.

From the very flattering manner in which our Machines have been received by the public, resulting in the sale of

FAMILY SEWING.

A FEW CERTIFICATES OF THE GREAT SUCCESS —of the— **Grover & Baker's Sewing Machines.**

[From the wife of the Hon. Jefferson Davis.]

Mrs. Jefferson Davis presents her compliments to Messrs. Grover & Baker, and takes pleasure in acting that she has used one of their Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable.—She says she would not exchange it for any other one. It is certainly one of the grandest inventions ever made for the relief of woman-kind, and I would recommend every family to get one as soon as possible.

Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.

Having tested the merits of various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says,—"We would recommend to families and to those about to organize a household, *Lyons and Lowe's Family Bible, and also one of Grover & Baker's SEWING MACHINES.*

A new article for making a VERY RICH SAUCE. Just received and for sale at

No. 12 Market Street, by

JOHN STAVERS.

THE Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhœa, a pain in the side, or a headache, or toothache, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, and hence occasioning no risk, while the curative effects are positive and certain, they are taken, and at once the spell is broken, and the cause allayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being THE SAFEST IN USE, THE MOST SIMPLE AND CONVENIENT, THE MOST PRACTICAL AND RELIABLE.

Thousands are and have been using them for some five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for five years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness, nat stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual system, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is glued easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

DR. MOTT'S

CHALYBEATE RESTORATIVE

PILLS OF IRON

An aperient and Stomachic preparation of IRON purified by Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and sallow sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical change, and that complication of nervous and dyspeptic aversion to sir and exercise for which the physician has no name.

In SCROFULOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gentle purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent fever, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the mere mechanically balanced preparation of Iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both acute and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid assimilation of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

R. B. LOCKE & CO., General Agents.

NATURAL AVERSION TO A LARGE HOUSE.—We want it—but our taste is naturally against it. Or so thinks an English writer who thus explains himself:

"Do you think that a rich man, sitting in his sumptuous library, all oak and morocco, glittering backs of splendid volumes, lounges and sofas of every degree, which he merely paid for, has half the enjoyment that Robinson Crusoe had when he looked round his cave with its rude shelves and bulkheads, its clumsy arm chair and its rough pottery, all contrived and made by his own hands? Now the poor cottager has a good deal of the Robinson Crusoe enjoyment; something of the pleasure which Sandford and Merton felt when they had built and thatched their house, and then sat within it, gravely proud and happy, while the pelting shower came down but could not reach them. When a man gets the length of considering the architectural character of his house, the imposing effect which the great entrance hall will have upon visitors, the vista of drawing room retiring within drawing room, he loses the relish which accompanies the original idea of a house as something which is to keep us snug and warm from wind and rain and cold. So if you gain something by having a grand house, you lose something which is the more constantly and sensibly felt—you lose the joy of simple tidiness; and your life grows so artificial that many days you never think of your dwelling at all, nor remember what it looks like."

A LADY ROBBED AT SARATOGA.—An ingenious robbery was perpetrated at the Union Hotel, Saratoga, on Thursday last, by which Mrs. Wright, of Massachusetts, was relieved of diamonds and jewelry valued at six thousand dollars. Mrs. Wright was a visitor at the Springs, and a few days previous to the robbery became acquainted, with a lady boarder of the hotel, unfortunately, however, not in accordance with the fashionable etiquette of this famous place. The supposed lady robber was very elegantly dressed, and assumed the character of the fashionable and charming belle to perfection; and as a matter of course she became intimate with Mrs. Wright—so much so that she frequented the room of Mrs. Wright very often. In this way she discovered the whereabouts of the trinkets and jewels, and while Mrs. Wright was absent from her room, listening to the music of the band attached to the hotel, the lady thief entered her apartment and abstracted the valuables from her bureau. About the same time the "elegantly dressed lady" left the hotel, and no clue to her whereabouts could be ascertained.—From circumstances connected with the affair, and things which have since transpired, it appears that the "lady" who was introduced without a reference to her character or antecedents, was accompanied to Saratoga, some days before the robbery, by a gentleman, who took board at another hotel.—Of course the twain were old heads at the business, and planned the robbery accordingly. The parties have "entirely disappeared" from the locality, and it is doubtful if they visit the famous Spa again this season.—*Troy Arena, Sept. 6.*

ATROCIOUS.—"Betsey, my dear," said Mr. Stubbs, giving his wife a pair of damaged unmentionables, "have the goodness to mend these trousers; it will be as good as going to the play to-night." Mrs. Stubbs took her needle, but confessed she couldn't see the point.. "How so?" said she. "Why, my dear, you will see the wonderful *ravels* in the *pant-o'-mine.*" Mrs. Stubbs finished the job, and, handing back the trowsers, told Stubbs, "that's darned good."

Now that such fellows as those who have created the troubles in this county, have fully signalized their defection not only by refusal to vote for the regular democratic nominees, but by actually voting the full blown republican ticket, we hope no true democrat will hereafter recognize them, or allow them again to come on board the democratic ship until they have repented and done works meet for repentance. Let them drown in the dark republican flood.—*Bath Times.*

THUNDER.—There is a movement on foot among the National Democracy, which will speak in thunder tones in November.—*Post.*

There was a movement on foot among them at Charleston and Baltimore, that has played thunder with the whole crew.—*Atlas.*

"Honesty is the best policy," said one Scotchman to another who had narrowly escaped hanging for robbery. "I know it," said the other; "for I have tried baith sides of the question."

Do the admirers of pretty milliners know why they are called so? Not one in a million. The name comes from Milan, the city from which Milan-ary goods were first imported into England.

He who acquires riches without labor, generally lavishes them without care. Frugality is as closely connected with industry as idleness is with vice.

Correct yourselves betimes. You will seldom or never keep from falling if you cannot recover yourself when you first begin to totter.

Every man cherishes in his heart some object—some shrine at which his adoration is paid, unknown to his fellow-mortals.

Wisdom often comes to us too late in life to be of much service to us. There's no use of mustard after meat.

APPLEDORE HOUSE,
ISLES OF SHOALS.
This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing the facilities. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests.
An abundance of sweet cream and milk is supplied from healthy cows kept on the Island. The table is faultless. The facilities for fishing have been increased by the addition of new boats and experienced skippers.
When to all these advantages are added the purity of the air, the delicious coolness of the ocean breeze, its invigorating and appetizing power—the loveliness of the scenery—the glory of its sunsets—the cleanliness of its walks—its freeness from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can attain. The equability of the temperature is a natural advantage over the coast or the mountains, which invalids can fully appreciate.
A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Pier Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accommodation for the comfort of passengers which a Packet requires.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.
For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all who have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—
Oak Grove, S. C., June 24, 1859.
Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—
During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every instance by the result.
These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.
You can publish this if you think proper.
Yours, very respectfully,
M. J. WRIGHT, M. D.
Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.
Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (Lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.
Yours, &c.,
THOMPSON SURGHNOR.
Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.
The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 percent. more in proportion, and retails for $3 a bottle.

GOING TO EUROPE.

The Newburyport Herald, which is usually well informed on such things, says, it is reported that Gov. Banks is shortly to go to Europe to organize a system of emigration to settle the lands belonging to the Illinois Central Railroad. These lands are about equal to the whole State of Connecticut, and the soil is not surpassed in fertility by any in America, while the terms of payment are made easy to the purchasers. No doubt thousands of small farmers could be obtained in England, Ireland, Germany, and the north of Europe, if they could have a cheap and safe passage directly from their old to their new homes, free from emigrant runners and swindlers: and such settlers would greatly add to the receipts of the road and to the general prosperity of the State. Gov. Banks could inaugurate such a system if anybody; and if successful he would do more for his country than he could in the Presidential chair.

The Central railroad is very much dependent upon the condition of agriculture along its line, and the large crops of the present year have been of great benefit to it. The freight statistics for the first eight months of 1860 show the conveyance of 5,842,403 bushels of grain, against 1,570,597 bushels last year. The road has all that it can do to move the crops, though it added 2500 freight cars to its rolling stock in the month of August. There has been a rapid advance in the value of its stock. During the month of July it went from 62 to 75 per cent., and the appointment of Gov. Banks as chief director will do much for it abroad.—In August the land sales of the company amounted to $64,532, against $26,731 last season. The revival of business and the better supply of money in the West will increase the land sales, and if a good system of immigration should be established, the stock might reach its old figure, 25 per cent. above par.

The writer, whoever he was, that tried to belittle Gov. Banks, as the recipient of a mere $7000 salary, and tried to surmise away Lincoln's election at the same time, may see now, perhaps, that an outfit to Europe, expenses paid there, and the very great patronage he will wield, are quite an addition to the *quid pro quo*.

☞ The drummer-boy of the Milwaukee Light Guard was on board the ill-fated steamer Lady Elgin, and was saved by means of his drum. He had presence of mind sufficient to whittle a plug and close the air vent, then lashing the drum to his shoulders, he trusted himself to the waves. The drum supported him, and also four others who seized hold of it: but these, one after another, dropped off. The drum carried the boy nearly ashore, when by some means the head was burst in and it filled with water. The boy abandoned it, and seizing a fragment of the wreck, succeeded in reaching the shore. The drum afterwards came ashore, and was returned to the boy whose life it had saved.

MAINE.—The Augusta Age says:—

Had Peck robbed the Treasury of twice $94,000 and every, Republican leader in the State had been notoriously implicated in the robbery, we are not quite certain that the fact would not have been quite equal to five thousand additional votes to the Republican party. As it is the Peck defalcation helped the party considerably.

This is a mere ebullition of disappointed rage. The whole Peck business is well understood in Maine; all the capital was made out of it that could be made, by the Democratic papers in Maine and elsewhere, before the last election. That it *could* help the Republican party is simply false and absurd. The party was so strong however, as to have 16,000 or 17,000 majority in spite of it.

☞ Patti is singing in opera in New York.

The Black Swan (Elizabeth Greenfield) is now a resident of Philadelphia, and has amassed a handsome competency from her exhibitions.

At Cincinnati is a reorganization of the Campbell Minstrels, with Eph Horn and Johnny Duley at the extremities, Rainor as "Middle-man," and Frank Leslie as business and stage-manager.

A HEAVY VERDICT.—In the Supreme Judicial Court for Merrimack County last week, Miss Addie Tucker obtained a verdict of $1900 against the town of Henniker, for injuries received in being thrown from a carriage by reason of a defect in the highway in that town, somewhat more than a year ago.

☞ A barn and contents, consisting of hay, grain, &c., belonging to John Monehan, in "New Boston," was struck by lightning and entirely consumed, last week, Thursday.

TWO BITES TO A CHERRY.—The division of the Democratic vote of Vermont on two candidates.

☞ The Confusion of the several opposition or anti-republican parties, is getting worse confounded. A union of the two wings of the New York democracy seems now to be impossible. On Friday the Douglas Committee rejected by vote of 7 to 5 the Breckinridge proposals for the fusion, but subsequently received proposals from the Breckinridge organization of National Volunteers, and appointed a sub-committee to accept the arrangement, if thought advisable. This sub-committee not only rejected the latest proposals, but positively refused to take any of the Electors of the Breckinridge ticket. On the other hand the Breckinridge State Committee publish a statement giving their version of the affair, and characterizing popular sovereignty as a phase of free-soilism.

A Douglas meeting in Philadelphia on Saturday evening also adopted a resolution against fusion.

A special dispatch from New York to the Atlas, dated Sunday, gives the following item:—

The rumor quite generally circulated yesterday, that a plan is laid for fusion and re-union of those opposed to Lincoln and Hamlin, is premature. It arose from the efforts to bring about that result of the conference committee, which has been sitting in this city for several days. Some of the shrewdest politicians think that another and last effort may prove successful. But Pierce, Cushing, Butler & Co. cannot do it.

The Boston Atlas refers to this dispatch, and says, editorially:—

It has been currently reported in this city, New York and Washington, that Mr. Douglas has withdrawn from the Presidential contest, that Breckinridge will follow suit, and a new Convention held, a union being effected upon Frank Pierce, We suspect the story is a canard.

It is getting rather "too late to swap horses."

☞ The Republicans of Jersey City had a splendid gathering on Wednesday evening. Not less than 5000 people were present, including 1500 Wide Awakes. Gov. Pennington was among the speakers. In the course of his remarks he said:

He had heard a great deal on the floor of Congress about this man and that man being "national." At first he did not understand it. He knew that he was born in the nation, and he therefore supposed himself "national." (Laughter.) But he soon found it meant "is that man in favor of perpetual servitude?" When they talk of 'national' men they should mean freemen. But now all Democracy was swallowed up in question, "Is he for slavery?" If not he was not a Democrat. He maintained that as a moral and political question it had resolved itself into this proposition, "where slavery is not, there shall it not be. The people should say to slavery, "thus far and no farther."

ADDRESS FORM THE BRECKINRIDGERS. *New York, Sept.* 16.—The Breckinridge State Convention Committee will publish, to-morrow, an address giving a statement of the recent negotiations with the Douglas Committee. They characterize Squatter Sovereignty as a phase of freesoilism, and say that their candidates will be supported with all the energy and means at their command. They charge the Douglasites with bringing about the present distracted state of the party, and in rejecting the only means by which Lincoln could be defeated, they have reduced the question to one of future political organization onty.

Elder Peck did not help the Maine Democrats quite so much as once he helped himself. The Elder will not be trotted out for a year. He gives bad measures to all.—*Traveller.*

☞ In Maine, all the 31 State Senators are Republicans, and all chosen by large majorities. In the new county of Knox, the Democratic party appears to have elected the county officers, while all the other counties go the other way. In the House, 96 Republicans to 18 Democrats.—For Governor, Washburn has about 18,000 votes more than Smart, and about 16,500 majority over all. The Bell and Everett candidate got about 1500.

DOWN ON FUSION.—*Philadelphia, Sept.* 16.—At the Douglas meeting last night, a resolution against fusion was unanimously adopted.

FUSION A FAILURE.—*New York, Sept.* 16.—The Douglas sub-committee have rejected the proposals of the Breckinridge Volunteer Association, and also delared that they would not, under any consideration take any of the Electors now on the Breckinridge Electoral ticket.

☞ The New York Journal of Commerce very reluctantly gives up New York to the Republicans, and looks earnestly towards Pennsylvania for aid to defeat Lincoln.

☞ Apprehensions are felt by the Douglas men that Senator Slidell is trying to Plaquemine Louisiana, as he did in 1844.

☞ The Richmond Whig is of opinion that the insurrection stories from Texas are an electioneering dodge.

☞ The Lewiston Democratic Advocate says there is but little use for a Democratic party in the State of Maine, so far, at least, as the slavery question is concerned.

☞ A son of David Decatur of Bennington, N. H., was taken, on Saturday, with hydrophobia, and died on the Sunday evening following. Some two months since the boy was bitten by a dog, but the wound healed up and no danger was apprehended.

GOING TO THE FAIRS.—We believe it is the duty of every man to do what he can to sustain them, both for social enjoyment, as well as direct utility. The following remarks from the American Agriculturist, are to the point:—

The Fair season has already opened, when the treasures of the field and orchard, the garden and hot-house, the sty and stable, are temptingly displayed under white tents, in rough board stalls. The very name of *Fair* calls up long loaded table of luscious fruits, purple clusters of vine, downy peaches, plums blushing through the powerful bloom, heaps of yellow pears, and crimson apples, great rows of bags, stuffed with premium wheat and rye, pens of sleek porkers and patient sheep, stalls of neighing steeds and smooth ribbed cattle, and last but not least, acres of good natured men, women and children, mostly hailing from the farm, and given up to the enjoyment of the festal day.

We consider them worth far more than they cost as a holiday, especially for farmers, who are over worked, and have too few opportunities for social grtherings and enjoyment.

☞ Hon Caleb Cushing at the Breckinridge State Convention in Boston on Wednesday, advised the fragments of the Democratic party to keep quiet till after the result of the elections in California, Georgia, Pennsylvania and Indiana, when it will be seen that Douglas and Bell are not so strong as their partizans imagine, and then perhaps there can be a union of the Ancient Democracy.

BOY ACCIDENTALLY SHOT.—On Sunday last a son of William Bacon, of Uxbridge, 14 years old, was seriously wounded by the accidental discharge of a gun in the hands of a lad named Exten, his cousin, who playfully pointed the weapon at him. The charge took effect in the lad's breast, lodging against the breast bone. It is tho't he will recover. The accident took place in South Douglas, Mass.

☞ A dashing French Colonel and an equally dashing Lieutenant got into a car to see the Paris and Strasbourg road, the other day, and smoked cigars during the whole journey, to the great annoyance of one passenger, who protested and was insulted for protesting. The passenger, instead of quarrelling with the two smokers, ascertained their names and sent a statement of the affair to Marshal Randon, Minister of War. The Marshal has ordered the Colonel to remain under strict arrest for fifteen days, and the Lieutenant for a week, and says it was clearly the duty of these officers to enforce the regulation concerning smoking, instead of themselves being the first to infringe it. That's the style in the French army.

☞ The publisher of the Knickerbocker Magazine says he would rather sit up all night to enter the names of new prepaid subscribers, than to write dunning letters two hours a day. What a strange perversion of taste!

☞ Gilbert Hunt, the negro who rescued so many persons from death, at the burning of the Richmond Theatre, nearly fifty years ago, is still living, and plies his trade, which is that of a blacksmith, in Richmond, Virginia.

NATIVE WINE BUSINESS.—The Sacramento Union thinks that in a comparatively short time the grape product will challenge in money value that of the gold. In Los Angelos county the quanty of wine produced in 1856 was very small. In 1857 the vintage was 350,000 gallons; in 1858 the amount was between 500,000 and 600,000 gallons. The quantity is undoubtedly largely increased, although the figures of the wine product for 1859 and the probable yield for 1860 have not been gathered.

The Laconia (N. H.) Gazette says Mr. Stephen Swett of Upper Gilmanton, was ninety years old last May; his wife is but little younger. they live in a house by themselves. He carries on a small farm, has picked rocks, planted, hoed, mowed and raked hay this year; goes to evening meetings; and says he can walk twenty miles a day. He voted for George Washington for President; and as an indication that he has retained his mental faculties as well as his physical, he intends to vote for "Old Abe," in November.

The population of New Hampshire is placed at 327,000, an increase of only 8000 in ten years. New Hampshire raises admirable people, but she can't keep them all. "Strong are her sons, but rocky are her shores," as Ulysses said of Ithaca,—but for shores read soil, for the Granite State don't have much of that romantic thing, the wild sea-shore."—*Traveller.*

☞ "Vanity Fair"—which, by the way, is clever enough to be very popular, as we hope it is—has the following piquant epigram

ON A DECOLLETE DRESS.

That effects are the same from a similar cause,
Is one of the famous Socratian laws
Whose fallacy we may discover;
For—quite in the truth of the logical rule—
The style of apparel that keeps Emma cool,
Just kindles a flame in her lover!

TOO MANY HOOPS.—A lady in Portland stood upon a barrel to get a better view of the Wide-Awakes. The head fell in, encasing her in a double set of hoops.—She was fished out by an accommodating gentleman.

NEW YORK, Sept. 15.—Steamship Fulton sailed to-day for Liverpool, taking 85 passengers and $440,000 in specie.

Steamship City of Manchester also sailed for Liverpool, and took out 140 passengers and $112,000 in specie.

Steamer Empire State, of Fall River, ran into an oyster smack at Hell Gate last night, sinking her and drowning the captain and one man. Another man was saved, badly injured.

CHICAGO, Sept. 15.—Five passengers were killed and twenty-five wounded, last night, by a collision of the freight with the passenger train, on the Racine Railroad.—No names ascertained.

ALBANY, N. Y., Sept. 16.—The piano factory of Boardman, Gray & Co. was burnt last night, with 150 pianos. Loss $60,000; insured $59,000.

CORNING, N. Y., Sept. 16.—The dwelling of Rufus Gordon was burnt, last night, and his son perished in the flames.

CONVICTED OF MURDER.—*Portland, Me., Sept.* 15—The jury in the case of John Damery, for the murder of Patrick Cassidy, on the 29th of February last, brought in a verdict of murder in the first degree this afternoon.

☞ A schoolmaster in New London, Conn., has sued a pupil named Gordon for damages for an assault, and recovered a verdict of $200.

☞ There are seven hundred lady stockholders of the Bank of Commerce of New York.

The Superintendent of the Harper's Ferry Armory is on the Douglas electoral ticket. He has resigned his post in the armory. He was given his choice between resignation and removal. In this way Mr. Buchanan shows the honesty of his recent speech in which he said democrats could choose between Douglas and Breckinridge without affecting their standing. It sadly affects their *heads*, however, if they hold office, and choose to go for Douglas.—*Bath Times.*

One of the fellows who read our paper out of the democratic party the other day, and who is reported recently to have said the party will never have peace till Gilman is dead, actually owes us for the suit of clothes, or a portion of them, in which he professed to *experience religion.* — *Bath Times.*

Rockingham Fair
AND CATTLE SHOW,
AT PORTSMOUTH,
Wednesday & Thursday, Sept. 19th & 20th.
The Society for the encouragement of
Agriculture, Horticulture, and the Mechanic Arts
IN THE COUNTY OF ROCKINGHAM,
Will hold their Eighth Exhibition, in Portsmouth,
AT THE CITY FARM,
as above; and the managers hereby invite the co-operation and assistance of all those interested in Farming or Gardening.
The spacious Field selected is an admirable site for the purpose, and no effort will be spared to render the present one of the best Fairs ever held by the Society.
A LARGE TENT
on the Field will contain the display of Fruits Vegetables, Domestic and Fancy Articles, &c.,—as usual at such Exhibitions. The Tent will afford ample and excellent facilities for the display—far better than any available Hall; and even the richest and most delicate articles, may be relied upon as being *safer* than if in a crowded building. The greatest pains will be taken to exhibit articles in the best manner, and particular care taken that none shall be injured in the least.
ADDRESSES
expected from various distinguished gentlemen.
The Full Portsmouth Cornet Band
—AND—
HALL'S BOSTON BAND
Will perform on the occasion, and probably other fine Bands will be present—and there will be
A GRAND PROMENADE CONCERT,
in the
BRILLIANTLY-LIGHTED TENT,
On Wednesday Evening.
THE GOVERNOR'S HORSE GUARDS
with full ranks, and accompanied by a
MOUNTED BAND,
will make an Excursion to Portsmouth on this occasion, and will visit the Fair.
The Mammoth Oxen
belonging to Mr. David Towle, of Hampton, will be on exhibition in the Field.
☞ The usual PROCESSION of Town Teams, &c., will take place on the first day of the Fair.
☞ A large Ring or Track will be constructed within the enclosure, for the exhibition and trial of Horses and other Stock entered for Premiums.
It is designed to have a grand CAVALCADE of Ladies and Gentlemen, and all are invited to join.
Visitors to the Fair will pay FARE ONE WAY only, on the Concord and Portsmouth Railroad, and probably on the other Roads leading into Portsmouth; Return Tickets, good for Two Days.
Life Members are allowed to compete for Premiums, without any entrance fee for articles.
Fancy Articles, Fruit, Vegetables, &c., are subject to no entrance fee.
PREMIUMS.—If any Premiums heretofore awarded remain unpaid, they will be settled by the Treasurer—on the Field at any time during the Fair; and all Premiums for this year, will also be paid at the close of the second day.
TERMS OF ADMISSION.—Single admission (to both Field and Tent,) 25 cts. Children from ten to fifteen years of age, 10 cts.; under ten years free.
Life Member's Badges, $5. Each Life Member and wife, free throughout the Fair. Life Members will be provided with Tickets at the Secretary's Office.
Life Member's Badges ($5) may be obtained at the stores of W. R. PRESTON, and THACHER.
Each horse, to carriage or saddle, 25 cts., two or more horses and carriage, 50 cts., each admission; and each passenger to provide himself with tickets as above.
OFFICERS OF THE SOCIETY.
JAS. H. BUTLER, Nottingham, Pres'd't.
TRUSTEES.—John S. Godfrey, Hampton Falls; Jacob H. Sanborn, East Kingston; Levi B. Tucker, Plaistow; Frank W. Miller, Portsmouth; Edward Giddings, Exeter
M. M. COFFIN, Hanton, Sec'y.

MOSES & DOWNIE
Have made extensive arrangements to show to all the people who may visit Portsmouth during the FAIR,
THEIR LARGE AND SPLENDID STOCK OF
CLOTHING
—AND—
FURNISHING GOODS,
Free of Cost.
They never were so well prepared to accommodate the public as they are at present, with good Clothing at such low prices. All who wish to buy Clothing at the present time, who live within fifty miles of Portsmouth, can save enough to pay their expenses here and back by buying A SUIT OF CLOTHES of them.
The reasons we give for the above statements, are the following:
1st—The dullness of the times.
2d—Our Stock is so large we want to reduce it this Fall.
3d—We want to keep up our reputation for selling good Clothing at low prices.
4th—We have the *largest and cheapest* Stock of Goods in the City, and we want to sell the biggest pile of Goods of any Store in the City.
Please call and see if the above statements are true?

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

SPRINGFIELD, N. H., April 19, 1855.
My daughter has been troubled with the Scrofulous Humor, causing swelling of the neck, for a number of years, and by the use of four bottles of Dr. S. Swett's Pannees, the swelling has been entirely removed, and her health is good.

The above testimony of my wife is true.
ENOCH B. ELLIOTT.
Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Humphreys' Homeopathic Specifics
CURE PROMPTLY and safely all the more common diseases and ailments to which families are subject. In all acute diseases, such as fevers, inflammations, Diarrhœa, Dysentery, Rheumatism, Croup, and such eruptive diseases as Scarlet Fever, Measles, and Erysipelas, the advantage of giving the proper remedies promptly is obvious and in all such cases the specifics act like a charm. The entire disease is often arrested at once, and in all cases the violence of the attack is moderated, the disease shortened, and rendered less dangerous.
Coughs and Colds, which are of such frequent occurrence, and which so often lay the foundation of diseased lungs, Bronchitis and Consumption, may all be at once cured by the Fever and Cough Pills.
In all chronic diseases, such as Dyspepsia, Constipation, Weak Stomach, Liver Complaint, Piles Female Debility and Irregularities, old Headaches, Sore or Weak Eyes, Catarrh, Salt Rheum and other old eruptions, the case has specifics whose proper application will afford a cure in almost every instance. Often the cure of a single chronic difficulty, such as Dyspepsia, Piles or Catarrh, Headache or Female Weakness, has more than paid for the case ten times over.

WATER FOR THE PEOPLE.—Feeling desirous to secure for our posterity rights and privileges given us as a city by our Heavenly Father — I would recommend getting up a petition requesting our city authorities to call the citizens together to devise ways and means for supplying the city with water.

Now is the best opportunity that will ever be offered to furnish this article from the fountain which pours forth without the least variation about a barrel a minute.

The writer of this article will be one of ten who will purchase it, and lay the logs and give it to the city; or if the city will pay $9000, he will pay $1000 to complete this object, rather than have this opportunity pass by without securing this blessing for the city. My only object is to benefit the people. A CITIZEN.

Chairman Com. on Decorations.

☞ A valuable and much-petted canary bird escaped from his cage in our neighborhood, on Saturday last, and after much exertion to catch him, for several hours, he was given up for lost,—when, to the astonishment of all, a cat caught him, and he was rescued and restored to his owner, and the little singer is now doing well.

☞ We understand that orders have been received at the Navy Yard to fit the U. S. ship Macedonian for sea immediately.

NOTICE.—No person will be allowed to have, *in the public highway*, on either day of the Fair, any tent, table, stand, cart, wagon or other vehicle, for the sale or offering for sale of any articles whatever.
BENJ. NORTON, City Marshal.
Portsmouth, Sept. 16, 1860.

SUDDEN DEATH OF CATHOLIC PRIEST. Rev. Henry O'Neil, of Machias, Me., who arrived in Newburyport on Friday last, on a visit to Rev. Henry Lennon, was found dead in bed on Saturday morning. The deceased probably died of affection of the heart, as he was in good health when he retired. He was 68 years of age.—*Herald.*

☞ The funeral of Rev. Mr. O'Neil, who died at Newburyport, was attended at the Catholic Church in this city on Monday, and he was buried in the Catholic Burying Ground, at the Plains.

IMPORTANT NAVAL MOVEMENTS.—A dispatch from Washington announces the fact that all the sailing vessels of the Navy which are found to be worth the trouble will be converted into steamers. A board of officers to examine them has already been appointed, and will commence its duties forthwith.

MONTPETIER, Vt., Sept. 17.—Hon. Chas. G. Eastman, editor of the Vermont Patriot, and a distinguished citizen of this place, died yesterday morning, aged 44 years.

THE RAILROAD DEFALCATION reported lately, was a most extensive system of plundering by employes on the Pennsylvania Central Railroad, which was discovered and broken up last week, by discharging about a dozen of them. It was a compact organization, reaching from Philadelphia to Pittsburg, to cheat the Company by daily intercepting moneys received from passengers. It is quite evident that if this fraud had not been detected, the amount stolen would have been immense. As it is, the total can only be conjectured; but it must be large, though the Company had not missed it. These thieves refunded $20,000 of their plunder.

☞ At Vaugeray, on the Rhone, a young woman aged nineteen took the prize at a plowing match with oxen. She is a good girl and supports her widowed mother on their farm.

☞ Henry Camp, of Woodford, a prosperous farmer committed suicide while in a fit of delirium tremens on Tuesday week.—He made a similar attempt at self-destruction some years ago, but his wife knocked him senseless with a maul, and thereby saved his life.

☞ Chas. Whitcomb, of Bolton, a farmer, committed suicide in Boylston, Mass., on Sunday. His reason was impaired by typhoid fever. He was spending the Sabbath at the residence of John B. Gough, his brother-in-law, and escaped from the house to a shallow body of water not far distant, where his lifeless body was found soon afterwards. Four or five weeks ago, his brother Luke was killed at Patterson, N. J., by incautiously stepping from a locomotive while in motion. Charles was affected by the event, and expressed the fear or purpose of dying in the same way. He was well circumstanced in life, and leaves a wife and five children.

Rockingham Fair.

Citizens' Committee of Arrangements.

Hon. J. R. Redding, Hon. Dan'l Austin, Hon. H. D. Walker, Dr. Frank Fuller, Phineas Nichols, Wm. R. Preston, Jas. F. Shores, Jr., Charles E. Myers, Chas. H. Hayes, Geo. L. Treadwell, John S. Rand, James H. Head, Frank W. Miller, Wm. H. Rollins, Jos. H. Foster, J. C. Carr.

☞ Articles for the Fair will be received at Jefferson Hall, this (Tuesday) day or evening;—and at the Tent on the Fair ground, to-day, or Wednesday morning up to 8 o'clock—by the following Committee:

W. R. Preston, P. Nichols, John S. Rand.

Contributions of Flowering Plants, Cut Flowers, &c., may also be left at the store of W. R. Preston.

Committee to receive Fruits and Vegetables, as above:

Jos. H. Foster, Wm. H. Rollins, Jas. F. Shores, Jr., C. Hiram Hayes.

And all who can conveniently, are requested to send their contributions to the *Tent.*

Any information concerning such articles, may be had of Messrs. Rollins and Foster, or any member of the Committee of Arrangements.

☞ In reply to numerous inquiries as to the particular time of the Horse Guards' Parade at the Fair, we will just say—that the advertisements state that the exact programme of exercises will be announced from time to time, from the stand on the Field. The troop will come (probably in a special train) on Wednesday, and remain in the city till Thursday afternoon.

☞ It is designed to have a grand Cavalcade of ladies and gentlemen, sometime during the Fair; and all who will join, are invited to inform the Chief Marshal or President.

The Town Teams which are to join the Procession, are also requested to be reported at once to either of the above officers.

ADVERTISING.—Besides our regular edition of the Chronicle, we shall on Wednesday, and on Thursday or Friday mornings, issue a large number of extra copies, containing the order of exercises and the report of the Fair—which will afford our merchants an excellent opportunity of bringing their business to the notice of the thousands of strangers who will throng our city.

Why is the Bell-Everett party like a fishmonger? Because their stock in trade consists of tongues and sounds.—*Salem Advocate.*

LYMAN'S

Improved Patent Metallic Soles.

PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. J. C. CARR.

Administrator's Sale of Real Estate

IN FRANKLIN STREET.

By virtue of license from the Judge of Probate for the County of Rockingham, I shall sell at public auction, on

Saturday, the 22d day of September, 1860, *at 12 o'clock, noon,*

on the premises,

The HOUSE AND LOT numbered three on Franklin street, in Portsmouth, belonging to the estate of Charles H. Furnald. Said house is a convenient one for a moderate-sized family, has aqueduct water, and rents at present for $80 per year.

For further particulars apply to WILLIAM H. HACKETT, or to
ALEXANDER JUNKINS, Admr.
Portsmouth, Sept. 6, 1860.
H. F. WENDELL, Auct.

Peremptory Sale of Real Estate

ON COURT STREET.

Will be sold at Public Auction,

On Saturday, the 29th day of September inst., at 12 o'clock, noon,

ON THE PREMISES,

The two-story HOUSE and LAND No. 45 Court street, corner of Atkinson street, now occupied by Mr. Wilbur H. White, and adjoining the estate of James P. Bartlett, Esq.

Said house is in good repair, having recently been put in excellent condition, both inside and out. It has parlor, sitting room and kitchen, with four chambers; also, water conveniently introduced, gas, &c. The Lot has a front of forty-seven feet on Court street, extending twenty-three feet on Atkinson street.

The central location of this estate renders it a desirable place for those whose business calls them to any part of the city, or the Navy Yard. The house now rents to a desirable tenant, at the rate of $80 per year, and is sold only because the proprietor has removed to a distant part of the State. The premises are offered at private sale until the twenty-ninth inst., when, if not disposed of, they are to be sold to the highest bidder, without reserve, and may be examined, and further particulars will be given, on application to

RULES AND REGULATIONS.

The Secretary will be at his Office, near the entrance to the Field, on and after Monday, the 17th, for the purpose of making entries, &c. No entries will be made after 10 o'clock, Wednesday, the 19th.

All competitors for premiums, who are not members of the Society, are required to pay $1 at the time of entry—except for plowing, which is $5.

No animal or article to which has been awarded a premium, will be afterwards entitled to the same or a lower premium; and no gratuity will be awarded in any case where a premium is offered.

No highest premium will be awarded in any case, unless the article is of superior quality; and no premium will be awarded merely for want of competition.

All Animals or Articles entered for the Fair must remain in their respective places of assignment until examined by the Judges and otherwise directed by the Field Marshal.

Grain, Fruit, Vegetables, Dairy Products and Domestic Manufactures, must have been raised or made by the exhibitors, and in the County, if entered to compete for the premium.s

Entries from out of the County or State will be received, if previous notice be given to the Secretary.

Every statement required from applicants must be legibly written.

The evidence necessary in any case to entitle an applicant to a premium, will be left entirely with the Judges; and they are requested not to award premiums in any case where the rules are not strictly observed.

Immediately after the arrival of the procession upon the Field, the Judges are requested to assemble at the flag staff, and the Secretary will furnish them with a book containing the entries for premiums.

Notice will then be given at what time the Judges will begin their examination, and the owner of the animal or article entered for premium or his agent, is expected to be present to give the Judges such information as required.

It shall be the duty of the Judges to make a report in their book of entries, stating to whom the premium has been awarded and his residence, detailing as far as practicable the particular improvement or distinguishing quality of the animal or article to which the premium is given, and return the book to the Secretary's office at or before 10 o'clock on the second day of the Fair.

PENS will be provided at the Field for the exhibition of the Stock, and posts to which working Oxen may be attached; and the owners are requested to bring chains for that purpose. Pens will be numbered, and the same numbers put on tickets delivered to those who enter Stock at any time between the time of entry and 10 o'clock on the first day of the Show. No person allowed to put stock in any pen except that designated on his ticket. Owners of Bulls must be provided with rings and chains.

Two days' notice being given to the Secretary, provision will be made for keeping, the night previous to the Show, animals which may be driven or transported more than five miles. Hay will be provided for the animals through the exhibition.

The Order of Exercises upon the Fair Grounds,—the exhibition of Horses, Oxen, &c., will be announced from time to time by the Marshals.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size; and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, or any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

A HIGH PRICED JACK.—We see it stated that Col. J. P. Thompson of Owensboro, Ky., has sold his celebrated Jack, Emperor, for the handsome of $6,000.—Emperor is seventeen hands high, and is one of the finest specimens of his race.

☞ The gentleman who made the recent munificent donation to Harvard College, endowing more scholarships, is Nathaniel Ingersoll Bowditch.

☞ A drunken painter fell from a church steeple in Troy, N. Y., and was picked up mangled and dead.

INDEPENDENT AMERICAN CATHOLICS. The Richmond Whig says there has recently been organized in that city, a religious society or congregation, styled as above, the object of which is to dissover all connections with the Pope of Rome and the Bishops.

☞ Prince Alfred, the younger brother of the Prince of Wales, is having a merry time in the island of Madeira, with plenty of oranges, and no Orangemen to bother him.

GRAIN IN CALIFORNIA.—The wholesale prices at Petaluma, August 12th, were: Wheat, per cwt., $1.10 a $1.35; rye, 2 1-2 cts. per pound; corn 1 3-4 cts. per pound. Wheat at sixty cents a bushel is cheap enough.

☞ At Milan the adventures of Garibaldi are made the subject of a military ballet, in which the heroic leader dances and wields his sabre amid the almost frantic plaudits of the public.

Those who never admire others, are rarely admired themselves.

ANECDOTE OF STEPHEN GIRARD.—Stephen Girard, who died in Philadelphia some twenty years ago, leaving a fortune of fifteen million dollars, had a favorite clerk,—and he always said that he intended to do well by Ben Lippincott." So when Ben got to be twenty-one, he expected the *Governor* to say something of his future prospects, and perhaps lend a helping hand in starting him in the world. But the old fox carefully avoided the subject. Ben mustered courage: "I suppose I am now free, sir," said he, "and I thought I would say something to you as to my course. What do you think I had better do?" "Yes, yes, I know you are," said the millionaire, "and my advice is that you learn the cooper's trade."

This application of ice nearly froze Ben out, but recovering his equilibrium, he said if Mr. Girard was in earnest, he would go. "I am in earnest;" and Ben forthwith sought the best cooper in Spring Garden, became an apprentice, and in due time could make as good a barrel as the best. He announced to old Stephen that he had graduated and was ready to set up in business. The old man seemed gratified, and ordered three of the best barrels he could turn out. Ben did his prettiest and wheeled them up to the old man's counting-room. Girard pronounced them first-rate, and demanded the price. "One dollar," said Ben, "is as low as I can live by." "Cheap enough—make out your bill."

The bill was made out, and old Steve settled it with a check for $20,000, which he accompanied with this little moral to the story—"There, take that, and invest it in the best possible manner, and if you are unfortunate and lose it, you will have a good trade to fall back upon, which will afford you a good living."

NEW BAKING ESTABLISHMENT.
SHOPS: No. 22 CONGRESS STREET, and No. 31 STATE STREET.

Orders from neighboring towns and the country promptly attended to.

Having taken the Shop and Bake House, No. 31 STATE STREET, formerly occupied by Mr S. N. Plumer, the subscriber offers to his patrons

ON TUESDAY, MARCH 27th,

at that place, and also at the new Shop, corner of Congress and Fleet streets, (next door to Jackson & Co.'s Express Office,) a good assortment of all kinds of **Bread, Cake and Pastry,** including **Ship Bread, Crackers, &c., &c.**

The Bake House on State street will be open every Sunday morning, for supplying customers with Bread, Rolls, &c., as usual.

Baking for Families carefully attended to.

In addition to our Shops, we shall with our Cart, on Tuesday morning, commence supplying customers at their doors. Our agent, Mr. GEO. F WILDES, will attend to all orders delivered him.

Grateful for past favors, we would respectfully solicit a share of the public patronage.

APPLEDORE HOUSE,
ISLES OF SHOALS.
This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing the capacity. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests.
An abundance of sweet cream and milk is supplied from healthy cows kept on the Island. The table is faultless. The facilities for fishing have been increased by the addition of new boats and experienced skippers.
When to all these advantages are added the purity of the air—the delicious coolness of the ocean breeze, its invigorating and appetizing power—the loveliness of the scenery—the glory of its sunsets—the cleanliness of its walks—its freeness from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can attain. The equability of the temperature is a natural advantage over the coast or the mountains, which invalids can fully appreciate.
A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Pier Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accomodation for the comfort of passengers which a Packet requires.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.
For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being grey, and from falling to any age, as well as restore.—Read the following:—
Oak Grove, S. C., June 24, 1859.
Prof. O. J. Wood:—Dear Sir:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.—
During the year 1854, I was so unfortunate as to be thrown from my saddle against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.
These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.
You can publish this letter if you think proper.
Yours, very respectfully,
M. J. WRIGHT, M. D.
Jeffersonian Office, Pittsylvania, Va., Dec. 12, 1859.
Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to try one bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement: I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,
THOMPSON SURGHNOR.
Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming grey, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.
The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

WEDNESDAY, SEPTEMBER 19, 1860.

☞ Since the *emeute* in Constantinople, the Armenians have affected a great change in their condition, by which they have become almost free of the Turkish rule. They are now permitted to elect their own officers, to whom the Armenians look up to as their rulers. This is really a most wonderful concession on the part of the Sultan to the "Christian dogs," who have hitherto hardly possessed the rights of citizens, to say nothing of their being entrusted with power. It can hardly be considered an act of grace, however, but rather of self-defence on the part of the Sultan, as the Armenians will now help to arrest the progress of the Greek Church and of the Russian power.

FILIBUSTER WALKER. — This distinguished adventurer is apparently drawing near to the close of his earthly career, having fallen into the hands of the British and Spaniards, and being condemned to die by the latter. The news comes from Truxillo, Sept. 7th.

The British steamer Icarus, with transport and troops under Alvarez, proceeded to Rio Negro, where Walker's army were encamped. The boats of the Icarus proceeded up the river and captured Walker with 70 men. They were all brought to Truxillo, and delivered up to the Spanish authorities.

Walker's men were very destitute and many were sick. They were permitted to return to the United States, on condition never again to engage in an expedition against Central America. Walker and Col. Kadler were to be shot at Guatemala. The expedition from Omoa arrived after the capture of Walker.

GALE AT NEW ORLEANS.—There was a furious gale on Saturday, Sept. 17, which caused great destruction to property. Nearly every house in the Balize was carried away. Several lives were lost, including that of Capt. Kenney, the pilot of the New York and Havana Steamship Co. Steamer Galveston, ships Galena and Sheffield, brig West India, and schooner Toucey, were all blown ashore at the Passes. Several tow boats are lying high and dry. The Milneburg terminus of the Ponchartrain Railroad is submerged. It is reported that all the bath houses on the lake shore, between New Orleans and Mobile, are swept away. The town of Biloxi, Miss., is in ruins.

At Mobile, the storm was severely felt, all the wharves in the lower part of the city being completely submerged. During the gale a lime warehouse was burned.—Several steamboats were blown ashore. The loss by the fire and storm is estimated at half a million.

A WIFE WHO WOULD NOT TAKE HER HUSBAND'S DEATH UPON REPORT.—A few days ago, Mrs. E. N. White, of Burlington, Iowa, whose husband has been for some time at work in Chicago, received a letter purporting to be from a friend of his, who was pained to inform her that himself and Mr. E. N. W. had been upset on a lake, with fatal result to the latter. The widow was told that "the Lord giveth and the Lord taketh away," and something was added about how the "young ravens" are fed. Mrs. W. determined to go to the bottom of the matter, believing it could be done without going to the bottom of the lake. She found that a certain black-eyed Miss Murphy and not the watery element, had possession of her husband. Consequently the constable instead of the coroner was called.

A DAY OF FASTING IN MILWAUKIE.—The 11th inst. was observed as a day of fasting and prayer in Milwaukie. All places of business were closed. There was a funeral procession, consisting of all the military, firemen, societies, public officers and citizens. The long and winding train moved mournfully through the streets, followed by the bodies of the dead recovered. The observance of the day was universal, for there is scarcely a square in the city that has not a deserted household. In one ward there are two hundred destitute children, weeping for fathers and mothers, who gave them their bread by daily toil.

☞ The Prince of Wales spent Thursday at London and Sarain. The Indians hugged him, and exhibited their war dance; an enthusiastic Irishman slapped him in the face with his shocking bad hat; and he danced with the lady Mayoress, a stout Scotch woman of five feet and 180 pounds, who has been practising the steps two months for this occasion. On Friday, the Prince and his party came on to Niagara Falls.

☞ Robert Crooker, of Boston, has procured a divorce from his wife, Sarah Crooker, who has been with the Shakers at Canterbury for the last twenty years.—It is only by a recent law of Massachusetts that this very proper divorce could be effected.

GARIBALDI AT NAPLES.—A dispatch from Naples, Sept. 6, says:—

Garibaldi arrived at Salerno this morning, and is expected at Naples immediately. It is said that the King will leave here today for Gaeta. The steamer Intrepid returned here yesterday, for Salerno. Edwin James, M. P., the Hon. Mr. Ashley, and other Englishmen, are on board a Sardinian vessel on their way to visit Garibaldi at Salerno. The city is perfectly tranquil, and the people conduct themselves in a dignified manner.

An insurrection had broken out at Sala, where Victor Immanuel was proclaimed King.

It is reported that the Austrian Minister at Naples had telegraphed to Vienna that the King of Naples had resolved to quit his States and that his pictures, furniture and luggage were embarked on the 4th on board a Spanish vessel. Other authorities affirm that the King had adopted the desperate policy of "no surrender," and would not leave until the last extremity.

Eight Sardinian war vessels were in the Bay of Naples with two regiments of the Bersagliera on board.

The French Emperor is reported to have assured M. Farini of his sincere desire to see Italy independent, and said that when Victor Emanuel is master of Sicily and Naples, he will be strong enough to contend alone against Austria, but should Austria prove victorious in a conflict, France would not allow her to abuse her victory.

When Edwin James, member of the British Parliament, passed through Paris, he was received by Jules Favre and others. He stated that he was going to see Garibaldi, and that Lord Parlmerston had authorized him to tell Garibaldi that he (Palmerston) considered that he would compromise all his successes by an immediate attack upon Rome or Venitia.

☞ The Boston Transcript learns that some objections to the ordination of Rev. Dr. Huntington were made by a member of the Committee of the Diocese,—the Rector of one of the oldest Episcopal parishes in Massachusetts. The objections were based upon one of the latest published productions from Dr. Huntington's pen.—It was thought at one time that the public services of the ordination would not proceed. He was presented to the Bishop by Rev. Dr. Stone of Brookline, and not by the Rector of the Church in which he was recently confirmed.

FATAL AND SINGULAR ACCIDENT.—Friday evening of last week, while Miss Susan E. Senter was riding in Manchester, in company with two other persons, their wagon locked wheels with another wagon which was passing, and Miss Senter received by some means a wound on her forehead which fractured her skull and resulted in her death. There was no one thrown from either carriage, and how she received such a gash is a mystery, She is a native of Charleston, Vt., and about 32 years of age.—*Manchester Mirror.*

☞ A couple were married at a Sabbath school picnic at Mine Hill, N. J., on the 6th inst. A circle of all present was formed in the grove—the children being placed on the inner side, the minister in the centre, where the party, (after having made their toilet in a wagon,) also appeared,—and the marriage ceremony was solemnized to the satisfaction and enjoyment of all present.

☞ Mr. E. W. Carpenter, of Milwaukie, last week found a basket in one of the streets of that city, in which were seven thousand one hundred and ten dollars, in American eagles! A family of Germans, just arrived, proved to be the owners. It had been set down and forgotten, while something about their baggage required adjustment in the street.

AN AGED FEMALE FARMER.— The smart women are not all in the West; one of the Census Marshals of Hillsborough County, during his canvass in one of the farming towns, found a widow lady *eighty-three* years of age, who had done most of the work on her farm alone, for several years, taking care of four cows, a flock of sheep, pigs, hens, &c., repairing fences, and doing all the necessary work with her own hands, except ploughing and cutting the hay and grain.

☞ In one building in Lynn there are six shops, where 2800 pairs of boots are heeled daily by machinery. One establishment has sold within the last four months about 50,000 turned heels, to be put on by outside parties.

☞ In Troy, recently, a large rat incautiously put his foot into the mouth of an oyster. No sooner had he done so, however, than the oyster closed upon him, and held him so tightly that attention was attracted by the noise, and the unlucky vermin quickly despatched. The question now is, can not oysters be made valuable as rat traps?

☞ The following despatch, says the Toledo Blade, went through by telegraph recently:

"Charley and Julia met at S——, yesterday—quarrelled and parted forever—met again this morning and parted to meet no more—met again this evening, and were married."

THE wild duck and wild pigeon fly between four and five hundred miles a day.

Merrimack County, at Concord, Sept. 26th, 27th, and 28th.

New Hampshire State, at Manchester, Oct. 3d, 4th, 5th and 6th.

Maine State, at Portland, Sept. 25th, 26th, 27th and 28th.

York County, Maine, at Saco, Oct. 9th, 10th and 11th.

LATER NEWS from England comes via Queenstown, Sept. 7.

The weather had continued comparatively fine throughout England and Ireland.—The harvest prospects were more promising, and exercised a buoyant influence on the funds and on the cotton market.

Smith, Sinclair & Co, linen factors in London, had suspended payment; liabilities estimated at £150,000 sterling. It is feared that this failure will lead to the suspension of other smaller firms in the same trade.

The Queen will visit Germany on the 24th of the present month.

CALIFORNIA advices from San Francisco Sept. 6, are received by the Pony Express.

Washoe silver ore to the value of $35,000 was shipped for New York, in the steamer of the 1st.

Gold is still being found on the surface at Acapulco.

The Douglas and Bell State Conventions will be held on the 6th. Efforts are making to accomplish a fusion.

The counties have nominated candidates for the Legislature. The Douglas candidates are all pledged to oppose the reelection of Mr. Gwin to the U. S. Senate. The Breckinridge candidates are uninstructed.

A rich quartz lead had been discovered in Tuolumne county. Over $60,000 had been taken out in five days.

The Broderick will case is before the Courts. Martin McDonnell, formerly of New York, a witness for the contestants impeached the veracity of A. A. Phillips, one of the attesting witnesses.

NEWS FROM CHINA, Hong Kong July 24, received via California, overland.

The allied expedition remained at Taienwan at the mouth of the Peiho. There were one hundred and fifty sail there. All the troops were encamped on the shore. The natives were friendly and the climate healthy.

Lord Elgin arrived on the 9th of July.

It is understood that the troops would embark on the 10th for Taku forts, which were to be taken before peace overtures were made.

A marine on board the British ship Terror shot the commander, Hudson, who, it is feared, is mortally wounded.

The English merchants at Shanghae urged the prosecution of the war until a satisfactory guaranty is obtained that trade and commerce will no longer be interfered with. The Chinese at Shanghae believed that Hong Chow had fallen into the hands of the Rebels, or was in great danger of doing so.

A French missionary, while returning from the interior, was seized by pirates and sold to the people of a village called Conbody, where he was held to ransom in $200, which was paid by his proselytes. A gunboat and the boats of a British ship went to the village and demanded the restitution of the ransom money, the missionary's private property, and the surrender of the ringleaders. The demands being uncomplied with, the boats commenced firing shot and shells on the 18th of July.

FROM MEXICO.—The brig Hope brings Vera Cruz dates of the 2d, and $70,000 in specie. The British steamer sailed for Havana with $4,000,000 in specie.

The Pocahontas arrived on the 2d.

Fourteen hundred Liberals were marching on the capital. Miramon is in the city with 7000 troops.

SYRIA.—It is again asserted that Christians had been massacred at Baalbec, and in a village near Jean d' Acre.

MASS MEETING OF DEMOCRATS.—*Philadelphia, Sept.* 17.—A mass meeting of both wings of the Democracy was held this evening. Frederick Traley presided, and made a speech mildly favoring popular sovereignty. Mr. Foster, the Democratic candidate for Governor, made a speech in support of non-intervention by Congress in the Territories, which was loudly applauded.

NEW COUNTERFEITS.—*New York, Sept.* 17.—Counterfeit ones, twos, fives and tens on the North Berwick Bank, Me., are in circulation here.

EXTENT OF THE LADY ELGIN DISASTER.—According to the best authority, the number of persons on board the Lady Elgin, when she left her port, was 393, including the crew. Of these, 114 are reported as saved. This would leave 279 lost, of which the bodies of only 67 have been recovered up to this time.

HYMN FOR AGRICULTURAL FAIRS

Praise ye the Lord! Let joyful song
Rise gladly from this band;
Praise him for all the blessings given
By his unsparing hand.
'Tis he that gives the gentle rain,
The sunlight bright and clear;
His mercies are forever new,
His goodness crowns the year.

Another year since thus we met,
On time's swift wings hath fled,
And still upon our happy homes
Rich blessings have been shed.
Spring brought the fresh and verdant grass,
The swelling buds and flowers—
The tender shoot of springing grain,
The soft, refreshing showers.

Then came fair Summer, bright and gay,
With plenty in her train—
Clothing the farmers' fertile fields
In robes of waving grain:
A crown of blossoms o'er the earth
Her fairy fingers shed—
A rich and ever-varied feast
Of luscious fruits she spread.

Now Autumn comes with gorgeous robe
Of brilliant, changeful dye,
Seeming as if it caught its hue
From the bright sunset sky.
With rustling sheaves of golden corn,
His car is thickly bound,
With purple clusters of the vine
His brow is richly crowned.

And thus through all the changing year
The ever-circling train
Bring joy, and peace, and plentiousness,
With each successive reign.
Then praise the Lord! Let joyful songs
Ring on the autumn air:
Praise him for plenty which hath crowned
Our plains and valleys fair.

MR. DOUGLAS AT AUBURN, N. Y.—*Syracuse, N. Y., Sept.* 17.—Mr. Douglas spoke at Auburn and here to-day. He explained the difference between *popular* sovereignty and *squatter* sovereignty. The latter was outside the Constitution and in violation of the Federal authority, while the former was *inside* of the Constitution, and in *obedience* to Federal authority.

Rockingham Fair

AND CATTLE SHOW,

AT PORTSMOUTH,

Wednesday & Thursday, Sept. 19th & 20th.

The Society for the encouragement of

Agriculture, Horticulture, and the Mechanic Arts

IN THE COUNTY OF ROCKINGHAM,

Will hold their Eighth Exhibition, in Portsmouth,

AT THE CITY FARM,

as above; and the managers hereby invite the cooperation and assistance of all those interested in Farming or Gardening.

The spacious Field selected is an admirable site for the purpose, and no effort will be spared to render the present one of the best Fairs ever held by the Society.

A LARGE TENT

on the Field will contain the display of Fruits Vegetables, Domestic and Fancy Articles, &c.,—as usual at such Exhibitions. The Tent will afford ample and excellent facilities for the display—far better than any available Hall; and even the richest and most delicate articles, may be relied upon as being *safer* than if in a crowded building. The greatest pains will be taken to exhibit articles in the best manner, and particular care taken that none shall be injured in the least.

ADDRESSES

expected from various distinguished gentlemen.

The Full Portsmouth Cornet Band

—AND—

HALL'S BOSTON BAND

Will perform on the occasion, and probably other fine Bands will be present—and there will be

A GRAND PROMENADE CONCERT,

in the

BRILLIANTLY-LIGHTED TENT,

On Wednesday Evening.

THE GOVERNOR'S HORSE GUARDS

with full ranks, and accompanied by a

MOUNTED BAND,

will make an Excursion to Portsmouth on this occasion, and will visit the Fair.

The Mammoth Oxen

belonging to Mr. David Towle, of Hampton, will be on exhibition in the Field.

☞ The usual PROCESSION of Town Teams, &c., will take place on the first day of the Fair.

☞ A large Ring or Track will be constructed within the enclosure, for the exhibition and trial of Horses and other Stock entered for Premiums.

It is designed to have a grand CAVALCADE of Ladies and Gentlemen, and all are invited to join.

Visitors to the Fair will pay FARE ONE WAY only, on the Concord and Portsmouth Railroad, and probably on the other Roads leading into Portsmouth; Return Tickets, good for Two Days.

Life Members are allowed to compete for Premiums, without any entrance fee for articles.

Fancy Articles, Fruit, Vegetables, &c., are subject to no entrance fee.

PREMIUMS — If any Premiums heretofore awarded remain unpaid, they will be settled by the Treasurer—on the Field at any time during the Fair; and all Premiums for this year, will also be paid at the close of the second day.

TERMS OF ADMISSION.—Single admission (to both Field and Tent,) 25 cts. Children from ten to fifteen years of age, 10 cts.; under ten years free

Life Member's Badges, $5. Each Life Member and wife, free throughout the Fair. Life Members will be provided with Tickets at the Secretary's Office

Life Member's Badges ($5) may be obtained at the stores of W. R. PRESTON, and THACHER.

Each horse, to carriage or saddle, 25 cts., two or more horses and carriage, 50 cts., each admission; and each passenger to provide himself with tickets as above.

OFFICERS OF THE SOCIETY.

JAS. H. BUTLER, Nottingham, Pres'd't.

TRUSTEES.—John S. Godfrey, Hampton Falls; Jacob H. Sanborn, East Kingston; Levi B. Tucker, Fleistow; Frank W. Miller, Portsmouth; Edward Giddings, Exeter

M. M. COFFIN, Hampton, Sec'y.

Jos. C. HILLARD, Exeter, Treas.

GOOD LIGHT.

The spacious Tent at the Rockingham Fair will be brilliantly lighted in the Evening, by

DR. C. A. GREENE & CO'S

Celebrated Safety Gas Lamps,

Which for beauty of light, economy and utility, are really far superior to any method of lighting ever introduced.

DR. GREENE, or an assistant, will also be on hand throughout the Fair, with a choice assortment of his Fixtures, which we recommend to the attention of all who are looking for a good light. DR. C. A. GREENE & CO.,

From 55 Washington St., Boston.

FREE EXHIBITION!

MOSES & DOWNIE

Have made extensive arrangements to show to all the people who may visit Portsmouth during the FAIR,

THEIR LARGE AND SPLENDID STOCK OF

CLOTHING

—AND—

FURNISHING GOODS,

Free of Cost.

They never were so well prepared to accommodate the public as they are at present, with good Clothing at such low prices. All who wish to buy Clothing at the present time, who live within fifty miles of Portsmouth, can save enough to pay their expenses here and back by buying A SUIT OF CLOTHES of them.

The reasons we give for the above statements, are the following:

1st—The dullness of the times.

2d—Our Stock is so large we want to reduce it this Fall.

3d—We want to keep up our reputation for selling good Clothing at low prices.

4th—We have the *largest and cheapest* Stock of Goods in the City, and we want to sell the biggest pile of Goods of any Store in the City.

Please call and see if the above statements are true!

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

SPRINGFIELD, N. H., April 19, 1855.

My daughter has been troubled with the Scrofulous Humor, causing swelling of the neck, for a number of years, and by the use of four bottles of Dr. S. Swett's Panacea, the swelling has been entirely removed, and her health is good.

JANE B. ELLIOTT.

The above testimony of my wife is true.

ENOCH B. ELLIOTT.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Humphreys' Homeopathic Specifics

CURE PROMPTLY and safely all the more common diseases and ailments to which families are subject. In all acute diseases, such as fevers, inflammations, Diarrhœa, Dysentery, Rheumatism, Coughs, and such eruptive diseases as Scarlet Fever, Measles, and Erysipelas, the advantage of giving the proper remedies promptly is obvious and in all such cases the specifics act like a charm. The entire disease is often arrested at once, and in all cases the violence of the attack is moderated, the disease shortened, and rendered less dangerous

Coughs and Colds, which are of such frequent occurrence, and which so often lay the foundation of diseased lungs, Bronchitis and Consumption, may all be at once cured by the Fever and Cough Pills.

In all chronic diseases, such as Dyspepsia, Constipation, Weak Stomach, Liver Complaint, Piles Female Debility and Irregularities, old Headaches, Sore or Weak Eyes, Catarrh, Salt Rheum and other old eruptions, the case has seldom been whose proper application will afford a cure in almost every instance. Often the cure of a single chronic difficulty, such as Dyspepsia, Piles or Catarrh, Headache or Female Weakness, has more than paid for the case ten times over.

For price, see advertisement in another column.

THE FAIR — WEDNESDAY.

ORDER OF EXERCISES.

THE PROCESSION OF TOWN TEAMS will form at 9 o'clock, on Middle Street, with the right resting on Cass Street;—and will move at 10 o'clock—

Through Middle, State, Pleasant, Water, State to Pleasant; cross Market Square; through Congress and Islington Streets to the Fair Ground.

It is designed for a Cavalcade of citizens to escort the Procession;and gentlemen who will join, are invited to meet at Wiburd's Hill, Middle Road, at 9 o'clock.

ON THE FIELD,

Immediately on the arrival of the Procession, all Members of the Society are requested to meet at the Judges' Stand, where the Committees will be called and vacancies filled.

The Committees on Stock in the Pens and Articles in the Tent will attend to their duties and make their examinations at 1 o'clock. All exhibitors are expected to be with their animals at that time, to give the Committees any information they may request.

The Committee on Working Oxen will make their examination at 2 o'clock, and the Trial of Working Oxen will take place at that time.

The Committee on Horses will have the Track assigned them at 3 o'clock; and all owners of Horses are required to have their animals on the Track at that time.

All Committees on Stock will be furnished with Ribbons, and other Committees with Cards, from the Secretary's Office, with which to designate the animals which have received Premiums—1st blue, 2d red, 3d green, 4th yellow—which will be attached to the animals on Thursday morning at 9 o'clock.

No animals on exhibition will be allowed to leave the Grounds, except by permission of Mr. John S. Godfrey, Field Master.

THE GRAND CAVALCADE of Ladies and Gentlemen (in which all are invited to join) will form on Haymarket Square at half-past 3 o'clock, and ride to the Field at 4 o'clock.

CONCERT in the Tent in the evening, as per advertisement—music at half-past 6.

THE GOVERNOR'S HORSE GUARDS will arrive on Wednesday evening, and will attend the Concert.

Their Parade will take place on Thursday, with Hall's Band, of Boston, mounted on white horses.

The full Order of Exercises for Thursday will be announced on Thursday morning.

H. F. WENDELL,
Chief Marshal.

☞ The U. S. District Court commenced its September term in this city, Tuesday morning—His Honor Judge Harvey presiding. The interminable matter of Ferdinand Clark, bankrupt, came up in the morning, upon a report of the commissioners. As this was adverse to the interests of Isaac Clark, (one of the parties, who claims a share of the assets—amounting in all now to upwards of $60,000,) his counsel, Mr. Tuttle, claimed an appeal from the decree of the Court, and argued the merits of the appeal in the afternoon. Mr. Woodbury is also acting as counsel in the above matter, in behalf of certain creditors. It will be recollected that W. H. Y. Hackett, Esq., is the assignee in this case.

POLICE COURT.

Sept. 17.—Before Justice Rollins.—Leveen & Kichler, for unlawfully incumbering the side-walk in Daniel street, were fined $1 and costs, amounting to $5.63.

Patrick Buckley, for assault on Mrs. Margaret Divine, was fined $2 and costs, amounting to $6,80.

Sept. 18.—Abby Buckley, for assault on Margaret Divine, was fined $2 and costs, amounting to $6.90; and was ordered to give bail to keep the peace till the next term of the Court; but being short of change and friends, was committed to jail.

☞ Mrs. Anna Reed, mother of Rev. F. Reed of this city, was found dead in her bed, on the 12th inst., at Sanbornton Bridge. She was 83 years old, and had been supposed only slightly ill for a few days previous.

☞ Christy's Minstrels are coming!

☞ By steamer Europa, from Queenstown 9th inst., we have two days later news.

Latest dispatches announce insurrectionary movements in Pesaro. The insurgents had attacked and defeated the Papal troops. The *Opinione Nationale* of the 8th says "the first column of volunteers will enter the Marches to-day."

The King of Naples quitted the capital on the 6th, and left in a Spanish vessel for Gaeta.

Garibaldi was at Cara, 26 miles from Naples, on the 6th, and was expected to reach the capital on the 7th. His advanced guard had arrived at Salerno on the 6th.

Naples continued tranquil.

Harvesting in England was making satisfactory progress.

Rockingham Fair.

Citizens' Committee of Arrangements.

Hon. J. R. Redding, Rev. Dan'l Austin, Hon. H. D. Walker, Dr. Frank Fuller, Phineas Nichols, Wm. R. Preston, Jas. F. Shores, Jr., Charles E. Myers, Chas. H. Hayes, Geo. L. Trendwell, John S. Rand, James H. Head, Frank W. Miller, Wm. H. Rollins, Jos. H. Foster, J. C. Carr.

☞ Articles for the Fair will be received at Jefferson Hall, this (Wednesday) morning up to 9 o'clock;—and at the Tent up to 10 o'clock—by the following Committee: W. R. Preston, P. Nichols, John S. Rand.

Contributions of Flowering Plants, Cut Flowers, &c., may also be left at the store of W. R. Preston.

Committee to receive Fruits and Vegetables, as above:

Jos. H. Foster, Wm. H. Rollins, Jas. F. Shores, Jr., C. Hiram Hayes.

And all who can conveniently, are requested to send their contributions to the *Tent*.

Any information concerning such articles, may be had of Messrs. Rollins and Foster, or any member of the Committee of Arrangements.

☞ The Promenade Concert at the Tent on the Fair grounds, this Wednesday evening, will be one of the most attractive entertainments ever given here. The Tent will be finely decorated and well lighted; and the Portsmouth Cornet Band, and Hall's Band of Boston, will furnish the music, which will of course be excellent. The grand Arch near the Tent will also be illuminated with transparencies, &c.; and nothing spared to render the occasion pleasant to eye and ear.

Carriages will be received within the Field, as usual, and thus afford the best facilities for ladies attending the Concert.

☞ Children who are to join the Procession at the Fair are notified to meet on Wednesday morning, at 9 o'clock, at Dr. Goodwin's office, over W. N. Haley's store. Their fancy garments had better be brought in boxes, as there are good dressing rooms.

☞ In reply to numerous inquiries as to the particular time of the Horse Guards' Parade at the Fair, we will just say—that the advertisements state that the exact programme of exercises will be announced from time to time, from the stand on the Field. The troop will come (probably in a special train) on Wednesday, and remain in the city till Thursday afternoon.

NOTICE.—No person will be allowed to have, *in the public highway*, on either day of the Fair, any tent, table, stand, cart, wagon or other vehicle, for the sale or offering for sale of any articles whatever.

BENJ. NORTON, City Marshal.
Portsmouth, Sept. 16, 1860.

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

As the Weekly Chronicle contains most of the matter from the "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

The Weekly Chronicle for this week will contain a full report of the Fair; and single copies will be mailed to order, on names being left at the office, at 5 cts. per copy.

LYMAN'S

Improved Patent Metallic Soles.

PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates throughout into the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the undersigned.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H.

Administrator's Sale of Real Estate

IN FRANKLIN STREET.

By virtue of license from the Judge of Probate for the County of Rockingham, I shall sell at public auction, on

Saturday, the 22d day of September, 1860, *at* 12 *o'clock, noon,*

on the premises,

The HOUSE AND LOT numbered three on Franklin street, in Portsmouth, belonging to the estate of Charles H. Fernald. Said house is a convenient one for a moderate-sized family, has aqueduct water, and rents at present for $80 per year.

For further particulars apply to WILLIAM H. HACKETT, or to
ALEXANDER JUNKINS, Admr.
Portsmouth, Sept. 6, 1860.
H. F. WENDELL, Auct.

Peremptory Sale of Real Estate

ON COURT STREET.

Will be sold at Public Auction,

On Saturday, the 29th day of September inst., at 12 o'clock, noon,

ON THE PREMISES,

The two-story HOUSE and LAND No. 45 Court street, corner of Atkinson street, now occupied by Mr. Wilbur B. Waite, and adjoining the estate of James P. Bartlett, Esq.

Said house is in good repair, having recently been put in excellent condition, both inside and out. It has parlor, sitting room and kitchen, with four chambers; also, water conveniently introduced, gas, &c. The Lot has a front of forty-seven feet on Court street, extending twenty-three feet on Atkinson street.

The central location of this estate renders it a desirable place for those whose business calls them to any part of the city, or the Navy Yard. The house now rents to a desirable tenant, at the rate of $90 per year, and is sold only because the proprietor has removed to a distant part of the State. The premises are offered at private sale until the twenty-ninth inst., when, if not disposed of, they are to be sold to the highest bidder, without reserve, and may be examined, and further particulars will be given, on application to

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

RULES AND REGULATIONS.

The Secretary will be at his Office, near the entrance to the Field, on and after Monday, the 17th, for the purpose of making entries, &c. No entries will be made after 10 o'clock, Wednesday, the 19th.

All competitors for premiums, who are not members of the Society, are required to pay $1 at the time of entry—except for plowing, which is $5.

No animal or article to which has been awarded a premium, will be afterwards entitled to the same or a lower premium; and no gratuity will be awarded in any case where a premium is offered.

No highest premium will be awarded in any case, unless the article is of superior quality; and no premium will be awarded merely for want of competition.

All Animals or Articles entered for the Fair must remain in their respective places of assignment until examined by the Judges and otherwise directed by the Field Marshal.

Grain, Fruit, Vegetables, Dairy Products and Domestic Manufactures, must have been raised or made by the exhibitors, and in the County, if entered to compete for the premiums.

Entries from out of the County or State will be received, if previous notice be given to the Secretary.

Every statement required from applicants must be legibly written.

The evidence necessary in any case to entitle an applicant to a premium, will be left entirely with the Judges; and they are requested not to award premiums in any case where the rules are not strictly observed.

Immediately after the arrival of the procession upon the Field, the Judges are requested to assemble at the flag staff, and the Secretary will furnish them with a book containing the entries for premiums.

Notice will then be given at what time the Judges will begin their examination, and the owner of the animal or article entered for premium or his agent, is expected to be present to give the Judges such information as required.

It shall be the duty of the Judges to make a report in their book of entries, stating to whom the premium has been awarded and his residence, detailing as far as practicable the particular improvement or distinguishing quality of the animal or article to which the premium is given, and return the book to the Secretary's office at or before 10 o'clock on the second day of the Fair.

PENS will be provided at the Field for the exhibition of the Stock, and posts to which working Oxen may be attached; and the owners are requested to bring chains for that purpose. Pens will be numbered, and the same numbers put on tickets delivered to those who enter Stock at any time between the time of entry and 10 o'clock on the first day of the Show. No person allowed to put stock in any pen except that designated on his ticket. Owners of Bulls must be provided with rings and chains.

Two days' notice being given to the Secretary, provision will be made for keeping, the night previous to the Show, animals which may be driven or transported more than five miles. Hay will be provided for the animals through the exhibition.

The Order of Exercises upon the Fair Grounds,—the exhibition of Horses, Oxen, &c., will be announced from time to time by the Marshals.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

GENEALOGY OF THE PRINCE OF WALES. He is the oldest son of Victoria, who is the daughter of the Duke of Kent, who was the son of George the Third, who was the grandson of George the Second, who was the son of Princess Sophia, who was the sister of William and Mary. Mary was the daughter, and William the son-in-law of James the Second, who was the son of Charles the First, who was the son of James the First, who was the son of Mary, who was the granddaughter of Margaret, who was the sister of Henry the Eighth, who was the son of Henry the Seventh, who was the son of the Earl of Richmond, who was the son of Catherine, the widow of Henry the Fifth, who was the son of Henry the Fourth, who was the cousin of Richard the Second, who was the grandson of Edward the Third, who was the son of Edward the Second, who was the son of Henry the Third, who was the son of John, who was the son of Henry the Second, who was the son of Matilda, the daughter of Henry the First, who was the brother of William Rufus, who was the son of William the Conqueror, who was the bastard son of the Duke of Normandy, by a tanner's daughter of Falaise.—*Life Illustrated.*

BLONDIN OUTDONE BY A CARPENTER. John Stickell, a carpenter, reported in the Buffalo Republic, was upon a mill, the main body of which being of brick, awaited the rafters, or upper timbers. A rope had been stretched across the top, from wall to wall, at one end of which stood Mr. Stickell, and a young man in his employ at the other, while beneath both was a cog-pit, sixty two feet deep.

The young man lost his footing and fell, but, although he caught the rope was unable to raise himself. John Stickle—he can do without a title—instantly ran across the chasm on the rope—not stretched and secured like Blondin's—and snatched the poor fellow from impending fate. We are not informed that the door of this splendid act had ever trod a rope before. We suppose it one of those rare and sublime impulses which outstrip and supersede any degree of practical skill. Again we say, with a varied meaning; "Instinct is a great matter," and turn from the stage-king to the "true prince." As the gladiator to Garibaldi, so is Blondin to the carpenter.

A PULPIT ANECDOTE. — Some days since we chanced to be in company with several eminent divines, who were relating numerous amusing anecdotes of the pulpit. Among others, the following struck our fancy as one deserving of record:

"I was," said the reverend gentleman, "attending divine service in Norfolk, several years ago, during a season of some excitement. While the officiating clergyman was in the midst of a most interesting discussion, an old lady among the congregation arose, clapped her hands, and exclaimed, 'Merciful Father, if I had one more feather in my wing of faith, I would fly off to glory.' The worthy gentleman thus interrupted, immediately replied, "Good Lord, stick it in, and *let her go;* she's but a trouble here." That quieted the old lady.—*Western paper.*

☞ A Norwalk citizen in New York, telegraphed home to have a horse and carriage ready for him at the depot, on the arrival of the evening train. The telegraph blundered a little, and the Norwalk citizen found a hearse and a carriage for the mourners, waiting to do any melancholy duty he might desire. He dismissed one of the vehicles.

APPLEDORE HOUSE,
ISLES OF SHOALS.
This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing its capacity. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests. *An abundance of sweet cream and milk is supplied from healthy cows kept on the Island.* The table is bountiful. The facilities for fishing have been increased by the addition of new boats and experienced skippers.
When to all these advantages are added the purity of the air—the delicious coolness of the ocean breeze, its invigorating and appetizing power—the loveliness of the scenery—the glory of its sunsets—the cleanliness of its walks—its freeness from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can attain. The equability of the temperature is a natural advantage over the coast or the mountains, which invalids can fully appreciate.
A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Pier Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accommodation for the comfort of passengers which a Packet requires.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.
For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—
Oak Grove, S. C., June 24, 1859.
Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—
During the year 1854, I was so unfortunate as to be thrown from my saiky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.
These and no other circumstances induced me to recommend to your worthy Hair Restorative, which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.
You can publish this if you think proper.
Yours, very respectfully,
M. J. WRIGHT, M. D.
Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.
Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, a lawyer, has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of my statement. I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties, if you have the proper agents. Yours, &c.,
THOMPSON SURGHNOR.
Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color, about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. B. THALBERG.
The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

THURSDAY, SEPTEMBER 20, 1860.

THE FAIR.

The Annual Parade, Exhibition, and Holiday of the Rockingham Fair, Wednesday, was a very lively and agreeable scene.

The weather was pleasant, and every arrangement that could be made in advance had been attended to on previous days;—yet the morning was a busier one than common in quiet old Portsmouth. Decorations that could not be made over night; provisions that could not be prepared or put in their proper places before; officials that were to be posted *pro tem.*; and orders that could not be previously given,—on the ground and elsewhere,—made up an active total.

The Procession was formed on Middle street, near Wibird's Hill, at 10 o'clock, and at 11 was in motion, passing through Middle, State, Pleasant, Water, State to Pleasant st.; across Market Square; thro' Congress and Islington Streets, to the Fair Ground.

The Procession, as it passed along, struck all as one of the best and most elegant ever seen of its length — comprised of but one town team, viz., that of Portsmouth, consisting of ten yoke of very handsome and superior oxen, caparisoned and yoked to a splendid Agricultural Emblematic Car, of which the following is a description.

The *Grand Car for Portsmouth Town Team*, was christened the "Farmers' Testimonial," and composed of two or three different parts. The Basement, the Pedestal, the Shield, and the Capitals. The Basement rests on four massive wheels gilded and designed to represent Suns. This Basement is twenty-three feet long, and two feet high, and represents a background of Cenare Marble, embelished with 16 Pilasters of White Marble on each of which is a wreath of evergreen. Upon the basement rests the Pedestal which is formed in the style of the ancient chariot. It is twenty-seven feet long, fifteen feet high, and six feet wide. Its sides are covered with crimson velvet, ornamented with boquets of gold flowers; around this is a heavy border of green velvet, gold and evergreen one foot wide. This border is worked out in scrolls, ranging from 8 to 25 feet in length. On the center of the side of the car, is an oval shield, on which is placed agricultural implements. At the four corners are Cornucopiæ of Fruits, Flowers, and Vegetables. The back of the car is richly ornamented with twenty wreaths enclosing appropriate Mottos, and Boquets. In the center is a large shield covered with Fruit and Flowers; at the lower end, is a large iron vase surrounded with statuary, in the center of which, a fountain of water throws up a continual stream. About mid way of the car is a flight of steps; at the end of each, a female figure represents every month in the year. In front of these steps is placed a Pedestal which revolves once in two minutes, and on which are life figures representing Spring, Summer, Winter, and Autumn. On the top of the Pedestal stands the Goddess of Harvest, surrounded with vegetables, fruit, and grain. At the rear of the steps are seated two Dairy Maids, and back of these a group of farmers, surrounded with agricultural implements. The car is driven by a figure who represents Time, who is dressed in costume, and having his appropriate emblems. Twenty-five oxen draw this imposing structure, each caparisoned in saddle cloths, wreaths of flowers, and waving plumes. Twenty-five ribbons, are attached to the oxen and held by the person who personates old fogy Time.

This was accompanied by the Portsmouth Band, in a large carriage, drawn by four horses. There was also a small Cavalcade escort.

H. F. Wendell was Chief Marshal; with J. G. Hadley, C. C. Jackson, J. H. Head, and C. H. Hayes for Assistants—in a neat uniform, with horses finely caparisoned.

Teams from Rye, Newington, No. Hampton and other places, had been reported as coming; and were expected up to the last moment, and the Marshal waited for them a long time; but owing to the inaction of our out-of town neighbors, no representative for any of them arrived. But the universal verdict was, that Portsmouth did her part most handsomely.

The Embellishments of Portsmouth on the occasion, were particularly appropriate, and of no common order—and were designed and carried out under direction of Mr. J. H. Head.

The Decorations in the city along the route of the Procession were numerous, beautiful, and many of them elaborate;—but we have no time to particularize as we would be glad to.

The crowd of visitors in the city, by rail and carriages, was very large, and the attendance at the Fair was very numerous. The spacious grounds were finely adapted for the purpose, and all passed off well.

In front of the Woodbury mansion, at the Fair Grounds, the *Arch of Harvest* was decorated with most imposing grandeur. The span is 38 feet, 31 feet high. Four lofty columns, two feet wide, surmounted by Corinthian Capitals, Scrolls, Wreaths, and Bouquets, and placed at either side of the road, support a richly ornamented Cornice or Span, decorated with Flags, names of the towns of the County, Wreaths, Mottos, Shields, &c. Above this Cornice, rests two immense Cornucopiæ, measuring 15 by 4 feet, between which, is placed a mammoth transparency, covered with appropriate Mottos, Farmers', Coats of Arms, Fruit, Flowers, &c. Upon the top of these a second arch is seen, which bears the name of the Fair. The effect of this design is grand and imposing in the extreme.

The Tent was ornamented with Colossal Statues, Triumphal Arches, immense Vases of Flowers, forty Shields of Evergreen, &c., Flags, Flowers, Transparencys, and Chinese Lanterns; and brilliantly lighted by Dr. Greene's Portable Gas.

On account of many of the entry books being early passed to the Premium Committees, our report could not be made full to this morning—and so we defer the publication of our report in order to make it complete hereafter.

The show of Neat Stock was not so large as at some previous Fairs; but the quality was excellent. The show of Horses was larger and better than usual.

In the Tent, the display of Fruit, Vegetables, Fancy Articles, &c., was large and exceedingly fine; and with the beautiful Decorations, presented one of the most charming scenes. It was thronged throughout the day.

The Promenade Concert in the evening wound up the day in an agreeable manner.

The members of the Horse Guards from Concord, arrived in the morning train; and the Nashua Company came in a special train, beautifully decorated, by way of Salem, in the afternoon.

The troop, strong in numbers, on foot, in undress, accompanied by Halls's Band, marched to the Rockingham House, where they were received by Gov. Goodwin, who had invited them to supper. The occasion was one of much pleasure and interest; but other imperative duties absolutely prevented our attendance; and we must defer further mention of the festivities

The order of Exercises for to-day, to close the Fair, will be found in another column.

THE CHINESE REVOLUTIONISTS.—Three English missionaries, Messrs. Hartwell, Crawford and Holmes, who at great risk paid a visit to Qung San and Suchau, to gain authentic information of the principles, intentions and mode of warfare of the Chinese rebels, have forwarded to the North China Herald a long and interesting account of their journey. They ascertained that the original King of the rebels, Hung-Sien-Teen, is still living and well, and is the present reigning king at Nanking. The rebels observe the Sabbath on the same day with us; when not engaged in actual war, they meet regularly for social worship; they sing in their worship;—they use Mr. Shuck's version of the Doxology; and for baptism they wipe the breast, implying cleansing of the heart. The following is a copy of their Doxology:

"Praise to Shangti, who is the heavenly Holy Father; praise to Jesus, who is the Holy Saviour. Praise to the Holy Spiritual Wind, which is the Holy Ghost. Praise to the three persons, who are one true God."

Here is a brief abstract of their faith:

"Is the true doctrine like the doctrine of the world? It saves the soul of man that he may enjoy everlasting happiness. Those who are wise will diligently perform jit, (i. e., conform to its teachings,) and blessed are they who receive it. If a man search his heart and perceive his own sinfulness, the road to heaven is open to him. The mercy of our Heavenly Father is boundless. He spared not his first born Son, but sent him down to the world to give up his as a ransom, that he might forgive the sins of men. If a man know this doctrine, repent, and depart from evil, his soul shall ascend to heaven."

The rebels also use a form of morning and evening prayer, and a blessing before meat, which are decidedly of a Christian character.

Eli Tayer has opened a land office, No. 7 Wall street New York. This does not look like expecting to represent Massachusetts after next winter.

☞ On Monday week, Senaotr Bright, of Indiana, delivered a very eloquent address to the friends of Breckinridge and Lane in Indiana. His audience numbered many thousands. Among other things he said:—

"I have been among you forty years, and for twenty-five I have been a politician, and I stake what little reputation I have got as a public man, or a private gentleman, on what I now state—that Stephen A. Douglas will not get one electoral vote in the Union. Breckinridge we know will."

CHICAGO, Sept. 18.—The Breckinridge State Convention at St. Pauls, Thursday, nominated a full State Electoral ticket.

Henry Ward Beecher says there are three articles that no house should be without—a cradle, an arm-chair, and a grandmother.

The Columbus Ohio Fact, in its account of the Perry celebration at Cleveland, says that "the procession was very fine, and nearly two miles in length, as was also the prayer of Dr Perry, the Chaplain." What a remarkable fact!

LATEST FROM ITALY.

The latest dispatches from Naples are to the evening of the 6th. They announce that the King left there for Gaeta on that day on board a Spanish vessel. Before leaving he reduced the penalties of prisoners.

Garibaldi dined at Lacava on the 6th, and was expected to enter Naples on the 7th, as Lacava is only 26 miles from the capital.

The London Times editorially says:—"The King has gone to Gaeta only to consider whether he will fly to Madrid or Vienna. Naples is as good as lost, and the town of Rome must come next."

The Queen of Spain had offered the King of Naples a refuge in Spain, which the latter accepted.

The brigade Caldarelli is reported to have passed over to Garibaldi.

The Turin journals denounce the position of the troops of the Gen. Lamoriciere, and call on the Pope to disband his foreign mercenaries.

It is rumored that Count Cavour has sent a note to Rome, announcing that any movement of the Pontifical troops beyond the Roman frontiers would be considered an act of intervention, and Piedmont would in such a case consider herself perfectly justified in occupying the Marches.

FROM CALIFORNIA.—*Sacramento, Sept.* 6.—Evening.—The Union State Convention adjourned to-day, after having nominated a full Electoral ticket.

The Douglas Convention also nominated a full ticket.

A fusion is deemed unadvisable by both parties.

☞ A new road has lately been made in Concord, over Prospect Hill to Long Pond, mainly by the enterprise and end energy of a Mr. Hook. A procession, chowder, and speeches came off on the opening of the road. Mr. Lyman D. Stevens made a happy speech, detailing the trials of Mr. Hook while engaged in this enterprise, and referring to the peculiar religious notions of Mr. Hook, who has been and is a strong believer in the Second Advent doctrine, saying if the doctrine of Mr. Hood had proved true, that instead of celebrating the opening of this new route, Mr. Hook would before this time probably have been speculating in corner lots in the New Jerusalem. Mr. Stevens was frequently applauded during his remarks.

☞ The Boston Herald, in an article on "The Presidential Contest," looks to Pennsylvania State election, Oct. 10, as a decision of the case: if the Republicans elect their candidate, Lincoln is elected,—but if Foster should be chosen, then Lincoln would be defeated. The Herald says:

Mr. Bell *cannot* carry a Northern State, and Mr. Douglas *can* if those who have so much at stake desire it; but if a persistent, dogmatic course is pursued in the future as in the past, Mr. Lincoln will be the next President, and the responsibility, be it more or less, will rest upon those Southern men, in and out of Congress, who have made war upon Mr. Douglas and the doctrine of Non-Intervention, and set up business upon their own account.

☞ A house of Major Rufus Burdon of Sutton, just completed, was visited, Saturday night, by some malicious scoundrels, five windows with their sashes were broken with stones thrown against them, marring the doors and casings, and doing other injuries. They also let his cattle run into the road, broke his grindstone, and did other mischief about his premises. Not many nights before his cattle were let into his garden and corn field, doing much damage to his crops. Mr. Burdon is a man 75 years of age.

A SEA SERPENT.—Samuel Townsend, a justice of the peace of Whitehall, England, reports that on the 28th ult, while sailing in Whitehall harbor, he saw what appeared to be a sea serpent, about twenty-five or thirty feet in length. It presented a beautiful appearance, having large, brilliant scales, of a yellow hue. The creature carried its head about six feet above the surface, and disappeared on being fired at by parties in another boat. The serpent was also seen from the shore.

EXPLOSION.—In drawing off naptha at Downing's Kerosene Oil Factory, in South Boston, early Saturday morning, the gas ignited from a lamp, and caused an explosion. Owen Campbell was dangerously burned; Timothy Murphy, seriously; Edward Campbell, Michael Clark, and Patrick O'Brien, slightly. Damage to the factory $200.

☞ There were on the 11th inst. but five or six guests at the Crawford and Profile Houses. It was the intention of the landlord to close the latter as soon as the last visitor present had crossed its threshold to depart. The receipts of the Profile House are said to have been this season about $28,000.

WEDDED WHILE DYING.—Mr. R. G Danning, of Harrisburg, was mortally injured on the Pennsylvania Railroad, on Thursday, of last week, and died the same night. He was engaged to a Miss Gray, of that city; and all parties concerned being desirous that the marriage ceremony should be performed, the rites took place hardly more than an hour before the newly made bride became a widow.

Men often blush to hear what they are not ashamed to act.

☞ The Spanish Consul at Charleston, S. C., offers $1000 reward for the apprehension of Solano Elvear, who recently absconded from Havana with a large sum of money.

☞ James Mack and Wm. Fenvy, had a quarrel and a fight on Tuesday noon at Roxbury, Mass., and during the encounter Fenvy was killed, his neck being broken either by a blow, or else by falling to the ground. The origin of the affair was of a trifling nature.

☞ The original cost of the Great Eastern was $4,600,000. She stands charged to the present owners at $2,150,000. Of this amount $500,000 is preferred stock.

MOSES & DOWNIE

Have made extensive arrangements to show to all the people who may visit Portsmouth during the FAIR,

THEIR LARGE AND SPLENDID STOCK OF

CLOTHING

—AND—

FURNISHING GOODS,

Free of Cost.

They never were so well prepared to accommodate the public as they are at present, with good Clothing at such low prices. All who wish to buy Clothing at the present time, who live within fifty miles of Portsmouth, can save enough to pay their expenses here and back by buying A SUIT OF CLOTHES of them.

The reasons we give for the above statements, are the following:

1st—The dullness of the times.

2d—Our Stock is so large we want to reduce it this Fall.

3d—We want to keep up our reputation for selling good Clothing at low prices.

4th—We have the *largest and cheapest* Stock of Goods in the City, and we want to sell the biggest pile of Goods of any Store in the City.

Please call and see if the above statements are true?

A REAL CHARITY.

In some States the inhabitants are too poor to establish asylums for orphans, inebriates, deaf mutes, &c., and in some parts even churches and schools, and hence they resort to the Lottery, around which they throw every possible guard.—Yet there are persons who declaim against the system, because "bogus" concerns exist. Upon the same principle, they would break up the auction business, because they often encounter a "Peter Funk." Great good flows from a legal Lottery; and every purchaser of a ticket, whilst he has a good chance to draw a prize, assists in a noble work of charity, or other public benefit. Such are the Lotteries of Messrs. Wood, EDDY & Co., of Wilmington, Delaware, and St. Lous, Missouri, who will send to any address, upon receipt of $2 $5, $10, or $20, by return mail, a part or whole ticket, which may draw the capital prize of $70,000.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

FOR SORE, WEAK, INFLAMED EYES AND EYELIDS!

A true specific, and invaluable remedy has been at last discovered. Dr. Humphreys argues that these affections invariably result from a constitutional disease, of which the local affection is the only outward manifestation. Hence, HUMPHREY'S SPECIFIC HOMEOPATHIC OPHTHALMIA PILLS are only taken internally, and yet cure the worst forms of obstinate sore eyes and eyelids, which have resisted all other treatment. All cases of sore and inflamed eyelids, or failing, weak or defective sight, will be promptly benefitted, and the cure of the worst cases is only a question of time.

Price, 50 cents, with directions.

Sent by mail or express, free of charge, on receipt of the price.

☞ A very quiet retreat is the U. S. Court Room, on a fine afternoon in September. Present, the judge, the crier, four lawyers, and four spectators, two of whom soon leave. The case was of no interest to the public, and did not seem to interest the lawyer who was talking to the judge about it.

NAVAL.—The following officers have been ordered to report on the 17th of October next, for duty on board the U. S. sloop-of-war Cumberland, now being fitted out at this naval station, as flag ship of the home squadron:—Capt. John B. Marston, Lieuts. Alexander Murray, John S. Maury, J. H. Rochelle, Charles H. Green, Charles E. Fleming.

☞ The schooner Charmer, from Labrador, arrived at Newburyport on Monday.—It will be remembered that she took down a party of excursionists, all of whom have returned in improved health and spirits. One of the party has succeeded in preserving about two hundred specimens of birds. Mr. Knowlton, the photographic artist, has some very fine views of the harbors and coast.—Mr. Babson has a large variety of sketches, all of which will be published at an early day.

☞ As the Chroniclers will all be at the Fair to-day,—we shall issue no Daily Chronicle on Friday morning. The Weekly Chronicle will be printed on Friday morning, as usual, and will contain the report of the Fair.

We intend to issue a Chronicle Extra, this (Thursday) Afternoon, giving the list of Premiums awarded, &c.

SUNDAY SERVICES. — Rev. Willard Spaulding of Salem, is to preach at the Universalist Church in this city, next Sunday morning, afternoon and evening.

Rev. T. H. Miller is to preach at Nottingham Square, next Sunday.

NOTICE.—No person will be allowed to have, *in the public highway*, on either day of the Fair, any tent, table, stand, cart, wagon or other vehicle, for the sale or offering for sale of any articles whatever.

WIDE AWAKES.

At a late meeting of the Young Men's Wide Awake Club, the following resolutions were passed.

Resolved, That the thanks of Association be presented to the Hon. Gilman Marston of Exeter, for sundry speeches and public documents.

Resolved, That a copy of these resolutions be inserted in the Portsmouth Chronicle and American Ballot.

S. A. COBURN, Sec.
Portsmouth, Sept. 17th.

MAINE.—The Bangor Whig has returns from 418 towns and plantations, which give for Washburn 67,640, Smart 48,116, Barnes 1571. About 80 small towns and plantations are yet to be heard from, which gave last year, Morrill 1271; Smith 1927.

To compare with this, and to show how perfect and thorough their organization was, we give the estimate made by the Secretary of the Republican State Committee one week before election, based on the returns made to that committee:

Total vote of State estimated at	120,730
Washburn's vote	68,082
Smart and Barnes' vote	52,650
Majority for Washburn	15,432

Their count was verified, and a little more.

☞ Mr. Speaker Pennington, having withdrawn his letter of declination, was renominated by acclamation at a convention held at Newark on Saturday.

☞ The Kansas farmers are likely to get their seed wheat on credit, as asked for. A considerable amount has been sent in on private speculation to be sold on long credit.

☞ The Baltimore Sun states that there was a slight fall of snow in that city on Wednesday morning last.

☞ The New Bedford Copper Company are about to erect a large building in which to carry on the manufacture of copper from the ore. The capital to be invested is $150,000.

FROM MEXICO.—Vera Cruz dates of the 2d have been received.

Twenty thousand Liberals are marching on the City of Mexico, where Miramon with 7500 men are awaiting the attack, which was expected to take place on the 8th.

☞ There was quite a severe frost at Columbus, O., on the 12th inst. Late corn was slightly injured.

THE FAIR — THURSDAY.

ORDER OF EXERCISES.

Open for admittance at 7 o'clock.

Music on the Field at 9 o'clock.

The Governor's Horse Guards, under command of Gen. Stark, will muster about 9 o'clock, and escort Gov. Goodwin and suite from his residence—through Islington, Cabot, Middle, State, Pleasant, Water, State, Pleasant, Market, Deer, Vaughan, Congress, Islington and Creek Streets, to the Fair Grounds, where the troop will go through with a grand Parade Drill.

Addresses are expected from various distinguished gentlemen.

All Committees are requested to make reports of the award of Premiums, and return their Books, to the Secretary's Tent, at 9 o'clock.

The Ploughing Match will take place about 2 o'clock, inside the enclosure.

Exhibition of Horses on the Track during the day.

☞ Life Member's Badges of the Rockingham Fair, admit the owner and his wife through this Fair, and all the Fairs of the Society. They may be had at the Field Ticket Office.

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

The Weekly Chronicle for this week will contain the report of the Fair; and single copies will be mailed to order, on names being left at the office, at 5 cts. per copy.

GREAT SALE OF VALUABLE PROPERTY.

The subscriber having concluded to give up business by the 14th of October, now offers for sale his ENTIRE STOCK of

VALUABLE HORSES, Carriages, Harnesses, Robes, Sleighs, &c., at prices much below their real value. The stock is in fine order, and is one of the best in the county. The Carriages and Harnesses were made under his personal supervision, and can be warranted of the first quality. This sale offers a fine and rare opportunity for gentlemen to supply themselves, as great inducements will be offered to close out the stock, which must be done before October 14th, as the premises are to be used for other purposes.

ATWOOD'S

QUININE TONIC BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

LYMAN'S

Improved Patent Metallic Soles.

PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H.

Administrator's Sale of Real Estate

IN FRANKLIN STREET.

By virtue of license from the Judge of Probate for the County of Rockingham, I shall sell at public auction, on

Saturday, the 22d day of September, 1860, at 12 o'clock, noon,

on the premises,

The HOUSE AND LOT numbered three on Franklin street, in Portsmouth, belonging to the estate of Charles H. Fernald. Said house is a convenient one for a moderate-sized family, has aqueduct water, and rents at present for $90 per year.

For further particulars apply to WILLIAM H. HACKETT, or to

ALEXANDER JUNKINS, Admr.

Peremptory Sale of Real Estate

ON COURT STREET.

Will be sold at Public Auction,

On Saturday, the 29th day of September inst., at 12 o'clock, noon,

ON THE PREMISES,

The two-story HOUSE and LAND No. 45 Court street, corner of Atkinson street, now occupied by Mr. Wilbur B. Waite, and adjoining the estate of James F. Bartlett, Esq.

Said house is in good repair, having recently been put in excellent condition, both inside and out. It has parlor, sitting room and kitchen, with four chambers; also, water conveniently introduced, gas, &c. The Lot has a front of forty-seven feet on Court street, extending twenty-three feet on Atkinson street.

The central location of this estate renders it a desirable place for those whose business calls them to any part of the city, or the Navy Yard. The house now rents to a desirable tenant, at the rate of $30 per year, and is sold only because the proprietor has removed to a distant part of the State. The premises are offered at private sale until the twenty-ninth inst., when, if not disposed of, they are to be sold to the highest bidder, without reserve, and may be examined, and further particulars will be given, on application to

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness,

Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS,

these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

☞ Mr. Shaw, the rich old bachelor at St. Louis, against whom Effie Carstang brought that famous breach-of promise case, is assessed at $570,000 for real estate, and $42,500 personal property. Effie is still living in St. Louis.

The Englishmen who propose to take part in the Italian revolution advertise what they call "an excursion of a select party to Naples." As the country is somewhat unsettled they add that "the excursionists will be furnished with means of self-defence, and with a view of recognizing each other will be attired in a picturesque and uniform costume."

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents.

Late Agent of U. S. Patent Office, Washington, Under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are be ome unnecessary to inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur and Phosphorus**, and which is identical in its composition with the *Hematic Globule*, or *red blood*.—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance, evinces a considerable deficiency of the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulphur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific to all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Low Complaints, Dropsy, Rheumatism, Scrofula, Gravel, St. Vitus's Dance, Fever and Ague, &c.*, its efficacy is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites, &c.*, especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who from whatever cause, are in loss of vitality or energy, and to those whose mental or bodily powers are prostrated through over-work, either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Emaciation*, and in all diseases of the *Kidneys or Bladder*, this preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the **"Blood Food"** to the consideration of the afflicted, knowing that it will be hailed as a pre-eminent over all other preparations, patant or official, in point of usefulness. Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures, will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, $5 for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper. None other is genuine.

Prepared only by CHURCH & DUPONT, No. 409 Broadway, New York.

A FEW CERTIFICATES OF THE GREAT SUCCESS
—of the—
Grover & Baker's Sewing Machines.

[From the wife of the Hon. Jefferson Davis.]

Mrs. Jefferson Davis presents her compliments to Messrs. Grover & Baker, and takes pleasure in saying that she has used one of their box Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable. She says she would not exchange it for any other one. It is certainly one of the grandest inventions ever made for the relief of woman-kind, and I would recommend every family to get one as soon as possible.

Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says,—"We would recommend to families and to those about to organize a household, *to buy and have a Family Bible, and also one of Grover & Baker's SEWING MACHINES.*

DR. MOTT'S
CHALYBEATE RESTORATIVE
PILLS OF IRON

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it, superior as it does to the decomposition of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long accustomed to be disappointed, become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if from the tomb, and have resumed their long lost place in the ranks of the multitude. Some very signal instances of this kind are attested of female sufferers, emaciated victims of nervous excitement, sanguineous exhaustion, hysterical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is the latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often succeeded for the individual case, including the attendant *Costiveness*.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently urgent, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent fever, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicine from its tonic nature, has more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

R. B. LOCKE & CO., General Agents.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirits, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

One dose will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our friends and the public that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

The Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet the demand for a reliable and safe remedy, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhœa, a pain in the side, or a headache, or heartsickness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, and hence occasioning no risk; while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger alayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being THE MOST SIMPLE AND CONVENIENT, THE MOST PRESENT AND RELIABLE.

Thousands are and have been using them for more five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and scarcely our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

APPLEDORE HOUSE,
ISLES OF SHOALS.

This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing its capacity. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests. *An abundance of sweet cream and milk is supplied from healthy cows kept on the Island.* The table is faultless. The facilities for fishing have been increased by the addition of new boats and experienced skippers.

Visitors to all these advantages are added the purity of the air—the delicious coolness of the ocean breeze, its invigorating and appetizing power—the loveliness of the scenery—the glory of its sunsets—the cleanliness of its walks—its freeness from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can attain. The capability of the temperature is a natural advantage over the coast of the mountains, which invalids can fully appreciate.

A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Pier Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accommodation for the comfort of passengers which a Packet requires.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all we too have used it, unite in testifying that it will preserve the hair from being gray, stop from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this country. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every case advanced.

Those and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have had

SATURDAY, SEPTEMBER 22, 1860.

THE FAIR—SECOND DAY.

To the great disappointment of thousands, the heavy rain of Thursday sadly disarranged the plans for the day. The Horse Guards, however, nothing daunted by the weather, mustered with full ranks, in superb array, commanded by Gen. Stark, and with Hall's capital Band, mounted,—in all about one hundred men—escorted Governor Goodwin and suite, in a close carriage drawn by four horses, through the route laid out, to the Fair Grounds—the troop riding for several hours in the drenching showers. Their display was splendid, and such as is rarely to be witnessed anywhere; and no public event of the sort has ever created more intense and general interest in this vicinity, than this visit of the Guards to Portsmouth—and well might it. And no event here has ever excited so great and general regret, as the unfortunate reception the weather gave them—when all the people were so eager to welcome them cordially and entertain courteously. The troop, with their Band, left the city in the afternoon.

Nothwithstanding the rain, the Plowing Match came off at the Field, at 2 o'clock, as announced; and there was a considerable attendance of spectators, and of visitors to the grounds and tent throughout the day. But the last day of the show was effectually killed by the copious showers; and there being no prospect of good weather for the morrow, the Fair was closed up with the declaration of premiums, about 4 o'clock.

We give as full report of the entries, and award of premiums, as it was possible to procure, after the interruption of the storm—for a few of the premium books have not yet been returned to the Secretary, and doubtless some entries of fancy articles, &c., were overlooked, or taken away before being entered on the record. An instance of this kind, we noticed out of doors,—a beautiful matched span of superior grey horses, of Augustus W. Peirce of Greenland, being unnoticed in the Committees' report, as they were not on the track during the hours appointed for the examination of horses.

But for the rain, the attendance at the Fair, the second day, would undoubtedly have been larger than ever before—and it was thought by the railroad men and others, that the crowd of visitors to the city would have been immense—probably greater than on any previous occasion. But "the rains descended, and the floods came, and"—swept away the Fair; and it seems a reasonable conclusion that it is very precarious business, to make such exertions as are necessary in order to get up a successful out-of-door exhibition of this kind, which shall be so entirely at the mercy of the elements, in this treacherous New England climate.

Pecuniarily, at least, the report looks well, as far it reached—the receipts footing up about $1100, besides the $500 raised in Portsmouth by subscription, &c., making a total of $1600; which we have not the slightest doubt would have reached to more than $3000, had the weather continued favorable. But the expenses throughout were very heavy, and it remains to be seen whether the public or the Society must pay the bills.

We have other remarks we wish to offer; but we have already delayed the publication of our Weekly, and must defer further comment.

THE WORLD RENOWNED

Geo. Christy's

GREAT MINSTREL TROUPE,

FROM NIBLO'S, N. Y.,

For One Night Only,

—ON—

SATURDAY EVENING, SEPT. 22,

AT THE TEMPLE.

☞ The Original GEO. CHRISTY, in his Inimitable Entertainments, comprising

THE PRINCIPAL GEMS

—OF—

ETHIOPIAN MINSTRELSY,

as presented to the elite of New York for

THE PAST FIFTEEN YEARS.

☞ The best seats will be reserved for Ladies and Ladies with Gentlemen.

DOORS OPEN AT 7; COMMENCE AT 8.

TICKETS 25 CENTS.

G. D. HALE, AGENT.

Local.

☞ Peters and Law, seamen, sent home from Genoa by the Macedonian, were on Friday brought by U. S. Deputy Marshal Simpson before Commissioner Webster, who heard the arguments of the counsel upon the evidence before submitted, and decided that the prisoners, who have been tried for creating a revolt on board bark Sea Breeze, be held to appear at the U. S. Circuit Court, at Exeter, on the 8th of October.—Marshal of Concord, District Attorney, for United States; Hackett for the prisoners.

☞ The adjourned meeting of the Portsmouth Total Abstinence Society, will be held at the Chronicle Counting Room on Monday evening Sept. 24th, at half past 7 o'clock.

☞ A correspondent of the Boston Post, writing from this vicinity, and giving information about New Hampshire, falls into the singular error of speaking of "His Excellency Governor Goodwin, commander of the 'Horse Guards'." The letter is sprightly, pleasant, and well written—but not very reliable in its statements on this point and some others.

☞ Services in memory of Capt. Jeremiah P. Trefethen will take place at the Meeting House in Navy Yard Village, Kittery, on Sunday afternoon, at half-past 2 o'clock, when a funeral sermon will be delivered by Rev. Mr. Payne.

Friends and relatives are invited to attend.

☞ Our readers will not be likely to forget the concert at the Temple this evening by the celebrated "Geo. Christy's Minstrels." This company needs no guaranty from us, having been long and favorably known throughout the whole country.—Coming recently from Niblo's, New York, they are having a successful tour through New England. All the latest novelties in Negro minstrelsy, eccentricities, dancing, &c., will be produced; and the audience will not only be amused, but can rest assured of hearing some fine music.

THE OLD WHIGS.

Messrs. Editors:—From the well known candor and liberality of your paper, I am induced to take this opportunity of expressing my surprise and regret, that on my recent visit to Portsmouth I should find no evidence of the Whig party;—to see floating on the breeze, no banner bearing the names of those honored old statesmen who now stand in the van of the same party which for years has preserved the Union from fanaticism on the one side and radicalism on the other.

Old Whigs! Let the shades of the past arouse you to consider the dangerous issues to which your apathy is tending. Hang out your banners; your party is not dead. All over the country it is waking from its long torpor, in time, it is to be hoped, to quell this spirit of sectionalism which, if triumphant, will cause our loved Union to totter to its foundation. C.

SAFETY FLUID LAMPS.—The Great Tent on the Fair Ground, Wednesday night, was brilliantly illuminated by a new style of burner, viz. Dr. Greene's patent non-explosive self generating Gas Lamp, which consumes the common burning fluid in such a way that accidents from it are rendered absolutely impossible. In view of the fact that so many lives have been sacrificed by explosive lamps, an invention of this kind is worthy of special and wide notice. These lamps are sold by C. A. Greene & Co., Boston.

RAILROAD SUIT IN BOSTON.—In the matter of Joseph M. Folsom v. Portsmouth, Saco & Portland Railroad, the jury find for the plaintiff, and assess damages at $2263. The case will probably go before the full bench of the Supreme Court of Massachusetts.

SUNDAY SERVICES. — Rev. Willard Spaulding of Salem, is to preach at the Universalist Church in this city, next Sunday morning, afternoon and evening.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

THE SUPREME COURT at Dover has just adjourned after a two weeks' session.

David Felker of Farmington, for selling liquor, verdict guilty, fine $50 and costs.

Patrick R. Hughes of Dover, for selling qlior, plead nol. con., fine $50 and costs.

☞ The Atlantic Monthly for October is just issued by Ticknor & Fields. The story of the Modern Cinderella is an improvement on the original. The present number is equal to any of its predecessors.

AGRICULTURAL FAIRS.

Merrimack County, at Concord, Sept. 26th, 27th, and 28th.

New Hampshire State, at Manchester, Oct. 3d, 4th, 5th and 6th.

Maine State, at Portland, Sept. 25th, 26th, 27th and 28th.

York County, Maine, at Saco, Oct. 9th, 10th and 11th.

☞ Steamship Europa brings dates from Liverpool at noon on the 8th, and Queenstown on the 9th.

The Halifax agent is informed, on what he thinks reliable authority, that the British Government received a dispatch after the Europa left Liverpool, to the effect that Garibaldi entered Naples triumphantly and without opposition, on the 7th.

BOLOGNA, Sept. 8.—An insurrectionary movement has taken place in the province of Pesaro, and four hundred of the insurgents had attacked and defeated the Papal troops.

Telegraphic communication with Naples is interrupted.

AUSTRIA AND HUNGARY.—A Vienna dispatch of Sept. 8 says it is believed that the king of Naples will not proceed to Spain, but will go to Austria. Preparations are being made at the Imperial Castle in Holzendorf for receiving the Imperial Majesties.

The Emperor has received Counts Lezchen and Appoga, who explained to his Majesty the historical rights of Hungary.—The Emperor pronounced himself in favor of the Hungarian programme, which, it is said, will be adopted, with an amendment annexed by Count Hartig, and concerted between the latter and the Hungarian delegates.

Is is expected that during the first sitting of the Reichuest an autograph letter of the Emperor will be produced re-establishing the principle of the Autonamy of the provinces, and announcing the reforms to be immediately promulgated.

RAILROAD DEFALCATIONS.—They have a shrewd set of conductors on the Pennsylvania Central Railroad. An investigating committee, appointed by the company, has recently hauled them up to the ringbolt, and twenty-one, all except Mr. Kilbe, have been implicated in the crime of getting rich faster than their employers. Some of them have retained their places by disgorging their plunder, while those who have consumed it in gambling and fast living have been discharged. One man paid over $15,000, and several admitted an indebtedness of from two to eight thousand. One of the delinquents put himself on his dignity, and when asked how with a salary of $60 a month he could accumulate a fortune of $35,000, answered that he would disclose the secret when his interrogator would explain how he himself had come by his property of $300,000. The question was not pressed.

☞ Miss Harriet Lane will probably open the grand ball in New York with the Prince of Wales.

Portsmouth Circulating Library.

J. F. SHORES, JR., No. 1 CONGRESS BLOCK, Has lately added to his Library the following Books, viz:

Household of Bouverie, or the Elixir of Gold.

FAIR NOTICE.

All BILLS contracted by the President, Secretary, Treasurer or Trustees of the Society, are required to be sent to the Chronicle Office at once, for examination and auditing.

All Bills contracted by Mr. J. H. HEAD, or other members of the Committees of Arrangements or Decorations, are requested to be left at the store of J. C. CARR, Treasurer of the Committee, for similar purpose. Sept. 19.

EXCURSION TO CONCORD

—AND THE—

MERRIMACK COUNTY FAIR,

THURSDAY, SEPT. 27.

An extra train will leave the C. & P. Depot in Portsmouth, as above, at 7 o'clock A. M., stopping at way stations as follows:

Greenland 7,10. Stratham 7,20. Newmarket Junction 7,30. Epping 7,45. Raymond 8. Candia 8,15. Returning, leave Concord 3,30.

☞ Fare for the entire trip: from Portsmouth and Greenland $1, children under 14 50 cts. Stratham 90 cts., children 50. Newmarket Junction 80, children 50. Epping 75, children 50. Raymond 65, children 40. Candia 50, children 40.

This will afford a rare opportunity to visit the Fair at Concord on Thursday and witness the parade of the Governor's Horse Guards, as they perform escort duty on that day. The Fair is held on ground near the Free Bridge.

Tickets in Portsmouth at S. F. Cobb's and H. F. Fuller's. Tickets from way stations furnished in the cars.

Watch and Clock Repairing.

Having secured the services of a superior Watchmaker, from Boston, I am prepared to do all Watch or Clock repairing which may be entrusted to my care, with neatness and dispatch.

All work warranted.

A. L. BENNETT, No. 7 Congress street.

Portsmouth, Sept. 19, 1860.

FREE EXHIBITION!

MOSES & DOWNIE

Have made extensive arrangements to show to all the people who may visit Portsmouth during the FAIR,

THEIR LARGE AND SPLENDID STOCK OF

CLOTHING

—AND—

FURNISHING GOODS,

Free of Cost.

They never were so well prepared to accommodate the public as they are at present, with good Clothing at such low prices. All who wish to buy Clothing at the present time, who live within fifty miles of Portsmouth, can save enough to pay their expenses here and back by buying A SUIT OF CLOTHES of them.

The reasons we give for the above statements, are the following:

1st—The dullness of the times.

2d—Our Stock is so large we want to reduce it this Fall.

3d—We want to keep up our reputation for selling good Clothing at low prices.

4th—We have the *largest and cheapest* Stock of Goods in the City, and we want to sell the biggest pile of Goods of any Store in the City.

Please call and see if the above statements are true!

MOSES & DOWNIE.

Sign of the Big No. 37—33 & 37 Market st.

☞ News from San Francisco to Sept. 8, mostly political. The large representation at the Douglas State Convention indicates, it is said, the probability that the State will go for Douglas.

The Bell and Everett Convention was harmonious. The party as yet manifests but little strength, and may go for Douglas, if advices from the East suggest that policy.

The Republicans are actively canvassing and gaining many anti-Lecompton Democrats of last year, while the Douglas men are gaining from the Breckinridge Democrats.

LEAVENWORTH, Sept. 18.—Gordon, the alleged murderer, was discharged for want of jurisdiction and was taken to jail to protect him from the mob, who threatened lynching. In the afternoon the friends of Gordon attempted to remove him, but a crowd surrounded them, and Gordan and several others were badly injured in the melee; but in a short time the crowd were prevailed on to disperse by the Mayor.—Another warrant has been issued, and Sheriff Middaugh of Arrapahoe county, where the offence was committed, will take Gordon to Denver as soon as his injuries will permit. The decision throws the whole of the Pike's Peak region out of the jurisdiction of all law. There is great excitement, but law and order prevailed.

FILLIBUSTER WALKER, poor fellow, has lost his life, which he has so madly ventured again and again in an unwise and unworthy enterprise. The latest advices from Havana give us these three lines about him and his men:

Walker and Kadler had been shot by the Honduras government. Walker's men were allowed to depart.

☞ The Portland Advertiser says it is generally understood that Douglas is laboring against fusion in New York. He fully believes in the impolicy of defeating Lincoln by the people, as that would only increase the chance of the election of Lane by the Senate. Therefore his influence is thrown against fusion in New York, which would slightly decrease Lincoln's chance of carrying that State. The best informed ed politicians in the country say that New York will go for Lincoln by 50,000 majority at least.

WASHINGTON, Sept. 20.—Capt. Meigs has been relieved from duty on the Washington aqueduct and at Fort Madison, and ordered to take charge of the construction of Fort Jefferson, at Gardner Key, Florida. Captain Benham will hereafter have full charge of the Washington aqueduct.

Mr. Sibley's bid for the Pacific Telegraph contract is the only one now before the Secretary of the Treasury, the others having been withdrawn. Some preliminary legal questions remain to be decided, but the contract will probably be awarded to him.

FIRE AT DOVER.—On Wednesday noon a fire broke out in the old Tannery building of Weed and Stevens on Dover Landing which immediately communicated with the store house of G. D. Vittum & Co., adjoining, and both were destroyed. In the store-house there were about 700 barrels of flour and a large quantity of other articles, nearly all of which were lost. Several other buildings in the vicinity caught fire, but by the efforts of the Fire Department they were saved. The loss of Vittum & Co. must amount to several thousand dollars.—*Enquirer.*

HARTFORD, Sept. 19.—In the Federal Circuit Court today, the case of the Bank of Norwalk vs. Adams' Express, a verdict was found for the defendants. The bank claimed $2900 sent through the Express on a discount forged note. The Court decided that an Express company was not an insurer or guarantier of the genuineness of paper.

SYRACUSE, N. Y., Sept. 19.—John A. Green, Chairman of the Breckinridge State Committee, has received letters and dispatches from a majority of the members of the Committee, denouncing any fusion with the alleged Union movement, inaugurated Monday night at the Cooper Institute meeting, deeming it to have been made under the auspices of the supporters of Douglas.

☞ Stephen Leighton of Monroe, N. H., escaped from St. Johnsbury jail on the 6th inst., the door of his cell not having been securely locked. A fellow found an aged gentlemen on the road, whom he supposed to be the escaped convict, but on carrying him to the jail found "somebody was sold."

PHILADELPHIA, Sept. 19.—A proposition to fuse on the electoral ticket has been rejected by the Breckinridge Committee.

The Bell and Douglas Committees meet at Harrisburg on the 27th.

☞ The *last* hand-engine company in Boston, was disbanded a few days ago.—The steam engines do *all* the work now, easier and better than men ever did or could do it. They also cost less.

No one can doubt for a moment that the President and his Cabinet are desirous of securing the election of Abraham Lincoln, and the whole Breckinridge movement is designed to consumate this base purpose.—*Bath Times.*

☞ Abraham Lincoln's celebrated address at the Cooper Institute, which he delivered there last February, is now published in an elegant pamphlet, with copious notes, and may be had of Erasmus Sterling, Secretary, Young Men's Republican Union, New York. It is a campaign document—but it is also much more; for by its notes and references, any man may hunt up the true history of the U. S. Government in the Territories.

GREAT SALE OF VALUABLE PROPERTY.

The subscriber having concluded to give up business by the 14th of October, now offers for sale his ENTIRE STOCK of

VALUABLE HORSES,

Carriages, Harnesses, Robes, Sleighs, &c., at prices much below their real value. The stock is in fine order, and is one of the best in the county. The Carriages and Harnesses were made under his personal supervision, and can be warranted of the first quality. This sale offers a fine and rare opportunity for gentlemen to supply themselves, as great inducements will be offered to close out the stock, which must be done before October 14th, as the premises are to be used for other purposes. RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS,

these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

Reportorial Notes of the Fair.

THE HORSE GUARDS.—Governor Goodwin is entitled to great credit for his efforts to make the visit of the Guards to this city pleasant and agreeable, and had the weather been favorable an immense crowd of people would have been present in town to see them. A bountiful collation was prepared by order of the Governor at the Rockingham House on Wednesday evening after the arrival of the second company which came by the evening train, which was partaken of with a zest which hungry soldiers only know how to exhibit, and again after the parade on Thursday at his own house, as alluded to in another article. The company also deserve great credit for their courage in braving the elements on Thursday. Every man was promptly at his post, ready to obey the commands of their officers, and shew by their soldierly bearing in the driving rain what may be expected of them should occasion arise for their active service.

It was pleasing to observe how admirably the citizens generally, sustained their excellent reputation for hospitality, on this occasion. Houses were thrown open, and invitations poured in upon the gallant soldiers from every direction.—Gen. Stark and Lady were the honored guests of Wm. H. Hackett Esq., whose residence was the rendered the Regimental Head Quarters of the corps. Other prominent citizens extended like courtesies, and our visitors left the city on Thursday evening, expressing great satisfaction at the courtesy and attention which had been lavished upon them. Numerous plans for the entertainment of the corps, were defeated by the storm of Thursday, otherwise the day would have been a memorable one, alike for citizens and soldiers.

DECORATIONS. — Quite a number of private dwellings and stores in this city were decorated to a greater or less extent, and at the head of Market st and from the Custom House to Exchange Buildings in front of J. H. Head's store, festoons of evergreen, ornamented with flags and mottos were stretched across the streets. We noticed tasty floral and horticultural displays by Mrs. Halliburton Mr. J. P. Hart, and by several others whose names we cannot now recall, but the most tasty, beautiful and elaborate private display was at the house of John Rider, Esq., Pleasant street, which excited the admiration of every passer-by.

PHOTOGRAPHS.—The only Photographs on exhibition were entered by Mr. J. E. Small, who has recently opened rooms in this city. They comprised portraits of several well-known citizens of Portsmouth, views of the North Church, Episcopal Chapel, &c. The portraits, particularly those in colors and in India Ink, were in truth "speaking likenesses," and were, undoubtedly, some of the finest specimens of the art ever exhibited in this city. Mr. Small also exhibited many fine Ambrotypes and Daguerreotypes.

FLOWERS.—A large collection of very beautiful and tastily arranged boquets was exhibited by M. H. Wentworth, Esq., of this city, and the crowd constantly around the table on which they were placed proved how much flowers "gladden human hearts" even in this utilitarian age.

A "Hydranges," exhibited by Mr. James Thompson of this city, was literally covered with flowers, there being 150 clusters of them from one root. Some very large collections of brilliant dahlias were exhibited by Mr. Andrew Wiggin, of the Stratham nurseries; also a fine assortment from the nurseries of John Rogers, Kittery, Me.—A large shield, completely covered with flowers symmetrically arranged by Mrs. T. J. Trafton of this city, elicited many encomiums from the spectators.

FRUIT.—The display of apples and pears was very extensive, though the "do not handle" prevented outsiders from experimenting whether all that glittered was really gold or not. However, we doubt not they were all extremely luscious, while the extent of the display forbids particular mention of any. The exhibition of plums, peaches and quinces was quite small, or we were unfortunate in our attempts to find them. Heman Eldridge, Esq., of this city, contributed some very fine bunches of grapes—of the White Chasselas and the Black Hamburg varieties. Mr. H. S. Marden, exhibited some Isabella grapes, raised in the open air.

JAPAN LILY.—A beautiful Japan Lily, in bloom, was exhibited by Miss Nellie Preston, of this city. The color of the petals of the flower was particularly rich, contrasting, as is did, finely with the green of the plant itself.

PICTURES.—Mrs. Samuel Lamprey exhibited some fine views in water colors; four water scenes by C. P. Odiorne merited notice.

A "boquet," consisting of twelve kinds of fruit, vegetables, and berries, and presenting a very unique appearance, was exhibited by H. M. Carter.

INCIDENTS.—While the officers of the society on Wednesday forenoon were attending to the arrangement of committees, &c., the Judges' stand suddenly fell, precipitating the ladies and gentlemen upon it, to the ground. Fortunately no one was injured, though many seemed to be terribly frightened. During the day a thirsty individual, a young man from Hampton, in the tent, drank a small quantity of burning fluid—certainly in this case not a matter to make light of. In the absence of a physician a dose of mustard and water was promptly administered, which quickly relieved his stomach of the unaccustomed beverage, and he probably will experience no bad effects from the "fire water." Mr. N. P. Furber, of Newington, had his wagon totally wrecked, just outside the gate, by the band wagon, which rode down all obstacles in its passage through the crowd.

VEGETABLES.—The display of vegetables was also quite extensive, the desire seeming to be to excel in point of size, particularly.

☞ Stephen W. Dearborn, Esq., United States Marshal for the District of New Hampshire, has received a letter from the Superintendent of the Census, at Washington, congratulating him upon his making so prompt a return, and adding that he has the credit of sending the first complete census from any district in the United States.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents.

Late Agent of U S. Patent Office, Washington, Under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent issued, by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all kinds of subjects, of which seven have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

FLOWER GLASSES.

A splendid assortment for sale by JOHN SISE, No. 5 Market Sq.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemistic preparation, containing **Iron, Sulphur** and **Phosphorus**, and which is identical in its composition with the *Hematic Globule*, or *red blood.*—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance, — which evinces a considerable deficiency of the red globules,—accompanies all diseases of a chronic character. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulphur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of *all* these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lost elements, and thus increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will prove a specific to all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs*, &c. Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vitus's Dance, Fever and Ague*, &c., its efficacy is marked and immediate. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites*, &c., especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through *over-use*, either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Emaciation*, and in all diseases of the *Kidneys or Bladder*, this preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the **"Blood Food"** to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patent or officinal, in point of usefulness. Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures, will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, $5 for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper. None other is genuine.

Grover & Baker's Sewing Machines.

[From the wife of the Hon. Jefferson Davis.]

Mrs. Jefferson Davis presents her compliments to Messrs. Grover & Baker, and takes pleasure in saying that she has used one of their Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable.—She says she would not consent to do without it for any other one. It is certainly one of the grandest inventions ever made for the relief of woman-kind, and I would recommend every family to get one as soon as possible.

Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combination with Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, TUMULES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the gradual diminution of nervous and muscular energy from chronic complaints, one trial of this restorative will prove successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become objects of pity in their own neighborhoods, have suddenly reappeared in the land of the living, returned from protracted travel in a distant land. Scores very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and hysterical affections which defy the skill of the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and particularly familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, Innumerable are its cause, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this medicine has played the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well rewarded, both for alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole range of medicine, which exerts such prompt, happy, and fully restorative effects—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

Dyspepsia Remedy

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It is Stimulant, Restorative, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, restore to the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and a dose of the stomach receive the Invigorating Spirit, the distressing load and all painful feelings will be removed.

A few doses will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidneys, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the general organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, in trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we shall not still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Morning Chronicle.

These Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet the frequent and long realized want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight chill, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, is thus become a consumption, a fever, a dangerous dysentery, Group or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. They are at hand, simple, as you know at once what to take, and so safe as to cause no repugnance—and hence occasioning no risk, while the curative effects are positive and certain, they arrest disease at once the spell is broken and the danger allayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being THE SAFEST AND MOST SIMPLE AND CONVENIENT, THE MOST PRONT AND RELIABLE.

Thousands are glad to have been using them for nearly five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

APPLEDORE HOUSE,
ISLES OF SHOALS.

This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing its capacity. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests. *An abundance of sweet cream and milk is supplied from healthy cows kept on the Island.* The table is faultless. The facilities for fishing have been increased by the addition of new boats and experienced skippers.

When to all these advantages are added the purity of the air—the delicious coolness of the ocean breeze, its invigorating and appetizing power—the loveliness of the scenery—the glory of its sunsets—the cleanliness of its walks—its freeness from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can attain. The equability of the temperature is a natural advantage over the coast or the mountains, which invalids can fully appreciate.

A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Pier Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accommodation for the comfort of passengers which a Packet requires.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, snip from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the poodside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every occasion to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillips, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

Yours, &c.,
THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, SEPTEMBER 24, 1860.

THE FAIR AT CONCORD, on Wednesday, Thursday and Friday next, will without doubt be one of the most successful ever held in this State—*if* it don't rain; and if it *does*, there has been made the best precaution and preparation possible. The Statesman has the following remarks, especially commendatory of this Show, with a moral equally applicable to all similar festivals:

The Merrimack County Agricultural Society seems to be the most enterprising and flourishing organization of like character in the State. The new Fair Grounds, owned by the Society, situated on the "Plain" east of the Merrimack river, are better adapted and more conveniently arranged for their purpose than any similar park we remember to have seen. The whole enclosure,—the exact size of which we do not know, but which looks nearly as large as Boston Common—is as level as a floor, and is securely surrounded with a high, close board fence. Within it are excellent pens and stalls for farmers' stock, a substantial wooden structure for the exhibition of industrial fabrics and farm products (which has a roof well protected against leakage,) and an honestly measured half-mile course for trials of speed, which is as smooth and level as the surface of a pond. A fifty-feet well has been excavated, and the supply of water is said to be ample.

It will be seen, by these facts, that the managers of the Society have done all in their power to make the exhibition to take place under their patronage, complete and successful. They offer a liberal list of premiums, and it remains with the citizens of the County properly to second their efforts, and make the annual Fairs worthy the central County of the State. Every farmer, mechanic and tradesman should contribute something to this Anniversary of Industry. Every household has the power to do something, and the will so to do should not be wanting.

It will be seen that an Excursion at a low rate is advertised from Portsmouth for Thursday; and we have no doubt but that a large number will avail themselves of this opportunity to visit the Capital.

The grand Car and Arch built for the late Fair in this city have been disposed of, to go to Concord to add to the decorations on this occasion; and why would it not be a good idea to employ the Portsmouth Band, and have an extensive Portsmouth delegation in the procession?

A CAPITAL IDEA FOR AGRICULTURAL SOCIETIES.—The Connecticut River Valley Agricultural and Industrial Association hold their fifth annual Fair at Charlestown, N. H., on October 2d., to continue four days, when will be introduced the English feature of public sales, or a market fair in connection with the exhibition. To give success to this feature, the Directors of the Society invite producers and growers of valuable articles and animals for sale, to bring them to the exhibition, with the assurance that every facility needed will be afforded them. The necessity of engrafting this feature, say the Directors, into our Agricultural and Industrial exhibitions, has long been felt both by buyers and sellers of blooded stock, and upon the earnest solicitation of such, and upon the conviction, the practical effect of the system will be of great advantage to both buyers and sellers, the Society have made arrangements to adopt it at the next Fair.

PROPHECY.—A. M. Fletcher, who had been a Republican in Maine, came out for Smart and the Democratic ticket, just before election,—whereupon the Belfast Journal said:

The defection of Mr. Fletcher is a terrible blow to Republicanism in this county, and one that no efforts of theirs can repair. We can tell our friends abroad that the reign of Republicanism in this county is at an *end*, and that the Democratic ticket will succeed as surely as the sun rises on the 10th of September.

That ticket did not succeed, that reign did not end; but we believe the sun rose on the 10th of September.

☞ A Sunday or two since, at Grace Church, says the Home Journal, a young gentleman put his hat under the seat, and shortly after two prepossessing young ladies sat next him. At the conclusion of the service the ladies left the church first, and the young gentleman stooped in search of his hat, and, to his surprise, found it gone. He called the sexton, and applied to that worthy functionary for advice. Mr. Brown suggested that it might have caught in the ladies' crinoline; and entangled in the crinoline sure enough it was. After bobbing against one of the young ladies' ankles for a distance of about twenty yards, the hat dropped out, much to the astonishment of those following.

☞ The Fall River Press relates an odd affaire du cœur which lately occured in that city. Two young ladies fell equally and deeply in love with a gentleman who visited them very frequently. Being mutually acquainted with each other's passion, and being withal strong friends, they romantically resolved to draw lots to decide which should have him. The fortunate one lost no time in making known to him the result of the drawing, and he then informed her that he was already engaged to a third lady.

A FIGHT, AND FATAL ACCIDENT FROM BURNING FLUID.—A fire occurred in the stables of the Green Point stages, in Sixteenth street, New York, on Saturday morning. John Moran, Daniel Moran and Mary Moran, brothers and sister, kept house near the premises. Daniel and John had imbibed enough liquor to make them quarrelsome, and in a scuffle upset a fluid lamp, and Mary's clothes were instantly in a blaze, and she ran directly to the yard.—The neighbors hurried to her assistance, but not until the burning had done its fatal work. The two brothers were badly burned. It was believed from the appearance of Daniel that his recovery was beyond any hope. Mary died two hours after being being conveyed to the hospital.

A VIGOROUS OLD LADY.—An Ashland (Mass.) correspondent of the Abington Standard reports some notable things of an old lady in that town named Jones. She is the widow of Elisha Jones, is ninety-one years of age, and since she was eighty-five years old has earned money enough by sewing and braiding straw, to erect a monument to her husband's memory, costing seventy-five dollars. On the 15th inst. she was riding about the village on horseback. She is able to ride thus a dozen miles without fatigue. Her faculties are preserved to a remarkable degree, and she is as active about domestic affairs as a woman of fifty. She has now living sixty-seven children, grandchildren, and great-grand-children.

☞ The sensation story, which originated with the Cleveland Plaindealer, about the son of wealthy parents, of Concord, who left Lancaster Academy, joined a circus company, forsook the latter for Dartmouth College, and then returned to the ring and sawdust, where he met his death in consequence of an accident, which is having a good run through the press, is a sheer specimen of the paragraphist's powers of invention. It has got too good a start for the truth ever to overtake it.

☞ The National Intelligencer states that there is a probability that the camp breakfast and tea service which was used by Gen. Washington during the revolutionary war, and which has been kept for inspection several years in the Patent Office, will be disposed of by its owner. It seems a shame that a relic of the Father of his Country should be allowed to go out of the possession of the nation, on being removed from the Patent Office.

☞ A Texan merchant, while transacting some business in Philadelphia, on Thursday, partook a little too freely of the "ardent," and was so affected by it that he embraced a respectable lady whom he met near the corner of Eighth and Chesnut streets, and attempted to kiss her. She did not fancy this mode of proceeding in public, so she had her amorous assailant arrested and held to bail in the sum of $500. He left the city as soon as he became sober, first having made an arrangement with his bondsman.

☞ Charles Wallace, a native of Boston, Mass., 29 years of age, boatswain of ship Lombard, of Bath, which was lying in the Mersey River, Aug. 22, attempted to pull a Dutch sailor from his berth, when a struggle ensued, and Wallace was stabbed in the neck, face and hand. He was taken to the hospital, and died Sept. 1st. The coroner's jury returned a verdict of wilful murder.

☞ According to late Russian "criminal returns," it seems that no less than twenty-three hereditary nobles, thirty-nine persons of rank enjoying what is called "personal nobility," and twenty-two ecclesiastics, were among the convicts of last year; and they were punished as though they had been the meanest villains in the land, so impartially are the scales of justice held in that despotic realm.

☞ The English papers give the particulars of the death of a woman, 73 years of age which occured in rather a singular manner, as here follows. She went into the kitchen one evening, and seeing a cockroach running across the floor, she stamped upon it to kill it. In doing so she broke both bones of her left leg, producing a compound fracture, from the effect of which she died in the course of a few days.

SAND FOR BEDDING FOR HORSES.—Mr. Small, of Dundalk, Scotland, a veterinary surgeon of considerable experience, states that sand is not only an excellent substitute for straw for horses' bedding, but superior to straw, as the sand does not heat and saves the hoofs of the horses. He states that sand is exclusively used for horses' beds in his stables.

☞ Harper's New Monthly for October, contains seven valuable illustrated articles, and a rich variety of matter besides. It is received by John J. Dyer & Co. and A. Williams & Co., Boston,—and by Messrs. Shores and Locke, in Portsmouth.

NEW YORK, Sept. 21.—The Douglas and Breckinridge Democrats nominated separate tickets for city officers last night.

THE PRINCE OF WALES.—*Detroit, Sept.* 20.—The Prince of Wales embarked at Windsor, this evening, on board the Detroit and Milwaukie Ferry Boat, on board of which were the Governor of Michigan and the Mayor of Detroit. On reaching the American waters, the latter formally welcomed Baron Renfrew to the United States. A line of vessels a mile in extent, opposite the city, greeted the steamer as she passed, with fireworks, cheers, &c. There were displays of fireworks, also, along the docks and shore. The scene was magnificent.—Fire and military companies were awaiting the Baron's arrival to escort him to his quarters, but the crowd of some 30,000 people pressed so hard that it was impossible to form, and the Baron reached his quarters privately. The Royal suite were escorted to the Russell House by the firemen. The Prince and suite will leave for Chicago tomorrow morning.

Detroit, Sept. 21.—Baron Renfrew, the Prince, was greeted by thousands in front of the Russell House this morning. The Mayor of the city and the Baron and suite took carriages and passed through a few of the principal streets, but the crowd was so dense and the confusion so great that they could proceed no further. The party soon afterwards took the train for Chicago, where they arrived amid the firing of salutes and great enthusiasm.

Chicago, Sept. 21.—The Prince of Wales arrived this evening, and stops at the Richmond House. There was a large crowd at the depot, and the streets were blocked with people. He leaves to-morrow for St. Louis. The hotels were illuminated to-night.

THE PRINCE OF WALES IN CANADA WEST.—*Hamilton, C. W., Sept.* 18.—The Prince laid the capstone of Brock's Monument at Queenstown, and reached here this afternoon. He opens the Provincial Fair to-morrow.

The Prince presented Blondin with $300.

FROM PIKE'S PEAK.—*St. Josephs, Mo., Sept.* 21.—The Pike's Peak Express has arrived with nearly $100,000 in treasure.

Business in Denver City is better, in consequence of parties arriving from the mountains to purchase their winter supplies.

Rich silver mines continue to be discovered, one of which is five hundred and fifty feet long, and the silver ore shows on the surface, and assays now $100 to $1700 per ton. Large quantities of silver are in the sluices of the Big Blue. Reports are current that the silver is not good.

Gold claims continue to pay largely.

The coaches are crowded to and from Denver City.

GREAT FIRE—ARRIVAL OF TROOPS.—*Fort Smith, Ark., Sept.* 20.—The City Hotel and Garrison Block were burned this morning. Loss on buildings alone $100,000.—Losses to the occupants are:—Sutton & Spring, $35,000—insured $10,000; Bennett & Foss, $15,000—insured $5000; A. Hamilton Cline, $20,000—uninsured;—Times office, $5000. The Post Office was burnt with 4000 letters, and the last mail from Memphis. The fire was caused by an incendiary.

Six hundred troops and seventy wagons arrived from the Plains yesterday.

U. S. AGRICULTURAL SOCIETY.—*Cincinnati, Sept.* 21.—The Fair will be continued a day longer, in consequence of the rain yesterday.

The first prize for steam fire engines was taken by Mr. Goodwill of Philadelphia, his machine throwing a stream 265 feet.

Wheeler and Wilson's sewing machines took the first prize.

☞ A letter from Philadelphia to the New York Tribune says:—

It seems the Prince of Wales is to come to Philadelphia on Tuesday evening, Oct 9. This is the day for holding our State election, and no doubt the visit has been so planned to enable him and his noble keepers to see how American republicans conduct an exciting electioneering contest.

☞ A New York paper says that the naturalization machine is now turning out a large supply of new voters. The demand for its wonderful transforming services is always the liveliest just before a Presidential election.

☞ The Prince of Wales declines the invitation to a buffalo hunt on the Western prairies, because his mother desires his punctual return to college, and he will not disappoint her—good lad.

☞ Henry Winter Davis of Md. writes to the Bell and Everett men of Easton, Pa., that hereafter he shall speak in favor of the election of Lincoln.

☞ On the 12th of August a romantic couple—a French youth and an Italian girl, were married at the top of the leaning tower of Pisa.

☞ The Dover Gazette says Old Joe Lane is in his dotage. He threatens to follow Douglas wherever he goes. A herring in the wake of a whale.

SUSPENDER FACTORY BURNED.—*New Haven, Sept.* 20.—Charles G. Judson's suspender manufactory was destroyed this morning by an incendiary fire. Loss $40,000; partly insured.

RAILROAD EXTENSION.—*Louisville, Ky. Sept.* 20.—The Memphis Railroad was opened yesterday to Clarksville, and will be completed to Memphis by the first of February.

THE philosopher, the politician, or the priest, who speaks the truth at all times and in all places, will starve. Hypocrisy alone feeds fat.

COME AND DRINK.—Bulwer calls a newspaper "the common reservoir into which every stream pours its living waters, and at which every man may come to drink."

BUFFALO, Sept. 21.—Eight hundred and fifty thousand bushels of wheat arrived here to-day.

STATE ECONOMY.—The repairs upon the State House, for which an appropriation was made by the last Legislature, are in process of execution under the direction of the Secretary of State. The sum to be expended is not exactly exhaustless in amount; but as painting is the chief item of expense, and Mr. David J. Abbott, a member of the Legislature, has that work in charge, the funds will undoubtedly be judiciously laid out.

It has seemed to us as if the representatives of the people for the past few years were about as economical as men could be; but when it comes down to town meeting time, and we read the Patriot, and listen to Democratic orators, our opinion in that particular don't seem to be worth much. What a dreadful set of fellows "the blacks" are, to be sure! Why, if "the party of the second part" had control of the State finances, the Treasurer would have money to let; the Reform School would be transformed into a first class boarding-house for worn-out, indigent Democratic politicians—(and nobody will deny the need of an institution of this character,) the State House would be torn down and rebuilt after the plan of Buckingham palace, ex-Governors would be placed on a pension list, with $4000 per year and rations for four men and horses. Would not that be fine? But those wicked creatures, the Blacks, have only enriched the State something over one hundred thousand dollars, without increasing taxation a dime. It is shocking.—*Concord Statesman.*

SAN FRANCISCO is not lovely. A city without trees, without a noble square, or park, or grassy opening—a city whose streets are straight stripes from the water's edges to the tops of high and dreary sand-hills, which the winds, every afternoon in summer, do their best to level by blowing a sand-storm upon the lower town, cannot be remarkable for any fascination to the eye. The *view from* the heights, on which the fog crouches in midsummer before sunset, is delightful enough when it is clear and calm. Whenever I climb to the top of Clay street hill, I wonder that I do not trudge through the sand-drifts every morning, to enjoy the surpassing beauty of the panorama it commands. But our chief resource when the eyes tire of dreariness and dust, is a steamboat ride to some portion of the neighboring island shores.—We can take a little boat for a run forty miles down the Bay, with the mountain views on either hand.—*T. S. King.*

SOUTHERN DEPENDENCE UPON THE NORTH FOR FOOD.—The Nashville (Tenn) Banner, in a recent article upon the crops, remarks that the agricultural prospects this year present a subject "of much greater importance than the political divisions of the North and South; and as if to rebuke the minds and restrict the spirits which have dared to whisper "secession from the North," an Almighty Power has made the Southern division of the country as dependent upon the North for food as the North has been on the South for cotton. Two such failures as the South experiences this year, in succession, would ruin her. Happily for the South the cotton never entirely fails, and in an augmented crop of (it is estimated) 4,500,000 bales, she will find the means to purchase her food. For once 'King Cotton' must abdicate the commercial throne, content to make one of a triumvirate that henceforth rules the world.—That which would have been deemed impossible a few years since, has now actually occurred, and Georgia, Mississippi and other States are importing their food from Illinois and Indiana. During the last season Missouri supplied this demand, but she will be unable this year; for her crops have in a great measure failed, while the demand, then light, is now almost incalculable. The completeness of the failure in the South it is hard to contemplate."

VISIT OF ODD FELLOWS TO MRS. POLK.—*Nashville, Tenn., Sept.* 20.—The Grand Lodge of Odd Fellows, yesterday, visited Mrs. Polk, wife of the late President Polk, and to-day they visited the Hermitage. The proposed amendments to the constitution of the order have been rejected.

WHEAT.—Mr. Charles Merrill of Hopkinton raised this year 47 1-2 bushels of wheat on an acre and a half of ground. Mr. Eldad Marsh of Henniker raised eighty-six bushels of spring wheat from three and a half bushels of seed. Nathan Sawyer also raised thirty-five bushels from a bushel and two quarts of seeds.—*Patriot.*

In its friendship for Mr. Douglas, our able contemporary the Boston Pilot, shows a tolerance which is a little unexpected.—It is inclined to smile sweetly on the Know-Nothings, who have "conquered their prejudices, &c." Ah! Mr. Donahoe whither are you drifting?—*Boston Post.*

FATAL ACCIDENT.—At East Concord, on Monday, Mr. Gardner Batchelder was thrown from his wagon and injured so that he died in about three hours after. He was about 65 years old.—*Patriot.*

MAMMOTH MAPLE.—While on a trip to Letter B, the other day, we observed a mammoth rock maple, which was seven feet in diameter at the butt. The tree may be reckoned as one of the giants of Aroostook.—*Aroostook Pioneer.*

LOSS BY FLOOD.—*Newark, N. J., Sept.* 20.—Property to the amount of $20,000 was destroyed in consequence of the flooding of cellars and basements by a severe rain storm this morning.

NEW ORLEANS, Sept. 19.—The Douglas and Bell parties have fused on the electoral ticket.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

FOR SORE, WEAK, INFLAMED EYES AND EYELIDS!

A true specifide, and invaluable remedy has been at last discovered. Dr. Humphreys argues that these affections invariably result from a constitutional disease, of which the local affection is the only outward manifestation. Hence, HUMPHREY'S SPECIFIC HOMEOPATHIC OPHTHALMIA PILLS are only taken internally, and yet cure the worst forms of obstinate sore eyes and eyelids, which have resisted all other treatment. All cases of sore and inflamed eyelids, or failing, weak or defective sight, will be promptly benefitted, and the cure of the worst cases is only a question of time.

OUR FAIR.—We have had pretty good fare, we at the Chronicle Counting-room, for a few days past. Mr. John R. White, of this city, favors us with half-a-dozen heads of the largest, handsomest, and best celery we ever saw—a baker's dozen of pears, not large but of delicious flavor, from a tree in his garden off Hancock street, more than a hundred years old—so old that nobody knows the name of the variety; and also a squash, so big that *he* didn't want to carry it home from the Fair, and so let us.

Mr. Downie, of this city, also brings us in a basket of delicious Bartlett pears; Mr. C. E. Myers, of Gravelly Ridge road, leaves a gallon of excellent new cider; Mr. Clark M. Coleman, of Newington, supplies us liberally, with clusters of large blue grapes, which the land of Canaan itself would not disown; and a lady neighbor, over the way from our office, delights our eyes (we have *ate* sufficiently, at least, before) with a dish of the most superb Bartlett pears, a sample of a large yield of a little tree in a pent-up yard.

Another friend left a basket of blackberries on our table, and another some citron melons—which last we must take home to be preserved; and so will close for the present, our list of good things.

CORRECTION OF ERROR.—*Messrs. Editors*:—Allow me to correct the statement made in your paper this morning, in regard to the premiums on bread made by *unmarried* ladies.

The first premium was given by the committee to Miss Annie E. Davis of Portsmouth.

The second to Miss Mary E. Cassity of Portsmouth.

And the third to Miss M. F. Chase of Hampton Falls. MRS. SMITH for Com.

☞ It's all "hum" to talk about "the equinoctial storm," &c.; and *any* season of the year as being especially liable to, or particularly exempt from, unpleasant weather. The *only* way to steer clear of rains and blows, in a climate where we have rain every week, and where a storm can be gotten up at any time at three hours' notice—is, to have all the out-door shows *under cover!*

☞ It will be seen that Mrs. Varian-James announces one of her superior concerts, for next Friday evening. The performances of this talented and beautiful lady, and her excellent assistants, on their late visit to this city, gave the most entire satisfaction to all who heard them; and their return will be welcomed by all lovers of first class musical performances.

☞ The late parade of the Governor's Horse Guards in this city, has created so strong an interest in the corps, that it is hoped the ranks of the Portsmouth Company may be at once filled and all the members uniformed, so that the Third Company may organize, secure an Armory, choose officers and drill before the State Muster at Nashua, Oct. 11th and 12th.

☞ We regret to learn that Rev. Dr. Burroughs of this city, has been confined to his bed, at home, for several days past, with a severe attack of inflamation of the lungs; and are glad to hear that he is now thought to be recovering.

MANCHESTER AND CANDIA RAILROAD.—It will be seen by a notice in to-day's Mirror that a meeting is to be held at the Manchester House, this city, on Friday, the 28th of October, for the purpose of organizing a corporation under the name of the Manchester and Candia Railroad, a charter for which was obtained from the Legislature in 1849, and kept alive since by legislative enactments. A branch railroad so much desired by the public must sooner or later be constructed, and a large section of New Hampshire will be glad to learn that men capable of making the road a *go*, have determined that the same shall be built.—*Manchester Mirror.*

FATAL ACCIDENT.—On Thursday morning last as the train for the east was leaving the depot in Dover, Mr. Alfred Varney, who had stepped into the cars to speak with some of the firemen who were bound on an excursion to Biddeford, was fatally injured in attemping to jump off. He fell between the cars and the platform, and was dragged along some distance by the motion of the cars, breaking two or three ribs, crushing his head badly, and otherwise grievously injuring him. He died on Tuesday.—*Enquirer.*

About four acres of people were addressed by Senator Douglas at Clifton Springs, N. Y. ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

LYMAN'S
Improved Patent Metallic! Soles.
PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market street, Portsmouth, N. H. **J. C. CARR.**

Administrator's Sale of Real Estate
IN FRANKLIN STREET.

By virtue of license from the Judge of Probate for the County of Rockingham, I shall sell at public auction, on

Saturday, the 22d day of September, 1860, *at* 12 *o'clock, noon,*

on the premises,

The HOUSE AND LOT numbered three on Franklin street, in Portsmouth, belonging to the estate of Charles H. Ferrald. Said house is a convenient one for a moderate-sized family, has aqueduct water, and rents at present for $80 per year.

For further particulars apply to WILLIAM H. HACKETT, or to
ALEXANDER JUNKINS, Admr.
Portsmouth, Sept. 6, 1860.
H. F. WENDELL, Auct.

Peremptory Sale of Real Estate
ON COURT STREET.

Will be sold at Public Auction,

On Saturday, the 29th day of September inst., at 12 *o'clock, noon,*

ON THE PREMISES,

The two-story HOUSE and LAND No. 45 Court street, corner of Atkinson street, now occupied by Mr. Wilbur B. Waite, and adjoining the estate of James P. Bartlett, Esq.

Said house is in good repair, having recently been put in excellent condition, both inside and out. It has parlor, sitting room and kitchen, with four chambers; also, water conveniently introduced, gas, &c. The Lot has a front of forty-seven feet on Court street, extending twenty-three feet on Atkinson street.

The central location of this estate renders it a desirable place for those whose business calls them to any part of the city, or the Navy Yard. The house now rents to a desirable tenant, at the rate of $90 per year, and is sold only because the proprietor has removed to a distant part of the State. The premises are offered at private sale until the twenty ninth inst., when, if not disposed of, they are to be sold to the highest bidder, without reserve, and may be examined, and further particulars will be given, on application to

WILLIAM H. HACKETT, Market Square.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents.

Late Agent of U. S. Patent Office, Washington, Under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, not possessed by any other agency. The facilities for ascertaining the validity of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE ACTUAL TEST OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 3, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which official decisions have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twelve rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

A splendid assortment for sale by JOHN SISE, No. 6 Market Sq.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur and Phosphorus,** and which is identical in its composition with the *Hematic Globule*, or *red blood.*—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; and a pale, wax-like skin and countenance,—which evinces a considerable deficiency of the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of *all* these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food,** and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the healthy red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific in all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the voice, and in *Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c.*, its efficacy is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites, &c.*, especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through *over-use*, either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Emaciation*, and in all diseases of the *Kidneys and Bladder*, the preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the **Blood Food** to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patent or official, in point of usefulness. Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures, will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, 95 for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper. None other is genuine.

Prepared only by **CHURCH & DUPONT,** No. 49 Broadway, New York.

A FEW CERTIFICATES OF THE GREAT SUCCESS

—of the—

Grover & Baker's Sewing Machines.

[From the wife of the Hon. Jefferson Davis.]

Mrs. Jefferson Davis presents her compliments to Messrs. Grover & Baker, and takes pleasure in saying that she has used one of their box Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best sewing machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable.—She says she would not exchange it for any other one. It is certainly one of the greatest inventions ever made for the relief of woman-kind, and I would recommend every family to get one as soon as possible.

Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 15, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says.—"We would recommend to families and to those about to organize a homestead, *to be sure and have a Family Bible, and also one of Grover & Baker's SEWING MACHINES.*"

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS & IRON

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combining it in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, FEMALE OBSTRUCTIONS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of prolonged disease, or from the combined diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no prescription nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world, or returned from protracted travel in a distant land. Some very signal instances of this kind are attached to the following sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic affection to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for persons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a bunefit for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the localpains, loss of flesh and strength, debilitating cough, and remittent heetic, which generally indicate INCIPIENT CONSUMPTION, of trembling hope and the alarm of friends and physicians, in several very gratifying and interesting instances.

SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of Iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases specially referred to above.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably reported, both as a relieving pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirum Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

MR. COBDEN'S OPINION OF AMERICAN NEWSPAPERS.—In a recent letter to a friend, Mr. Cobden makes the following allusion to American newspapers, which he is evidently not in love with:

"The paragraph which you enclosed, giving a conversation of mine, is one of those rascally acts of eavesdropping for which American newspaper writers are so notorious. There is a good deal of the paragraph which agrees with what I have *thought*, but whether I expressed it in private conversation is more than I could swear to, as no one expects to be made responsible for private gossip. There ought to be the punishment of the pillory or the stocks, revived for those who publish in newspapers, the unguarded remarks which fall from a man in private conversation, when he frequently speaks merely to provoke a reply and keep people from going to sleep over too serious an interchange of views."

Albert Poppenberg is the name of the leader of a brass band in Buffalo, which performed in the presence of the Prince of Wales the other day, during the trip from Toronto to Collinwood. The Prince said to his suite, "That is the best band I have heard since I left England," and forthwith commissioned one of his party to wait upon Mr. Poppenberg and to address him as follows:—"His Royal Highness, the Prince of Wales, wishes to express his utmost satisfaction with your performance." Of course Poppenberg and Buffalo were highly delighted with this compliment.

In view of the fact that at the Vineyard Camp Meeting visiting cards were used and the observances of refined society practised, one of the old cynics, who looked back to the days of pristine wildness in such matters, said that by another year he should expect to hear it announced from the speaker's stand that there would be a hop in sister Howland's tent immediately after prayers.—*Boston Eve. APPLEDORE HOUSE,
ISLES OF SHOALS.
This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing its capacity. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests. *An abundance of sweet cream and milk is supplied from healthy cows kept on the Island.* The table is bountiful. The facilities for fishing have been increased by the addition of new boats and experienced skippers.
Were to all these advantages are added the purity of the air—the delicious coolness of the ocean breeze, its invigorating and appetizing power—the loveliness of the scenery—the glory of its sunsets—the cleanliness of its walks—its freeness from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can attain. The equability of the temperature is a natural advantage over the coast or the mountains, which invalids can fully appreciate.
A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Pier Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accommodation for the comfort of passengers which a Packet requires.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.
For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—
Oak Grove, S. C., June 24, 1859.
Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—
During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.
These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result; two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.
You can publish this if you think proper.
Yours, very respectfully,
M. J. WRIGHT, M. D.
Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.
Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure to inform you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Half Restorative," which is liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement. I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,
THOMPSON SURGHNOR.
Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it was recovered to original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.
The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, SEPTEMBER 25, 1860.

For the Chronicle.

FIVE OR TEN MINUTES' TALK ON MORALS.—Whether it be from a necessity of the human constitution or otherwise, observation shows that mankind will act mechanically, not only in physical, but in social and even in intellectual and spiritual operation.

This fact shows the necessity of a vigilant and careful watchfulness over the movements and a periodical "overhauling" of said "machinery."

If there be any fear about touching it, the necessity to do so thereby becomes even more apparent.

It needs but a superficial glance at the present aspects of the world to show that its welfare and happiness demand attention to several prominent and important points.

1. Physical education; embracing a precedent for a cheap, frugal, wholesome and temperate method of feeding, clothing and sheltering the body—a regulation of the hours of labor, in a degree according to its kind, prescribing and regulating amusements, recreations, &c.

2. Industry and finance; so regulating and controlling them as to guard against making the "nursing" of that most hateful, God-despised, soul-depressing, world-wasting, of all human excesses, an inordinate thirst for gold.

3. The care of "our young." I confess my soul stirs within me whenever I turn my thoughts in this direction; and at this time somewhat particularly so, having within a few days read the report of a Superintendent of Public Schools in Massachusetts, from which it is evident to my mind that with all that has been attained in that most justly honored State—they are still "feeling in the dark" on this momentous point. After remarking on the excellent progress of the scholars in their studies, he makes such a portrayal of the physical aspects of the schools as is of appalling significance, if any thing can be called so.

As a remedy the gymnasium, &c., are proposed as a regular requirement of every scholar. But it may be asked, would he adopt this without a previous inquiry into the physical condition and preparatory habits, &c., of each scholar?

He does not hint (if I remember rightly) that the evil *may* result in part, among other excesses and irregularities, from the present "seven days' labor system" in the education of children.

I, then, as at heart a lover of Christ and His cause of truth and righteousness, say, let the question be put, and the matter probed to the foundation. Are we right? Is it right for parents to send their children from their homes and from their presence to the greatest of all excitements and the care of strangers on the only day and the only time which is appointed for the "turbid waters" of life to be still, and thus lose the great chief opportunity of observing the effects of their surgings and currents and forming such courses and applying such simple instructions as only a parent can bestow successfully.

4. The importance of the observance of the Sabbath and meetings of old and young, rich and poor together (not the poor separately and children separately) for worship and instruction—and the adaptation of some part of the services to children.

These are very cursory remarks, and it is not intended that their application should rest on any one point solely, but extended in their spirit to every proper subject of investigation.

P. J. A.

☞ Daniel McNevins, a resident of East Boston, made a daring attempt to murder his wife, Saturday afternoon, by shooting her. She escaped with a slight wound, and he is in jail. He is a man of intemperate habits, and has been in the House of Correction several times. Jealousy was the cause of the attempted murder.

☞ Returns from 474 voting places in Maine show Washburn's majority to be 18,091. Mr. Barnes, the Bell and Everett candidate for Governor, had more than a hundred votes in three places, viz., Bath 120, Gardiner 118, Portland 113. The aggregate vote for Barnes and scattering is 1520.

HIGHWAY ROBBERY.—Gilman Randall, a resident of Portsmouth, N. H., was garroted on Liberty street, Newburyport, about 11 o'clock Saturday night, and robbed of about $8. From a description of the parties, Marshall Westcott and a posse of the watchmen succeeded in arresting Michael Leary and Albert Austin, two notorious rowdies, and two others, who will probably be well taken care of by the State, for a term of years.

Constable Batchelder found a silver watch secreted in a yard near where the affray occurred, for which an owner is wanted.—*Herald.*

CHICAGO, Sept. 22. — The Prince of Wales spent the forenoon in viewing the objects of interest about the city, and left this afternoon for a hunting tour on the prairies.

THE FAIR — SECOND DAY.

PARADE OF THE HORSE GUARDS.

This fine corps formed at 9 o'clock in two companies, the first under Capt. George, in front of the Rockingham House, and the second under Capt. Gage in front of the Franklin House. When well dressed on a line, the rain, which had been threatening since daylight began to fall heavily, and the order was "break ranks and put on your capes." This was speedily done, and the two companies, the men covered with their ample grey capes, joined each other in the beautiful park in front of Governor Goodwin's residence, and Col. Stark of Nashua assumed the command. This is the first time the Colonel has paraded at the head of the full company since its organization, he being prevented by an accident from assuming the command at Concord last June. The troop defiled out of the field to State street, and in sections of four abreast marched round to the Governor's house where Governor Goodwin, accompanied by Cols. Jones and Robinson of his staff, Capt. Winder of the U. S. Army, and Judge Butler, President of the Agricultural Society, in a barouche, were received with due honors. The battallion then took up its line of march through several of the principal streets to the Fair Ground. After a halt of a few minutes, the heavy rain still continuing, the company returned to town and were dismissed. At one o'clock the dismounted soldiers again repaired to the residence of the Governor, and a very pleasant hour passed in the discussion of a collation which had been prepared for them.

At two o'clock, in accordance with orders previously given, the officers and members of the regiment congregated at the Rockingham to await orders for the Navy Yard, to which they in company with the Governor and Staff had been kindly invited by the officers of the Marine and Naval service at this station.—There was a strong desire manifested on all sides to accept the invitation, but the rain was falling heavily and amid many expressions of regret, the excursion was abandoned. A vote of thanks was passed, speeches were made, expressive of the gratitude of members for the kind feeling which prompted the invitation, and after the transaction of some business, the companies were dismissed, with orders to be at the railroad station at 5 1-2 for a final departure. This programme was carried out, and last evening our streets had lost the military element which had so largely predominated during the last two days.

UNSUCCESSFUL ATTEMPT TO CAPTURE FUGITIVE SLAVES.—*Cincinnati*, Sept. 23.—On Thursday last the U. S. Marshal, with two Deputies and eight or ten men, went to Iberia, Morrow county, in this State, to arrest three slaves who ran away from Germantown, Ky., about four months since.—One was captured by the Marshal, and after an examination by the Commissioner, was remanded to the custody of his former master.

One of the Deputies, in attempting to capture another negro, was set upon by the crowd, who tore off his clothing and took away his warrant and money, and threatened to hang or shoot him, but after cropping his hair they allowed him to depart without the negro. The other Deputy was fired upon while attempting to arrest a third negro, and returning the fire shot the finger off the hand of one of the rioters, but was obliged to leave without the negro.

FIRE AND LOSS OF LIFE.—*New Orleans, Sept.* 23.—Karstenderick & Co.'s and other liquor stores in Tchoupitoulas street were burnt last night. The fourth story of the store was heavily laden with spirits, which exploded, causing the building on the corner of Lafayette street to fall, burying forty or fifty persons. There were extricated fifteen dead bodies and several wounded persons. Loss $150,000, mostly insured.—A well built square in the Fourth District was burned this morning. Loss $78,000, mostly insured

MISSOURI BRECKINRIDGE CONVENTION. *St. Louis, Sept.* 21.—The Breckinridge Convention, yesterday, fully endorsed Breckinridge and Lane as the only candidates of the Democracy.

Mr. Thurston, delegate to the Charleston Convention, predicted the defeat of the democracy in a speech, and believed that Lincoln would be elected.

St. Louis, Sept. 22.—The Breckinridge Convention before adjournment revised the Electoral ticket and filled all vacancies.—A resolution was offered, but *not acted on*, to vote for any candidate to defeat Lincoln.

ACCIDENT TO LAMOUNTAIN.—*Albany, N. Y., Sept.*, 23.—Mr. LaMountain met with a serious accident in a recent balloon voyage to this city. He was caught in a tornado in East Lanesboro', Mass., and in attempting to land was dashed against a stone wall, and was dragged until he came in contact with a tree, tearing the network of his balloon. He was then carried along at a fearful rate, until his balloon caught in another tree, when it burst, throwing him to the ground, and leaving him senseless, whence he rescued by some farmers, badly bruised. He arrived home at Lansingburg on Saturday. The balloon travelled at the rate of 30 miles in 29 minutes.

CALIFORNIA. — *New York*, Sept. 23.—Steamship Ariel from Aspinwall, has arrived with San Francisco dates of the 1st, and $1,200,000 in specie.

The frigate Brooklyn, with the Chiriqui surveying party, arrived at Aspinwall on the 15th. The Sabine sailed on the 15th for Vera Cruz.

☞ Two men entered the Liberty Bank in Providence and engaging in conversation with the Clerk, threw spirits ammonia in his face with the intention of blinding him, and then robbing the bank. The Clerk, though partly suffocated, beat them off with a chair, and calling for assistance, both of the burglars were arrested.

The man who is without an idea, generally has the greatest idea of himself.

GREAT NEWS FROM ITALY.

We have four days later news from Europe, by the Aerial, in from Southampton, Sept. 13.

Garibaldi entered Naples on the 8th, with his Staff only. The joy of the inhabitants was intense. A provisional government was formed. The city remained tranquil. Garibaldi proclaimed Victor Emmanuel King of Italy.

The capitulation of the forts was expected immediately.

Insurrections had broken out at Pesaro, Montefeltro and Urbino, where 400 insurgents had repulsed the Papal troops.

The inhabitants of Pergola, Sinigaglia, and other districts, have revolted, and Victor Emmanuel had proclaimed Urbino free. Telegraphs and bridges have been destroyed.

Rome, Sept. 9.—The Piedmontese troops have arrived at the frontier. The entry of Garibaldi into Naples threw the Papal government into great consternation. The Papal troops had left Pesaro and Sinigaglia. A French regiment arrived at Rome to-day. Ancona had been proclaimed in a state of siege.

France, as the Pope's protector, disapproves of armed resistance, and should Piedmont commit any aggression, France will withdraw her protection from Sardinia, and trusts that Emmanuel will avoid a political fault which would be a misfortune to Italy.

Garibaldi found 80,000,000 lire in the Bank of Naples.

The Sardinian flag is flying on all the forts of Naples.

The annexation of Urbino to Sardinia had been proclaimed.

☞ Edward R. Pope, a wealthy but turbulent citizen of North Quincy, Mass., murdered a worthy young man named Frank D. Fortier, last Friday afternoon, by shooting him with a gun loaded with buck shot, being angered because Fortier, who had lived with him, demanded his wages. The defence will be insanity. Pope's wife thinks he has been bordering on insanity for some time, and says that his father has tried to get him into an insane asylum. He has periodical turns of an ugly disposition, which seem to be governed by the moon's changes during the heated term.

Mr. Lemuel Billings says that Pope came to his house late one night, in a state of excitement, wringing his hands, and announced that his wife was too intimate with Fortier. The general opinion among Pope's neighbors, on Saturday, was, that it was a cool and deliberate murder.

FATAL RAILROAD ACCIDENT.—Fernald D. Spokesfield, Messenger of the "Provident Institution for Savings," was run over and killed on the Boston and Maine Railroad, at about 8 o'clock, Saturday evening. He resided at Reading, where he leaves a family of six children,—his wife being in the McLean Asylum at Somerville, where he had been to see her; and while waiting at the Somerville station for a train to take him home, the inward train came along, and he, being a little deaf, did not hear the whistle until it was too late to escape. He was removed to the Massachusetts Hospital, but died shortly after his arrival. He was fifty-three years of age and a very estimable man.

☞ The Sandwich Islanders try out their dead horses, and get half a barrel of oil from each horse, which is said to be equal to sperm.

THE LOVERS' QUARREL.

"I'll break the match—I will, if I *die!*"
Cried Julia fair, with a flashing eye—
"I will, if you keep on chewing!"
And Charles looked up in a fearful mood,
For fear his darling passion should
Yet prove his love's undoing.

"Give up tobacco, Julia? No!
Not if unwed ten years I go!"
"You won't? Then we are parted!
I'll find some man—I will, indeed,
Who doesn't use that naughty weed!"
And off the fair one started.

They kept apart for nearly a week:
Then, strange to say, with a quid in his cheek,
Charles happily sat beside her:
And she let him kiss her—yes, she did!
Kiss her, without removing his quid?
What purpose new could guide her?

The mystery is soon explained:
Charles both his guide and his girl retained
By seeing the place he stood in;—
By giving up all naughty trash,
And just investing a little cash
In the PATENT PRESSED OF GOODWIN.

Dear Julia scolds and fumes no more,
Though she thought, a little while before,
His sin so black and flagrant;
She's rather glad that Charley chews,
While GOODWIN's only he will use—
So pure, and fresh, and fragrant.

OXYGENATED BITTERS.—The cures effected by this remedy are truly astonishing. The confirmed Dyspepsic regains his pristine vigor, the Asthmatic "breaths freer," Indigestion disappears. These *bitters* produce these wonders. Let all who suffer try them.

All persons who sell Herrick Allen's Gold Medal Saleratus are authorised to give their customers the privilege of using one-half the paper, and if not perfectly satisfactory, to return the balance and get the amount paid for the whole. It is a great deal better than soda to use with cream tartar. Try it. Most of the Grocers and Druggists keep it.

There is another article in the market put up in similar colored papers. Do not be deceived by it. See that the name of HERRICK ALLEN is on the wrapper, and no mistake can occur. Wistar's Balsam of Wild Cherry.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases of *Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Asthma, Inflammation of the Lungs;* while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

From the Editor of the Portsmouth (N. H.) Journal, Aug. 11, 1860.

WISTAR'S BALSAM.—There are but few medicines of which we can express an opinion from personal knowledge. Among such we place prominently WISTAR'S BALSAM OF WILD CHERRY, which should always be kept on hand. It is an excellent medicine not only for *Coughs* and *Colds*, but also for neuralgic affections. We have known suffering from the nerves of the stomach effectually relieved by its soothing influence where other medicine has been ineffectually used.

From a highly respectable Merchant.

FALMOUTH, ME., Aug. 10, 1860.

MESSRS. S. W. FOWLE & CO.,—

GENTS:—For a long time I have suffered more or less with that distressing affliction—*Phthisis*—in its worst forms, and have resorted, to various so called remedies, but to no purpose, as affording the desired relief. Deprived of my sleep by reason of the severity of the disease, it was only too evident that I was fast breaking down under it. I resorted to DR. WISTAR'S BALSAM OF WILD CHERRY with but little confidence as to its curative properties, but the use of one bottle has entirely rid me of this monster; and to the public I can safely commend it as every worthy their confidence. Most respfly, S. I. MERRILL.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The above testimony of my wife is true.

ENOCH B. ELLIOTT.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. FOR SORE, WEAK, INFLAMED EYES AND EYELIDS!

A true specific, and invaluable remedy has been at last discovered. Dr. Humphreys argues that these affections invariably result from a constitutional disease, of which the local affection is the only outward manifestation. Hence HUMPHREY'S SPECIFIC HOMEOPATHIC OPHTHALMIC PILLS are only taken internally, and yet cure the worst forms of obstinate sore eyes and eyelids, which have resisted all other treatment. All cases of sore and inflamed eyelids, or failing, weak or defective sight, will be promptly benefitted, and the cure of the worst cases is only a question of time.

Price, 50 cents, with directions.

Sent by mail or express, free of charge, on receipt of the price.

COURTESIES EXTENDED TO THE HORSE GUARDS.—We copy from the Gazette an allusion to the bounteous hospitality of Gov. Goodwin and others, on the occasion of the recent visit of the regiment of cavalry to Portsmouth. It was universally conceded by officers and soldiers that nothing could have been more cordial and graceful than the reception met with, nothing more gratifying than the elaborate entertainments provided for them by the Governor and others. The dinner to the staff on Thursday, at the residence of His Excellency, was admirably conceived, and the drenching rain without, rendered the hospitality and kindness of Mrs. Goodwin, the presiding genius of the occasion, and other estimable ladies of the Governor's family, the more valuable and acceptable.

Much disappointment was expressed that the corps was prevented by the weather from visiting the Navy Yard, to which the members, one and all, were invited to attend the Governor and his suite. But the rain continued, and increased at the hour appointed for the excursion, and after considerable discussion the elements were declared the victors. A resolution of thanks was tendered to the officers of the Navy Yard, and was received with speeches and cheers. It was offered by Paymaster Fuller of the Staff, and was highly complimentary in its tone.

Later in the afternoon amid a temporary cessation of the storm, word came that the excellent Maj. Reynolds, who had already endeared himself to the members of the corps by many acts of kindness and attention,—had prepared pickets for the hundred horses of the regiment, and a sumptuous entertainment for officers and soldiers; that the Company under Lieut. Turner was ordered out in full dress uniform; that the Commandant had ordered the guns of the battery manned, in readiness for the salute, and that all was arranged for a reception of the most recherche character. But it was found too late to rally the scattered troops, and thus the kind intentions of Maj. Reynolds, Capt. Pope and their associate officers, were frustrated.

The Nashua delegation left in an extra train at 5 1-2, and reached home in good condition at 10 1-2 o'clock. The Concord party, which left at 6 1-2 o'clock, were less fortunate. When near "Rowe's Crossing" the train ran into a drove of cattle, killing five, running the engine off the track, and detaining the bold soldiers for the space of five hours in the darkness of a Hooksett forest. Nobody was injured however, and the mishaps of the first excursion to Portsmouth will serve as a standing joke for the Concord Company.

For the Chronicle.

Messrs. Editors:—Permit me to call the attention of all lovers of good music to the Concert announced by Mrs. Varian-James in your columns to-day. Mrs. James has already made a most favorable impression upon those who were fortunate enough to listen to the two concerts which she gave here a few weeks since. Many were then disappointed on the evening of her last concert, by a sudden and overwhelming rain storm, which rendered it next to impossible for ladies to attend; but for this circumstance the house would have been crowded. Mrs. James is one of the sweetest and most pleasing vocalists we have ever had with us, and we feel confident that the entertainment offered by her on Friday night, will be one of a high order, and such should be patronized by our people, whose standard of musical taste will bear a considerable elevation.

Mrs. James has been most happy in attaching to her entertainments the superb tenor of Mr. Cook, and we think we shall be sustained by those who have heard him, when we say, that for purity of tone, finished style, wide compass, and stirring pathos, his equal has never been heard in Portsmouth. He does not seek to produce an effect by bursts of passion, but like the eloquence of a finished orator, whose calmest words often thrill the nerves most, he, by his touching pathos, vibrates every string in the musical composition of his audience.

And when these two superb voices unite, in singing some well selected gems from the popular operas, it is no matter of wonder that the listeners burst forth in unrestrained applause, and fling flowers at the feet of these gifted ones, as they did on the occasion of their first visit to our city. Those who were present at their concerts before, will not fail to sit again at such a musical feast. Let those who have not had this treat, avail themselves of this opportunity.

N.

☞ Mr. Butler, as President of Rockingham Fair, acknowledges the receipt of a basket of most splendid flowers, which were sent by Miss Mary C. Patten of Kingston, to adorn the tables at the Fair, but which by some strange mischance, did not come to hand till the day after the Fair.

☞ Rev. George Anthony has tendered to the First Congregational Society of Great Falls, over which he has presided as their pastor, for five years, his resignation. He goes to Marlborough, Mass., to engage in pastoral duties there.

FAIR SAILING AND SPORT AHEAD!—The "VIKING" is in trim, and will sail the "LIVE YANKEE," for a purse of $500, on THURSDAY, the 27th inst., from "Frost's Point. Let a good crowd be there to witness the fun and see and say who shall "stop blowing." VIKING.

On Thursday, the 26th inst., at the same place from which the "Viking" and "Live Yankee" sail, there will be a Race for boats of 25 feet in length, and under, the Race to be three miles out and return; one minute to a foot to be allowed to small boats.

Entrance fees will be $2 each boat. First Prize will be two-thirds of entrance fees. Second Prize will be one-third of entrance fees. All entries to be made at Market Street House, to WM. SAWYER.

☞ We are repeatedly asked to state *how much* the County Agricultural Society lost by the late Fair in Portsmouth. But as the business is not entirely settled up yet, and the result may be considerably affected by several contingencies in balancing the books, it is impossible to say how it will come out. Several gentlemen have, however, offered to increase their subscription; and some who, owing to the press of business of the canvasser of the city, had not been applied to,—have, since the Fair, voluntarily contributed to make up the deficiency caused by the storm.

☞ The Rockingham County Agricultural Society, (we hope its foolish title of "Rockingham Fair" will be changed at the next Annual Meeting,) at their late Fair in Portsmouth, received an accession of about eighty new Life Members in this city and vicinity; and should the Fair be held here again, we have no doubt but that at least as many more citizens would gladly become members. The list here now numbers about 100, and might easily be increased to 200.

The Board of Officers held a meeting in this city on Saturday; and in view of the great interest evinced in the success of the late Fair, and in the increase and prosperity of the Society, by the citizens of Portsmouth generally,—it was voted to hold the next Annual Meeting, (for election of officers, &c.) in Portsmouth, on Monday, Dec. 3d, at 10 o'clock—at which time will be made the report on crops, &c., and agricultural discussion will be in order.

LARGE YIELD.—A Bartlett Pear-tree in the garden of Mr. Thatcher Emery, in this city, has this year borne about twelve bushels of superior fruit; ten bushels of which being sold at about $3 per bushel, makes a good return for the little trouble of raising.

CHARITY.—Passing hastily by the residence of Nath'l D. Miller, Esq., at Gravelly Ridge, a few days since, we looked wistfully under a well-known favorite sweet apple tree of ours, in front of the house, to find some of the rich fruit on the ground; but not an apple was there on the road-side of the wall, and having no time to spare to stop for any, we were driving on,—when a companion called our attention to a long row of the rosy fruit laid along on the top of the fence—and we soon had our pockets full, from the travellers' supply, which is thus each day politely placed within convenient reach of all who pass that way.

☞ The citizens of Hampton have done themselves credit, by transforming their old dilapidated meeting house, into a substantial and convenient Town House. The building has been turned round and pushed back out of the highway; the old porches are cut off; and the body of the house has been finished in two stories, one occupied as a spacious Town Hall, the other for various town offices. The whole is put into complete repair, nicely painted, furnished with new windows, and crowned with a large tower, in which it is designed to hang a large new bell, and get up a town clock with four dials, when the means shall be furnished by town vote or otherwise.

☞ Messrs. Bachman & Co. have opened a new branch of their business, viz: an extensive Straw Millinery, which they advertise to day in good set terms.

ATWOOD'S

QUININE TONIC

BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

Improved Patent Metallic Soles.

PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. **J. C. CARR.**

Peremptory Sale of Real Estate

ON COURT STREET.

Will be sold at Public Auction

On Saturday, the 29th day of September inst., at 12 o'clock, noon,

ON THE PREMISES,

The two-story HOUSE and LAND No. 45 Court street, corner of Atkinson street, now occupied by Mr. Wilbur B. Waite, and adjoining the estate of James P. Bartlett, Esq.

Said house is in good repair, having recently been put in excellent condition, both inside and out. It has parlor, sitting room and kitchen, with four chambers; also, water conveniently introduced, gas, &c. The Lot has a front of forty-seven feet on Court street, extending twenty-three feet on Atkinson street.

The central location of this estate renders it a desirable place for those whose business calls them to any part of the city, or the Navy Yard. The house now rents to a desirable tenant, at the rate of $90 per year, and is sold only because the proprietor has removed to a distant part of the State. The premises are offered at private sale until the twenty-ninth inst., when, if not disposed of, they are to be sold to the highest bidder, without reserve, and may be examined, and further particulars will be given, on application to

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS,

these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

SILVER SOAP.

A new and beautiful preparation made by the BOSTON INDEXICAL SOAP CO., expressly for cleaning and polishing Silver, Plated and Britannia Ware, and for cleaning Mirrors, Marble, Tiles, &c. It is much more convenient and effective than any of the powders now in use, and may be used by even inexperienced help with perfect safety, as it contains nothing that *can possibly* injure the finest plate or jewelry, or even the most delicate skin, though not designed for toilet use. It is far superior to any other soap for cleaning fine House Paint, Statuary, Artificial Teeth Plate, &c.

Many of our largest importers, and manufacturers of silver and plated ware, are now used it, have given it their unqualified approval. Read the following:

BOSTON, May 2, 1859.

MESSRS. SAFFORD & BURDITT: Gentlemen,—After repeated trials of your Silver Soap, we can recommend it as *the best article we have ever seen* for cleaning plated and silver ware. It must soon be used by every family.

Yours, respectfully, SHREVE, BROWN & CO.,
(Late Jones, Dall & Co.)

BOSTON, June 1, 1859.

Gentlemen,—We have, during the last twelve months, given your Silver Soap a thorough trial, and find there is nothing superior to it, as it cleans silver *quicker, better*, and with *less trouble* than any thing we have been able to find.

Yours, respectfully, SAMUEL CROSBY,
89 Washington street.

BOSTON, June 13, 1859.

Gentlemen,—We have made careful trial of your Silver Soap, and find it admirably adapted to the cleaning of silver and plated wares, particularly the chased and frosted work, and we take pleasure in recommending it to the public as a *safe and effective* agent for removing tarnish and restoring the color with a very small amount of labor. We have never seen a better article for the above purpose. Yours, truly, &c.,

HADDOCK, LINCOLN & FOSS,
65 and 67 Washington street.

PUMICE STONE SOAP.

This Soap, unrivalled for its erasive properties, is free from any caustic alkali. It scours the hands and renders them soft and white. It acts like magic in removing Writing and Printers' Ink, Pitch, Varnish, Acid and other stains, from the hands, without the use of oil, alcohol, or other neutralizing agents. It is equal to the best French pumice in quality, and is sold for less than half the price. Manufactured by the INDEXICAL SOAP CO. GEO. W. SAFFORD & CO., Agents,

$1,200 SALARY!

For all who buy A. J. Fulham's Patent $10 outfit of Stencil Tools, with stock enough included to retail for $150.

With activity, this amount may be realized anywhere, by any person, in two weeks' time. You can then order stock enough for $10 more to profit you $600.

Smart young men are clearing, in some instances, $3000 to $5000 per annum, by having the large tools for cutting Flour Barrel lettering, and Plates for marking Boxes, Bags, Bales and Mercantile Stencil Plates of every description.

Fullam's American Stencil Tool Works have become an institution where smart young men can graduate with all the advantages to be acquired in the art in ten days time, when they will receive a beautifully designed Diploma which will be of invaluable service to them in securing the confidence of the public. They will also receive a splendid cabinet of stencil tools and stock for all sizes of stencil lettering, which will enable them to travel, or locate and employ agents.—Ahead $100 capital is necessary to establish yourself thoroughly and permanently in the business, which will yield an industrious young man a fortune of $10,000 in five years time. If you do not feel able to commence with the full outfit, your pockets may be easily replenished by ordering a set of small tools for cutting name plates, and business cards; the $10 outfit as mentioned above, of which samples and full particulars will be sent free to any address. The American Stencil Tool Works are at Springfield, Vt., with Branch Offices at 13 Merchants' Exchange, Boston, and 213 Broadway, N. Y. A. J. FULLAM, Proprietor.

THE EYE. THE EYE.

DR. E. KNIGHT,
Eclectic Physician and Oculist,

Astonishes his patients with his success in controlling and curing diseases of long standing, and given up by the most celebrated physicians and oculists as incurable, with his new treatment and medicines. Eyes blind for years with cataracts, inflammation, amaurosis, and a variety of outward obstructions, restored to sight in one-fourth the time of any other treatment. All interested are invited to call and see a case of cataract ten years standing, and satisfy themselves as to what can be done without instruments, and in this case the best of operators only nothing could be done to bring the sight. Samuel Fox, near of 200 Hanover street, blind for five years, restored to sight in a few weeks.

Every kind of humor is eradicated from the system and every cure effected without instrument or harsh means.

Any person from out of the city, not satisfied with the proofs of his success, shall have their fare paid.

OFFICE, 278 TREMONT STREET.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing *Iron* (of health) *Soda* and **Phosphorus**, and which is identical in its composition with the *Hematic Globule*, or *red blood.*—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evinces a considerable deficiency of the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of *all* these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific in all *CHRONIC DISEASES of the THROAT and LUNGS*, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c.*, its wonderful effects are instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites*, &c., especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through *over-use*, either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Emaciation*, and in all diseases of the *Kidneys or Bladder*, this preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in hand, we offer the **"Blood Food"** to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patent or official, in point of usefulness. Caution lars giving the Theory upon which this remedy is founded, also certificates of remarkable cures, will be sent free, on application. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, $6 for six bottles. Be careful in all cases to take none but that having our fac-similie signature upon the wrapper. None other is genuine.

THIRTY DIFFERENT PATTERNS,

FAMILY SEWING.

A FEW CERTIFICATES OF THE GREAT SUCCESS
—of the—
Grover & Baker's Sewing Machines.

[From the wife of the Hon. Jefferson Davis.]

MRS. Jefferson Davis presents her compliments to Mrs. Grover & Baker, and takes pleasure in saying that she has used one of their box Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten the old fashioned time, without fatigue. The work is beautiful and durable.—She says she would not exchange it for any other one. It is certainly one of the greatest inventions ever made for the relief of woman-kind, and I would recommend every family to get one as soon as possible.

Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says.—"We record its recommend to families and to those about to organize a homestead, *to be sure and have a Family Bible, and also one of Grover & Baker's SEWING MACHINES.*"

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirum Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their constitutions greatly shattered, and constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will prevent the Blue Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give a healthy appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and beautiful, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

DR. MOTT'S
CHALYBEATE
RESTORATIVE
PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Immediate in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bedridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if resurrected from premature sepulchres or a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous stimulation, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the hypochondria has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old nostrums, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which is the cause thereof.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and complete prostration, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicinal iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liability.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the now settlements of the West, will probably be one of high renown and usefulness.

A remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects—giving appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 18 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

R. B. LOCKE & CO., General Agents.

☞ They get up their refreshments in Kentucky on the largest scale. At a Breckinridge barbecue at Ashland, five beeves, one hundred and thirty sheep, and one hundred shoats were roasted whole, and there were served up in addition sixty lambs and two hundred and thirty gallons of soup.

The Wide Awakes are preparing for great things in New York on the 3d of October. The committee having the matter in charge have received notice to the effect that sixty thousand Wide Awakes will participate in the affair. Each man purchases his own torch, cap and cape, at an expense of three dollars, and the cost of entertaining him will amount to as much more, so that the whole expense of the demonstration will not fall short of four hundred thousand dollars.—*Boston Post.*

☞ Hon. Daniel S. Dickinson of New York thinks very unfavorably of the fusion, as may be seen by the following extract from a late speech of his at Binghampton:

Douglas and Hunt's homogeneous fusion in the State of New York will not come within fifty thousand votes of Lincoln.—And I advise my friends, if there be any who are dissatisfied with the view of slavery laid down in the platform of the national democracy, to pack their duds and leave for the Republican camp, without delaying one moment in the fusion half-way house. The gulf between the national Democrats and the Douglas men is as wide as was that between the rich man and Lazarus.

A letter from Havana to the Charleston Mercury says:—Last week at a ball given in a private house, a person named Dr. Rafael Marise, who was dancing, fell down dead in the middle of the saloon, and just imagine the confusion, shrieks, fainting fits among the ladies. Such a rush as you never did see took place when the owner of the house sent for the commissary, as although the death of the man was quite natural and no one's fault, still the vexations attending being called upon as witness are so great, that the room was soon cleared.

CHOICE EPITHETS.—The Boston Post says:—

'Hangman' Foot was in Memphis recently, and received in that city a political scourging from Col. Hindman, of Arkansas, and which will serve him as a warning for the rest of his life.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His **Panacea** is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cordial of Dandelion, Spikenard and Boneset,—a remedy unsurpassed for the Liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has tried or known during the whole 40 years of his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents.

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 38 cts; large, 50 cents.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of

APPLEDORE HOUSE,
ISLES OF SHOALS.

This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing its capacity. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests. *An abundance of sweet cream and milk is supplied from healthy cows kept on the Island.* The table is faultless. The facilities for fishing have been increased by the addition of new boats and experienced skippers.

When to all these advantages are added the purity of the air—the delicious coolness of the ocean breeze, its invigorating and appetizing power—the loveliness of the scenery—the glory of its sunsets—the cleanliness of its walks—its freedom from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can attain. The equability of the temperature is a natural advantage over the coast or the mountains, which invalids can fully appreciate.

A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Pier Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accommodation for the comfort of passengers which a Packet requires.

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, stop from falling if in any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly increasing popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; feeling as I do, that use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald over since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,
THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative I soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $8 a bottle.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, SEPTEMBER 26, 1860.

A CRAZY MAN.—The Washington correspondent of the New York World gives notes of Mr. Yancey's speech at Washington Friday evening:—

Mr. Yancey made a speech to the serenaders to-night, in which he welcomed men of all parties except Republicans. He said the South was for union, and determined to maintain it by *minority* power as the constitutional safeguard.

He believed the North was now arming, at midnight, millions of Wide Awakes to march on the South. They would find the South Wide Awake. She is determined to maintain her rights in the Union.

If she cannot maintain her rights in the Union, she will entrench herself on the mountains near Augusta, and make that city the capital of a Southern confederacy.

In reply to a question by one of the crowd as to what he would do if Lincoln was elected, he said that if the desolated homes, the murder, rapine, and arson in the South, and the strychnine distributed there by the North, did not speak for itself, the question need not be answered.

To which the crowd shouted—"Too many 'ifs.'"

He hoped New York would rally and not let the North be the means of dissolving the Union. New York and Boston were too much dependent on southern commerce to let the Union slide.

He said he was falsely charged with being a disunionist. He was for union.—There were twice as many prominent men North for disunion as South. He averred that the South could not feel safe from John Brown raids in case Lincoln was elected.

Poor man! he's gone clean daft as a Scot would say. The Boston Herald retorts upon Mr. Yancey pretty severely.—The Herald says:—

No man has done so much towards the election of Mr. Lincoln as this same Wm. L. Yancey.

Now they behold their own faction repudiated at the South, and by running Breckinridge at the North, the election of Lincoln is rendered almost certain, and these hot-heads are getting frantic. Let the ultra Southern orators turn their attention homewards, and withdraw their candidate from the field, who is simply dividing the party for the benefit of the Republicans.

The North can stand the election of Mr. Lincoln as long as the South can. It will not fret the North to see the hordes of Southern men, now filling all the Departments of Government, have permission given them to retire. It will not fret the friends of Douglas to witness the exodus from our custom houses and post offices of the fawning sycophants of Southern dictation in the free States, and to see them hurled from the high stations which they do not respect, into that graceful retirement which they are so well fitted to adorn.—Should Mr. Lincoln succeed, the work of decapitation will be thorough and complete; not a man will be left to tell the tale of destruction brought about by their own damnable management. They will find no sympathy in the dark hour of their affliction.—The verdict of the whole country will be—served them right.

No bullying nor threats will move the Northern Democracy from the position they have taken. They have been wounded in the house of their friends, and the insult remains to be avenged.

WRECK AND LOSS OF LIFE.—Schooner Neptune's Bride, Capt. Jacob Brown, of Gloucester, while returning from a successful cruise to the Eastward, was caught in the storm of Thursday last, and at about 10 P. M., while going under foresail, ran on Malcomb's Ledge, between Seal Island and Wooden Ball. The captain and eleven hands were lost in the surf in attempting to land on the ledge in the boat immediately after the schooner struck. Two men were left on board.

The schooner bilged in about half an hour after striking, filled and worked off into deep water. The men took to the masts. One was washed off and drowned early Friday morning. The other, Joseph Marsh of Gloucester, was taken off at 4 P. M., on Friday. It is reported that one of the twelve men capsized in the surf regained the boat and was picked up and taken to the Isle Au Haut.

FATAL EXPLOSION.—At Pittsburg, Pa., on Monday, Sept. 24, the steam boiler at the marble works of W. W. Wallace exploded, killing and wounding several men. It passed through the rear of the building, which it ruined, and struck in front of Robert Barker's clothing store, killing the proprietor, and then passed through the rear wall of the store into a lager beer hall, destroying that, and killing a man. It finally landed in a grave yard, after passing through four walls. There were 100 men in the marble works, of whom it is supposed twelve were killed.

INSTANTLY KILLED.—A man named John Edwards, employed in carting ice in Boston, was instantly killed Monday, on Washington street, opposite the Malone block, by a heavy cake of ice falling from the cart and striking him upon the breast.

☞ At the inquest on the body of Fortier, who was shot by Pope, at Quincy, a witness testified to Pope's jealousy of Fortier, on account of some improper intimacy which Pope said he had seen between F. and Mrs. P.

TROUBLES IN AUSTRALIA.—*Melbourne, July* 25.—The troops had been repulsed at Wartard, and retreated with considerable loss. They had been subsequently reinforced. Business was stagnant.

Sydney, July 21.—There had been a monetary crisis and several failures, the total liabilities of which amounted to £120,000. There had also been severe storms, which occasioned much damage to the buildings.

WEST HARWICH, Sept. 22.—A stable and store belonging to H. H. Sisson, with seven horses and a stage coach, were burnt last night. Loss $2500; no insurance.

NEW ORLEANS, Sept. 24.—The Picayune gives a rumor that 20,000 men were being fitted out at Havana for an expedition against Vera Cruz.

[Rather an improbable rumor.]

FLORA TEMPLE.—*New York*, Sept. 24. The two mile trot between Flora Temple and Patchen was won by the former in two straight heats. Time, 4:35 1-4; 5:00.

FILLIBUSTERS.—*New Orleans*, Sept. 24. Schooner J. H. Taylor, from Truxillo 13th, has arrived with 28 of Walker's men as passengers. Gen. Walker and Col. Rudler, imprisoned at Truxillo, were to be shot on the 14th.

ST. LOUIS, Sept. 24.—Twenty-five tenement houses were burnt yesterday. A child was burnt to death. Three hundred people were rendered houseless. Loss $10,000.

STOCKBRIDGE, MASS., Sept. 24.—Several persons were injured in a fight between some Irishmen and negroes, yesterday, at the negro campmeeting. Clubs, guns, &c., were used.

NEW YORK, Sept. 24.—A widow, named Hannah Jones, was shot dead to-day, in Morris street, by Wm. Harris Pierrepont, to whom she was engaged to be married.

☞ The Boston Post argues at length in favor of a union of the two democratic parties in Pennsylvania, so as to defeat Lincoln,—and says:

"It is a relief to turn from the miserable confusion in once proud New York, to this glorious Union horizon. Let *but* the Democracy of Pennsylvania *present* the curse of Lincoln's election, and it will crown itself with glory."

Per contra, the editor of the Atlas, who has been visiting Pennsylvania, says:

"All the best informed parties whom we met in our recent tour in Eastern Pennsylvania assured us of their entire confidence in their ability to carry the State in both elections, and we know no reason for doubting that their opinion is correct. We believe that Col. Curtin will be elected Governor by at least ten thousand majority, and that the Lincoln and Hamlin Electoral ticket will prevail in November by more than double that majority."

☞ Some students of Dartmouth College, in accordance with a foolish and contemptible custom, lately abused a young freshman named Fowler. For this, five students were bound over to appear at February Court. In anger for this, they or some of their clan, the next night, hung an effigy of the boy's father, Judge Fowler, and threw stones and assafœtida into the young man's room.

If these last acts can be fastened on the same puppies, they should be kicked out of college. And for the former, they should be punished like any other rowdies, without "benefit of clergy."

A DENIAL OF THE WHOLE.—The Douglas State Executive Committee of Pennsylvania, publish a card stating that as much has recently been published on the subject of alleged propositions for fusion in Pennsylvania, the public are informed that the question of fusion has at no time been entertained by that committee.

☞ The Breckinridge Democratic Party will meet at Concord to-day, Wednesday, to see about nominating an Electoral Ticket.

☞ Senator Iverson of Georgia recently stated in a speech that the States of Maryland, Virginia, Kentucky and Missouri, will soon be abolitionized.

☞ Amos Kendall's declaration that, in the event of Southern secession, on account of Lincoln's election, there will be 200,000 men ready to assist the latter in enforcing the laws, has created a sensation among the fire-eaters. They denounce him as an abolitionist.

☞ They are talking of erecting a monument to Capt. Cook in London.

☞ The Brighton, Eng., Guardian records the death of a clerk named Bellringer, in that town, from sucking his pen. A slight wound in his lip being open, the ink produced erysipelas and death.

☞ Rev. J. W. Beckwith, of Boston, author of "Immersion not Baptism," has become a member of the Vermont bar.

NO DANGER.—Mr. S. L. Goodale, of Saco, says there is no reason for believing that there is a single case of pleuro-pneumonia in Maine.

☞ The Montreal Witness says the luxurious growth of after-grass will do much to repair the deficiency of the hay crop. It will also tell favorably on the amount of butter produced this fall.

A FAST WALKER.—Mr. William Sweetser walked from Fort Fairfield to Presque Isle in one hour and thirty-six minutes, a distance of eleven miles.—*Bangor Whig.*

The Press tent at the National Agricultural Fair in Cincinnati, is called the "Quill Drivers' Caboose."

CASSIUS CLAY'S EXPERIENCE.—The Hon. C. M. Clay said in a speech made a few days since in Illinois:—

"I was born in old Kentucky.—I offered to discuss this question of slavery right where it existed. What then did they say? Look at the hypocrisy of this slave Democracy! They said: 'Why, Clay, if you think slavery is such an infernal thing—why don't you liberate your slaves? Prove your faith by your works.'

"I thought there was a great deal of force in that argument, and although I was not very conscientious about that matter, yet seeing that I was drifting in that direction, and willing to go with the tide in favor of freedom, which was so strong, I did liberate my slaves—every one I held on earth.—(Applause, and cries of 'good,' 'amen.') No man now calls me master—nor woman either, unless she does it through affection. (Great enthusiasm for Clay.) Then when I went out to advocate the same principle, what did they say? They turned on me: 'Why, Clay, what have you to do with this question of slavery? It is none of your business; you don't own any slaves.'"—(Loud laughter and cheers.)

THE NEW POSTAL ORDER TO BE RESISTED.—According to the Philadelphia correspondent of the World, the postal order that the streets of the city shall be considered as post routes, is to be resisted by the proprietors of Blood's Dispatch. The carriers go round five times a day; the boxes are numerous, and his system has found universal favor. The government has instituted a suit, but having the sympathies of the public, the proprietors are continuing their dispatch, and are determined to test the validity and the authority to make the order, in the highest court of the land.

MILKING BY MACHINERY.—Mr. B. D. Kershaw—who lives six miles from Philadelphia, and supplies the Continental Hotel with milk and cream—is actually milking his cows by machinery. All the teats are drawn from by suction at once, and one man milks twenty-five cows in an hour. Mr. Kershaw has purchased half the patent of this new and novel machinery, and intends to apply steam-power, and milk thirty cows at once.

DR. LIVINGSTONE.—The celebrated African traveller, Dr. Livingstone, is to have another steamer, which has been sent out by the English Admiralty, to enable him to proceed with the exploration and navigation of the Zambesi. The screw steam sloop Pioneer, of 350 horse power, has recently departed from Woolwich, fully laden with stores for the intrepid explorer and estimable man who is enlarging our information of that hitherto unknown portion of the globe.

☞ Application has been made by the Republican Association for permission to raise a liberty pole in Washington city.—The Mayor consented as did also the Commissoner of Public Buildings, at first, but after nine days delay in an examination of the laws, Dr. Blake discovered that it was unlawful to erect liberty poles in the district and therefore the permit was withdrawn.

☞ The Mayor and Aldermen of Bangor have recently examined packages of liquors condemed under the law and found twenty of them unfit for medicine or mechanical purpose. Such stuff it is that the guzzlers of these times drink. It matters not what they swallow if it has the flavor and the fuddle.

S. E. Flannigan, a Douglas candidate for State's Attorney in Illinois, has come out, in an able letter for Lincoln. He says that Douglas is still his first choice, and he has been ardently laboring for him, but he finds by this means that he is only aiding the election of a disunionist—John C. Breckinridge. Nor does he wish to throw the election into Congress for the benefit of Joe Lane.

SUDDEN DEATH OF A WELL-KNOWN TROTTER.—On Tuesday morning the well known Kentucky trotting horse "Zack Taylor," recently renamed "Bayonne," was being driven at a pretty good trot on the speed track, at the National Fair, Cincinnati, when he suddenly reared and fell over upon his side, "dead as a herring red."—He was the property of Mr. Ashley, of Nunda Valley, New York. He was eighteen years old, and has seen much hard service, having trotted many races. His best recorded time was 2:35, but he was said to be one of the quickest horses known to the half-mile post.

A CELEBRATED BANK ROBBER PUT AWAY.—John W. Rand, the notorious bank robber, was sentenced a few days since to the New Jersey State Penitentiary at Trenton, for six years, on the charge of robbing the safe of the Trenton and Belvidere railroad company, at Lambertville, in 1856, of a considerable amount of money. Soon after his arrest he escaped from the county jail, but was again "pulled," and is now snug enough in "quod" for some time to come.

☞ The Bangor Whig and Courier says that the total vote of the recent election in Maine will reach 123,000, which is over 2000 larger than the immense vote of 1856.

☞ It is estimated that no less than thirty men have been killed or wounded for life by threshing machines, in Indiana, during the present season.

THE LADY ELGIN.—*Chicago, Sept.* 24. The Corner's Jury in the case of the Lady Elgin calamity, have returned a verdict that the steamer was perfectly sea-worthy, but had a larger number of passengers than the law allows. The first cause of the collision is stated to be in the verdict defective management of the lights on the sailing vessel, although according to law.—It censures the second mate of the schooner in not informing the captain of the steamer's lights when the latter came on deck, and found him incompetent for the position he held. It censures the captain of the schooner for not anchoring to render assistance, and gives, the opinion that all lake steamers should have water-tight compartments.

Two of the jury protest against the verdict, believing the steamer to have been mismanaged, and the lookouts insufficient. They also believe the steamer to have been inadequately supplied with boats and life preservers. They think the loss of life is due to the culpable neglect and disregard of duty by the Marine Inspectors.

NEW YORK, Sept. 25.—Official advices at Washington announce that General Lane is about leaving for Vera Cruz, with troops to operate against Mexico. Marquez has been liberated by Miramon and given command of a division of 5000 men.

The Times correspondent at Callao states that the commander of the U. S. naval forces in the Pacific had been called upon by the American minister at Peru to proceed at once to the Peruvian waters with all available vessels.

DISTRESS IN KANSAS.—Thaddeus Hyatt writes from Anderson county, K. T., giving an account of the drought—whole families with nothing to eat—starvation begun—great stampede among the settlers—organization of relief committees, &c. Mr. Hyatt implores assistance, as follows:

"Friend of humanity, wait not—O, wait not, I beseech you, until the opened heavens shall flood the land with rains that shall add sickness to poverty. For then what shall these poor people do? Delay not your work of mercy until drifting snows and driving sleet shall intensify suffering already too great to be borne. For the love of God, I pray you postpone not your philanthropy an hour. Believe me, there is no time to spare. Let not the wailing winds of March be the requiem of the dead who shall have perished for want of your timely aid."

Wistar's Balsam of Wild Cherry.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases of *Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Asthma, Inflammation of the Lungs;* while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

From the Editor of the Portsmouth (N. H.) Journal, Aug. 11, 1860.

WISTAR'S BALSAM.—There are but few medicines of which we can express an opinion from personal knowledge. Among such we place prominently WISTAR'S BALSAM OF WILD CHERRY, which should always be kept on hand. It is an excellent medicine not only for *Coughs* and *Colds*, but also for neuralgic affections. We have known suffering from the nerves of the stomach effectually relieved by its soothing influence where other medicine has been ineffectually used.

From a highly respectable Merchant.

FALMOUTH, ME., Aug. 10, 1860.

Messrs. S. W. FOWLE & CO.,—

Gents:—For a long time I have suffered more or less with that distressing affliction—*Phthisis*—in its worst forms, and have resorted to various so called remedies, but to no purpose as affording the desired relief. Deprived of my sleep by reason of the severity of the disease, it was only too evident that I was fast breaking down under it. I resorted to DR. WISTAR'S BALSAM OF WILD CHERRY with but little confidence as to its curative properties, but the use of one bottle has entirely rid me of this monster; and to the public I can safely commend it as every worthy their confidence. Most resp'ly, S. I. MERRILL.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

SPRINGFIELD, N. H., April 19, 1855.

My daughter has been troubled with the Scrofulous Humor, causing swelling of the neck, for a number of years, and by the use of four bottles of Dr. S. Swett's Panacea, the disease has been entirely removed, and her health is good.

JANE B. ELLIOTT.

The above testimony of my wife is true.

ENOCH B. ELLIOTT.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

FOR SORE, WEAK, INFLAMED EYES AND EYELIDS!

A true specific, and invaluable remedy has been at last discovered. Dr. Humphreys argues that those affections invariably result from a constitutional disease, of which the local affection is the only outward manifestation. Hence, HUMPHREY'S SPECIFIC HOMŒOPATHIC OPHTHALMIA PILLS are only taken internally, and yet cure the worst forms of obstinate sore eyes and eyelids, which have resisted all other treatment. All cases of sore and inflamed eyelids, or failing, weak or defective sight, will be promptly benefitted, and the cure of the worst cases is only a question of time.

Price, 50 cents, with directions.

Sent by mail or express, free of charge, on receipt of the price.

Address, DR. F. HUMPHREYS & CO., 562 Broadway, New York.

For the Chronicle.

Messrs. Editors:—In the good old times, when the tactics of politics were not so carefully studied as to effect, or when economy and honesty were more practiced than of late years, in our town or city affairs, we used to have the accounts published *before* election; but of late, since the expenses have nearly or quite doubled, we have had the city accounts *after* election; the object of which any one can easily imagine. Now that we have almost a new Board, would they not conform to the general wish of the citizens and do themselves much credit, by returning to the honorable old way. The object of going to the expense of having the accounts printed, was to check improper or lavish expenditures; but in the way it has been managed of late years, it is probable that not more than one-half of the object has been accomplished, although the expense has remained the same. S. B.

☞ At an adjourned meeting of the Portsmouth Washington Total Abstinence Society, held Monday evening, Sept. 24, the following officers were chosen for the current year, viz:

Rev. Tobias H. Miller, President; William C. Hatch, Vice President; Frederick W. Rogers, Secretary and Treasurer. John W. Fernald, Esq., Auditor of Accounts. Rev. Messrs. Howe, Leavitt, Hall, Gage, Eddy, Reed, Patterson and Pratt, John W. Fernald, Meshach Bell, Executive Com.

It was voted to invite each of the ministers chosen on the Executive Committee, to deliver a lecture on temperance.

☞ Mr. Perham has arranged an Excursion from Portsmouth and way stations to Boston and back, over the Eastern Railroad, to come off next Saturday,—giving opportunity to see the Mechanics' Fair and other "lions" or "elephants," and to enjoy a cheap ride on a good railway train. For particulars, see advertisement.

PAPERS WANTED.—We will thank any of our friends who do not save their papers, for a copy of the Morning Chronicle of Tuesday, Sept. 25. We want a dozen or two.

☞ Messrs. Bachman & Co. have opened a new branch of their business, viz: an extensive Stock of Millinery, which they advertise to-day in good set terms.

EXCURSION TO CONCORD ABANDONED. On account of a mistake on the part of the managers of the Railroad, the Excursion to Concord on Thursday will be given up. Arrangements were entered into in good faith by all parties, and bills were issued accordingly. The failure is one of those occurrences for which nobody is really to blame, and is as sincerely regretted by the managers of the road as by any one.

☞ In the Newburyport Police Court, Monday, Michael H. Leary, Albert H. Austin and John McDonald, were examined for highway robbery, in knocking down and robbing one Reuben G. Randall of Portsmouth. The two first named are fair representatives of a class of scoundrels who infest the city, preying upon the unwary, and pilfering as their necessities require. They have frequently been before the Court for minor offences, and emboldened by success, have now graduated to the advanced class of State Prison criminals. It appeared that McDonald and Leary each took an arm of Randall on Saturday night, for the purpose of a walk, and conducted him through several streets until they met Austin, when one of the party tripped him down, while the hand of another tightly grasped his throat, and the third ruffian rifled his pockets. The officers visited the premises of Leary, and beneath the privy floor discovered the pocket book which was stolen from Randall, with most of the money. Various articles of stolen property were also found; among them a silver watch and a set of jewelry stolen from another party. The penalty of the above offence is very severe, as follows: "Whoever assaults another and feloniously robs, steals and takes from his person money or other property which may be the subject of larceny, shall be punished by imprisonment in the State Prison for life, or for any term of years." The parties were ordered to recognize in the sum of $600 each for their appearance at the October term of Superior Court at Lawrence, failing in which, they were committed.

SENTENCED.—Howard and Anderson, the Boston thieves, convicted of robbing a silk store at Manchester, N. H., and suspected of having robbed Grant & Co.'s store in Boston, have been sentenced to five years' confinement in the New Hampshire State Prison.

A REBUKE.—A clergyman of Boston on Sunday evening, in the course of his address, remarked; "Frequently when I have been describing the inevitable fate of the poor sinner, who, persisting in his evil career, at last perishes in everlasting torment, I have been put into a pulpit sweat by some over zealous brothers vociferating 'Amen.'"

At the Horticultural show in Boston, one contributor shows fifty-eight varieties of the potato. What a paradise for an Irishman his farm must be.

A BALLOON VOYAGE. — On Monday, Dr. W. H. Helme, with Wm. Hill and Peter Dean, amateur aeronauts of Providence, R. I., made a very successful balloon voyage from Providence to Newton, N. H., ninety miles, in five hours. They landed in safety during a stiff breeze, but while drawing off the gas, the balloon, which was hitched to a tree, was struck by a squall which burst the nettings and allowed it to escape. It was blown rapidly away to the north, and finally, at about 3 o'clock in the afternoon, being much torn and damaged, fell in Kittery, Me., near the railway station.

A son of Daniel Decatur, of Bennington, died last week of that distressing malady, hydrophobia. He was bitten last April, with two other children and two sheep, by a dog supposed to be mad, which was killed at that time. One of the sheep died, but the other, and the children, have appeared well until this boy was attacked and died, seemingly, in great distress. Drs. Hurd, Burtt, and Rand, were called, and all pronounced it a sure case of hydrophobia.—*Statesman.*

OXYGENATED BITTERS.—The cures effected by this remedy are truly astonishing. The confirmed Dyspeptic regains his pristine vigor, the Asthmatic "breathes freer," Indigestion disappears. These *bitters* produce these wonders. Let all who suffer try them.

FAIR SAILING AND SPORT AHEAD!—The "VIKING" is in trim, and will sail the "LIVE YANKEE," for a purse of $500, on THURSDAY, the 27th inst., from "Frost's Point. Let a good crowd be there to witness the fun and see and say who shall "stop blowing." VIKING.

On Thursday, the 26th inst., at the same place from which the "Viking" and "Live Yankee" sail, there will be a Race for boats of 25 feet in length, and under, the Race to be three miles out and return; one minute to a foot to be allowed to small boats.

Entrance fees will be $2 each boat. First Prize will be two-thirds of entrance fees. Second Prize will be one-third of entrance fees. All entries to be made at Market Street House, to WM. SAWYER.

LYMAN'S

Improved Patent Metallic Soles.

PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. **J. C. CARR.**

HANNIBAL HAMLIN, by John L. Hayes,

With Portraits on Steel.
Complete in 1 Volume, 12mo, 408 pages. Price $1.

The Life of Mr. Hamlin has been prepared by one who has known him well and long, and will be found to give an interesting account of the struggles of his earlier years, and his rapid promotion by the people of Maine. Extracts are made from his speeches on the Fisheries, Admission of Texas, Repeal of the Missouri Compromise and Admission of Kansas—in all, about one hundred pages; being more full and complete than any other offered to the public.

For sale by JOSEPH H. FOSTER.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street,** opposite the New Custom House.

Peremptory Sale of Real Estate

ON COURT STREET.

Will be sold at Public Auction,

On Saturday, the 29th day of September inst., at 12 o'clock, noon,

ON THE PREMISES,

The two-story HOUSE and LAND No. 45 Court street, corner of Atkinson street, now occupied by Mr. Wilbur B. Waite, and adjoining the estate of James P. Bartlett, Esq.

Said house is in good repair, having recently been put in excellent condition, both inside and out. It has parlor, sitting room and kitchen, with four chambers; also, water conveniently introduced, gas, &c. The Lot has a front of forty-seven feet on Court street, extending twenty-three feet on Atkinson street.

The central location of this estate renders it a desirable place for those whose business calls them to any part of the city, or the Navy Yard. The house now rents to a desirable tenant, at the rate of $90 per year, and is sold only because the proprietor has removed to a distant part of the State. The premises are offered at private sale until the twenty-ninth inst., when, if not disposed of, they are to be sold to the highest bidder, without reserve, and may be examined, and further particulars will be given, on application to

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

Humphreys' Specific Homeopathic Remedies for the People

THE Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that general and long felt want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will serve to show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhœa, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Hence these remedies supply a great public want. Being on hand, ready, so you know at once what to take—pleasant, so as to cause no regret—safe, and time according no risk, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger averted.

Experience has amply confirmed the use of these remedies for families and private persons, as being true and reliable, very more useful and convenient, and most prudent and reliable.

Thousands are and have been using them for some five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur and Phosphorus**, which is identical in its composition with the *Hematic Globules*, or *red blood*.—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like appearance of the countenance, — which evinces a considerable deficiency of the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before at tained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, cause the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton form with flesh. The **Blood Food** will be found a specific to all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaint, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vius' Dance, and Ague, &c.*, its efficacy is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which lead towards Consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites, &c.*, especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who have become conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through over-use, either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Emaciation*, and in all diseases of the *Kidneys or Bladder*, this preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the "**Blood Food**" to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patant or official, in point of usefulness. Circulars giving full Testimonials which this remedy is founded, also certificates of remarkable cures, will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, or six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper. None other is genuine.

GROVER & BAKER'S
Celebrated Family Sewing Machines.
FOR FAMILY USE.

From the very flattering manner in which our Machines have been received by the public, resulting in the sale of

we are led to believe that our endeavors to manufacture a RELIABLE MACHINE have been appreciated. We take this opportunity to remark that the policy will be unchanged, and that

THIRTY DIFFERENT PATTERNS,

FAMILY SEWING.

A FEW CERTIFICATES OF THE GREAT SUCCESS
—of the—
Grover & Baker's Sewing Machines.

[From the wife of the Hon. Jefferson Davis.]

Mrs. Jefferson Davis presents her compliments to Messrs. Grover & Baker, and takes pleasure in saying that she has used one of their box Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it for public favor.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable.—She says she would not take ten times the cost for any other one. It is certainly one of the grandest inventions ever made for the relief of woman-kind, and I would recommend every family to get one as soon as possible.

Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEY & FAIRE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says,—"We would recommend to families and to those about to organize a homestead, *to be sure and have a Family Sale, and also one of Grover & Baker's SEWING MACHINES.*

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance, It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, and weak nervous cases.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become depleted, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, always find relief, and by using the invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertion, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combination in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods have suddenly reappeared in the world and returned from protracted travel in a direct line. Some very signal instances of this kind are related in Circulars of this date, and in cases of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of diseases which induces aversion to air and exercise for which the physician has no remedy.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over bearing, and purely, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inducing a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Fits, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent fever, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has hitherto been well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

AN IMPORTANT DISCOVERY AT CHICAGO.—The Chicago Democrat chronicles an important discovery which has recently been made in that vicinity. It says a large quantity of "prairie stone," near the western suburbs of that city, has been found to yield immense quantities of gas and saltpetre. Here is an account of the discovery, which was brought about while searching for indications of oil:

A small bit of this stone, a piece perhaps four inches square, was taken by Mr. William Cumberland, a well-known chemist of Chicago, a day or two since, for the purpose of endeavoring to extract oil from it. The experiment, so far as the end in view was concerned, was a failure; but, in the progress of it, other discoveries were made of startling importance and great interest. The stone had been broken up and placed in a retort, which was then subjected to the action of heat. A vapor was seen to issue from the neck of the retort, and on a match being applied, it ignited and burned brightly for half an hour. It gave a light fully equal to the same volume of coal-gas, and emitted no odor of any kind! The burned stone was then analyzed, and found to contain fifty per cent. of saltpeter, which, being removed, the residue was excellent lime! Here was, indeed, a discovery! A stone was found, existing in inexhaustible quantities, and obtainable at very little cost, which made gas as well and as freely as the best of coal; which yielded fifty per cent of pure saltpeter, and which then was as good lime as could be had anywhere. Additional experiments having been performed in the presence of the Superintendent of the Gas Works and others, resulting in a confirmation of the discovery, arrangements have been made to experiment on the manufacture of gas from prairie stone. A retort and gasometer will be prepared at the Gas Works, and a large quantity of the stone submitted to a test which will leave no doubt of the practical benefits growing out of this unexpected discovery. The Chicago Stone Coal Mining Company have, as it were, stumbled into an almost incalculable fortune. They own twenty acres of land filled with this trebly-valuable stone, and suddenly find it advancing in value from six or eight dollars a cord to forty or fifty dollars a cord!"

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents.
Late Agent of U. S. Patent Office, Washington, Under the act of 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent published by permitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE. The subscriber's success SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 3, 1858.
"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS; EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

APPLEDORE HOUSE,
ISLES OF SHOALS.

This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing its capacity. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests. *An abundance of sweet cream and milk is supplied from healthy cows kept on the Island.* The table is faultless. The facilities for fishing have been increased by the addition of new boats and experienced skippers.

When to all these advantages are added the purity of the air—the delicious coolness of the ocean breeze, its invigorating and appetizing power—the loveliness of the scenery—the glory of its sunsets—the cleanliness of its walks—its freeness from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can attain. The equability of the temperature is a natural advantage over the coast or the mountains, which invalids can fully appreciate.

A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Her Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accommodation for the comfort of passengers which a Packet requires.

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and from falling off in any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.
Prof. O. J. Wood:—Dear:—Your Hair Restorative is a valuable gift to this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effect of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription I tried.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.
Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.
Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to address to you the following circumstances, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since the time of his youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he used very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement. I give this to you at the request of Mr. Bradford. You can tell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.
Yours, &c.,
THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color, about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative, it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes: viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

THURSDAY, SEPTEMBER 27, 1860.

THE BAMBOO TREE.—The great reed called the Bamboo shoots up a considerable number of canes from the same bottom, which are nearly the thickness of a man's thigh, and grow to the height of fifty or eighty feet. The leaves are small, narrow, and pointed, springing from the knots. The trees wave in the wind, presenting a very elegant feathery appearance. The pith of the young shoots, which is of a white color, makes an excellent pickle, of as soft a consistence as beet root. Williamson thus describes its important use to the natives of India in the construction of their dwellings:

The material of which their houses are made is always easy to be procured, and the structure is so simple that a spacious, and by no means uncomfortable dwelling, suited to the climate, may be erected in one day. Our habitation, consisting of three small rooms, and a hall open to the north, in little more than four hours was ready for our reception: fifty or sixty natives completed it in that time, and on an emergency could perform it in less. Bamboo grass for thatching, and the ground rattan, are all the materials requisite: not a nail is used in the whole edifice. Strong bamboos, in a row of from eight to ten feet high, are fixed firm in the ground, which describe the outline, and are the supporters of the building; smaller bamboos are then tied horizontally, by strips of the ground rattan, to these upright posts. The walls, composed of bamboo mats, are fastened to the sides with similar ligatures. Bamboo rafters are quickly raised, and a roof formed, over which a thatch is quickly spread in regular layers, and bound to the roof by filaments of rattan. A floor of bamboo grating is next laid in the inside, elevated two or three feet above the ground; this grating is supported on bamboos, and covered with mats and carpets. Thus ends the process, which is not more simple than it is effective.

When the workmen take pains, a house of this sort is proof against any inclement weather. We experienced, during our stay at Meeaday, a severe storm of wind and rain, but no water penetrated—our thatch escaped; and if the tempest should blow down the house, the inhabitants would run no risk of having their brains knocked out, or their bones broken—the fall of the whole fabric would not crush a lady's lap-dog.

The bamboo bears neither blossom nor fruit, but is propagated by suckers. In windy, dry weather their friction while waving often causes them to take fire, occasioning the hills on which they grow to assume a beautiful appearance at nights."

MR. KALLOCH AND THE ERA.—The Christian Era, a very able Baptist paper published in Boston, says under date of Sept. 21:—

It is currently reported on what appears to be good authority, that Mr. Kalloch has left the ministry for the law. We have only to say that if the law is more important in his estimation than is the gospel, or if his conscience will approve the change, he had better be at the bar than in the pulpit. There is a responsibility resting on him which he cannot answer at any earthly tribunal.

We think Mr. Kalloch has acted wisely in retiring from the ministry. He was accused of a gross crime; the grand jury found a true bill against him; the testimony at the trial was terribly blasting to his reputation,—and he did not get the verdict not guilty; he escaped the State's prison by a *disagreement* of the jury! The subsequent history of the person who was implicated with him in the alleged crime, has not made the case look any better. Mr. K. has voluntarily left the ministry, for the ministry's good: and every friend of clerical purity and decency should thank him for the movement.

☞ The Society of Orangemen is so called after William of Orange, who in person, defeated the deposed King James II. of England and his followers at the battle of the Boyne, which was fought on the 1st of July 1690. The association was instituted in Ireland, in 1795, on a politico-religious basis, with the specific design of upholding the Protestant religion and ascendency, and for the discouragement of Catholicity.

AN INSANE MAN visited Plum Island early on Tuesday morning, having a bible with a cross stamped on the cover. He was of Irish origin and undoubtedly a Catholic. He stopped at the hotel and then went over to the beach, but shortly returned entirely naked and having nothing but his bible wrapped in a handkerchief. Capt. Remick gave notice to the police of Newburyport, and they took him in charge.—His name was John Walsh and he hails from Newfoundland.

PRESBYTERIAN ASSEMBLIES.—There are now four Presbyterian general assemblies in this country, two of which cover only the Northern, or free States of the Union, viz: the New School and United Presbyterian; and two which embrace the whole country, viz: the Old School and the Cumberland Presbyterians. The latter body, however, is confined, to a great extent, to the Southern and Western States in its operations.

All this is very true: but then the *Cumberland* Presbyterians resemble the other three in doctrine and usage, about as much as a hawk resembles a handsaw.

DESPERATION.—We have already mentioned the murder, at Burrillville, R. I., of a Mr. Phetteplace, by his wife. A correspondent of the Boston Journal, living near, gives some sadly interesting items of their life, if life it can be called.

They resided back in the woods near Herring Pond; he was a very dissipated, worthless fellow, and when intoxicated would beat his wife unmercifully. Last Monday week he pounded her with a dung beater, breaking the handle over her body. Wearied with the cat and dog life they had lived, she very coolly and deliberately made up her mind to take his life the first opportunity. On Saturday morning last he came into the house and laid down on the floor and went to sleep. She then deliberately took an axe, and struck him on the back of the neck; she gave him a second blow in the same place, but he never moved after the first blow. She then took him by the legs and drew him out of doors under an apple tree; went back, washed up the floor, and went about her work as usual. When the deed was discovered she showed no signs of any regret whatever, but related the circumstances as coolly as though it had been some casual occurrence. An inquest was held and a verdict of murder rendered.—She was then arraigned, plead guilty, and was fully committed to await the action of the Grand Jury.

She stated that she well knew the consequences of the act, but that if there was any change in her condition it would be for the better, and that she had been brought to it by years of suffering. He was aged about forty-four years, and she fifty years. He leaves two children, one a girl about eighteen years, and a boy about thirteen years old. Her family have nearly all come to some tragical end. One brother was killed on the railroad; another shot himself only a short distance from where the last act occurred; her father was found dead; her first husband hung himself, and she has now killed the last.

CUI BONO?—The Manchester Union Democrat, speaking of itself and Democratic papers, says:—

What did we fight for in 1856? Popular Sovereignty. What is that? The Breckinridge men tell us it was that the people of the Territories *when* they come into the Union as States, shall determine for themselves whether they will have slavery or not. Was this this all? Then we fought for a right which no one ever questioned, for even the Republicans never denied the power of the people, when they came into the Union, to have slavery or not. If that was all we meant, we might as well have done nothing: for nothing was more secure than the object for which we labored.

☞ Two Arabian horses arrived at Boston on the 12th inst., from Beirut, Syria, which were presented to Senator Seward during his recent tour in that country. They were a gift from an officer of the Turkish government. The lot comprised three Arabian animals, but unfortunately, on the sixth day out, the mare died of some disease contracted before embarking.

THE WEYMOUTH POISONING CASE.—*Hersey Indicted for Murder.*—The Grand Jury for Norfolk, at Dedham, have found an indictment against George Hersey for the murder of Betsey Frances Tirrell, daughter of Wilson Tirrell of Weymouth, whose sudden and mysterious death, as also that of her sister Mary, caused so much excitement several months since.

GENEROUS CORPORATIONS.—The manufacturing corporations at Lewiston, Me., on the 19th inst., voted money for the establishment of a public library in that town for the benefit of their operatives. The Hill, Bates, and Franklin companies each pay one thousand dollars.

☞ A man named Powell, in Brookline, Ohio, was buried alive, a few days since, as was subsequently discovered. It is said that the clergyman who officiated at the funeral advised the relatives not to bury the body, but they did not heed his advice.

☞ The Evening Post, the new Bell organ at Cincinnati, expired from want of capital and patronage on the 13th inst. The editor says that there was plenty of copy but no cash forthcoming.

☞ The wife of Rev. J. Rodgers of Ogdensburg, N. Y., was killed by being thrown from her carriage a few days since. The horse was running away.

☞ It is proposed to give the unrecognized dead of the steamer Lady Elgin common burial at Chicago, with a monument commemorative of the event.

☞ The Directors of the Norombega Bank, at Bangor, met on Tuesday, and concluded to continue the redemption of bills until the annual meeting in October.

☞ Dr. Watts, the great psalmist, is to have a statue erected to his honor at Southampton, his native town. It will be put up next July, on the anniversary of his birth.

☞ Edward R. Cooper, over sixty years of age, has been sentenced at Richmond, Va., to the penitentiary for five years, for attempting to kill his wife.

TWO DAYS LATER FROM EUROPE.—*Entrance of Sardinian Troops into the Papal States.—Capture of the Fortress of Pesaro and 1200 Germans.*—Steamer Anglo Saxon brings Londonderry dates to 14th Sept.

London, Thursday evening. The funds are heavy.

A belief prevails that no general war will take place, but that some new transaction will occur during the autumn.

It is asserted that, without awaiting the reply from Rome, 25,000 Sardinian troops entered Umbria on the 11th, and 25,000 on the 12th.

Austria has decided not to admit the Neapolitan fleet into any of its ports.

The Sardinian troops have attacked and taken Pesaro, taking 1200 Germans prisoners who were in the fortress. Gen. Bella, the commander of the Pope's troops, was taken prisoner.

The German garrison of Ovireto had capitulated to the insurgents.

Several of the Powers protested against the entry of the Sardinian troops into the States of the Church, as an attack upon international rights.

Russia and Prussia protested in the strongest terms, but would take no other step.

A Paris despatch of Wednesday night says that the Piedmontese forces were marching rapidly on Gen. Lamociere's army, and an engagement was expected on the morrow.

ABOLISHING THE HORSE.—The Earl of Caithness has been astonishing the rustics of the north of England, by travelling about the common country roads in his new steam carriage, making seven or eight miles an hour with an engine of nine horse power. Paris, too, has been astonished by the sight of a carriage, propelled neither by steam nor gas, going with such amazing swiftness as to leave far behind the four-in-hand carriages of the Jocky Club, which endeavored in vain to keep up with it. The inventor is said to be a poor man, who has constructed the vehicle entirely himself, and will not disclose the secret until he is properly secured by patents.

PLEURO-PNEUMONIA IN GREAT BRITAIN.—Mr. A. Barbarie, who was sent to England from New Brunswick to purchase and transmit stock to that Province, has returned without bringing any neat stock.—He found that the pleuro-pneumonia was so prevalent through England, Scotland and Ireland, that it was dangerous to attempt to transport cattle to the port of embarkation. The existence of the disease is kept a secret as far as possible by the farmers, but Mr. Barbarie was furnished with ample certificates to the prevalence of the disease by large breeders and gentlemen, as well as veterinary surgeons.—*Bost. Jour.*

A VENERABLE BRIDEGROOM.—The hymenial altar was surprised on Wednesday last by the appearance of Walter Williams, Esq., of Larne county, Ky., aged eighty-four years, who was accompanied by a lady not over forty years old, and demanded to have the rites of matrimony solemnized, at 11 o'clock at night. Mr. Williams has been married three times; once when young, once when at seventy-seven, and now again at eighty-four. He is a grand-father and great-grand-father to more than one hundred children, several of them older than his wife.

WASHINGTON, Sept., 25.—The Neapolitan Minister has taken leave of our Government, his diplomatic functions having been terminated by the recent revolutionary events in his country.

No difficulty now exists to prevent the consummation of the cession of the Bay Islands to Honduras. The stories about the dissatisfaction of the English inhabitants of those islands were put in circulation to forward Walker's schemes.

The N. Y. Tribune estimates the vote of each county in New York for President, and supposing all the opponents of Lincoln vote the same ticket, it figures up a clear Lincoln majority of 55,200. If the Breckinridge men run a separate ticket, as they now stand, Lincoln will have 100,000 plurality. The estimate gives 25,000 majority against Lincoln in New York city.

A correspondent sends us a calculation, (says the N. Y. Tribune,) showing that Lincoln and Hamlin can be elected without the vote of Pennsylvania—that is, by all the free States, except that one and California. Of course they can; but they can be elected far more safely *with* Pennsylvania, and that is the way the thing will be done.

LONDON METHODISM.—During the last fifteen years, the Methodists have suffered a numerical decrease of five thousand, while the population is rapidly increasing all around them.

☞ A man died in New York city on Sunday evening, and a woman on Monday morning,—both, it is supposed, of starvation. They were both taken from the streets to hospitals.

☞ The New York papers state that Mr. Everett is engaged to be married to a fashionable southern widow. This remains, we presume, to be confirmed.

☞ Whittier, the celebrated Quaker Poet, is nominated as a Republican Presidential Elector in Massachusetts, and will be, of course, elected.

☞ Gen. Wm. Walker was a native of Nashville, Tenn., where his father still resides. William is the third son of that family who has perished in Nicaragua.

☞ The Ancient and Honorable Artillery, have agreed to go from Boston to Nashua, Oct. 12, to attend the review of the troops of New Hampshire.

☞ A poultice of onions, tobacco and salt cured a carpenter in Petersburg, Vt., of a bite of a rattlesnake.

☞ The National Fair at Cincinnati, just closed, is said to have been a failure compared with former years. The local papers speak of it in any but complimentary terms.

☞ The City Council of Montreal have authorized the construction of a horse railroad in certain sections of that city.

Vice is sufficient of itself to make a man thoroughly unhappy.

LOVE.

Like the false fruit of the lotos,
Love alters every taste;
We loathe the life we are leading,
The spot where we are placed;
We live upon to-morrow,
Or we dream the past again;
But what avails that knowledge?
It ever comes in vain.

THE FIGHT TO BE GIVEN UP.
It seems to be conceded that the fight between Heenan and Sayers will not be renewed, and the bets outstanding withdrawn. This will be decidedly unpleasant to some of our countrymen, who will not now be able to get the vast "odds" they received before, and in winning as we think they would on Heenan, their "pile." Now, a better and safer way to get large "odds" with perfect security against a partial referee, is to enclose $2 50, $5, $10, or $20, to Messrs. WOOD, EDDY & Co., of Wilmington, Delaware, or St. Louis, Missouri, for a part or whole ticket in one of their splendid Lotteries (authorized by law,) and you will have a good chance to draw a prize of from $1000 up to $70,000.

Wistar's Balsam of Wild Cherry.
This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases of *Coughs, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Asthma, Inflammation* of the *Lungs*, while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

From the Editor of the Portsmouth (N. H.) Journal, Aug. 11, 1860.
WISTAR'S BALSAM.—There are but few medicines of which we can express an opinion from personal knowledge. Among such we place prominently WISTAR'S BALSAM OF WILD CHERRY, which should always be kept on hand. It is an excellent medicine not only for *Coughs* and *Colds*, but also for neuralgic affections. We have known suffering from the nerves of the stomach effectually relieved by its soothing influence where other medicine has been ineffectually used.

From a highly respectable Merchant.
FALMOUTH, ME., Aug. 10, 1860.
Messrs. S. W. FOWLE & Co.,—
Gents:—For a long time I have suffered more or less with that distressing affliction—*Phthisis*—in its worst forms, and have resorted to various so called remedies, but to no purpose as affording the desired relief. Deprived of my sleep by reason of the severity of the disease, it was only too evident that I was fast breaking down under it. I resorted to DR. WISTAR'S BALSAM OF WILD CHERRY with but little confidence as to its curative properties, but the use of one bottle has entirely rid me of this monster; and to the public I can safely commend it as every worthy their confidence. Most rep'ly, S. I. MERRILL.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

FOR SORE, WEAK, INFLAMED EYES AND EYELIDS!
A true specific, and invaluable remedy has been at last discovered. Dr. Humphreys argues that these affections invariably result from a constitutional disease, of which the local affection is the only outward manifestation. Hence, HUMPHREY'S SPECIFIC HOMEOPATHIC OPHTHALMIA PILLS are only taken internally, and yet cure the worst forms of obstinate sore eyes and eyelids, which have resisted all other treatment. All cases of sore and inflamed eyelids, or failing, weak or defective sight, will be promptly benefitted, and the cure of the worst cases is only a question of time.
Price, 50 cents, with directions.
Sent by mail or express, free of charge, on receipt of the price.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

☞ The editor of the Exeter Bawl-at evidently thinks "a lie well stuck to, is as good as the truth," or at least will answer his purpose better—for he still adheres to his false statement, that the late Rockingham Fair was "thrust upon" Portsmouth by the efforts of the Trustee residing here; when the fact is, that he never requested nor suggested that it should be held there, but when inquired of, simply stated that the citizens would undoubtedly do as well for the Society as on the former similar occasion.

The ass-tute Ballot editor also speaks of his—"irritable young friend of the Chronicle," (he was thinking of irrigation, no doubt,) and says:

He knows just as much (and no more) about agriculture as we do about physic, and * * * is informed that we care as little what he does or does not *believe*, as what he pronounces false.

Now considering it has become so fashionable to "throw physic to"—certain animals, of late, it would seem that our snarling cotemporary *ought* to know something about it; and as to what he believes or states, it reminds us of a man who in Court was called a liar, and whose wife told him to "Never mind it, for they couldn't prove it." "Ah, that's the trouble," says he, "for they *did* prove it!" We again appeal to the record.

Messrs. Editors:—We see that the eloquent and able advocate of temperance, John B. Gough, is now speaking upon his favorite theme in Massachusetts. There are a great many who have never listened to this eloquent man, who are anxious that he should visit this city; and we think all our citizens, and many in the neighboring towns, would consider it a great treat to be able to listen to him. Would it not be well for the Washingtonian Society to invite him to appear before us at no distant day? The Temple no doubt would be crowded on the occasion, even if an admission fee were charged. RKP.

☞ We are glad to learn that the old building on Congress street, belonging to D. R. Rogers, Esq., and occupied by Messrs. Andrew Lowd and Washington Freeman, is to be replaced by a new wooden block of stores. Mr. Isaiah Wilson is the architect, and advertises the old building for sale, to be removed.

☞ There was *another* annual "equinoxial storm" on Tuesday—probably for the benefit of the Portland, Concord, and other Fairs. How strange that people *will* select the season of storms, for their out-door shows! Won't somebody tell us which the pleasant season is, in this latitude?

A POPULAR PUZZLE.

My *first* is what we all should be,
From every wrong and error free,
Our best for mankind doing;—
What all forsee, some future time,
In some blest land—some sunny clime,
For those the right pursuing.

My *second* we should like to do,
Whatever object we pursue,
Beneath the eye of heaven:
The thing, of all, we hate to miss,
In chasing any future bliss
Hope whispers may be given.

My *second* we would fain succeed
In doing to my *first*, at need;—
The first not ours without it:
And if we linger, 'tis because
We miss the scope of nature's laws,
Or fail to set about it.

My *whole* displays a human name
Not all unknown to pleasant fame,—
That will be known the better
When pleasure-seekers, through the land,
The laws of health shall understand,
Once freed from error's fetter.

What we should always be, is GOOD,
And WIN is what we always would,
If Hope would let us track her:
And GOODWIN is my whole—a man
Who makes what none beside him can—
The PATENT PRESSED TOBACCO.

The purest, best, man ever chewed,
In company or solitude,—
The fresh, the bright, the healthy!
Give me the PATENT—take the rest—
GOODWIN'S—that makes the rich man's zest,
And want's worst hours seem wealthy.

THE GOLD REGIONS.—From San Francisco, steamship John L. Stevens sailed for Panama, on the 11th, with 230 passengers, $1,000,000 in gold, and 142 bags Washoe silver ore.

There are extravagant rumors relative to the silver mines in different parts of the Cascade Mountains. Prospecting parties were busily investigating them. A specimen from the Santiam mines, which was assayed, yielded $4200 per ton. Other specimens averaged $1500 per ton.

It is reported that the Rock Creek mines average from $5 to $10 a day per man; and ground has been explored sufficient to employ 5000 miners for several years.

Iron ore has also been discovered in the Cascade Mountains.

British Columbia dates are to the 4th.

Frazer River is being deserted by all except the Chinese, for Rock Creek. The rush is general from all parts of Oregon, Washington Territory and Puget Sound.—All accounts agree that the miners are making from $5 to $20 per day. Some claims are yielding $100 per day to each man. The gold is very coarse, and is found on bed rock at Mentache River, north of Rock Creek, and several smaller creeks are said to be gold bearing. A wagon road is soon to be built there.

It is estimated that there are thousands of miners at Rock Creek and Similkawren. The Quesella mines are yielding largely.

The silver mines are also attracting considerable attention.

NEW YORK, Sept. 25.—The Fall Races on the Fashion Course, L. I., commenced to-day with the Sweepstakes for $20,000, four mile heats, of which Planet was an easy winner, Congaree being distanced on the first heat.

The Time made in the race was as follows:—1st mile 1:54, 2d mile 3:46 1-2, 3d mile 5:39 1-2, 4th mile 7:39.

The betting was 100 to 30 on Planate before the start.

One million dollars changed hands on the result of the race. It rained hard during the last two miles of the race.

THE MORMON TEMPLE AT KIRTLAND, OHIO.—The few Mormons at Kirtland, under the lead of Elder Rich, are now repairing the Temple—putting on a new roof, painting the outside, &c. The Temple is three stories high, built of stone, and cost $20,000. The Mormons who want to restore it to its pristine splendor, are those who refused to follow Jo. Smith to Nauvoo, and who scout at the theory of the Mormons at Utah.

PLENTY OF BREAD.—The Buffalo Express says the receipts of grain at that port yesterday have "no parallel in our own history, nor in the history of the world. Eight hundred and forty-nine thousand bushels of wheat were poured in upon us during the twenty-four hours ending last night, and of other grain almost sufficient to make the receipts one million of bushels during a single day."

OXYGENATED BITTERS.—The cures effected by this remedy are truly astonishing. The confirmed Dyspeptic regains his pristine vigor, the Asthmatic "breathes freer," Indigestion disappears. These *bitters* produce these wonders. Let all who suffer try them.

☞ We are requested to state that the Yacht Race which has been advertised for to-day, between the Viking and Live Yankee, is off—and will *not* take place.

☞ The great shower of rain, with thunder and wind, which we had on Tuesday, was somewhat extensive. In Concord, they had hail; in Boston harbor, boats were upset; in Byfield the lightning struck a factory, and in Newburyport it struck a vessel. No damage was done here, beside upsetting old fences, breaking limbs from a few trees, and shaking down a lot of apples.

☞ A stranger came to Millbury, Mass. last week, Saturday; Tuesday evening he was taken violently ill, becoming delirious, and continuing to grow worse until death. His name was Samuel Clark; he was born in Eliot, Me., 1803. He had large quantities of clothing with him, but a very small sum of money.

☞ The Merrimack County Fair is held at Concord to-day and to-morrow. They will have a fine time; their grounds are the best we ever saw; the Horse Guards parade Thursday; and there will be smart horse-trotting on Friday.

The fare on the C. & P. Railroad is reduced on this occasion, to $2 from Portsmouth and back—on special ticket, but no extra train.

"A HARD BOY."—Last week, a little son of Mr. Clinton L. Young, of Danielsonville, Conn., two and a half years of age, fell down a well which was being excavated, striking on the head of a laborer, who was somewhat bruised, while the child escaped unhurt.—The distance he fell was thirty feet.

THE "UNITARY HOUSEHOLD" BURST UP.—The scheme of cheap living, under the name of the "unitary household," which two years ago was in the high tide of successful experiment in New York, occcupying four first class houses thrown together, has lately burst up, leaving its creditors minus some thousands of dollars. The establishment, according to the New York Times, soon degenerated into a free-love affair.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.
The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.
It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.
Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.
The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.
Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. **J. C. CARR.**

Auctions.

Peremptory Sale of Real Estate
ON COURT STREET.
Will be sold at Public Auction,
On Saturday, the 29th day of September inst., at 12 o'clock, noon,
ON THE PREMISES,
The two-story HOUSE and LAND No. 45 Court street, corner of Atkinson street, now occupied by Mr. Wilbur B. Waite, and adjoining the estate of James P. Bartlett, Esq.
Said house is in good repair, having recently been put in excellent condition, both inside and out. It has parlor, sitting room and kitchen, with four chambers; also, water conveniently introduced, gas, &c. The lot has a front of forty-seven feet on Court street, extending twenty-three feet on Atkinson street.
The central location of this estate renders it a desirable place for those whose business calls them to any part of the city, or the Navy Yards. The house now rents to a desirable tenant, at the rate of $30 per year, and is sold only because the proprietor has removed to a distant part of the State. The premises are offered at private sale until the twenty-ninth inst., when, if not disposed of, they are to be sold to the highest bidder, without reserve, and may be examined, and further particulars will be given, on application to

Humphreys' Homeopathic Specific Remedies for the People.

The Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long felt want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which men suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhea, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, if thus become a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Hence these remedies supply a great public want. Being on hand, simple, as you know at once what to take—inexpensive, so as to cause no regretfulness, and boxes containing no risk, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger shayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being the BEST IN USE, THE MOST SIMPLE AND CONVENIENT, THE MOST ENERGETIC AND BRILLIANT.

Thousands live and have been using them for some five years past, in every section of the country, who almost invariably recommend, Ad speak in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, consisting **Iron, Sulphur** and **Phosphorus,** and which is intentional its composition with the *Hematic Globule*, or *red blood*.—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin. is always indicative of health; while a pale, wax-like skin and countenance, which evinces a considerable deficiency of the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food,** and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific to all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaint, Dropsy, Dyspepsia, Jaundice, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c.*, its efficacy is marked and instantaneous. In no class of diseases does it prove the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites, &c.*, especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through exercise, either of the mind or body, and we decem it our duty to say that in all cases of *Weakness and Emaciation*, and in all diseases of the *Kidneys or Bladder*, the preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the **Blood Food** to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patant or official, in point of usefulness. Circulars giving the testimonials upon this remedy are founded. also certificates of remarkable cures, will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, $5 for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper. None other is genuine.

GROVER & BAKER'S
Celebrated Family Sewing Machines.
FOR FAMILY USE.

From the very flattering manner in which our Machines have been received by the public, refulting in the sale of

35,000,

we are led to believe that our endeavors to manufacture a RELIABLE MACHINE have been appreciated. We take this opportunity to remark that the policy will be unchanged, and that

Every Machine sold by us

We shall not hesitate to Warrant in every respect.

GROVER & BAKER S. M. CO.

THIRTY DIFFERENT PATTERNS,
Adapted to every variety of
FAMILY SEWING.

A FEW CERTIFICATES OF THE GREAT
SUCCESS
—of the—
Grover & Baker's Sewing Machines.

[From the wife of the Hon. Jefferson Davis.]

Mrs. Jefferson Davis presents her compliments to Messrs. Grover & Baker, and takes pleasure in saying that she has used one of their Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines in use. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable.—She says she would not exchange it for any other one. It is certainly one of the grandest inventions ever offered for the relief of woman-kind, and I would recommend every family to get one as soon as possible.

Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAIDE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says.—"We would recommend to families and to those about to organize a household, *to be sure and have a Family Bible, and also one of Grover & Baker's SEWING MACHINES.*"

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and rendered miserable, can find a cure to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, isa trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming Friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing efforts to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON

An aperient and Stomachic preparation of IRON partialed of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, TIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten by their friends, gradually have suddenly reappeared in the busy world as if returned from protracted travel in a distant land, some very eminent instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, cutlical dryness, and the complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In VERTIGO, FITS OF ALL kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant constipation.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive, within a few hours.

In the local pains, loss of flesh and strength, debilitating cough, and resultant hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of its most eminent rival, the balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more cautiously, it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

Orders from neighboring towns and the country promptly attended to.

Having taken the Shop and Bake House, No. 31 STATE STREET, formerly occupied by Mr S. N. Plumer, the subscriber offers to his patrons ON TUESDAY, MARCH 27th,

at that place, and also at the new Shop, corner of Congress and Pleasant streets, (next door to Jackson & Co.'s Express Office,) a good assortment of all kinds of **Bread, Cake and Pastry,** including **Ship Bread, Crackers, &c., &c.**

The store at Home on State street will be open every Sunday morning, for supplying customers with Bread, Buns, &c, as usual.

Baking for Families carefully attended to.

In addition to our Shops, we shall with our Cart, on Tuesday morning, commence supplying customers at their doors. Our agent, Mr. GEO. F. WILDES, will attend to all orders delivered him.

Grateful for past favors, we would respectfully solicit a share of the public patronage.
GEORGE W. PLUMER.

APPLEDORE HOUSE,
ISLES OF SHOALS.

This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing its capacity. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests. *An abundance of sweet cream and milk is supplied from healthy cows kept on the Island.* The table is faultless. The facilities for fishing have been increased by the addition of new boats and experienced skippers.

When to all these advantages are added the purity of the air—the delicious coolness of the ocean breeze, its invigorating and appetizing power—the loveliness of the scenery—the glory of its sunsets—the cleanliness of its walks—its freeness from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can attain. The equability of the temperature is a natural advantage over the coast or the mountains, which invalids can fully appreciate.

A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Pier Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accommodation for the comfort of passengers which a Packet requires.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. Produced the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to be thankful, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I feel indebted to your sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; however, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was ashamed to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement. I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

Yours, &c.,
THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

Portsmouth, N. H.

FRIDAY, SEPTEMBER 28, 1860.

THE MISSOURI COMPROMISE. — The Boston Post of Sept. 26 contains this editorial item:—

Mr. Seward says that the Missouri Compromise was the first departure of this government from the anti-slavery policy.—Strange, then, that Mr. Seward and his party denounced the repeal of the Missouri Compromise as the work of slaveholders.

The ignorant reader of the Post may be deceived and misled by this item: but the writer of it knows these two things:

1. That the Missouri Compromise, in one of its provisions, let slavery into Missouri, (where it had previously been forbidden by law,) and by implication allowed slavery in all territory south of a certain line. And

2. That the slave power and its northern tools repealed the *other* provision of the same compromise, which forbade slavery's coming north of that line.

Mr. Seward, then, spoke to the purpose, when he condemned the passage of that act;—and equally to the purpose, when he condemned its repeal.

The act was *passed*, to *extend* slavery to a certain line; it was repealed, to *extend* it still farther. A vast majority of the people of New England understand *both* these acts, and condemn them both,—sophistry to the contrary notwithstanding.

☞ By late accounts from Hayti, of the most reliable kind, it appears that President Geffrard is very anxious to promote an educated emigration from the Northern States, and his ministers are about to initiate vigorous measures to inform the colored people of America of the advantages of Hayti as a home for the African race.

Under the present improved government of Hayti, that island presents an inviting and promising field for the black and colored emigrants.

It is one of the best islands in the West Indies; is very near us; and the introduction of emigrants from our free States, will give the islanders a new start in education, religion and industry.

A COOL RECEPTION.—An agent of Geffrard, the President of the negro republic of Hayti, was in Mobile, Alabama, on the 18th inst., for the purpose of obtaining emigrants among the free colored population. The Mobile Advertiser says he "waited upon His Honor the Mayor, who politely directed him to his worship the Sheriff of Mobile county, who informed him that the laws of the State of Alabama did not recognize or look favorably upon the objects of his embassy, and advised him that a speedy departure from within the limits of the Commonwealth would probably best comport with the tenor and spirit of the statutes thereof." The incivility of these worthy officials was further exhibited by sending the Chief of Police to conduct the agent to the steamer for New Orleans.

☞ Gov. Banks was serenaded by the Wide Awakes in Chicago last Friday night, and he made them a neat little speech, which they enthusiastically cheered. He was grateful; didn't expect a welcome; came to plant himself a home; couldn't refrain from thanking them; was prevented by personal considerations from considering political questions, but had no misgivings about his friend Lincoln's election; was in Chicago to take part in developing the Great West—to secure a heritage, in fact; would endeavor to be a good citizen, favored the interchange of ideas by moving about among people; said a good word for the Union, its broad protecting ægis, &c., and after thanking his fellow citizens he withdrew. Gov. Banks does his business of this nature with much tact always, and the Chicago papers seem to think he impressed the Wide Awakes very favorably.

☞ While Mr. Yancey is beginning his Northern tour with threats that Southern merchants will withdraw their trade from our cities, a curious comentary is presented in instances like the following, which we copy from the New York correspondence of a Philadelpha commercial paper.

The most important occurrence of the day, in business circles, are the embarrassments of a well known dry goods firm in this city, largely engaged in the Southern trade. It is said that their liabilities today amount to about a million and a quarter of dollars, and though they say they have a surplus of upwards of a million, yet is impossible to realize it, in the present depressed condition of the South.

THE JEWS.—The Great Falls Advertiser says that the Hebrew Society of that village and vicinity, celebrated their New Year's holidays on Monday and Tuesday of last week. The services, which were all in the Hebrew tongue, consisted of prayers, confession and supplication, reading portions of law from the "Sacred Scroll," singing, and blasts from a ram's horn trumpet. Great Falls is the only place in New Hampshire where they have an organized congregation, synagogue and burial place.

A RESURRECTION.

Every student of the Old Testament scriptures, must be familiar with the prophecy, Many of them that sleep in the dust of the earth shall awake, some to everlasting life, and some to shame and everlasting contempt.

Every one is also aware of the fact that by some this is applied to a real resurrection of dead bodies, and by others to a political, social, and judicial resurrection of the Jewish nation.

We are reminded of it now, by the latest item of news from General Walker, *alias* Filibuster Walker, *alias* the Grey Eyed Man of Destiny. We had previously heard he was going to be shot, *was shot*,—and now he is alive, and *not to be shot*, at present, but is coming *home*.

This is said on the strength of a New Orleans item, Sept. 26.

Schooner Taylor, arrived at this port, reports Gen. Walker safe, and will return by the next vessel. Walker and Col. Rudler would have been released at first if they had claimed American citizenship or British protection. It is certain that they will not be shot, as the British captain declared he would not permit it.

Old residents of Portsmouth may remember our deceased fellow-citizen Cæsar Whidden, the old negro truckman, who passed the evening of his days in our new Almshouse. While Cæsar was sick, a false report of his death got down in town, and one of the papers gave the old black a famous character, putting in all the virtues he had, and some he had not. Somebody handed Cæsar the paper, and he read his own obituary, which, as the keeper of the house thought, injured Cæsar by puffing him up with vanity and self conceit.

Mr. Walker, at present, is in no such danger. If he is really alive and gets back, he will see that he has risen to shame and the everlasting contempt of the newspapers —for a whole week, after which he would have been forgotten,—but for this new item.

FATAL ACCIDENT.—On Tuesday afternoon Mr. Joseph Fitch of East Boston, teamster in the employ of the Eastern Railroad Company, was killed in a singular manner. He had unloaded his wagon and was just getting upon the box to drive his team to the stable, when the heavy clap of thunder which occurred about half-past 4 frightened his horses so that they started, and threw him to the ground, and the heavy wheels of the wagon passed over his head, crushing in the skull, and killing him instantly. He was a worthy man, and leaves a family.

BOILER OVERBOARD.—The sloop Harriet, Capt. Springer, sailed from Providence Saturday with two steam-boilers for the Pocasset Manufacturing Co. of Fall River. As she was off Ohio Ledge, near the mouth of the Warren River, the steamboat Bradford Durfee met her. The swell occasioned by the steamboat struck her as she was going about, and careened her so that one of the boilers slipped overboard. The exchange from which we clip this item, rather intimates that the boiler sank after it went overboard.

☞ The London Times says that Victor Emmanuel finds a formidable competitor in Garibaldi, whose success appears sufficient to overcome any resistance that may be made by the States of the Church, and which may bring him into collision with the Austrian power in Venice, and Piedmont must make herself mistress of the Revolution, or be content to give up the lead and follow. There is reason to think that Napoleon sees things from this point of view, and that no danger need be apprehended from France.

☞ During the last Sikh war an officer in a regiment marching upon the Sutlej received intelligence from his agent in England that a legacy of £1500 had fallen to his lot, the information being accompanied by a request to know "how he would take it." The young gentleman, after due reflection, and perhaps consultation with his comrades, replied that he would "take it in pale ale;" and the full value was remitted to him in the article of his choice.

☞ Capt. Meigs has no intention of resigning. It is said that he positively refuses paying Capt. Benham's charges for transportation between Washington and New York, while visiting first one work and then another under his charge. It is also rumored that he will refuse to turn over the public funds to Capt. Bonham, as directed by the Secretary of War.

ANOTHER LIQUOR SEIZURE IN WORCESTER.—One more seizure of liquors was made at the "Green store," Monday morning, by officer Braman, the trophies consisting of one hundred and thirty-six gallons of gin, and six barrels of other kinds of liquor. The stock is said to be unusually good, some of the wine having been on hand ten years.

The triumph of woman lies, not in the admiration of her lover, but in the respect of her husband, and that can only be gained by a constant cultivation of those qualities which she knows be most values.

☞ We see it stated in the New York papers that Charles L. Frost, Esq., President of the C. & P. Railroad, has been chosen President of the Peoria, Oquaka & Burlington Railroad, and that he has selected a Board of Directors composed of some of the heavy capitalists of New York. This road is over two hundred miles in length, and has been constructed at a cost of more than five millions of dollars.

It is hoped that the new post of honor will not prevent Col. Frost from serving the stockholders of the Concord & Portsmouth Road for at least another year, as small roads as well as large ones require tact and business capacity in their management, in order to be safe investments for stockholders.

☞ John Halifax, who is well posted in railroad matters, tells the Boston Journal that in our legislature last June, there was an act which has authorized the Great Falls and Conway Railroad to construct their railroad from Conway to some point on the line of the Atlantic and St. Lawrence Railroad in Gorham. This will promote the safety of the travel over the Grand Trunk, by connecting it with Boston over the Eastern and Maine railways, saving a great distance lost by going around by Portland, and bring also a large amount of travel to Boston over the roads, which now goes by the Portland steamboats.

☞ The bills of the North Berwick Bank have not been counterfeited; but a countryman from Maine while visiting New York had been betrayed into a good time, and was found overcome with the heat and burden of the day, and with quite a pile of North Berwick Bank bills, fresh from the Bank, all new and crisp, in his possession. The New Yorkers supposed that the possession of a large quantity of new bills by a rough looking man, was evidence of their spurious character, and at once set forth the story of the counterfeit. The bills, they were informed by those posted in the matter, were genuine.

☞ A little son of Geo. N. Porter, of this city, aged about ten years, was stabbed in his left side, just back of and below the arm, on Thursday,—by a son of Allen Treat, a few years older. The boys were just out of school, in School street, and the Treat boy was playing with his pocket knife, when it is said some other lad hit him with a stone,—on which, he accused the Porter boy, and struck him a severe blow from behind, with the knife. The wound is about two inches deep, and passed very near the heart; but the little fellow is thought to be doing well.

ARREST OF A NEGRO ABDUCTOR.—The Baltimore Sun chronicles the arrest of Jacob Blynn, one of the party who has been engaged in abducting free negroes from Pennsylvania. He admits that he has frequently driven negroes to Washington, which have been sold to go South, knowing that they were free.

☞ Concord has gone into the clock making business. Mr. John C. Briggs has invented and patented a clock of a very peculiar description, simple, however, in its construction, but which at the same time combines ingenuity and skill in its manufacture: several thousand have already been manufactured and sold, and an order for five hundred has recently been filled for London.

JUROR FINED FOR CONTEMPT.—Mr. Oliver Johnson, editor of an anti-slavery paper, has been fined $25 for refusing to act as a juror in the New York Supreme Court, because he conscientiously believed that the Constitution of the United States was "a league with death and a covenant with hell."

NEW ZEALAND. — Advices from New Zealand say that the attacking party at Maitland was composed of 347 natives.—They laid down until the troops were close to them, and then arose and fired their double barreled guns, and met the bayonet charge with their tomahawks, fighting hand to hand.

The retreat of the troops was so urgent that the dead and a few wounded were left on the field. It is reported that one gun was taken. There are great complaints against Colonel Gould, commander of the troop.

☞ Theodore Parker's last literary labor was a satire entiled "A Bumble-Bee's Thoughts on the Plan and Purposes of Creation." It was written as a contribution to an Album dedicated to the memory of Kucher, the German philosopher, the publication of which was delayed by Mr. Parker's death.

A. B. C. F. M.—On Tuesday, the 2d of October, in Boston, commences the fiftieth annual meeting of the largest and oldest Missionary Society in the country—the American Board of Commissioners for Foreign Missions.

NORFOLK, VA., Sept. 27.—Twelve prisoners from the slaver Storm King have been put in jail under charge of the U. S. Marshal.

EXTENSIVE ESTABLISHMENT.

A few days since, we dropped in at Seth W. Fowle & Co.'s, No. 18 Tremont street, Boston, from whence are dispensed those two standard and long tried preparations, *Wistar's Balsam of Wild Cherry* and *The Oxygenated Bitters*. The eminently respectable character of the house is a guarantee for the excellence of these two admirable medicines, but to appreciate the systematic manner in which their business is conducted, a personal visit is necessary. The Balsam and the Bitters are prepared, packed and dispatched under the immediate supervision of the proprietors, and the large number of male and female assistants employed evinces the remarkable popularity to which these wonderfully effective specifics have arrived, after sustaining the test of many years of constant trial.

Wistar's Balsam of Wild Cherry is peculiarly adapted to the wants of our New England climate, especially at this trying season of the year, when the seeds of consumption are so often contracted. Indeed the slightest cold should not be for a single day neglected, especially when this specific is always at hand. Many of our subscribers have written us that they do not feel safe without keeping it on hand in their families, to be prepared for emergency. It is perfectly reliable for the speedy cure of every form of Pulmonary complaint, coughs, colds, bronchitis, and is truly a balsam with "healing on its wings." Of all diseases, those which fasten themselves on the lungs, throat or chest, are the most dangerous, and herein we have for them a specific.

The Oxygenated Bitters are designed to meet another want of the public, who prefer to save their doctor's bills and to be speedily relieved from Dyspepsia in its various form. These bitters, as we know from personal use, have no equal as a tonic medicine. They contain no alcohol and are especially adapted to the delicate constitutions of females; particularly in the affliction of sick headache, they are almost instantaneous in effecting a cure. Soda, magnesia, and all the alkalies, are but temporary in affording relief, while the Oxygenated Bitters, combined with hygienic substances, relieve and permanently cure dyspepsia and all stomach difficulties. They have long been prescribed by physicians with entire success, as a specific for acidity, flatulency, water brash, liver complaint and bilious affections. Indeed, both the *Balsam* and the *Bitters* are very geneoally endorsed by the medical faculty of New England.—*Flag of our Union.*

These remedies are sold everywhere.

"NARY" SAIL.—The race which was advertised for Thursday, was a fizzle. After taking all the wind out of our sails by their good "blowing," and denying us the chance of filling them by refusing to let us "blow," the "Live Yankee" sneaked out of the contest and wouldn't come to time.

"Live Yankees," you can "blow" as long as you like! We won't deny you that, albeit you wished to prohibit us even so poor a privilege; but we caution you to remember that "blowing" never frightens a

VIKING.

P. S.—We shall "blow" all we want to.

NEW YORK, Sept. 27.—The city Republicans yesterday nominated A. J. Williamson, editor of the Dispatch, in the Third Congressional District; Wm. Wall, ex-Mayor of Williamsburg, in the fifth; A. F. Dow in the seventh, and Abraham Wakeman in the eighth. The Breckinridgers in the latter district have nominated ex-Sheriff Willetts.

Dolano Alvear, who recently absconded from Havana with a million and a quarter dollars belonging to the credits of Espanol, Madrid, landed recently from an open boat at Key West.

John Castner, a distiller at Hunterdon, N. J., and his two sons, were suffocated on Tuesday, while repairing a still.

SLAVER CAPTURED.—*Norfolk, Va, Sep.* 26.—An unknown brig, supposed to be the Storm King, has arrived, in charge of Lieut. Hughes. She was captured on the 8th of August, by the San Jacinto, off Congo River, with over 600 negroes on board, which vessel landed them at Monrovia.

The prize-ship Erie, which was captured on the 8th of August by the Mohican had arrived at Monrovia with over 800 negroes on board, in charge of Lieutenant Doregan.

POLITICAL.—*New York, Sept.* 26.—The Douglas State Committee, it is understood, have agreed to accept the six names proposed by the Committee of the late Union meeting, and will answer as to Randall, for Elector at Large, as soon as they can learn whether vacancies can be made.

MAINE STATE FAIR.—*Portland, Me., Sept.* 26.—The State Fair is largely attended and the city is crowded. At the exhibition to-day the first prize for female equestrianism was won by Mrs. J. D. Arthenay, of Augusta. Several gamblers from Boston, wore arrested on the Fair Grounds to-day

NEW YORK, Sept. 26.—A dispatch to the World says that the government have ordered 17,000 stand of arms to Fort Moultrie, S. C.

The dead body washed ashore at Long Island has been identified as that of Capt. Leete, of the oyster sloop Spray, supposed to have been murdered by Jackalow, the Chinese pirate.

☞ Senator Green of Missouri was serenaded while attending the Breckinridge Convention last week. He made a bitter and abusive speech, calling Judge Douglas liar, traitor, villain and scoundrel.

☞ On Sunday, as five Irishmen were enjoying a sail near Fall River, their boat upset, and one of their number, James Carrol, was drowned. He leaves a wife and three children.

☞ Daniel E. Sickles withdraws from the political canvass in his congressional district.

☞ Rev. Charles Beecher is to preach at the North Church next Sunday.

IMPROVEMENTS.—The Temple has been much adorned and ornamented of late, outside and in,—under the direction of Mr. Elisha Tripp. The outer appearance is decidedly bettered by a coat of brown paint; and the new panel paper inside, of a light shade, renders the hall lively and pleasant. We know of none of the size, in which an audience is seated so agreeably and advantageously for all.

AN IMPROMPTU CONCERT.—*After four o'clock*, on the last day of the late Fair in Portsmouth, (Thursday,) the rain having deprived the people of much of their anticipated pleasure, Mr. J. H. Head decided to have an entertainment of Tableaux, singing, music by the Band, &c., at the Temple on that evening. So the Temple was cleared of the paperers and their rubbish, the room cleared up, the bell rung; bills written, printed and circulated, the crier got out; the Portsmouth Cornet Band, the Granite State Bards, and Miss Holland secured to do up the music; numerous beautiful young misses, boys, firemen and others, engaged to take part in the Tableaux; doorkeepers, ticket-takers, &c., hunted up—and in *less than three hours* from the time the thing was first decided on, the doors were open and tickets being sold. The audience was large, and highly delighted with the performances; and the receipts were just about sufficient to pay the cash expenses incurred. If anybody can do better than this, in the given time, we should like to see them.

We understand that the same performers are to give another similar entertainment in a few days—and have no doubt they will have a full house.

☞ The concert of Christy's Minstrels, last Saturday evening, in this city, was largely attended, and the audience seemed determined to enjoy the ridiculous performances to the utmost. The singing was fair; the instrumental performances more than good, the dancing first-rate, the jokes of George Christy many of them new and witty, and the buffoonery and tom-foolery generally well worth laughing at. We learn that the Company will visit Portsmouth again shortly.

FAIR WEATHER.—*Messrs. Editors:*—In answer to a request of yours, as to when the *fair weather* may be relied upon, I would say, *Never*, for it is all uncertain.—But I have been looking over a weather record for a good number of years, and I the week from Sept. 19 to Sept. 25, giving more fair weather than any other week in the month.

A READER.

OXYGENATED BITTERS.—The cures effected by this remedy are truly astonishing. The confirmed Dyspeptic regains his pristine vigor, the Asthmatic "breathes freer," Indigestion disappears. These *bitters* produce these wonders. Let all who suffer try them.

Wistar's Balsam of Wild Cherry.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases of *Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Asthma, Inflammation* of the *Lungs;* while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

From the Editor of the Portsmouth (N. H.) Journal, Aug. 11, 1860.

WISTAR'S BALSAM.—There are but few medicines of which we can express an opinion from personal knowledge. Among such we place prominently WISTAR'S BALSAM OF WILD CHERRY, which should always be kept on hand. It is an excellent medicine not only for *Coughs* and *Colds*, but also for neuralgic affections. We have known suffering from the nerves of the stomach effectually relieved by its soothing influence where other medicine has been ineffectually used.

From a highly respectable Merchant.

FALMOUTH, ME., Aug. 10, 1860.

Messrs. S. W. FOWLE & CO.,—

Gents:—For a long time I have suffered more or less with that distressing affliction—*Dyspepsia*—in its worst forms, and have resorted to various so called remedies, but to no purpose as affording the desired relief. Deprived of my sleep by reason of the severity of the disease, it was only too evident that I was fast breaking down under it. I resorted to DR. WISTAR'S BALSAM OF WILD CHERRY with but little confidence as to its curative properties, but the use of one bottle has entirely rid me of this monster; and to the public I can safely commend it as every way worthy their confidence. Most resp'ly, S. I. MERRILL.

TRULY A "GRAND CONCERT."—This (Friday) evening, Mrs. C. Varian-James, on her return from a successful professional visit east, will give one of her charming concerts at the Temple in this city. This announcement, it would seem, should be sufficient to insure a good house, as Mrs. Varian-James has already charmed our people with her sweet songs, and has established a reputation for uncommon musical culture and excellence. Mr. Cook, the excellent tenor, is still with her; and Mr. Hoffman, the celebrated pianist, who was lately in Parodi's troupe. ☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood,* already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.
The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.
It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.
Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.
The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.
Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. **J. C. CARR.**

Auctions.
Peremptory Sale of Real Estate
ON COURT STREET.
Will be sold at Public Auction,
On Saturday, the 29th day of September inst., at 12 o'clock, noon,
ON THE PREMISES,
The two-story HOUSE and LAND No. 45 Court street, corner of Atkinson street, now occupied by Mr. Wilbur B. Waite, and adjoining the estate of James P. Bartlett, Esq.
Said house is in good repair, having recently been put in excellent condition, both inside and out. It has parlor, sitting room and kitchen, with four chambers; also, water conveniently introduced, gas, &c. The Lot has a front of forty-seven feet on Court street, extending twenty-three feet on Atkinson street.
The central location of this estate renders it a desirable place for those whose business calls them to any part of the city, or the Navy Yard. The house now rents to a desirable tenant, at the rate of $90 per year, and is sold only because the proprietor has removed to a distant part of the State. The premises are offered at private sale until the twenty-ninth inst., when, if not disposed of, they are to be sold to the highest bidder, without reserve, and may be examined, and further particulars will be given, on application to

RELIEF IN TEN MINUTES!!
Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.
These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.
TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, com, pass and clearness, for which purpose they are regularly used by many professional vocalists.

Morning Chronicle.

THE TRAINING OF CHILDREN.—Do not allow a child to be perpetually attending to his bodily sensations; or, at any rate, do not allow him to be perpetually making remarks about them—the niceness of this dish, the ugliness of that object, that the day is too hot, the walk is too long, etc.—With proper care you may increase his hardihood, without endangering his health. Something may be done by direct discipline; but more by making endurance a point of honor with children, otherwise they indemnify themselves at the first opportunity.

The phrase "shocking bad hat" originated with Mr. Harris, a hatter, who was canvasing for Parliament, who proceeded in this wise:—"I await upon you, sir, to request the favor of your vote and interest in the ensuing election. To bribery and corruption—[—will—not—have—recourse; but sir, if—Why bless me what a shocking bad hat you've got! Really you must allow me to send you a new one.—But, sir, all I was about to say, if you can conscientiously, &c., &c.

A friend of Mr. Lincoln said to him lately, "I fear you will be greatly troubled with the South." "Yes," replied Mr. Lincoln, "I fear I shall." "Of course," said his friend, "on account of their opposition to you?" "Why," replied Mr. Lincoln, "look at this pile of letters before me. I shall have trouble. They are all from the South, and are applications for office, in case I should be elected."

Now that Col. Smart is defeated in Maine the N. Y. Journal of Commerce calls him a "semi-abolitionist."

Clarified honey, applied on a linen rag, is said to cure the pain of a burn almost instantly.

The life of man is in reality but one continued existence, the end of which is to make himself perfect.

Enjoy the glory of the sun, and not put out your eyes by trying to count the spots upon his face.

A man should manifest and communicate his joy, but as much as possible conceal and smother his grief.

Be calm and quiet in your life. You are not necessarily servicable to others when you are troublesome to yourself.

The loss of goods and money is oftentimes no loss; if you had not lost them, they might perhaps have lost you.

Happiness must arise from our own temper and actions, and not immediately from any external conditions.

ATWOOD'S

QUININE TONIC

BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK carefully combined with various *tonic* and *stomachic* ad cannot fail to meet the wants of the debilitated.

It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.

One of the very best Physicians in Boston has said "*he is the best yet possession of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation containing **Iron, Sulphur** and **Phosphorus**, and which combines in its composition with the *Hematic Globule*, or *red blood*.—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance, which evinces a considerable deficiency of the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific to all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaints, Dropsy, Rheumatism, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c.*, its efficacy is marked and instantaneous. In a class of complaints which are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites, &c.*, especially when these complaints are accompanied with paleness, hectic flush on the pallor of the skin, depression of spirits, debility, palpitation want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through *over-use*, either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Emaciation*, and in all diseases of the *Kidneys or Bladder*, this preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the **"Blood Food"** to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patent or special, in point of excellence. Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures, will be sent to any address. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, $5 for six bottles. Be careful in all cases to take none but that having our fac-similie signature upon the wrapper. None other is genuine.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last twelve months, and pronounces it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable. She says she would not exchange it for any other one. It is certainly one of the grandest inventions ever made for relief of woman-kind, and I would recommend every family to get one as soon as possible.

Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAIGE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says.—"We would recommend to families and to those about to organize a household, *to be sure and have a Family Bible, and also one of Grover & Baker's SEWING MACHINES.*"

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other wrongness of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and wending spirits, and cure the most weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subjected that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace THREE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

CHALYBEATE RESTORATIVE

PILLS & IRON

An superior and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz.

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, TIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Patients so long bed ridden as to have become forgotten by their friends, have subsequently been suddenly reappeared in the busy world and returned from protracted travel in a distant land. Sometimes signal instances of this kind are attested of female sufferers, emaciated to the last apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In cases of NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable are its cures, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and resultant hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and astonishing instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as a leveiting pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

DAD HAS STRUCK ILE. — The correspondent of the N. Y. Post gives an incident in connection with the oil excitement in Pennsylvania. An old blacksmith bored in his back yard and struck a vein. He at once became a man of position. He had a daughter who had blossomed into maidenhood almost unnoticed and unknown, but who now became an object of interest to the few men in that small community. It at once became a question how to break the ice of former indifference, and to secure a favorable acquaintance with the heiress of the oil well. For awhile the natural timidity of the boys kept them aloof; but, at last, one of the boldest and best favored among them determined to try his luck, and on Sunday evening, attired in his best, resolutely marched forward and offered to escort the damsel home. Imagine his chagrin when she, turning on him with a look of lofty independence that would have done honor to a Broadway belle, replied in language more severe than chaste: "Git out! You can't come that! *Dad has struck ile!*"

The most picturesque semi-military turnout that has yet taken out, was that of the United German Tailors' Association, which went off on a target excursion. There were about a hundred, which, according to the popular saying, that it takes nine tailors to make a man, would be rather a small division; however, they looked exceedingly well with their green tunics, rifles, short swords and powder horns. They were preceded by some pretty little vivandieres in bright scarlet dresses, and a tastily decorated wagon held six sewing machines (the prizes to be contended for,) each worked by a pretty girl, dressed in white, with plumes twined among their beautiful tresses. The sight made many an eye glisten and many a mouth water, I assure you.

Garibaldi washes his own shirts when occasion requires. After the battle of Melazzo, finding his shirt dirty and soiled from his personal struggles, he took it off, washed it in a brook hard by, and hung it on the bushes, eat his lunch of bread, fruit and water, smoked his cigar barebacked, and wrapt in thought, sat apparently contemplating the drying of his garment; thus in the field or bivouac, sharing danger and hardships with the humblest of of his followers. Directly his shirt was dry, he went on board the Tukeri, formerly Veloce, lying in the Bay on the western side of the peninsula, and personally directed her fire on the fortress and surrounding masses.

The latest Boston excitement is about "the railroad conductor with the flower in his mouth." It appears that this pleasant fellow has a conservatory of his own, and that he never enters a car at morning, noon or night, in summer or any other season, without having between his lips a flower plucked from his own bower. Conductors in this region have a tendency toward tobacco, and somewhat tropical flowers of speech from the Bowery.—*N. Y. Tribune.*

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His Panacea is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

NEW BAKING ESTABLISHMENT.
SHOPS: No. 22 CONGRESS STREET, and No. 31 STATE STREET.

Orders from neighboring towns and the country promptly attended to.

Having taken the Shop and Bake House, No. 31 STATE STREET, formerly occupied by Mr. S. N. Plumer, the subscriber offers to his patrons ON TUESDAY, MARCH 27th,
at that place, and also at the new Shop, corner of Congress and Fleet streets, (next door to Jackson & Co.'s Express Office,) a good assortment of all kinds of **Bread, Cake and Pastry,** including **Ship Bread, Crackers, &c., &c.**

The bake House on State street will be open every Sunday morning, for supplying customers with Bread, Beans, &c, as usual.

Baking for Families carefully attended to.

In addition to our Shops, we shall with our Cart, on Tuesday morning, commence supplying customers in their country. Our agent, Mr. GEO. T. WILDES, will attend to all orders delivered him.

Grateful for past favors, we would respectfully solicit a share of the public patronage.
GEORGE W. PLUMER.

APPLEDORE HOUSE,
ISLES OF SHOALS.

This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing its capacity. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests. *An abundance of sweet cream and milk is supplied from healthy cows kept on the Island.* The table is faultless. The facilities for fishing have been increased by the addition of new boats and experienced skippers.

When to all these advantages are added the purity of the air—the delicious coolness of the ocean breeze, its invigorating and appetizing power—the loveliness of the scenery—the glory of its sunsets—the cleanliness of its walks—its freeness from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can attain. The capability of the temperature is a natural advantage over the coast or the mountains, which invalids can fully appreciate.

A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Pier Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accommodation for the comfort of passengers which a Packet requires.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.
For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—
Oak Grove, S. C., June 24, 1859.
Prof. O. J. Wood—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudices aside, and give your Hair Restorative a perfect test:—
During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.
These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had a beautiful head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.
You are at liberty to publish this if you think proper.
Yours, very respectfully,
M. J. WRIGHT, M. D.
Jeffersonian Office, Phillips, Va., Dec. 12, 1859.
Professor O. J. Wood—Sir—Feeling I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles he hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement. I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.
Yours, &c.,
THOMPSON SURGHNOR.
Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3 a bottle.

EXETER ITEMS.

During the thunder storm of Tuesday afternoon the lightning struck three times in this vicinity, without however doing much damage. The house of Mr. Staples, near the jail, was struck and slightly damaged. The Squampscott was struck, but the fluid passed off on the wires without injury. A tree on the easterly side of the river received the other bolt, and does not appear to be any way improved by it.

Mr. Charles H. Goodwin, who saw his entire property swept away by the (to him) disastrous fire of last spring, has returned, and is making arrangements for introducing a new burning oil to the public, of his own invention, for which he claims superiority over everything yet invented, and which he calls the "oil of ice." Success to him, say we.

The ladies of the Second Orthodox Congregational Society held a very successful Levee at the Town Hall last evening, the proceeds to be devoted to refurnishing their church. This Society, under the popular ministration of their present pastor, Rev. Mr. Lamphear, had outgrown their house of worship, and this summer they have had it enlarged and the interior modernized; and next Sabbath they worship in it for the first time since the change.

The First Orthodox Society have extended an invitation to Rev. Mr. Nason of Needham, Mass., to become their pastor, with a salary of $1400, and it is understood that he will accept. He appears to be a very talented man. The Society is very large and highly prosperous, but has been without a settled pastor for nearly a year and a half. Having heard many of their candidates, we cannot but think they have chosen wisely.

A story in Godey's Lady's Book for October, entitled "The Foreign Count, or High Art in Tattletown," by a lady of Exeter, is creating considerable of a prattle in society, as some of the good people here seem to think themselves rather overdrawn.

REPORTER.

Exeter, September 28, 1860.

☞ Col. E. L. Snow, a well known temperance advocate, died at his residence in New York on Sunday evening, after a brief and painful illness, in the 55th year of his age. The deceased was the founder of the order of the Sons of Temperance, and the E. L. Snow Social Union, and formerly edited a Temperance paper called The Organ. He was a man of large heart and generous impulses, and a staunch defender of the rights of man. His death has left a void in a large circle of warm and devoted friends.

THE FUSIONISTS of New York have succeeded in fixing up a ticket acceptable to all the opponents of Mr. Lincoln. Whether it will stand the least chance, or come within several thousands of success, will depend upon the vote in Pennsylvania, Oct. 9th; that settles the national election, if it is at all decisive in itself. If Curtin and the Republicans carry by ten thousand, all of their fusion can not take one elector from "Old Abe," but if Foster and the Democrats succeed by ten thousand, it will be a stunning blow to the whole column, as it was in 1856. One week from next Tuesday is the great day of the campaign; and each party will turn out their last live man in Pennsylvania that will vote their ticket.

The Republicans advice from all parts of Pennsylvania are—"all right for the October election." If so it is all right for the country, and the contest is ended.—*Newburyport Herald.*

EFFECTS OF BAD LEGISLATION.—At the last session of the New Hampshire Legislature the measures used by milkmen were so regulated as to increase their contents about four cubic inches. The consequence is that the heaviest dealers in the lacteal have raised the price, per quart, of the article. Consumers will hereafter receive 1-4 cents worth more to a quart than formerly, but must pay at least double that sum for the extra quality.—*Boston Herald.*

The first statement in the above item is very far from accuracy,—and the rest of it is worth but little. The Milk Measure law of last session did regulate the measures,—but it could hardly be said to *increase* them—for there was no legal standard, previous to this law. The usage of the oldest part of the State, viz. Portsmouth and vicinity, has always been to measure Milk by the Beer Quart, until recently some persons here as well as in other parts of the State, sold milk by Wine measure,—and thus no one knew exactly how much a quart of milk was.

The new law regulates the measure, making it uniform. It does not touch the price, that is a matter of bargain between the buyer and the seller,—and if milk is a *quarter of a cent* dearer than it ought to be, competition will soon bring it down. We don't believe there will be "much of a shower" about the milk bill!

With time and patience the mulberry leaf becomes satin. What difficulty is there at which a man should quail, when a worm can accomplish so much from the leaf of the mulberry?

INTEMPERANCE IN EUROPE. — A good deal of discussion has taken place in this city and elsewhere, as to the extent of drunkenness in the wine-growing countries of the continent. It will be remembered that a letter was published from the pen of Mr. Theodore Parker, in which the opinion was expressed that there was far less intoxication among the 30,000,000 inhabitants of France than among the 3,000,000 of New England. Meeting recently a traveller of much accuracy of observation and candor of spirit, (says the Newburyport Herald,) we made careful inquiry of him on this point. His reply was substantially as follows:—

In England one sees a great deal of intemperance; in Italy but little; in France and Switzerland intemperance is exceedingly prevalent. I employed a courier.—Within a day or two he came home drunk. One of my friends had a courier who was drunk about all the time. It was a very common thing to have a drunken cabman. It is true that you do not see in Paris drunkards reeling about the streets as in New York. This is owing to two things. 1. On account of the duty levied on all articles of food entering the gates of the city, wine, in common with all provisions, is much cheaper outside the walls than within. Hence persons proposing a debauch, go out of the city for the purpose. 2. The ever watchful police of Paris do not allow a sot to stagger through the streets. The moment a person loses command of himself he is removed from observation.

There is indeed less drinking of spirits than in this country. But this is owing to the price of spirits rather than to any indisposition of the people toward their use. When one pays 10 cents for a "*petit verre*" of brandy, holding about a table spoonful, brandy is not likely to become a common beverage. But though spirits are less frequently used than in America, yet substitutes even more injurious are coming into vogue. Absinthe, a stimulant of frightful potency and immeasurably more maddening than alcohol, is widely used, and with fearfully calamitous effect.

COMPLIMENTARY SUPPER TO MARTIN, THE WHERRYMAN.—In Boston Monday evening a complimentary supper was given to Mr. D. U. Martin, the boatman who pulled his wherry from Boston to New York and Albany recently, by the proprietors of the Temperance Hotel, in La Grange place. About thirty ladies and gentlemen sat down to a repast, consisting of vegetables and fruit of the most tempting sort. The tables were ornamented with beautiful boquets, and the display of pears, peaches, plums, apples, etc., reminded one of the exhibitions of the Mass. Horticultural Society. There were farinaceous puddings, berries, bread, cake, and cooked fruit of various kinds, the whole forming a feast that would satisfy the appetite before one began to think of meat victuals.

La Roy Sunderland was invited to take the initiative in the speaking and said that he felt a real pleasure in meeting the company and in welcoming home Mr. Martin, who was now entitled to be called the "Champion Wherryman." He considered the experiment just made by Mr. Martin a very interesting one in a scientific point of view. Dr. Windship had said that the human muscle will shrink on vegetable diet, but the experiment made by the Champion Wherryman goes to show that he had performed an extraordinary muscular feat, of long duration, while subsisting upon a diet of fruit, almost exclusively. He introduced Mr. Martin to the company, and that gentleman addressed them a few minutes in a very interesting manner.

He gave an account in general of his wherry voyage, more particularly that portion of it on the Hudson River. Mr. Martin's modest and unaffected manner, in which he spoke of his exploits, gave peculiar force to his remarks. He said in reference to diet, that as for himself he would train upon fruit for any special effort. He had gained three pounds, although he was not able at all times on his voyage to procure such fruit as suited him. At the conclusion of his remarks, Mr. Martin thanked his friends for meeting him on the occasion, and his hosts for the beautiful repast they had spread before them.

Rev. Mr. Bell, pastor of the Graham avenue Protestant Methodist Church, Brooklyn, N. Y., was, at a quarterly meeting of that Society, held on Friday, the 21st, dismissed from the service of the Society by almost a unanimous vote. The principal cause of complaint against Mr. Bell was his anti-slavery sentiments, which he felt it his duty to express from the pulpit. The chairman was directed to provide Mr. Bell with a certificate as to his good moral standing, as well as Christian and ministerial character.

A BAD FAILURE.—The failure of White, Smith & Co., of Northampton, Mass., was a serious one. Of Mr. Smith's estate there was $20 to divide upon $28,900 indebtedness, or 7-10 of a mill on a dollar; and on Mr. White's nearly 16 cents on the dollar of $12,276 indebtedness. The assignees charged $2000 for settling the estate, finally came down to $1781, and were allowed by the Court but $1100, from which they appealed to the Supreme Court.

A CARAVAN IN DISTRESS.—The Calais Advertiser says, "We had quite a heavy storm of wind and rain here on Wednesday night. It blowed down the canvass of the Royal Menagerie, knocked over several of the cages and stirred up the monkeys and animals. One of the elephants, a monkey and two foxes got loose and were out in the rain all night; they were all secured next day but one fox. One elephant got into a garden, and helped himself, to beans, cabbages, and such other green stuff as laid in his way."

BELL AND EVERETT PARTY IN PENNSYLVANIA.—*Harrisburg, Sept. 27.*—The Constitutional Union Executive Committee met to-day, and formed a full electoral ticket, with J. R. Ingersoll and W. R. Wright as electors at large. They passed resolutions authorizing a modification of the ticket if found necessary, considering it inexpedient to nominate a Governor, but recommended a mass convention of all who are opposed to Lincoln, and adjourned.

WASHINGTON, Sept. 27.—About fifty clerks have been appointed by the Census Bureau.

The present mail to Denver City has been discontinued.

A pyrotechnic display and a visit to Mount Vernon is in the programme for the Prince of Wales.

PERUGIA TAKEN.—*New York*, Sept. 27. A dispatch dated Turin, 15th, says that the Sardinian Gen. Fouti, entered Perugia after a hot fight. The fortress subsequently surrendered. A thousand prisoners were taken. The Sardinian loss was light.

ST. LOUIS, Sept. 27. — Baron Renfrew arrived here this evening. A large crowd welcomed him. He visits the Fair to-morrow.

NEW ORLEANS, Sept. 27. — A British steamer has arrived with the remnant of Walker's party. Walker was shot on the 12th. Rudler is still a prisoner.

FROM CALIFORNIA.—*St. Joseph*, Sept. 27.—The Pony Express with San Francisco dates to the 15th, has arrived.

The ship Comet sailed on the 13th for Hong Kong, with a cargo of lumber, flour and other products.

The produce exported since the 1st of September is estimated at $500,000.

The Breckinridge State Convention, after nominating an electoral ticket, adopted resolutions endorsing Buchanan and favoring overland mails and a Pacific Railroad.

Daily stage lines between Sacramento and Portland, Oregon, have been established.—They carry the mail.

Another large woolen factory is nearly finished in San Francisco.

ST. LOUIS, Sept. 27.—The Fair to-day was attended by over 100,000 persons.—Baron Renfrew and suit, accompanied by the mayor, visited the Fair. Prizes were awarded to Illinois and Kentucky horses.

The Rev. Mr. Bewly, reported to have been hung by a Texas mob, is represented as a desperado from the southern part of Missouri.—*Boston Herald.*

We know it is so *represented*,—but the representation happens to be *false*,—for his good standing and fair character, are endorsed by the highest Methodist authority.

SERIOUS FIRE. — The Leicester Boot Co's building, in Worcester, Mass., with the stock and tools, was totally destroyed by fire Wednesday morning at three o'clock. Loss $17,000; insurance $9,000. The fire was the work of an incendiary.

THE HOMICIDE AT QUINCY. — The case of Edward R. Pope of Quincy, for shooting Francis D. Fortier, was brought before the Grand Jury for Norfolk, and an indictment has been found. Since Pope has been confined he has exhibited symptoms of mental disturbance. One night when all was quiet within the prison, a frightful screech burst from him, which sent a thrill of horror through those that heard it.

SONG.

When the great Sir Walter Raleigh languished in a tyrant's tower,
Hanging clouds instead of sunshine, on the wing of every hour—
As he saw each day still nearer Death's inevitable goal,
What then kept from utter sinking his heroic, noble soul?
What? the memory of his actions, memory of his gallant life
Passed amid pursuit of Letters, or in Honor's sworded strife,
Memory of the wreaths that Genius twined around his brilliant name,
And a glorious exultation for the future of his fame!
Nor forgot by him the soother that his effort gave to man—
Brought from where the bright James River like a strain of music ran!
Where the healthy sons of Nature, unpolluted noble yet,
By their breezy groves and fountains smoked the balmy Calumet.
How his manly count'nance lighted, though his form was doomed to bleed,
When he thought of all the pleasure in the mild, ecstatic "Weed!"
Yet his heart would still have beaten all the prouder in his breast,
If his tongue had but once tasted our "GOODWIN'S PATENT PRESSED!"

OXYGENATED BITTERS.—The cures effected by this remedy are truly astonishing. The confirmed Dyspeptic regains his pristine vigor, the Asthmatic "breathes freer," Indigestion disappears. These *bitters* produce these wonders. Let all who suffer try them.

All persons who sell Herrick Allen's Gold Medal Saleratus are authorised to give their customers the privilege of using one-half the paper, and if not perfectly satisfactory, to return the balance and get the amount paid for the whole. It is a great deal better than soda to use with cream tartar. Try it. Most of the Grocers and Druggists keep it.

There is another article in the market put up in similar colored papers. Do not be deceived by it. See that the name of HERRICK ALLEN is on the wrapper, and no mistake can occur. Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

Wistar's Balsam of Wild Cherry.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases of *Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Asthma, Inflammation* of the *Lungs;* while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

From the Editor of the Portsmouth (N. H.) Journal, Aug. 11, 1860.

WISTAR'S BALSAM.—There are but few medicines of which we can express an opinion from personal knowledge. Among such we place prominently WISTAR'S BALSAM OF WILD CHERRY, which should always be kept on hand. It is an excellent medicine not only for *Coughs* and *Colds*, but also for neuralgic affections. We have known suffering from the nerves of the stomach effectually relieved by its soothing influence where other medicine has been ineffectually used.

From a highly respectable Merchant.

Messrs. S. W. FOWLE & CO.—

Gents:—For a long time I have suffered more or less with that distressing affliction—*Phthisis*—in its worst forms, and have resorted to various so called remedies, but to no purpose as affording the desired relief. Deprived of my sleep by reason of the severity of the disease, it was only too evident that I was fast breaking down under it. I resorted to DR. WISTAR'S BALSAM OF WILD CHERRY with but little confidence as to its curative properties, but the use of one bottle has entirely rid me of this monster; and to the public I can safely commend it as every worthy their confidence. Most resp'ly, S. I. MERRILL.

THE PORTSMOUTH YACHT RACE.

Messrs. Editors:—Considerable inquiry being made respecting the Boat race advertised to take place between the "Viking" of Portsmouth and "Live Yankee" of Newburyport which did not come off as was announced, I desire to present to the community the reasons, all of which can be proved to a certainty. The owners of the "Yankee" challenged the "Viking," stating that they were ready, and would race with them at any time and place between Cape Ann and the Isle of Shoals, "up creeks, rivers, ponds, or on the Ocean, and if they would not meet them, to forever hold their bragging about the sailing of the 'Viking.'"

The owners of the "Viking" immediately dispatched a messenger to the owners of the "Yankee" at Newburyport, accepting the challenge, naming $250 a side, Thursday, the 27th inst., as the time, and from off the mouth of Little Harbor to the Shoals as the race course. The owners of the "Yankee," no money then having been put up, accept the terms. On Monday evening, Mr. S. L. Brewster, of New York, came forward and tendered the money on the part of the owners of the "Viking," and the owners of the "Yankee" quietly withdrew from their agreement, and would not stand to their engagements. The challenging party though met upon their time, terms and place by the boat they had challenged singly, after having advertised in the public newspapers they would sail against any boat in the country, without any reason whatever expressed, silently withdrew, and not one of the owners of the "Yankee" could be found daring enough to venture their boat against one much smaller every way. Taking into consideration the knowledge the public have of the sailing qualities of the "Viking," the most plausible reason which can be drawn is, that the owners knew the "Yankee" would be beaten hard, and therefore *backed out*, virtually acknowledging their boat was not what they have represented her—and that any challenge from them cannot be supposed as made in good faith—but mere words of bluff.

Such conduct on the part of the owners of the "Yankee" should convince any one that a challenge from them is mere words and not real, therefore should another challenge be made to any other boat, any expenditure to make arrangements would be at their expense without any prospect of a conclusion.

[This article was intended for insertion in the Newburyport Herald, but was refused for fear of offending the owners of the "Live Yankee."

ONE OF THE OWNERS OF A BOAT.

Newburyport, Mass., Sept. 28.

THE MAMMOTH OXEN owned by David Towle, of Hampton, N. H., have been on exhibition at the Maine State Fair at Portland, for the past week—although it was agreed that they should be at the Merrimack County Fair at Concord, which was held at the same time. A correspondent of the Boston Herald, writing from Portland, gives their weight, size and age—although the owner has always refused, when in this vicinity, to have them weighed. His Herald report says they weighed 8087 pounds on Saturday last. They were six years old last spring, and are of the Red Durham breed. One girts 10 feet and 9 1-2 inches, and the other 10 feet and 9 inches.

There was some complaint at the Rockingham Fair, (and perhaps with some share of good cause) that these fine cattle, which we announced to be "on exhibition," should only be visible through the payment of an extra admission fee of 10 cts. But this was the only way in which the oxen could be obtained at all; and it was only through repeated and earnest solicitations that they were finally brought on the ground, even after the agreement was made and the cattle advertised. "When you can't do just as you would, do the best you can."

Will be sold at Public Auction,
On Saturday, the 29th day of September inst., at 12 o'clock, noon,
ON THE PREMISES,
The two-story HOUSE and LAND No. 45 Court street, opposite Atkinson street, now occupied by Mr. Wilbur B. Waite, and adjoining the estate of James P. Bartlett, Esq.

Said house is in good repair, having recently been put in excellent condition, both inside and out. It has parlor, sitting room and kitchen, with four chambers; also, water conveniently introduced, gas, &c. The Lot has a front of forty-seven feet on Court street, extending twenty-three feet on Atkinson street.

The central location of this estate renders it a desirable place for those whose business calls them to any part of the city, or the Navy Yard. The house now rents to a desirable tenant, at the rate of $90 per year, and is sold only because the proprietor has removed to a distant part of the State. The premises are offered at private sale until the twenty-ninth inst., when, if not disposed of, they are to be sold to the highest bidder, without reserve, and may be examined, and further particulars will be given, on application to

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS,
Those Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. **J. C. CARR.**

National Democratic Convention.

We understand the call for a Mass Convention of the National Democrats of this State, to organize and nominate a Breckinridge and Lane electoral ticket, has received the signatures of several hundred good and true Democrats, and will be published in the Concord Standard this week. The Convention will be held at Concord on the 16th of October. The 26th inst. was originally named as the time, but it was deemed expedient to change it to a later day.

We shall publish the call in our next paper; and we improve this occasion to express the hope that the National Democrats throughout the State will rally and make the Convention a demonstration worthy of our cause and candidates.

THE DOUGLAS STATE CONVENTION.—The claim of the Douglas presses in this State that the friends of Breckinridge and Lane shall support the Douglas electoral ticket is, to say the least, modest in the extreme. Had the Convention recognized the National Democrats by placing one or two known supporters of Breckinridge on their ticket, with the understanding that the whole board if elected should vote so as to effect a choice of one or the other candidate or defeat Lincoln, there would be reason in the demand that the National Democrats should refrain from organizing and give their support to the ticket of the Douglas Convention. But as it is, with the proceedings of the Convention Douglas all over, and with their ticket composed entirely of straight-out Douglas men, of course no friend of Breckinridge can support it without ignoring his principles and stultifying and dishonoring himself. The course of Mr. Douglas's supporters in this State has made a Breckinridge ticket here an inevitable necessity. We see not what other alternative is presented the National Democrats in New Hampshire than to organize and put their ticket in the field, as they propose to do on the 16th of October.

☞ Nothing of importance was done in the Board of Aldermen on Thursday evening, except to open the bids for the grading of the continuance of State street. The contract was awarded to Geo. D. Shannon, who proposed to perform the work for the sum of $345. There were three other bids, viz: Thomas M. Lang, $449; Benj. Norton, $445; S. B. Marston and C. H. Hayes, $475.

NAVAL.—The Naval Board appointed by the last Congress to examine all the sailing vessels in the Navy and report upon the practicability and expediency of converting them into steamers, consists of Commodores Storer and Stringham, Chief of Bureau Lenthall, Naval Constructor Delano, (of the Charlestown Navy Yard,) Engineer-in-Chief Archbold, and Chief-Engineer Isherwood.—They commenced their labors at the Portsmouth Navy Yard on Saturday last and concluded on Monday. Nothing definite will be known of their action until the meeting of Congress in December.

From the Journal.

WIDE AWAKES.

These organizations have been formed in most of the principal towns in this and other States, and have brought together those who are willing to work for the election of LINCOLN & HAMLIN, and the prevalence of the principles of Liberty which are the only sound basis for a truly Republican Government.

Although our State may be regarded safe for the Republican cause, yet we should beware that our strength does not lead to inaction. To obtain a large majority, there must be action and some enthusiasm.

The Wide-Awakes have proved in many places the most efficient agents of the campaign, and it has been deemed advisable to form an organization in this city. For this purpose a meeting of all those who wish to unite in the work will be held this Saturday evening, at 7½ o'clock, at Rechab Hall—where the Republican party generally are invited to be present.

THE HARVEST IN CONNECTICUT.—The Hartford Times says potatoes, for the first time of late years are yielding in the almost old fashioned measure of 200 bushels to the acre, and large contracts are being made here at 37½ @ 40 c ⅌ bushel; apples lie rotting by the hundred bushels in a thousand orchards, not only of Connecticut, but of New England, for want of a market at any price.—They can be bought, good and sound, in any quantity, at a shilling a bushel. We have not seen anything like this in our orchards since 1844.

Daniel R. Goodwin, formerly Professor in Bodoin College, afterwards President of Trinity College, Hartford, has just been inaugurated Provost of the University of Pennsylvania.

Morning Chronicle.

In French Guiana they have concluded to impose a tax on dancing. As Cayenne, the principal place in the colony, is a penal settlement, inhabited chiefly, we believe, by political exiles, it may reasonably be supposed that the population is not over merry, especially as the climate is a little more deadly than that of Sierra Leone.—Frenchmen, however will dance, if they have the opportunity, under any circumstances. They prefer a "fetter bornpipe" to no dance at all. It is therefore a refinement on cruelty to make the Cayenne exiles pay for shaking their fantastic toes.

☞ Most of the Scotchmen resident in New York, had a fete in Jones's Wood on Monday, and exhibited Caledonian games to some 8000 people. The N. Y. Sun says the chieftains were fine looking athletic men, all wearing kilt and tartan, the sporran, skene dhu, steel pistols and dirk.

It is said that Indian mothers never inflict corporal punishment on their child.—The aboriginal way of dealing with them is, when they commit a fault that deserves chastisement, it is usual for the mother to paint the culprit's face black, and turn him out of the lodge with nothing to eat. This correction often lasts a whole day.

WHAT HE THOUGHT.—A little boy coming home from church where he saw a person performing on an organ, said to his mother—"Oh! mamma, I wish you could have been to church to-day to see the fun! —a man pumping music out of an old cupboard."

ANOTHER DISASTER.—*Chicago, Sept. 26.*—Schooner St. Mary, hence for Cedar Rapids, with some lady passengers and five men, besides Captain Berrett, mate and cook, was probably lost on the same night with the steamer Lady Elgin, as she has not arrived there.

☞ A young lady of Cincinnati, just returned from Europe, states as a positive fact that an aristocratic Englishman inquired of her if Cincinnati was a Slave State.

Modern education too often covers the fingers with rings, and at the same time cuts the sinews at the wrists.

☞ A writer in the N. Y. Herald, calls Shakspeare a sensation playright.

A lady's home dress ought to last a long while; she never *wears it out.*

ATWOOD'S

QUININE TONIC

BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities

This elegant compound, which has received the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic* s, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhea, dysentery and cholera morbus, the public may rest secured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*And it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

THE Remedies are carefully prepared under the direct supervision and prescription of Prof. HUMPHREYS, in order to meet these great and long felt want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight shiverings, pain in the side, or a headache, or heartburn, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other fatal disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, and hence occasioning no risk, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger averted.

Experience has amply confirmed the use of these remedies for families and private persons, as being THE SAFEST AND THE MOST SIMPLE AND CONVENIENT, THE MOST PRECISE AND RELIABLE.

Thousands are and have been using them for some years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and scarcely a hundred-of-thousands signed testimony is that they give good satisfaction to their customers.

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

Dyspepsia Remedy

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the stomach, or pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Refreshes, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirits, the distressing Sounds and painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day, it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the sallowest face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce an large a sale, that our aggregate profits will make our business sufficiently remunerative.

CHALYBEATE

RESTORATIVE

PILLS OF IRON

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combination in Hydrogen, so sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the world as if returned from protracted travel in a distant clime. Some very signal instances of this kind are attested to female sufferers—cases of victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for recommendation to medical men, the operation of this preparation of Iron may be accurately be salutary, for, unlike the old oxides, it vigorously tonic, without being exciting and over-therapic and poisonous, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inducing a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local congestion, which forms them.

In DYSPEPSIA, insurmountable as are its cases, a single box of these Chalybeate Pills has often sufficed for the most inveterate cases, including the attendant *Costiveness.*

In menstruation and LEUCORRHŒA, even when advanced to DYSENTERY, contributes wonderfully, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has always allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicinal Iron has had far more than the good effect of the most cautiously balanced preparations of Iodine, without any of their well-known inhibitions.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases specifically recitting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, with its alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS, it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of the medicine, which exerts such prompt, happy, and fully curative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 10 pills, price 50 cents per box; for sale by all druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

GUMPTION.—I was amused a few days since. The contrast between two men who were working for the same wages, is worth describing, because it illustrates some truth—the difference between the common American mind and the common European. We were preparing to throw our bridge across Idlewild brook. A quiet, little, narrow-shouldered American, with my horse hitched to a drag, was drawing stone for the roadway beyond, and a broad-shouldered fellow from the old country was digging earth to fill in. I stood looking on a moment. I saw a thrifty little cedar, which was partly uprooted, and requesting the digger to shovel some dirt around it, I walked on. Returning a few minutes after, I saw my cedar erect enough, but its roots still exposed. "Why didn't you cover it with dirt?" I asked. "Sure, sir, said sturdy Great Britain, with a look of most honest regret that he had not been able to oblige me, "you told me to shovel it, and I had no shovel." He was working with a spade.

It was not ten minutes after this that I saw my little Yankee dollar-a-day unhitching the horse from the drag. "What are you going to do?" I asked. "Why, there's no more stone to be got on this side, and as the carpenter don't seem to be coming along to fix this bridge, I thought I'd step over and get What's-his-name's oxen, and snake them timbers up, and haul 'em across with a block and tackle, and timber over, and put on the planks. I could draw stone from the other side then." Here was a quiet proposal to do what I looked forward to as quite a problem, even for a professed mechanic. I had bespoken a carpenter for the job three weeks before.

There stood the abutments six feet high and twenty-five feet apart; the stream swollen by the freshet, and hardly fordable on horseback, running between; and how those two immovable timbers, thirty feet long, were to be got across without machinery and scaffold to span this chasm of twenty-five feet, I was not engineer enough to see. It was among the "chores that a man with common gumption could do easy enough," however, as my friend said; and it was done next morning with block and tackle, rollers and levers,—he going about it as naturally and handily as if he had been a bridge builder by profession. There being no higher price for day labor with his amount of "gumption" and day labor such as the other man's who could not conceive how a spade might be used for a shovel, shows how common ingenuity is in our country, and how characteristic of a Yankee it is to know no obstacle.—*N. P. Willis.*

SENSE VS. SENTIMENT.—To be philosophical—to be even sensible in love affairs, is a rare felicity. Three-fourths of all the songs, sonnets and madrigals of lovers are written in deprecation of inconstancy; in sorrow for unrequited affection, and in revenge of false vows and promises. Sometimes, however, we see a more wholesome sentiment. Tennyson, in his poem of "In Memoriam," says very truly and beautifully:

"Is better to have loved and lost
Than never to have loved at all.

And Congreve, who wrote many years earlier, says with less beauty of diction, but with equal philosophy in the thought:—

False though she be to me and love,
I'll ne'er pursue revenge;
For still the charmer I approve,
Though I deplore the change
In hours of bliss we oft have met;
They could not always last:
And though the present I regret,
I'm grateful for the past!"

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His **Panacea** is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cordial of Dandelion, Spikenard, and Boneset,—a remedy for Liver Complaint and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names of Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound has proved to be the surest remedy for these complaints that he has tried or known during the whole 40 years of his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Purgic. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents.

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 33 cts; large, 50 cents.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed, on his circular which accompanies the medicines. These, with others of

APPLEDORE HOUSE,
ISLES OF SHOALS.
This favorite resort for the man of leisure and the invalid is now open. Since last year many alterations and additions have been made, increasing its capacity. Billiard and Bowling Saloons are provided, and every measure taken to secure the comfort and amusement of its guests. *An abundance of sweet cream and milk is supplied from healthy cows kept on the Island.* The table is faultless. The facilities for fishing have been increased by the addition of new boats and experienced skippers.

When to all these advantages are added the purity of the air—the delicious coolness of the ocean breeze, its invigorating and appetizing power—the loveliness of the scenery—the glory of its sunsets—the cleanliness of its walks—its freeness from dust, mud, and all other annoyances of the kind—it may truly be said to possess advantages and attractions which no other watering place in New England can attain. The equability of the temperature is a natural advantage over the coast of the mountains, which invalids can fully appreciate.

A daily Packet, the SIBYL, Capt. Preble, runs direct to Appledore from Portsmouth, leaving Pier Wharf on the arrival of the morning train from Boston, and returns in the afternoon. The Sibyl has every accommodation for the comfort of passengers which a Packet requires.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.
For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, any from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.
Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; however, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.
Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.
Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early manhood; and after using some two or three bottles of your "Hair Restorative," his head was covered with a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement: I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.
Yours, &c.,
THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color: about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THABERG.

The Restorative is put up in bottles of three sizes: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

Portsmouth, N. H.

MONDAY, OCTOBER 1, 1860.

NOT UNDERSTOOD. — The Manchester Union Democrat says:—

We do not think the exact issue between the Douglas and the Breckinridge men is clearly understood.

It is very true that the Douglas men hold that a territorial Legislature is competent authority to prohibit slavery at any time; and it is equally true that the Breckinridge men deny this. But this is not the issue, after all. While the Douglas man claims for the people the rights we have indicated, he is willing to abide the decision of the Supreme Court, as to the constitutionality of his views. If the Court decides that he is wrong, he holds that there should be an end of the matter, as a question of fact and of opinion. True, we may not believe that the decision is right; yet we agree to respect it. But Breckinridge asks more. He asks that, if slaves are taken into the territories—if the territorial authorities adopt "unfriendly legislation" against the supposed rights of the master—if the Supreme Court shall decide that such legislation is unconstitutional—and if such decision shall not be self-sufficient—why then that Congress shall act.

We think the Breckinridge platform is *wrong*; but if we thought it *right*, we would kick it over, because it is not based upon any present or probable contingency.

It will be observed, therefore, that the issue is, not whether the Breckinridge view is right or wrong, but whether it is necessary. It is enough for us to know that it is based upon a series of suppositions, wickedly contrived to throw embarrassments upon the northern Democracy. We have had enough of them.

CUBA.—It is reported that the Captain General of Cuba has approved of a plan for introducing five thousand natives of Polynesia into Cuba as laborers. This new description of laborers are represented to be athletic and straight-haired, with good, black complexions. A letter from Havana, in the New Orleans Delta, says:

It is thought that they will assimilate and amalgamate with our servile stock better than the Asiatic. Vessels will be immediately dispatched by those interested in the scheme, and I believe one or two are already on their way in anticipation of the authorization. To meet our increasing agricultural industry, the necessity is pressing for hands."

☞ Mr. Yancey has been speaking at Easton, Md., to a large audience. He said:

There were but two sides to this controversy—The one occupied by Breckinridge and Lane, and the other by Lincoln and Hamlin. The friends of the Senator from Illinois might think there was a third side, but there was not. He (Douglas) stood with Seward against the Constitution and the principles on which the Government has always been administered. Douglas went beyond the Constitution and the compact between the States to derive his squatter sovereignty power, and Lincoln appealed to a law higher than the Constitution.

☞ A Richmond dispatch says:—

The Executive Committee of both wings of the Democracy meet here on the 5th of October next, and will endeavor to effect a fusion. The Enquirer hopes that the union of the two wings will be effected by the withdrawal of Mr. Douglas, but fears that this proposition comes too late. Mr. Yancey addresses the National Democracy on Monday next.

ANOTHER FATAL DISASTER IN THE ALPS.—The London Times states that the Rev. W. G. Watson, chaplain of Gray's Inn, and grandson of the celebrated Bishop of Llandorf, lost his life in the Tyrol on the 31st of August. He was crossing a snow slope with another gentleman and a guide, when his footing gave way and he fell into a chasm ninety feet deep. His companion escaped. The body of the unfortunate man was not recovered until a lapse of several hours, when it was evident that his terrible fall had produced instant death.

NO PROSPECT FOR BRECKINRIDGE.—Col. Orr, of South Carolina, writing from perhaps the only State that will support Breckinridge, in a recent letter, says:

"Whilst I shall give to Breckinridge and Lane, the nominees of the Baltimore Convention—gentlemen of tried patriotism and sound principles—a hearty and cordial support, *I see no prospect of their election, either by the people or otherwise.*"

☞ The Poughkeepsie (N. Y.) Eagle says that in that vicinity the apple orchards have never yielded such an abundance in the memory of the oldest inhabitants as this year. Several farmers say they will let them rot in the orchards. They cannot sell them.

☞ At Pittsburg, Pa., the other day, there was a boiler explosion, of which we have before spoken, by which 10 men were killed and 20 wounded. The Pittsburg Chronicle, referring to some of the testimony given, says "the explosion was the result of a defective head, put in in a defective way, and made from defective iron."

TORNADO AT SOUTH READING. — On Tuesday last, the wind was very destructive in the town of South Reading. Several barns were demolished, and many dwelling houses partially wrecked, entailing an aggregate damage of about $1000.

INDIANAPOLIS, Sept. 28.—Mr. Douglas spoke here to-day to an immense crowd.

AN INSANE MAN TURNED UP.—More than a year ago Capt. John C. Ramsdell, formerly of Newburyport, came to his relatives there, in a disordered state of mind. He had previously suffered from derangement. Shortly he started for his home in Foxboro'; but was not heard from after, till within a few days, when he was discovered in the Weymouth Alms house. He had gone directly to that town and fallen into the hands of the Overseers of the Poor, but had constantly refused to give any information concerning himself. Within a few days he came to, so far as to inform them whence he had come. He had been given up as dead, and it was supposed that either he had wandered into the woods and perished or been drowned. It is quite possible that he may again recover his usual health. *Herald.*

NOT SET DOWN IN THE PLAY.—During the performance of the "Octoroon" at the theatre yesterday afternoon, in the scene where *Zoe* is, about to take the poison, Nathan Winslow, Esq., of this city, astonished both audience and actors by rushing upon the stage and seizing *Zoe*, (Miss Kimberly) shouting out in a highly excited manner: "Hold, Zoe,—don't take it! I command the underground railroad. Fly! fly with me and you are safe. Come to Canada, to the possessions of Queen Victoria, and you will be free! *free!* FREE!!" Manager Macfarland soon set things to rights and the excited gentleman left the stage.—*Portland Argus, 27th.*

DEATH OF "ROSINA TOWNSEND."—Mrs. Moffatt of Castleton, once notorious as Rosina Townsend, the keeper of the house of ill-fame in Thomas street, New York, where Helen Jewett was murdered, nearly a quarter of a century since, died at Castleton, below this city on Sunday last. She has resided in that village for nearly twenty years, and was a very exemplary member of the Methodist church. She was a woman of active benevolence, and was foremost in every movement to ameliorate the condition of the poor. It was supposed by many that when she died she might throw some additional light upon the murder of Helen Jewett, which caused such intense excitement throughout the country at the time of the trial, but she never revealed it. What little property she had she bequeathed to her husband, with whom she had lived contented and happy for many years.—*Albany Knickerbocker, 21st.*

A Canadian paper tells the following:—

"A very laughable incident occurred as the Prince entered his carriage at the Welland Railway station. An Irishman, with a large pail of water in one hand, and a dipper in the other, elbowed his way through the crowd, and on reaching the carriage exclaimed, 'Arrah, now, an' its mesiff that does be afther thinking that the poor boy 'ill be dhry afther his long dhrive. Won't yer honor be afther taking a horn of good, cowld spring wather?' and was about handing the dipper to the Prince, who, laughing, reached his hand forth to grasp it, when a trooper unceremoniously interfered, and drove poor Pat off."

MAINE STATE FAIR.—*Portland, Sept. 29.*—The trot on the fair ground this forenoon for a purse of $200, mile heats, best three in five, was won by Meddlesome.—The first heat was won by Meddlesome in 2:48 The second by St. Lawrence in 2:45. Meddlesome won the third in 2:46, and the fifth in 2:51. The fourth was a dead heat between Meddlesome and St. Lawrence, in 2:46. There was a good attendance of spectators. The Fair closed with a cavalcade of ladies and gentlemen.

RACING.—*New York, Sept. 29.*—At the race over the Fashion Course for $2000 yesterday afternoon, Avalanche won the first race on the second and third heats. Time—5:56 1-2; 5:59 3-4. Distance, three miles. Aurora won the second race Time, 1:55; 1:55. Throgg's Neck won the third race. Time—5:51 1-2; 5:55 1-2.

NEW ORLEANS, Sept. 28.—The steamer Gladiator has arrived at Quarantine from Honduras. Walker was shot on the 12th. Ten shots were fired amid cheers. He was interred by foreigners. Rudler has been sentenced to four years imprisonment.

The Salem Register reports that quite a tornado was experienced in Middleton, Ms., on Tuesday afternoon. A barn belonging to Mr. Jas. Richardson was blown over and an ox killed. The chimney of the house of Mr. Richardson was blown off, carried several rods, and set down without breaking. A barn belonging to a Mr. Curtis was also demolished, and about fifty fruit trees were torn up by the roots, with other damage.

By National Democrats, as that phrase is now used by the Breckinridge papers, is meant those Democrats who live upon the *national treasury*—who draw their sustenance from the national administration as a toadstool draws nutriment from a rotten log.—*Bath Times.*

A rabid pro-slavery journal in the South suggests, as a means of harmonizing slavery agitation in this country, that all the Irish in the free States be reduced to an equal condition of bondage with the negroes the other side of Mason and Dixon's line.

PITTSBURG, PA., Sept. 28.—A passenger car on the Eastern train to-day, ran off an embankment 20 feet high, fatally injuring a brakeman, and slightly wounding some 30 passengers.

NEW YORK, Sept. 28.—The shipments of specie by the European steamers to-morrow, will amount to between six and seven hundred thousand dollars.

The slave brig Kilby was sold to-day for $1400.

THE FARNHAM JUBILEE.

Ralph Farnham, the old Bunker Hill man, has been invited, by many of the citizens, of all parties, to visit Boston,—and Mr. Stevens offers him and his family free quarters at the Revere House.

As Mr. Farnham cannot endure the fatigue and excitement of shaking hands with the thousands who will desire to see him, it is the intention of the Committee of Arrangements to give him a reception at Music Hall on Tuesday evening, Oct. 9th. The Ancient and Honorable Artillery will escort him from the Revere House to the Music Hall, where the Mayor is expected to preside. Hon. Edward Everett, with other gentlemen, are to deliver addresses. A large painting representing the Battle of Bunker Hill—a copy of Trumbull's—will be exhibited on the occasion.

We copy the old man's letter, accepting the invitation.

ACTON, ME., Sept. 25, 1860.

Mr. N. P. Banks, Mr. F. W. Lincoln, Jr., and others, Boston:

I have received your kind invitation to visit Boston, and I thank you for the honor you do me. When I listed in the American Army at the age of 18, I did not suppose I should live to be 104, and be asked by the Governor and Mayor, and other distinguished people, to visit Boston.

It seems strange that out of all who were at Bunker Hill, I alone should be living. It appears to me, though so long ago, as if it was but yesterday. I can remember the particulars of the march after I listed—how the people cheered, and when near Andover, Col. Abbott came out and said, "Well done, my lads," and sent out cider and grog in pails. We got to Cambridge the day before the battle. O, it was a terrible affair to me, for it was the first time I ever engaged in fighting. I served with the army through three campaigns, and was present, and on guard, when Burgoyne surrendered. I don't think I deserve any special praise for the part I took in the Revolution. I felt and acted only as others. I receive every year my pension of $61.66—though I have to pay $4 to a lawyer in Portland to get it for me.

I have many things to comfort me as I journey along through life—innumerable are the mercies I am surrounded with. As to temporal matters,—kind, loving children, faithful friends. As to spiritual,—the holy scriptures and the various institutions of religion—all of which are designed for our improvement here, and to prepare us to dwell in that better world above.

If a kind Providence spares my life and health, you may expect to see me in Boston about the 8th of October.

Your Friend, RALPH FARNHAM.

A HORSE WITH THE HEAVES. — We have heard scores of remedies proposed for heaves. Ginger mixed with oats has been prescribed, and hundreds of horses have been killed by doses of spirits of turpentine in various quantities. Indeed, we know of very few things which have not been recommended in turn as a cure for heaves.

Prevention is always better than cure. A riddle in front of the cutting box, to let sand and dust out of cut feed, will be found advantageous. Steaming the food prevents the dust separating from the food when eaten, and materially ameliorates the disease. The use of carrots, however, is not only a preventive but a remedy. No horse will be troubled with heaves while carrots form part of his food.—*Working Farmer.*

A sailor boy purloined two or three pies at different times. He was overheard in his whimsical method of repeating the marriage vow, thus:—"I propose a match between Jack Bowing and this pie: if any objections can be made to this union, let it now be known or forever keep the peace." On this freak being whispered to the captain, he prepared a good rope's end, and holding it in one hand, and the boy in the other, he said:—"A union is now proposed to take place between this rope and a sailor; if any objections can be made to this ticklish match, let them now be known or forever keep peace." "Captain," said the boy, "the bans are forbidden; the parties have not the least regard for each other. To make it right, both with one voice should require to be spliced." "Well," said the captain, laughing, "you may go this time, sir; but look out next time how you make love to or marry one of my pies, for it is clearly pi-ratical."

AVARICE.—"If a man had *two* rivers of gold, he would still desire a third; and if he had *three* rivers of gold, he would still desire a fourth to be added unto them; neither can anything be found sufficient to satisfy the stomach of a son of Adam."—*Koran.*

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

As the Weekly Chronicle contains most of the matter from our "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

THINGS THAT NEVER DIE.

Sweet, gentle, kind and loving words,
Although but spoke in jest,
God knows are deeply stored within
The glad receiver's breast;
Like childhood's sweet and simple rhymes,
Deep in the heart they lie—
Yes, words of kindness and of love,
Are things that never die.

Sweet, gentle fancies never die—
They always leave behind
Some well beloved legacy,
Stored deep within the mind;
Some happy thought or pleasant dream
Which though they may pass by,
Yet leave an impress on the heart,
That they can never die.

This is what Henry Ward Beecher says about those who pause and fold their hands and say they have found all that is worth finding in the world:—"I tell you if a man is come to that point where he is content, he ought to be put in his coffin, for a contented live man is a sham! If a man has come to that state in which he says, 'I do not want to know any more, or do any more, or be any more,' he is in a state in which he ought to be changed into a mummy. Of all hideous things, mummies are the most hideous; and of mummies, those are the most hideous that are running about the streets and talking."

Young ladies can get much good counsel from the papers. One says—"No young woman ought to feel herself qualified to become a wife, until she is sure she understands how to do the most that can be done with her husband's money. A wasteful housekeeper not only actually robs those for whom she undertakes to manage, of the comforts it is her duty to provide for them, but keeps her husband head over ears in debt, and makes the domestic life of a poor man a continual series of experiments in shunning it from one day to the next; in keeping the stomach full, though the purse be empty."

☞ Louise Karr, the widow of the pianist, Henri Karr, and the mother of the engineer, Eugene, and of the celebrated author, Alphonse Karr, died Sept. 6, in Cannes, aged 82.

☞ The up freight train from Rochester for Buffalo on Sunday morning consisted of 140 cars, being over a mile and a quarter in length. The train was drawn by five locomotives.

☞ The N. Y. Observer argues that Dartmouth College is not injured by the "conservative union views" of President Lord, because the freshman class this year is the largest ever entered.

☞ The Richmond Enquirer says that Mr. Douglas comes to Virginia as a "Black Republican emissary."

☞ Robert Wendell was killed at Shoken, N. Y., by falling from a tight rope while endeavoring to imitate Blondin's feats.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

FOR SORE, WEAK, INFLAMED EYES AND EYELIDS!

A true specific, and invaluable remedy has been at last discovered. Dr. Humphreys argues that these affections inveriably result from a constitutional disease, of which the local affection is the only outward manifestation. Hence, HUMPHREY'S SPECIFIC HOMEOPATHIC OPHTHALMIA PILLS are only taken internally, and yet cure the worst forms of obstinate sore eyes and eyelids, which have resisted all other treatment. All cases of sore and inflamed eyelids, or failing, weak or defective sight, will be promptly benefitted, and the cure of the worst cases is only a question of time.

Price, 50 cents, with directions.

Sent by mail or express, free of charge, on receipt of the price.

Wistar's Balsam of Wild Cherry.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases of *Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Asthma, Inflammation of the Lungs;* while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

From the Editor of the Portsmouth (N. H.) Journal, "Aug. 11, 1860.

WISTAR'S BALSAM.—There are but few medicines of which we can express an opinion from personal knowledge. Among such we place prominently WISTAR'S BALSAM OF WILD CHERRY, which should always be kept on hand. It is an excellent medicine not only for *Coughs* and *Colds*, but also for neuralgic affections. We have known suffering from the nerves of the stomach effectually relieved by its soothing influence where other medicine has been ineffectually used.

Gents:—For a long time I have suffered more or less with that distressing affliction—*Phthisic*—in its worst forms, and have resorted to various so called remedies, but to no purpose as affording the desired relief. Deprived of my sleep by reason of the severity of the disease, it was only too evident that I was fast breaking down under it. I resorted to DR. WISTAR'S BALSAM OF WILD CHERRY with but little confidence as to its curative properties, but the use of one bottle has entirely rid me of this monster; and to the public I can safely commend it as every worthy their confidence. THE STATE FAIR.—The New Hampshire State Agricultural Fair will commence at Manchester on Tuesday next, and continue four days. The attractions, it is said, will surpass all previous exhibitions of the State Society. The field is an excellent one, with a half mile track in perfect order. Gov. Banks will deliver the oration.

THE STATE ENCAMPMENT.—The encampment of all the militia in the State has been ordered by the Governor to take place in Nashua on the 11th and 12th of October. The field selected is about a mile from the city, and on the track of the Concord Railroad—a beautiful site, and near enough to the city. The parade will be under command of Col. John H. Gage, of Nashua, commander of the First Regiment—the only regiment in commission.—His Excellency Gov. Goodwin, Commander in Chief, will be present, and will review the troops on Friday.

In addition to the Companies already reported, the Nashua Telegraph understands that a new one has been organized at Exeter, and will be in full uniform and equipment; also that an infantry company is to be organized at Manchester, and another at Hollis.

"It gives us great pleasure to say that it is the full determination of all the officers who have been instrumental in getting up this encampment, to make it an honor to the militia and the State. To this all are enjoined in general oaders, and it will be insisted on by precept and example."

☞ The City Phalanx, Capt. Wm. O. Sides, is to attend the State Muster at Nashua, from this city; and there is some talk of getting out the Old Guard to go too—consisting of the elder men who have sufficient military and social spirit left. The Phalanx have procured 64 uniforms from Boston for the occasion, and it is hoped to fill them all creditably.

ACCIDENT ON THE GREAT FALLS AND SOUTH BERWICK RAILROAD.—Saturday morning, a mixed train on the Great Falls & South Berwick Branch Railroad run upon the bridge across the Salmon Falls river, which the engineer found was not strong enough to support the train. He let on full steam, after he had stopped, and approached near enough to the abutment on the south side of the river to jump upon it. The firemen followed his example. They had scarcely landed when the bridge, engine, tender and freight cars fell into the river, a distance of about twenty-five feet.

Great excitement prevailed in the village and hundreds rushed to the spot. It was soon learned that no one had been injured.

There was a passenger car attached, and the escape of the passengers from being precipitated into the river was owing to the presence of mind of the baggage master, who unshackled the passenger car from the others. It will require several months to rebuild the bridge.

☞ Mrs. Varian-James' Concert at the Temple on Friday evening, was a very fine one in all its parts, and was attended by a genteel and fashionable audience, who were much gratified with the performances, and called for the repetition of two or three favorite pieces. Mrs. Varian-James is one of the most delightful singers to whom we ever listened. She was aided by Mr. Cooke, the eminent tenor, and Mr. Hoffman, pianist, who performed their parts admirably.

☞ Prof. Harrington, the original and celebrated Ventriloquist, gives two of his curious and unique entertainments, Monday and Tuesday evenings, at the Temple, which will afford much amusement to old and young, who fancy such innocent illusions. See advertisement.

☞ The dwelling house and lot at the corner of Court and Atkinson streets, were sold at auction on Saturday, by Wm. H. Hackett, Esq., for the sum of $810.—James P. Bartlett, Esq. was the purchaser.

☞ Ice was formed in this vicinity on Saturday and Sunday mornings;—and the weather was decidedly cool.

☞ The Democratic Standard of Sept. 29, contains a call for a Mass Meeting of Breckinridge and Lane Democrats, at Concord, Oct. 16. The call is signed by 300 names, 42 of them from Portsmouth. The Standard says:—For want of space this week, we have been able to give only a portion of the names, but shall shortly give the entire list.

☞ There was a town-meeting called at Great Falls on Monday, Sept. 24, to see if the town would rescind the vote of last March, whereby the Selectmen were directed to prosecute violations of the liquor law. By a vote almost unanimous, the article was indefinitely postponed, thus sustaining the Selectmen, and confirming the action of the town last spring.

☞ Miss Hannah F. Gould, one of the most popular of our poetesses, was many years ago the author of some beautiful lines upon the marriage of Queen Victoria, who recognized the compliment by sending to Miss Gould a beautiful cross. Miss Gould will be present in Boston during the visit of the Prince of Wales, and will have an opportunity of seeing His Royal Highness.

☞ There are sixty-four inmates of the Ohio State Prison at Columbus, under sentence for life, one of whom has been confined for twenty-four years, nine others more than ten years, &c. Of these ten are hopelessly insane, others are on the last verge of insanity, and the tendency of nearly all is to monomania and despair.

☞ Two travellers, supposed to be from Texas, names unknown, were found murdered and thrown over a bluff, ten miles north of Van Buren, Ark., on Tuesday last. They are supposed to have been dead a week. Parties are in pursuit of the murderers.

☞ A small brass cannon has been found at the bottom of a deep well of the Castle de Cluey, in France, with the date of 1258 upon it. The date of the invention of cannon has historically been assigned to the year 1324—66 years later.

☞ The barns of Geo. C. Hitchcock of New Preston, Conn., an extensive breeder and importer, were fired by an incendiary on Wednesday night, 19th inst., and the principal barn burnt, with twenty-five tons of hay, &c. Loss $3000; insurance $2000.

PHYSICAL EDUCATION.—A sub-committee has been appointed by the School Board of Boston, to take into consideration the subject of physical education in public schools, as recommended by Mr. Philbrick, the Superintendent of Schools.

FREE LECTURE,—*By a Tourist in Europe.*—Rev. George T. Day, of Providence, R. I., will lecture at the Pearl St. Church, on Monday evening, Oct. 1st. "Europe, or the bright and dark sides," his theme.

Mr. Day is a ripe scholar, and a fine speaker and lecturer. This is a free lecture, the first of a series, for the benefit of the F. Baptist Society in this city. The programme of future lectures will be announced at this one.

No more puny children, decayed teeth, or yellow bread, if you will use Herrick Allen's Gold Medal Saleratus. There is nothing equal to it. It is far superior to soda to use with cream tartar. Bread or Biscuit raised by it is more easily digested than by any other. Try one paper, and you will not fail to use it ever after. Have the Gold Medal or none. Grocers and Druggists keep it.

There is another article in the market put up in similar colored papers. Do not be deceived by it. See that the name of HERRICK ALLEN is on the wrapper, and no mistake can occur. LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.
The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.
It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chille, neuralgia, rheumatism, consumption, &c.
Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.
The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.
Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. J. C. CARR.

RELIEF IN TEN MINUTES!!
Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.
These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a boon—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.
TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Relaxing the Gums, Reducing Inflammation* and *Relieving all Pain. FOR DISEASES ATTENDING TEETHING*, such as *Diarrhea, Dysentery, Griping in the Bowels, Scalding of the Stomach, Wind, Colic,* and *Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, the little sufferer is relieved *instantaneously*, as it by magic; and in this dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital importance, and one well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are fully warranted in saying cannot be said of any other preparation for infantile complaints, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the sad and blighting consequences which are certain to result from the use of narcotics disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions. Hereto DR. EATON'S INFANTILE CORDIAL differs from every other remedy. It

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, thro' its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts. per bottle.

Prepared only by **CHURCH & DUPONT,**
No. 409 Broadway, New York,

ATWOOD'S

QUININE TONIC

BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of Quinine, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best ingredient of Bitters that has ever been offered to the public.*"

Put up in half-pint bottles as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

THE Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, a safe, simple, reliable remedy for common and simple ailments of life.

A moment's reflection will show that a vast number of diseases there which we should, and do, cure, at their commencement, simple and trifling. A mere cold, a slight diarrhea, a pain in the side, or a headache, neglected or improperly treated and cured subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—command, so as to cause no disappointment, and always occasioning no risk, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger averted.

Experience has amply confirmed the use of these remedies for families and private persons, as being THE BEST IN USE, THE MOST SIMPLE AND CONVENIENT, THE CHEAPEST, AND RELIABLE.

Thousands are and have been using them for some five years past, in every section of the country, with almost invariable success, and speak in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

Dyspepsia Remedy

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance, It stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receive the Invigorating Spirit, the distressing load and painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the bowels or stomach.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
One dose will relieve the most afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, or any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

DR. MOTT'S
CHALYBEATE
RESTORATIVE
PILLS OF IRON

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon, by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that to preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case. Innovations in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Cases of long bed ridden age, to have become forgotten in their own neighborhood, have suddenly reappeared in the busy world as if returned from years of travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In VERTIGO or DIZZINESS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be beneficial. It is not like the old cure, it is vigorously tonic, without being exciting, or over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or indicating a disagreeable sensation.

It is also very peculiar, among others, which makes it so remarkably effectual and powerful a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed to cure the most habitual cases, including the attendant *Costiveness*.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent fever, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, to several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most carefully balanced preparation of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In ACUTE DISEASES, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good cheer returns, appetite returns, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

DOCTOR AND PATIENT.

Of all the professions, trades or occupations that engage the minds of men, (says Life Illustrated,) that of physicians is most diversified. In locating he has to find out the constitution of those he is called upon to visit, for it is frequently the case that success may be owing more to a deep and thorough knowledge of the constitution than applications. As an illustration of this, we will relate an anecdote of one of our old physicians, who, if he finds physic will not cure, tries such other means as the case may require.

Dr. D—— had long been the attending physician of a lady considerably past her teens, and affected with certain disorders incident to a want of occupation and the care of a family. She sends for the doctor in season and out of season; he rushes at a two-forty pace, and finds his patient physically, perfectly well, but sad and lonely, and of course afflicted with the blues. All that he can do is to administer a tincture with a few drops of peppermint, and the patient is well for a day.

On one occasion—a cold blusterous night—the doctor had just turned in, wrapping himself snugly in his blanket, with the hope of a quiet sleep, when a loud rap aroused him.

"Who is sick?" inquired the doctor.

"Miss Sallie Strickland, sir: she is most dead; expect she'll die before you get there."

"I'll be along," says the doctor, exclaiming to himself, "that Miss Sally! I'll try to cure her this time."

The doctor plods along through mud and mire, cold and rain, studying his application. When he arrives at the dwelling of Miss Sally, he finds her, as usual, in rather a depressed state of mind.

"Doctor," she said feebly, "I expect to die every moment; I am very low. Can you do anything for me?"

The doctor feels her pulse; nothing the matter—merely wanted company. The doctor becomes communicative.

"Miss Sally, I was having a terrible dream when your servant awoke me."

"What was it?" she eagerly inquired.

"I dreamed I was dead," continued the doctor, "and descended into the lower regions, where I met 'Old Scratch,' who invited me to view his dominions. The inmates were engaged in different occupations; some playing cards, some swindling their neighbors; in fine, all the pursuits they followed during their life they continued there. When Satan got through showing me round, he exclaimed to the four quarters of his kingdom that they should all go to bed—'for,' said he, 'Sally Strickland will be here directly, and there'll be no sleep in my regions for a month!'"

The doctor's speedy departure was increased to flight by the sight of a broomstick flourishing actively in his rear, but the remedy was effectual.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.
For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp from a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I datter myself to say, is not a little.
You can publish this if you think proper.
Yours, very respectfully,
M. W. WRIGHT, M. D.
Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.
Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstances, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement: I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,
THOMPSON SURGHNOR.
Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was so rapidly becoming gray, but upon the application of your Hair Restorative, it soon recovered its original hue. I consider your Restorative as a very scientiful invention, quite efficacious as well as agreeable. S. THALBERG.
The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $8 a bottle.

TUESDAY, OCTOBER 2, 1860.

THE TEXAS INCENDIARIES.—A Fort Smith (Ark.) dispatch states that the suspected incendiaries are leaving Northern Texas in large numbers. About three hundred wagons belonging to this class of men are strung along the roads north of Red River. Their destination is said to be Kansas and Missouri. The New Orleans Picayune suspects that the extensive fires which have occurred lately in that city are, in part, the work of incendiaries, and intimates that the criminals are probably the same who have been driven from Texas.

PROTECTION DEMANDED.—Rev. T. M. Eddy, D. D., editor of the Northwestern Christian Advocate, has addressed a letter to the President of the United States, recounting the persecutions of the Methodists in the Southern States, and instancing, especially, the hanging of the Rev. A. Bewley, in Texas. Rev. Mr. Bewley is spoken of by several Methodist papers whose editors knew him, as a quiet, peaceable man, and not at all inclined to interfere with other people's affairs. Mr. Eddy demands of the President protection of the members of the church in the exercise of their constitutional rights — liberty of conscience, speech and press.

☞ Senator Seward delivered an address in Leavenworth, Kansas, on Thursday last, to an audience numbering five or six thousand. He expressed his gratification at being able to address the citizens of Kansas on their own soil, and then proceeded to a discussion of the issue involved in the first struggles in the territory between the advocates of slavery and freedom, asserting that had the cause of freedom failed in Kansas, slavery would have swept the whole country West to the Pacific. With the failure of slavery there, however, the campaign had virtually ended, and the territories would be free.

NOT SO LUCKY.—Those eighty millions of lire which Garibaldi was said to have found in the treasury at Naples, turn out to have been a slight exaggeration. According to the New York Tribune's Turin correspondent, the Liberator had to send to that city for enough of money to pay his troops after entering the Neapolitan capital, instead of finding large sums there provided ready for his use.

☞ Gerrit Smith is now in New York, to look after the suits for libel which he instituted, some time since, against several leading Democrats, for slanders which they heaped upon his head in connection with the Harper's Ferry affair. He is in robust health of body and mind, and has resumed the direction of his large business operations. His interest in the anti-slavery cause and in other righteous reforms is unabated.

A PRIEST TAKEN ON AN INVOLUNTARY VOYAGE.—The Rev. Father Quinn, the pastor of St. Peter's R. C. Church in Barclay street, New York, is on an involuntary visit to Tyrconnel, Ireland, after an absence of twenty years from his native land.—Father Quinn was one of the passengers on board the Connaught, with the intention merely of visiting a reverend friend of his in Newfoundland. The Connaught, however, in consequence of a dense fog, after remaining off the land for thirty-six hours, and failing to reach the shore, was obliged to carry off the Rev. Mr. Quinn and two other reverend gentlemen to "the sweetest isle of the ocean."

SIMS, THE FUGITIVE SLAVE.—The Boston Gazette learns that the owner of Sims, the fugitive slave, who is living in the South, has offered to sell him for the sum of $1800, and that efforts are now being made to procure Sims's liberty. His sister is living in Boston. Mrs. L. Maria Child is actively engaged in the cause, and seeks the co-operation of all friendly to the object. Her address is Wayland, Mass.

AN ORTHODOX CLERGYMAN IN THEODORE PARKER'S PULPIT.—Rev. Jacob M. Manning of the Old South Church officiated in Mr. Parker's pulpit, at Music Hall, Boston, Sunday. His appearance in the above-named pulpit indicates a liberality which a few years ago would have cost him much hard talk in his denomination. There was a large and attentive congregation.

PROTECTED.—The Machias Republican says that persuasive and humbugging agents are about in that region selling lightning rods. One old lady told an agent she had no fear of lightning, but she always had been afraid of thunder. "Just so," he replied, "we can meet your case exactly.—The square rods are *lightning* rods and the round ones *thunder* rods." Of course she is now "protected."

The last charge brought against Republicanism by the New York Express is, that it is "unchristian."

IMPROVEMENTS AT THE SOUTH.—The people of North Carolina have completed an important improvement. The deepening, widening and straightening the channel of the Deep River, projected some years ago, has at last been accomplished, and improved navigation is to be brought into use in a few days. Deep River navigable heretofore for only about one hundred and sixty miles from the seaport, (Wilmington) has been so far improved as to afford safe transit for barges equal in capacity to our lagest canal boats, as far as Farmville, something over two hundred miles from Wilmington. By this improvement the great coal and iron beds of the Farmville region have been reached, and facilities obtained for the cheap transport of ore and coal to the seaboard. The public inauguration of the completion of this work is to take place the first of this month.

CONVENTIONAL USAGE.—A very awkward usage might be easily, quietly and advantageously done away, if people would only resolve it should be; and that is, emptying the slips in churches of male occupants, to permit the entrance of ladies to the head of the pew. Why not all go in as they arrive, and save the inconvenience and disturbance that are inevitable from the opposite course? We hear the old usage spoken against so generally that we only express an all but universal desire that a new one become the fashion. The article some time ago in the Nashua Telegraph did a great work in the right direction, but it did not quite do away with the ancient practice in this regard.

AN OLD ROGUE.—John Hale, who recently escaped from the State Prison at Concord, has been captured down in Maine, and returned to his old quarters. He went to Manchester, and not having forgotten his old tricks of taking other folks' horses without leave, appropriated to his own use one belonging to Mr. George Porter, and set his face towards "away down east."—He was arrested a few days afterwards at Waterford. He is 74 years old, and has spent 46 years in the various New England prisons.

JUDGE BATES ON MANUAL LABOR.—Judge Bates, in a speech commemorating the death of a young member of the St. Louis bar, referred to the great mortality of the profession, and added:—

Allow me to suggest that there is a lesson connected with this fact, which it would be well for us to heed. We are too little attentive in our active and busy pursuits for fame and wealth—we are too little attentive to the keeping of a "sound mind in a sound body." We sacrifice the one thing in the hope of raising the other. I will state, so far as regards myself, that for nearly forty years, (and I believe I have labored as much as a man ought to labor,) I have made it a rule to work from one to three hours each day in the garden; and thus, though my star has long culminated, and I am going down the western slope of life with increasing impetus, I find myself in a good state of health, and I attribute it to the fact that I have exercised my arms in tilling the earth on a small scale, and I advise all my young friends to do the same thing.

CATTLE AND HORSES.—In speaking of the Maine Agricultural Fair, the reporter of the Boston Herald says:—

The exhibition of cattle was the largest and best ever held in the State of Maine, but it is not to this fact that the Society owes the pecuniary success of its show.—On the days when the cattle formed the sole or chief attraction, the attendance was comparatively small, but when the horse trots were advertised to come off, the spectators were numbered by thousands.

There were some superior horses on exhibition, but still the number was not so large as it should have been, the exhibition of the Maine State Association for the improvement of Horses, held at Augusta last week, having doubtless detracted much from the success of this affair in that particular. Notwithstanding this fact and the disadvantage of a poorly laid out track, the trials of speed have been the chief attraction of the Fair, and the fact cannot be denied. Cattle breeding has been brought to great perfection in Maine, and the subject deserves all the attention bestowed upon it,—and even more, but it would seem that the Society might also afford a little more encouragement to the improvement of horses.

☞ An injunction is about being applied for to prevent the erection of a chapel for the colored race on Fourth street, Richmond, Va. The grounds of the application are, that negro churches are nuisances in all respectable neighborhoods; that they depreciate the value of all other property near them; and that the congregations are a perpetual annoyance.

☞ The Richmond Sun says that Mrs. Emma Blair, Miss Melena Saunders of Perkins, and Dr. Underwood of Boston, were out on the river for a sail on Monday week, when a sudden gust of wind arose, which upset the boat. The ladies being good swimmers, saved themselves and the Doctor, as the Doctor could not swim.

☞ A lady in Newburyport who has been afflicted fourteen years with an affection of the throat, and four years has been unable to swallow anything but gruel, has had the enlarged substance cut from the throat, and is now restored to health.

A NEW RIFLE.—A new and heavy style of weapon, called the "wall rifle," has just been completed at the armory in this city, and forwarded to the ordnance department at Washington. It was proposed by the department some time since, approved by Secretary Floyd, and built under the direction of Erskine S. Allen, then master armorer and acting superintendent. It is breech-loading, with a barrel four feet long and two and three-eighths inches in diameter at the breech, and with a stock nineteen inches in length, and will carry a half-pound ball. The barrel is of cast steel, and the lock-frame different from other breech-loading pieces. It is hung on a pivot, and when closed presents a smooth surface, all the machinery being inside. The weight of the entire gun is ninety-five pounds, and will be used only for wall service. It is now being tested by the board of ordnance at Washington.—*Springfield Republican.*

☞ The Bangor Whig says:—

"The thunder showers on Tuesday afternoon were accompanied by a destructive tornado in the town of Standish, Cumberland county. The barns of D. Moultrie, Mr. Shackford and H. J. Swasey were unroofed; many elms and maples prostrated and broken to pieces; windows broken and sheds blown down. It passed through the orchards of A. W. Marrett and G. Howe, and the garden of H. J. Swasey—uprooting and breaking into fragments many valuable fruit trees. A man at work in his field with his oxen and cart was taken up and hurled some ten rods—his cart overset and carried a long distance. Stone walls were blown down and the rocks blown to the distance of rods. Fragments of trees, weighing hundreds of pounds, were hurled through the air to the distance of thirty or forty rods.

TOOK A DOSE.—The Troy Times says:

One of the workmen in the employ of Stephen R. Schuyler, in the lower end of West Troy, went into the garret on Saturday on an errand. While there he came across a bottle containing corrosive sublimate, and supposing he had found a treasure in the way of some "good cold whisky," brought it to his mouth and took a swig.—The effect, of course, was anything but pleasant. A doctor was called, and the stomach pump put into operation, which relieved the patient, and, we are happy to say, saved his life. But Pat is mightily afraid it will get into the papers, and says, "Iv it does, be me soul, ould Schuler will think I was staling"

REMARKABLE REUNION.—A few days ago a Scotch lady arrived in St. Paul from the British possessions at the Northwest, on her way to Scotland to visit her only sister, whom she had not seen for many years.—The sister living in Scotland, by a singular coincidence, arrived at St. Paul, on her way to the Northwest, the same day. The two sisters stopped at different hotels, and neither had the most remote idea that they were within thousands of miles of each other, until the morning after their arrival, when they met face to face on Third street. The mutual recognition was immediate.—They had planned their visits to each other without correspondence, that each might have a pleasant surprise.—*St. Paul Pioneer.*

HOW TO PRESEVE HEALTH.—Medicine will never remedy bad habits. It is utterly futile to think of living in gluttony, intemperance, and every excess, and keeping the body in health by medicine. Indulgence of the appetite, indiscriminate dosing and drugging, have ruined the health and destroyed the lives of more persons than famine or pestilence. If you will take advice you will be regular and temperate in your habits, eat and drink wholesome things, sleep on a mattress and retire and rise very regularly. Make a free use of water to purify the skin, and when sick take counsel of the best physician you know, and follow nature.

It is so true, and so nearly universal, that we may set it down as an axiom—disrespect towards others is incompatible with self-respect, and he who is indifferent to *their* feelings, can have none but indifferent feelings of his *own*. The bitter word is not the strong word. The greatest vigor of thought or act is not violent; it breaks no law of courtesy. The lightning is silent and playful; it is the rent and wounded air that wails in thunder.

ONE OF THEODORE PARKER'S BILLS. We have before us a bill made out to "Rev. Theodore Parker," bearing date of April 29, 1853, made out by the Massachusetts Bible Society, which indicates the range of his studies and learning. It includes one Bohemian Bible, one each of Catalonia, Tartar, Wendish, Wallachia, Lapponese testaments, and one Sorenie Matthew. His library was rich in the languages of many lands, and it possessed every printed Bible that was known.—*Atlas.*

DEATH OF A PRIZE MARE.—The thorough-bred mare, Massowda, owned by Mr. Henry G. Thomas, which took the first prizes at the horse show at Augusta and at the State Fair in Portland, was discovered to be lame on Saturday. She was placed in the care of Dr. Ripley, who administered chloroform to the beast and examined her leg. He found it so badly broken that he advised killing her to release her from misery, which was immediately done.—*Adv.*

A Douglas speaker at Syracuse, N. Y., an evening or two since, was asked to define Mr. Douglas' position upon the slavery question. Said he; "Mr. Douglas believes that if slavery aint a mind to go where she is a mind to, she may stay where she is, if she doesn't want to; subject to the decision of the Supreme Court, and of the people of the Territories when they is agreed on that p'int." It was taken as satisfactory by his audience.—*Atlas.*

A musical genius in Paris has invented a musical petticoat, which instead of springs is inflated by minute pipes, that upon touching a spring may be made to play a variety of airs. We don't approve of anything that admits of the ladies taking upon themselves any new airs.

THE LOST SHIP STAFFORDSHIRE.—It is reported at Yarmouth, N. S., that the hull of the packet ship Straffordshire, lost several years since, has been found off Shag Harbor, in ten fathoms water. It will be recollected that a large number of her passengers perished, together with her commander, Capt. Richardson.

☞ S. S. Southworth, (known for many years past by the soubriquet of John Smith of Arkansas,) editor of the New York Mercury, the bosom friend of Gen. Jackson during the whole of his administration, and always a Democrat, has declared his determination to vote and work for Lincoln and Hamlin.

CALL ACCEPTED.—Rev. N. Sheppard, of Philadelphia, has accepted the call from the Tremont Temple Church, Boston, to become their pastor, and will enter upon his duties the first Sunday in October, to succeed the celebrated Mr. Kalloch.

☞ The Windsor (Vt.) Journal says that the wind blew a hurricane between Quebec and Taftsville during the thunder-storm on the 25th inst. The barns of Samuel Pollard, Moses Barron and Joseph Robinson were blown down, and some 500 sugar maple trees prostrated.

DIED IN A CELL, AND EATEN BY RATS. An intemperate man was picked up in the streets of Flushing, L. I., one day last week, and committed to the lock-up, where he was found dead the next morning, and a portion of his head and the whole of one hand had been eaten by rats.

☞ It is now determined that the Prince of Wales will dine with the President on Wednesday and Thursday, and with Lord Lyons on Friday, returning to Baltimore on Saturday. The diplomatic corps will be invited to dine at the White House, one-half each day, taken in the order of seniority.

☞ The Prince of Wales, it is arranged, will visit Mount Vernon. What poetic retribution! exclaims a cotemporary. The grandson and heir of George the Third paying his respects to the memory of the great rebel!

NO SHAVING ON SUNDAY.—The principal barbers in Bangor give notice that they shall not manipulate the faces of customers on Sunday; also that they shall prosecute any of the fraternity that shall do so.

SNOW.—Snow fell on Friday in considerable quantities on the line of the Grand Trunk Railway, between Island Pond, Vt., and Acton, Canada.

☞ Mr. Gangooly, the converted Brahmin, has been compelled, by failing health, to abridge his stay in England, and give up his contemplated visit to Scotland.

☞ The men at work on the White Mountain road, were driven off on Friday by about six inches of snow, and have closed their labors for this season.

☞ The steeple of Hollis Street Church of Boston was struck by lightning on Tuesday. This is the *third* time that steeple has suffered in the same way.

☞ On Sunday the 23d inst., Mr. Emery Heal, of Lincolnville, committed suicide.—He was 47 years of age, and wealthy. He leaves a wife and ten children.

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints. It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

FOR SORE, WEAK, INFLAMED EYES AND EYELIDS!

A true specific, and invaluable remedy has been at last discovered. Dr. Humphreys argues that these affections invariably result from a constitutional disease, of which the local affection is the only outward manifestation. Hence, HUMPHREY'S SPECIFIC HOMEOPATHIC OPHTHALMIA PILLS are only taken internally, and yet cure the worst forms of obstinate sore eyes and eyelids, which have resisted all other treatment. All cases of sore and inflamed eyelids, or falling, weak or defective sight, will be promptly benefitted, and the cure of the worst cases is only a question of time.

Wistar's Balsam of Wild Cherry.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases of *Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Asthma, Inflammation* of the *Lungs;* while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

From the Editor of the Portsmouth (N. H.) Journal, Aug. 11, 1860.

WISTAR'S BALSAM.—There are but few medicines of which we can express an opinion from personal knowledge. Among such we place prominently WISTAR'S BALSAM OF WILD CHERRY, which should always be kept on hand. It is an excellent medicine not only for *Coughs* and *Colds*, but also for secondary affections. We have known suffering from the nerves of the stomach effectually relieved by its soothing influence where other medicine has been ineffectually used.

MESSRS. S. W. FOWLE & CO.,—

Gents:—For a long time I have suffered more or less with that distressing affliction—*Phthisic*—in its worst forms, and have resorted to various so called remedies, but to no purpose as affording the desired relief. Deprived of my sleep by reason of the severity of the disease, it was only too evident that I was fast breaking down under it. I resorted to DR. WISTAR'S BALSAM OF WILD CHERRY with but little confidence as to its curative properties, but the use of one bottle has entirely rid me of this monster; and to the public I can safely commend it as every worthy their confidence. Most resp'ly, S. I. MERRILL.

☞ Capt. Geo. F. Pearson on Monday, Oct. 1, relieved Capt. John Pope of the command of the Navy Yard at this station. We learn that Capt. Pope will reside in this city for the present.

THE THROUGH-TICKET QUESTION.—Last week a case was decided by a jury in Boston, involving the question of the right of a passenger on a railroad, after having purchased a ticket bearing date and inscribed "good for this train only," being liable, after stopping over night at a way-station, to pay his fare again, on re-entering the cars, agreeable to the rules of the company, and also involving the liability of the company in damages, in case of a forcible ejection of the passenger, on his refusing to re-pay his fare.

The case was brought by one Joseph M. Folsom of Upper Gilmanton, N. H., against the Portland, Saco & Portsmouth Railroad Company. He was forcibly ejected from the cars for refusing to comply with the aforesaid rules, and in the struggle was, as he alleged, seriously injured. His suit was for damages. The Court, Judge Bigelow presiding, decided the law as altogether in favor of the company, but said if an *excess* of force was used by the conductor, in the ejection, the company would be liable for that *excess*, which was a question for the jury to determine. It was proved that the plaintiff not only refused to comply with the regulations of the road, but he carried upon his person concealed weapons, contrary to rules, and also in violation of the laws of the land. That he was injured in his person somewhat in the process of forcing from the cars, was pretty evident. The jury, therefore, decided the company liable in nominal damages, and the verdict was $2.266, or about enough to pay the plaintiff's expenses in the suit; the facts we have indicated we gather from the Boston papers, not ourself knowing anything of them, or the merits of the case. But our acquaintance with the plaintiff, leads us to believe that he fared in this case a good deal better than his just deserts.—*Dover Sentinel.*

A Quaker, in business in Boston, disliking the "Esq." to his name, advised a southern correspondent to direct his letters to Amos Smith, without any tail; and received a reply, superscribed, "Amos Smith, without any tail, Boston."

A gentleman in this city has a youthful correspondent in New York, who superscribes his letters too verbosely to suit the old gentleman; and a request that he direct in future to plain Joseph Sanderson, sure enough brought the next missive to "Plain Joseph Sanderson!"

☞ Prof. Harrington, the original and celebrated Ventriloquist, gives two of his curious and unique entertainments, Monday and Tuesday evenings, at the Temple, which will afford much amusement to old and young, who fancy such innocent illusions. See advertisement.

PRIZES OF VIRTUE.—At the annual meeting of the Academie, Paris, on the 23d of August last, the distribution of the prizes of virtue, always an interesting ceremony, took place. The first prize, that of 3000f. was awarded to Jean Marc Bost, Protestant pastor of Laforce, near Bergnac, for his creation of the Evangelical Family. "Jean Marc Bost," says the correspondent of the London Star, "without aid, without patronage, by his own personal exertions, beginning by receiving into his house one or two Protestant orphan girls, has been able to increase his establishment to the extent of admitting eighty-seven of these destitute children, on whom he bestows food, clothing, shelter and education! Nor is this all. M. Bost, guided by love alone, has become the discoverer of a method of cure for idiotcy, which renders him the benefactor of his race and generation, by admitting these poor disinherited children of humanity to a place amongst their fellow creatures. By music he has discovered a means of communication between the dark and hidden world and the enlightened intelligence of his companions.

"In two years he succeded in bringing into the sunshine, by means of harmony, all the germs of reason which lie hidden and undeveloped in the sleeping brain of the poor idiot, who becomes henceforward no more to be rejected from the companionship of his fellows than a backward child. The house of Bethsaida he has founded for this especial treatment, and it is prospering so vigorously that the attention of doctors and scientific men has been directed towards it with the greatest interest. The other cases of reward are thrown into the shade by the glory of Jean Marc Bost. But it may be as well to observe that, out of twenty-four prizes, seventeen were awarded to women.

It is reported that Louis Napoleon was fired upon at Toulon by an insane man, whose aim was averted by a bystander.

☞ The Philadelphia North American says:—

"We know already that tens of thousands of life-long Democrats have abandoned the name and party, in disgust at the recent fusion proceedings."

☞ The Newburyport Herald says: "We are told that Judge Lord will resign his seat and canvass the district." In that case it is to be presumed that he does not wish to hold any office.

☞ Mr. Buchanan remarked the other day that he "regarded the attempts at fusion in New York as the efforts of a blacksmith who tried to weld two pieces of cold iron."

☞ Baron Stoeckl, in full court dress, called officially on President Buchanan, Thursday, and announced the birth of a Spanish Princess, the daughter of the Duke de Montpensier.

COSTLY SWEARING.—Wm. H. Cook has been fined $2 and costs, amounting to $11.25, for indulging in profane swearing in the streets of Newburyport.

☞ The barn and outbuildings of Timothy Stewart, in Saco, were struck by lightning and totally destroyed by fire on Tuesday. Loss $700; insured for $300.

☞ The New York Express says a fine lady up town has ordered a dress to be worn at the Renfrew ball, which will cost three thousand dollars.

☞ James L. Rundlett, Esq., of Epping, has raised this season 63 bushels of oats from one acre.—So says the N. H. Journal of Agriculture.

CHARLES LAMB'S FAREWELL TO TOBACCO.

"For thy sake, tobacco, I
I would do anything but die!
Scent to match thy rich perfume
Chinese art did ne'er presume;
Roses—violets—but toys
For the smaller sort of boys,
Or for greener damsels meant?"
So sang Lamb, in genial lays,
In the olden—golden days.
Lamb—poor Lamb!—the Doctor's word
All his soul of sorrow stirred.
He must leave his darling quid,
By the laws of health forbid.
Had he lived in Goodwin's day,—
Seen his art take all away
From his PATENT PRESSED—a brand
No TOBACCO can withstand,—
Seen from must and mould how free
Goodwin's make would ever be,—
Never had the Doctor broke
Those sweet bonds of which he spoke.
Gentle Elia, on his head
Piling blessings, would have said:
"GOODWIN, thou'rt the chewer's friend!
Twenty dozen please to send!"

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.
The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. Not dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.
It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.
Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.
The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.
Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. **J. C. CARR.**

RELIEF IN TEN MINUTES!!
Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c, &c.
These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.
TO VOCALISTS AND PUBLIC SPEAKERS,
these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation* and *Relieving all Pain. FOR DISEASES ATTENDING TEETHING*, such as *Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic*, and *Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are lost to die than from any other disease, the little sufferer is relieved *instantaneously*, as if by magic; and in this dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." When you have a little sufferer or a subject of vital interest to yourself, as well as to your suffering child, DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are fully warranted in saying cannot be said of any other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the sad and blighting consequences which are certain to result from the use of narcotics administered in the form of Opiates, and their continued administration being invariably followed by stupefaction and constipation of the bowels, coupling oftentimes in our opinion, Death. Here in DR. EATON'S INFANTILE CORDIAL differs from every other remedy. It

DOES NOT CONSTIPATE

The Bowels, neither does it set by deadening the sensibilities of your children, but instantly, by its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts. per bottle.

Prepared only by CHURCH & DUPONT, No. 409 Broadway, New York.

And sold by them, and all respectable Druggists.

ATWOOD'S QUININE TONIC BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *aromatics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, and consequently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*this is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

Humphreys' Specific Homeopathic Remedies for the People

THE Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A sore cold, a slight diarrhœa, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Group or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being so small, simple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, and hence occasioning no risk, while the curative effects are speedy and certain, they are taken, and at once the spell is broken and the danger allayed.

Experience has simply confirmed the use of these remedies for families and private practice, as being THE BEST IN USE, THE MOST SIMPLE AND EXPEDITIOUS, THE MOST EFFICACIOUS AND RELIABLE.

Thousands are and have been using them for some two years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and success, in the hands of the people, and the uniform testimony is, that they give good satisfaction to their customers.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupify.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions wrecked, and are subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of the Wind in the Stomach, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

Having perfect efficacy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS or IRON

An Aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combination in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIALRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of long disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhood, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Some very signal instances of this kind are attested to by clergymen, prematured victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, yet regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable operation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which, it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, continued, exhausting, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of health and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, the relief has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effects of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly adapted to it.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic remover, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully manifest effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

GROVER & BAKER'S
Celebrated Family Sewing Machines.
FOR FAMILY USE.

From the very flattering manner in which our Machines have been received by the public, resulting in the sale of

35,000,

we are led to believe that our endeavors to manufacture a RELIABLE MACHINE have been appreciated. We take this opportunity to remark that the policy will be unchanged, and that

Every Machine sold by us

GROVER & BAKER S. M. CO.

THIRTY DIFFERENT PATTERNS,
Adapted to every variety of
FAMILY SEWING.

A FEW CERTIFICATES OF THE GREAT SUCCESS
—of the—
Grover & Baker's Sewing Machines.

[From the wife of the Hon. Jefferson Davis.]

Mrs. Jefferson Davis presents her compliments to Messrs Grover & Baker, and takes pleasure in saying that she has used one of their box Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten old way, and without fatigue. The work is beautiful and durable.—She says she would not exchange it for any other one. It is certainly one of the greatest inventions ever made for the relief of woman-kind, and I would recommend every family to get one as soon as possible.
Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.
CHARLES W BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says,—"We would recommend to families and to those about to organize a homestead, *to be sure and have a Family Book, and also one of Grover & Baker's SEWING MACHINES.*

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.
Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, or lawyer, has been in the habit of wearing his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your Hair Restorative, which he found very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,
THOMPSON SUEGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite as curious as well as agreable. S. THALBERG.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

WEDNESDAY, OCTOBER 3, 1860.

BISHOP POTTER AND THE RENFREW BALL.—The religious community in New York are somewhat excited over the address of Bishop Potter, before the Protestant Episcopal Convention held last week.—The bishop speaks of the expected visit of Lord Renfrew to the city, and in connection expresses his gratification that the laymen of the Church are to participate in the reception. This is considered as an endorsement of the ball on the part of the bishop. The passage in the address is as follows:

Nor can we doubt that the memorable event will be as useful in its influence on the relations between the two countries, and on the spirit of the age, as it is eminently beautiful. It is particularly gratifying to me that several of the most eminent laymen of this diocese have, with others, kindly lent their aid to the arrangements which are now being made for the purpose of giving a fitting reception to the distinguished visitors in our city. Let us hope that it will be worthy of the first city on this continent, and that no untoward accident will occur to check the outburst of good feeling, or to prevent it from exercising a benignant influence through future years over the destinies of two great kindred nations.

PUPPYISM.—Somebody professing to be a student in Dartmouth College, writes thus to a neighboring paper:—

It ought to be and probably is a pretty well understood thing, that if a young man goes to College and enters the Freshman class, he must be initiated into the mysteries of College life, so that verdancy and greenness need no longer be his most striking characteristics. * * * Grave Seniors and steady Juniors alike united to wash the poor Freshman of his verdancy, and place upon him the less conspicuous garb of civilization. It seems that for some purpose George Fowler visited Dart. Hall on Tuesday night about 10 o'clock. There he was seized by some thirty students, questioned, hustled and frightened, but in no manner to the best of our knowledge, injured. They took him to the gallows and endeavored to make him go through with those exercises so well calculated to improve the health and muscle of students. Soon after this they left him crying in the open air.

Now this little occurence, though nothing uncommon and not half so "outrageous" as many tricks of last year, is causing a great commotion in this place, and some base and unscrupulous character is endeavoring to make it an affair "disgraceful to the students, and dishonorable to the College," &c. * * * We predict that the case will never come to trial, but if it does that Judge F.'s sons will never graduate at Dartmouth.

Whatever becomes of the case, or of the graduates, the writer of the above extracts exhibits himself and the "mysteries of College life" in a light the most contemptible.

☞ At the Merrimack County Fair, in Concord, we see no mention of Town Teams, but the Manchester Mirror's report says the County Team of oxen numbered 41 yoke. In the trial of speed for family horses, there were four competitors. The rule was the best time made in three seven-mile heats, and the prizes respectively $15, $10 and $5. The match resulted:—

Lady Abdallah's average time per mile				3 03
Lady Mack's	"	"	"	3 05
Ida Bell's	"	"	"	3 07
Albert's	"	"	"	3 21

Albert was scored out of the final heat, and the prizes were awarded to the horses in rotation as they stand above.

The trot Thursday for a purse of $50, mile heats, best 3 in 5, was quite exciting. The entries were John P. Kimball's sorrel horse, "Honest Shaker," formerly called "David Morrill," of Canterbury; T. Platt's bay horse, "Young Hector," of Dover, and Albert Blaisdell's black horse, "Corinthian Tom," of Greenland. The summary is:—

	1st heat	2d heat	3d heat
Honest Shaker.....	2 47	2 47	2 47
Corinthian Tom.....	2 53	2 48	2 48
Young Hector.....	2 56	2 51	2 56

THE IRISH REVIVAL.—At the anniversary of the Fulton street prayer meeting in New York Rev. Dr. Murray said he had been to Ireland, and witnessed the wonderful religious movement in that Island. He had been at a prayer meeting where there were from 30,000 to 40,000 present. He also said:—

In Wales I went into a slate quarry where 1250 men were employed. There's 70 or 80 little huts where they take their dinners. After dinner, all these huts were turned into places of prayer. So that every day there are from 70 to 80 prayer meetings in that quarry. Formerly a pious man could hardly live among them, now they are nearly all pious men themselves.

FIRE IN DRACUT.—The house, barn, and outbuildings of Mr. Phineas Richardson of Dracut, were destroyed by fire on Monday morning. Most of the furniture, with stock and utensils were saved, but all the hay (about fifty tons) and grain were destroyed. The total loss is about $4000, which is insured for $1912. The fire is supposed to have caught from the pipe of an Irish laborer, who slept in that part of the house where the flames were first discovered.

☞ An impudent Western print intimates that "the true spirit of New England" is cheap rum.

MURDER IN NORTH KINGSTON, R. I.—The Providence Press gives an account of the murder in Kingston, R. I., Sunday morning, of a colored woman named Content Browning, widow of James Browning. It was perpetrated by her son, who arose about 4 o'lock, took an axe, and went to the residence of his mother, a few rods from his own, broke down the door, and buried the axe in her skull, as she lay in her bed. He then went to the house of Mr. Benjamin S. Congdon, a neighboring farmer, and said he had murdered his mother, and wanted some breakfast; that he had been thinking of killing her for several days, but had not done it until that morning; that his mother was a witch, and he had found that she was bewitching him, and would kill him if he did not kill her.—Daniel said he had a vision last night to kill her, and that he intended to do it. Mr. C. advised him to deliver himself up to a magistrate at once, which he did readily.

He was subsequently committed to Kingston jail. He appears to be the subject of a monomania in regard to his mother's bewitching him, which was not brought on by the use of liquor or by bad company, but by religious excitment. This insanity is hereditary, his father, who was the son of Primus Browning, having many years ago killed a relative named Cato upon that identical spot, which is the homestead of the family, under a similar hallucination, and afterwards starved himself to death while under imprisonment for the crime. Mrs. Browning has lived in Providence for the last fifteen years or more, and returned last spring to live near her son.

☞ The New York Herald's correspondent, who has been running after the Presidential candidates, now takes the leading politicians in hand. He has just been to visit Alexander H. Stephens of Georgia, where Senator Toombs drooped in at tea. Mr. Stephens can conceive of no other result, under the present state of the campaign, than the election of Mr. Lincoln. He will not resist, but Mr. Toombs will. In reply to the question, "Who will commence the revolution?" he answered, "I will, if I have enough to back me to make treason respectable."

The Presidential issue now seems to us to have narrowed itself to Douglas and Bell—Lincoln and Breckinridge are out of the question. Our own convictions are, they have been that Stepuen A. Douglas will be next President of the United States. Such is the promise, at least, of the tremendous revolution that is now sweeping over the country.—*Hartford Post.*

Cool calculation that! on the ignorance and credulity of the readers of the Post.

☞ The action brought against the Superintendent of the Hillsborough County Poor Farm for assault upon a disorderly person who resisted, was summarily disposed of by the jury at Amherst on Friday. They were absent about one minute. The fuss about the county poor farm is got up by a few interested persons—says the Manchester American.

☞ Strict integrity is one of Hon. John Z. Goodrich's characteristics. As an instance in point, as rare as it is commendable, it may be mentioned, that of a debt of $65,000 from which he was legally exonerated, considering himself morally liable, he has, as he has gradually recovered his prosperity, gradually paid off nearly the whole.

FAITH STRONGER THAN A GRAIN OF MUSTARD SEED.—The Bath Times says:

Does the irregularity of Mr. Douglas's nomination, alleged by the Republicans and seceders, render him constitutionally ineligible, so that, if elected, he could not be inaugurated? The people ought to be informed on this point, because they are determined to elect him, and it would be a pity for them to make so successful an effort for nothing.

☞ Lydia Phetteplace chopped her husband's head off with an ax as he lay drunk on the floor of their house in Burrillville, R. I., on Saturday. Her excuse was that he had threatened to kill her. Her son, a lad of 14, saw the deed committed.

☞ Professor Chapin Harris, founder of the American Dental College, author of the "Dental Dictionary," "American Journal of Dentistry," and other standard works, died in Baltimore on Friday, aged fifty years.—He ranked at the head of his profession.

☞ A correspondent from La Porte, Indinia, says:—

Jesse D. Bright, in a speech made here on the 21st instant, conceded this State to Lincoln, together with Pennsylvania and New York, and consequently the Presidential victory to the Republicans.

☞ The Cheraw (S. C.) Gazette publishes a rumor to the effect that a wedding party of forty-eight persons were poisoned last Wednesday or Thursday, near Cokesbury, in that State, of whom forty were dead.

☞ A farmer and his two sons were drowned in a cider tank, near Easton, Pa., last week. One went in to stop a leak in the tank, became suffocated—the others attempted to rescue him, and all perished.

☞ Henry Plummer, a worthy man, employed by the Amoskeag Co., in Manchester, was drowned in Merrimack river last Friday, by the filling of a boat in the gale of wind. Mr. Plummer was a native of Groton, N. H., and was 46 years and 11 months old. He leaves a wife and seven children, the youngest of whom is but four weeks of age.

Another sad incident, connected with the above, is thus noticed by the Manchester American:

Mr. John Haddo, a middle-aged Canadian, who had been for many years in the employ of the Amoskeag Co., and who had charge of the boat when Mr. Plummer was drowned, went up the river on Sunday afternoon to Hooksett, when, having put a cannon on board the flat-boat, he began firing for the purpose of raising the dead body. While engaged in driving home the fourth charge, with no one at the priming hole, the charge exploded, carrying with it the left hand and arm of Mr. Haddo. The stump is left some inches above the wrist, and the arm is also fractured between the elbow and shoulder. Mr. Haddo was immediately brought home to Manchester, and his wounds dressed. He is a very athletic man, and the loss of his arm will be seriously felt by himself and family. In other respects a good citizen, it is to be regretted that the person injured is one of that class occasionally injured by a free use of ardent spirits.

"Old age," says Lord Bacon, "is a tower whose foundation is undermined." Not an inapt comparison, but Mrs. Sinclair has given us a far more beautiful illustration:—"Old age is like a flower without a root—the first blast lays it low."

Eliphaz, the Temanite, in his address to Job, has one more beautiful than either of them, where he says:

"Thou shalt come to thy grave in a full age, like as a shock of corn cometh in his season."

THE PRINCE AT PORTLAND.—Mr. John A. Poore, of Portland, had an interview with the Duke of Newcastle and Lord Lyons, at Cincinnati on Saturday, and urged them to let the Prince remain in Portland several days, but the decision was, that he could remain in the city but seven hours, in which time they could do whatever they pleased with him. So he will receive callers, lunch, drive, see soldiers, and look at firemen from 12 o'clock noon until seven in the evening, at which hour he will leave the United States and, vacation being over, go back to school.—*Boston Courier.*

GOOD TASTE AND NATIONAL DRESS.—The prevalence of well-dressed gentlemen and ladies in Paris is large, and all of them exhibited a most exquisite taste in their attire. The difference observable in this latter art between France and England is great, and widest in relation to the females. An English woman has a proclivity for flounces and curls; a French woman wears neither, and is all simplicity and style. An English woman, thus bunched up and smothered, betrays nothing pretty, in the way of outline, while a French woman is all undulation and all grace. The men come from the hands of their Parisian tailors with equal advantage, and wear their garments with an admirable ease; while the English have their fine manly forms completely disfigured with habits of the most barbarous cut.

The English are the worst-dressed people in the world. The Americans are the best. We exceed even the French, and the reason is an obvious one. Everybody dresses well in the United States, from the mechanic to the man of fortune; and where the genius of an entire nation of thirty millions of people is turned upon the development of a certain art, they are sure to excel those with whom the effort is confined to a few thousands.—*Geo. Wilkes.*

☞ In California, lately, a miner named Woodside, who had found a piece of gold worth $800, was killed the next day by a bank caving.

Over $35,000 was taken out of the Mount Ophir claim, in Tolumine county, on the 7th ult.

When Roger A. Pryor proposed to be himself the Brutus to plant a dagger in the heart of the President who should attempt to prevent secession of the states by force, it is suggested that he had forgotten how short a time had elapsed since he was "like clay in the hands of the Potter!"—*Bath Times.*

☞ Senator Alfred Iverson of Georgia was asked at Waresboro', Ga., if he would advise a dissolution in the event of Lincoln's election? His reply in substance was, that it would depend on the size of the majority.

☞ Of two young ministers on trial who were stricken from the list of the English Wesleyan Conference, one incurred that penalty by jilting the lady to whom he had been engaged.

In 1859 Fremont received 1,334,553 votes, Fillmore 885,960, Buchanan 1,850,960, not reckoning South Carolina, whose electors are chosen by the legislature.

☞ The agents of Garibaldi in Liverpool have purchased for the sum of £9000 the steamer Cambria, formerly belonging to the Cunard line.

☞ The Prince of Wales will be at a Grand Ball at the Music Hall in Boston, October 18.

☞ Fourteen Douglas postmasters have been turned out of office, during the last week, in Indiana alone.

☞ Mr. Jackson, elected Governor of Missouri as a friend of Douglas, made a speech last week in favor of Breckinridge.

SEWING MACHINES.—*St. Louis, Sept. 25.*—At the National Fair in this city, the *first premium* was awarded to the GROVER & BAKER sewing machines.

The intelligent editor of the Charlottesville (Va.) Review, who has recently been reading the Dred Scott decision, Mr. Douglas' magazine article on popular sovereignty, and Mr. Senator Benjamin's refutation of that dogma, announces as the result that he has been seriously threatened with an attack of brain fever. He thinks the old discussion between the super and sub-lapsarian divine on the general theme of predestination, was nothing in comparison with the modern Democratic "muddle."—*Boston Courier.*

The Pennsylvania Valley Spirit announces the formation of a new political organization in the interior of that State, under the name of the "Fast Asleeps," (a lucus a non lucendo,) who already outnumber the "Wide Awakes" in that region. They are composed entirely of Bell and Everett men.—*Boston Courier.*

Hon. Israel Washburn, the Governor elect of Maine, having rested from his labors during the campaign, and been refreshed by the election returns, has gone on a tour to Aroostook and the upper St. Johns.

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

FOR SORE, WEAK, INFLAMED EYES AND EYELIDS!

A true specific, and invaluable remedy has been at last discovered. Dr. Humphreys argues that these affections invariably result from a constitutional disease, of which the local affection is the only outward manifestation. Hence, HUMPHREY'S SPECIFIC HOMEOPATHIC OPH. THALMIA PILLS are only taken internally, and yet cure the worst forms of obstinate sore eyes and eyelids, which have resisted all other treatment. All cases of sore and inflamed eyelids, or failing, weak or defective sight, will be promptly benefitted, and the cure of the worst cases is only a question of time.

Price, 50 cents, with directions.

Sent by mail or express, free of charge, on receipt of the price.

Wistar's Balsam of Wild Cherry.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases of *Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Asthma, Inflammation of the Lungs;* while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

From the Editor of the Portsmouth (N. H.) Journal, Aug. 11, 1860.

WISTAR'S BALSAM.—There are but few medicines of which we can express an opinion from personal knowledge. Among such we place prominently WISTAR'S BALSAM OF WILD CHERRY, which should always be kept on hand. It is an excellent medicine not only for *Coughs and Colds,* but also for neuralgic affections. We have known suffering from the nerves of the stomach effectually relieved by its soothing influence where other medicine has been ineffectually used.

From a highly respectable Merchant.

Messrs. S. W. FOWLE & CO.,—

Gents:—For a long time I have suffered more or less with that distressing affliction—*Phthisic*—in its worst forms, and have resorted to various so called remedies, but to no purpose as affording the desired relief. Deprived of my sleep by reason of the severity of the disease, it was only too evident that I was fast breaking down under it. I resorted to DR. WISTAR'S BALSAM OF WILD CHERRY with but little confidence as to its curative properties, but the use of one bottle has entirely rid me of this monster; and to the public I can safely commend it as every worthy their confidence. Most resp'ly, S. I. MERRILL.

GREENLAND.—A ride into the suburbs at this season, is delightful—or will be, when this young "Winter's cruel reign" which prevails at the time of this writing, "is o'er." Though the face of nature *has* lost the freshness of luxuriant June—the variegated tints of Autumn, which "brown October" brings, are hardly less beautiful; and a portion of winter's wrapping of shawls and overcoats, alone is wanted, to ensure the comfort which cannot be found under the sultry sun of the summer solstice. Especially is this the time for horseback riding, to be preferred above all other seasons.

A drive through Greenland, in the fine weather of September's last week, found for us new attractions in this charming town or village—and presented to view in a new light, beauties long appreciated and enjoyed.

As to acquaintances,—On the old Bay Road, not far from the fine farms of the Messrs. Weeks, we find our old friend Capt. Nath'l White, who has removed hither from Newcastle, and purchased the Norton farm, so called, an excellent homestead near Stratham depot. He still carries on the shoe business to some extent at New Castle, but doubtless in the natural course of events he will ultimately withdraw from there altogether,—and the old Island can hardly spare such enterprising and valuable residents.

Mr. Ezra Young has purchased, and is living on the farm near the C. & P. Depot, Greenland, formerly the residence of Capt. James Hill; and Mr. Alonzo F. Brown, who owns and occupies the beautiful country seat opposite, formerly the property of Mr. James H. Hill, has through the liberality and good taste of himself and the owners of adjoining estates, one of the most picturesque and beautiful residences in this vicinity, being admirably situated, and surrounded with the finest scenery.

We are told that among the crop of vegetables on the farm of Moses Mann, Esq., at Greenland Parade, are Potatoes weighing 2 pounds each, and mangel wurtzel Beets of 16 lbs. weight.

We notice the taste for extra stone fences still prevails, along the road. The fine granite wall which adds so much to the looks of things, at the sweep of the road, near the depot, is finished; but at the March farm the work is still being prosecuted, to an extent and in a manner we never saw equalled on a single estate.

☞ The Concord & Portsmouth Railroad have obtained an injunction *vs.* the proprietors of the Portsmouth Aqueduct, to prevent their laying pipes on the line of the Road. Sheriff Adams served the notice on Monday, and the work has been stopped. We learn that the C. & P. Railroad contemplate bringing the water from the disputed spring to their Depot in Portsmouth.

WORKING FOR A PENNY A DAY.—When in our boyhood we read in the Bible about the men working in a vineyard for a penny a day, we remember that it seemed like very small wages indeed. But let us see about this. In those days a penny was about as large as fifteen of our cents, and as money was some ten times as valuable as now, the penny a day was as good as one hundred and fifty of our cents, so that those men really got as good wages as the best men now generally have in harvest time, that is a dollar and a half a day.—So, also, when the good Samaritan gave two pence to the landlord to take care of the man who fell among thieves, you see it was equivalent to about $3, which would probaly pay for his board two weeks in a country tavern, where board was very cheap. This gift of the Samaritan was in addition to the raiment, the oil, the wine, and to the promise to pay anything more the landlord might expend. By the same reckoning, how much was that box of "very costly" ointment worth, which Mary used upon the Savior? When the disciples asked if they should buy two hundred penny-worth of bread, how many loaves were they calculating for,at about six cents a loaf—a large price in those days? Remember to reckon money worth ten times as much as now, and to call a penny worth fifteen cents.—*American Agriculturist.*

GORED TO DEATH BY A BULL.—At the State Fair at Portland last week Mr. Mosher, of Gorham, exhibited a native bull. On Saturday evening at 6 o'clock the man who tended upon the animal, drove him out of town. About 8 o'clock the man was discovered in a road in Westbrook, one hand in the ring in the bull's nostrils, and the other hold of the rope, the bull goring him. He was released and taken to the Brighton Hotel where surgical assistance was rendered. But it was in vain. He was awfully gored, all over the body, and died about 11 o'clock. He was sensible, but it was with great difficulty he could speak, and it caused him so much pain to utter a sentence that no particulars of the sad disaster could be obtained from him.—*Portland Argus.*

If Lincoln is elected it is said he cannot get men down South to take the offices. Does any one doubt his ability to get a full compliment of "*National*"(?) men to *retain* them? And who knows how much this very suggestion may influence the present incumbents of federal offices at the South to prefer his election to that of Douglas?—*Bath Times.*

☞ "Cleaveland," the Washington correspondent of the Cincinnati Enquirer says the Administration have given up in despair all hope of Breckinridge carrying a single State except South Carolina.

LATE FROM EUROPE.

Dates by the steamer Glasgow, to Sept, 19 and 20.

The Glasgow has 57 cabin and 315 steerage passengers. She experienced heavy westerly gales all the passage.

The weather has been wet and rainy, but was finer when the Glasgow left.

An official letter from the foreign office says that Mr. Lindsay has no authority to negotiate with the American Government relative to the navigation and shipping laws of the two countries.

The Sardinian troops took Perugia after a hot fight, and made 1500 prisoners,including General Schmidt.

The citadel of Spoletta had capitulated, and its garrison, 600 strong, were taken prisoners.

The Sardinians also occupied numerous other places.

Gen. Cadloni was advancing against Ancona, at which place the late Neapolitan fleet had arrived to assist him in the attack.

There is an unconfirmed rumor that the Pope had fled from Rome, an event which is generally speculated upon.

There are also unconfirmed rumors that General Lamoriciere, with 9000 men, was moving from Ancona towards the Neapolitan frontiers, with a view of effecting a junction with the Neapolitan troops.

It is reported that Garibaldi is exclusively occupied in organizing his army and navy. The army is to consist of 150,000 men, and five hundred vessels are to be made for war purposes. These are considered indications that he intends going to Venetia.

Rosouth was expected at Naples.

The only foreign Ministers remaining at Naples were the British, French, Sardinian and American. The latter was very unwell.

Several officers of high rank had been shot at Damascus.

IMPORTANT FROM ITALY.

Steamer North American brings dates from Londonderry, Ireland, Sept. 21, with interesting news.

Considerable uneasiness is felt at Paris lest there should be a collision between the French troops in Rome and Garibaldi's legions.

The hope of more serious complications being avoided, is founded chiefly on the expectation that the Pope will shortly leave Rome, aq the Sacred College are exerting their influence to induce him to seek an asylum in Spain or Austria. If the Pope departs, and the French troops follow his example, the Sardinians would at once occupy Rome.

It is reported that General Guyon's forces are to be increased to 20,000 men.

The Times says the Papal army no longer exists, for the 4000 men besieged in Ancona may already be reckoned as General Cialdini's prisoners.

The Herald says the Papal army has been defeated but not dishonored. Lamoriciere was evidently outnumbered. His forces were ill-organized and ill-formed, and no match for a regular army led by able commanders.

The Chronicle says the result of the recent battle is to transfer to the King of Sardinia the whole of the territory, with the exception of Rome, Viterbo and Cevita Vecchia.

The battle between Cialdini and Lamoriciere lasted six hours. The latter escaped to Ancona after the battle. The greater portion of the Pontifical army capitulated.

RAILROAD ECONOMY.—A locomotive on the Harlem Railroad came in collision with a wagon a few days ago, and killed a man in the wagon. The flag man was absent from the crossing at which the accident happened, and it turns out on investigation that he was not only flagman, but also postmaster, ticket-agent, freight agent, express agent, and switchman, and was required to attend to two depots and to furnish water to the engine. Was it not very remakable that he was not at his post when the train passed?—*Providence Journal.*

AMERICAN ARISTOCRACY.—It may be a consolation to "stuck up" people, whose greatest boast is that they have never engaged in any useful occupation, to to be told the following facts:

Washington was a surveyor and farmer. Franklin was a printer. Greene was a blacksmith. Warren was a physician.—Sumpter was a shepherd. Roger Sherman was a shoemaker. Trumbull was an artist. Marion was a farmer, as were also Putnam, Allen and Stark.

WILD CHERRY BALSAM.—The memory of Dr. Wistar is embalmed in the hearts of thousands, whom his *Balsam of Wild Cherry* has cured of coughs, colds, consumption, or some other form of Pulmonary disease.

LYMAN'S

Improved Patent Metallic Soles.

PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. J. C. CARR.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS,

these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of their bowels; and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation* and *Relieving all Pain. FOR DISEASES ATTENDING TEETHING*, such as *Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic,* and *Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disorder, its efficacy is relieved *instantaneously*, as if by magic; and in this dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of "DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital importance to both you and your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are proud to announce as a recommendation to every other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the and danger of those processes which are certain to result from the use of narcotics disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction and constipation of the bowels; ending oftentimes in convulsions. Here Is DR. EATON'S INFANTILE CORDIAL differs from every other remedy. It

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, thro' its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts. per bottle.

Prepared only by **CHURCH & DUPONT**, No. 409 Broadway, New York.

ATWOOD'S

QUININE TONIC

BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of Quininine, combining all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

Humphreys' Specific Homeopathic Remedies for the People

THE Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which our family and friends were, at their commencement, simple and trifling. A mere cold, a slight diarrhœa, a pain in the side, or a headache, or heartburn, at first easily cured, and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the power of medicine cannot arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—prompt, so as to stop a growing disease—safe, and hence occasioning no risk, while the curative effects are positive and certain, they are taken, and at once the cold is broken and the danger allayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being you may at one, you may SAFELY AND CONVENIENT, and your journey also ended.

Thousands are and have been using them for some five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

Dyspepsia Remedy

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirum Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in speedy time.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing loast and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, will be assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY-TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of any Plow in the Union. Unlike other Plows, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others, we shall now endeavor, carefully interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

The experience of thousands in every part of the Union, has proven that Iron can be compared with its impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PILLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute diseases or of the long and continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation could render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly emerged in the busy world as if returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous or other chronic critical changes, and that complication of serious and dangerous symptoms to air and exercise for which the physician has no remedy.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation is found most necessarily be salutary, for, unlike the old *oxides*, it is vigorously tonic, without being exciting and overbearing; and gently, regularly aperient, even in the most obstinate cases of Costiveness, without ever being a gastric purgative, or inducing a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including a disagreeable sensation.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confined, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the lowest pains, loss of flesh and strength, debilitating cough, and remittent fevers, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liability to

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and a therapeutic discovery, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and permanent curative effects.—Good appetite, complete digestion, rapid restitution of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

LAND OWNERS IN FRANCE.—The independent ownership is immense, there being between seven and eight millions of landed proprietors out of a population of thirty-eight millions. This magnificent result proceeds from that constitutional reform of the old revolution, which abolished the right of a dying person to dispose of his property by will, compelling its division, by law, equally among those natural heirs whom it is the duty of man to love. This excellent provision knocked primogeniture and entail in the head, and dividing up estates at the end of every few years, eradicated the feature of great landlords, and distributed their accumulations regularly back among the people. No agglomeration could last longer than a lifetime, (except in the case of a single heir,) but must be dislocated for the common safety, and parceled into various hands for the common benefit. Every new generation had then a fair chance at the soil, and in a period of scarcely sixty years, a domain that had been two-thirds usurped by a profligate nobility and an abandoned church, was redeemed into a subdivision of eight millions of parts, each of which now boasts an independent tiller of the soil. This democratic law was the legacy of the great revolution. Napoleon was too wise to attempt to disturb it; the Kings who succeeded him never dared to tamper with or limit it, and the people of France, happen what may, prize it too highly to ever give it up.—*Geo. Wilkes.*

GERMAN STOVES.—The unaccustomed foreigner will be impressed with an imposing pile of delicate masonry which always towers up in one corner of his apartment, but never so humble. In its character it is so decidedly monumental that his first idea will be, no doubt, that it is a sort of mausoleum or tomb erected by a grateful landlord to the memory of a departed guest. When he has conquered the sublimity of this idea sufficiently to proceed to investigations, he will find that the ashes it contains are not those of mortality, but simply extinct turf and coal fires. The Germans, for a hardy and healthy race, are curiously sensitive to cold, and never neglect a reasonable precaution to guard against it. Their stoves are infant towers of Babel, starting from the ground and going up as high as they can get. Being made of a peculiar kind of porcelain, their radiating capacities are very great, and monstrous as they are in size, they may be fed with a teaspoon, so little do they consume of fuel. Nothing in the shape of a stove can be positively cheerful, but these contrivances of the Germans being white, and more or less ornamented, are relatively less dismal than their black brethren on the other side of the Atlantic.

The Oregon Legislature met at Salem on the 10th. The House organized by the choice of Benjamin Harding, Douglas Democrat, Speaker, and T. McCotter, Republican, Chief Clerk. The Breckinridge men regarded this as an indication that a coalition had been formed to elect Baker and Nesmith, Senators.

The Breckinridge Senators had gone from Salem, leaving the Senate without a quorum. The Sergeant-at-arms had been authorized to procure their attendance.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington,
Under the act of 1837.
73 STATE, OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Arguments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, together with his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.
For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—
Oak Grove, S. C., June 24, 1859.
Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.—
During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from mud oozed of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.
These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquiries; moreover, I shall use my influence, which I flatter myself to say, is not a little.
You can publish this if you think proper.
Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.
Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been quite troubled by the early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,
THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

THURSDAY, OCTOBER 4, 1860.

NEW HAMPSHIRE FAIR.

The State Fair, at Manchester, opened Tuesday, Oct. 2, with fair weather.

The number of entries will exceed 15,000. The show of horses is larger than ever before in this State.

The number of cattle on exhibition, from the eastern part of the State especially, is very large, and the quality excellent. Daniel P. Perkins of Newmarket has a Durham heifer that attracts much attention. Major J. B. Wentworth of Rollinsford exhibits his "fancy" matched pair of two years old heifers, which took the first prize last year.—They now weigh 2080 lbs., and are very beautiful. John C. Ray of Dunbarton has a 7 1-3 months old calf that weighs 768 lbs. Another calf, owned by John Smith of Brentwood, is in a fair way to be as large. It is 7 months old.

Wm. F. Jones of Dunbarton has a pair of fat oxen, 6 years old, weighing 5500 lbs. Jos. M. Rowell of Manchester has a cow, part native and Durham, that is very large, attracting much attention. Peter Mitchell of Manchester exhibits a full-blooded Durham bull, a noble-looking animal; he is 3 years old, and weighs 1600 lbs. Peter O. Woodman of Deerfield has a two years old bull worthy of notice.

The novel sight of the forenoon was the arrival of Mr. Levi Cass of Epsom upon the grounds. He lives about 18 miles from Manchester, and Tuesday morning, at 3o'cl'k, he arose, harnessed a three year old bull of his own raising into a vehicle that would pass for a chaise, minus the top, and started "for the fair." He said on his arrival that he went at an easy gate (probably dog trot) all the way. He arrived on the fair grounds about 11 o'clock. The "team" is kind and easily managed, and rather seemed to like the fun that he made for the boys.

In the afternoon there was a trial of speed by some of the fast nags in this part of the country. In a trot for $25 first and $15 second, for four year old stallions, mile heats, only two entries were made, one by Solon Martin of Keene, and the other by George Laighton of Farmington. Mr. Martin won. Time 2:58, 2:52.

Another between three year old stallions. The entries were by Joseph Smith of Durham, John Drew of Durham, and John S. Carr of Goffstown. These were half-mile heats. Drew won the first—time, 1:32, 1:37. Purse $25 in each case.

Matched horses were then exhibited.—There were nine entries, and some of them fine looking animals

Some steam fire engines were exhibited.

The members of the gambling and pick-pocket fraternity are rather too numerous for the safety of pocket books.

☞ The Jubilee, or fiftieth anniversary of the American Board of Commissioners for Foreign Missions, has brought at least 2000 persons to Boston, and the exercises are very pleasant to the congregations who support the operations and contribute the money. From a very small beginning, the Board has become a powerful body, and exerts a vast influence in preserving the Calvinistic views of theology at home, and propagating them abroad. It is also a very powerful education society, as it educates not only its disciples, but its teachers and preachers, in its native schools at the various foreign stations. Its taxation or contributions, drawn from the churches at home, does not impoverish them at all, as it is raised in small sums, and its collection tends to invigorate the societies rather than to depress them.

☞ A Sunday paper says Broadway is assuming its old familiar aspect; the pavement echoes back the assured tread of accustomed feet; visitors with satchels and brown paper parcels are in the minority; and instead of short, carefully preserved silk skirts, held up from contact with the street by cotton gloved hands, we have stylish Arabians, rich flounces, and *moire antiques en traine*, sweeping the dust and *debris* with a cool and dashing *nonchalance* utterly regardless of consequences.

WHAT IS—AND WHAT MAY BE.—The Union Democrat says:—

The vote of New Hampshire probably will not affect the result. If it could do so, as the matter now stands, we might not be able to change its direction. But the spirit of the campaign may change. It may become certain that Lincoln will be beaten; and even *probable* that Douglas will be elected. Then, *work* will be called for.

☞ Mr. Barton, a colored man, has recovered two hundred dollars for being ousted from Huntington Hall, Lowell, after he had found a seat in the same, and had bought a ticket admitting him to the hall to attend one of Thalberg's concerts; and no reason was given for this change in the programme by the defendant, except the color of the face.

☞ The New York, market is overstocked with apples beyond all precedent, and the 'oldest inhabitant' declares that he never saw the like. Considering the excellent quality of much of the fruit offered, it is really wonderful. Choice apples, will scarcely sell for enough to cover cost of barrel, freight and commission.

☞ The Prince of Wales pays $2000 for the special train from Cincinnati to Pittsburg.

THE HORSE GUARDS.

Everybody, almost, "would like to join" that redoubtable corps, the Governor's Horse Guards of New Hampshire. But although many *have* donned the elegant uniform, and mounted their prancing steeds—many others are deterred by want of courage, spirit, or the tin—the lack of cash, confidence, or a charger—some being fearful of both descriptions of "charging." However, the ranks of the Regiment are rapidly filling up, and the recruits are from varied walks in life—but, we trust, "all honorable men"—whether ministers, lawyers, mechanics, farmers, or men of leisure. We had supposed that there were several of the editorial fraternity enlisted; but having afterwards been informed that there was but a single representative of the art whose battle-motto is:

"The pen is mightier than the sword,"

on the roll "for sabre practice," we were rejoiced to meet Bro. Beard of the Nashua Telegraph in uniform here—he being, of old, Major Beard by commission, and latterly Mayor Beard by popular and triumphant election. But alas! see what he says in his last paper, from which we extract a paragraph from a long article concerning the Guards' late visit to Portsmouth, which shows he was only an honorary or special member for this occasion:

It was our first parade with the Horse Guards. We have confessed, before and often, to a weakness for that gallant corps. We were, in a sense, "born a trooper." Our father was captain of the "Dublin and Nelson Troop,"—a corps of no mean repute in its day,—and we looked forward to the time when we should "ride in the troop" with most ardent desire, but were like to die without the realization of our hopes. When the Governor's Horse Guards sprang into existence, the old hope was revived, and when we witnessed the first parade, and saw the jaunty shako and the waving *dolmen* of inevitable scarlet—[let us in parenthesis repeat here the poor joke that our "familiar" attempted so unsuccessfully at the Governor's collation, in Portsmouth,]—we came very near a desire for a *fit* of the *doldrums*. [In all seriousness, in the language of the immortal Pepper, or the no less immortal Ward, or somebody else, "this is a joak." But it was too expensive for indulgence—(the Horse Guards, we mean, not the joke)—and it required the exercise of all our powers of resisting temptation, coupled with the utter absence of the needful, to keep our sign manual from the enlisting orders. We conquered bravely, and like other temptations it measurably lost its power.

But Gen. Stark very kindly invited us to accompany the regiment to Portsmouth, and we accepted the invitation; and then the temptation was renewed upon us. Here was a uniform all complete, just our *fit*—*dolman* and all—would we fill it? That was too much. We yielded, and that rainy morning found us armed cap-a-pie for the fray.

Though in our day we made some pretence to horsemanship, we had not ridden a half dozen miles in a whole dozen years, probably, nor bestrode a horse at all for several years, until that eventful day, and we had bespoke of our excellent friend Capt. Sam Wright a horse "warranted sound and kind in any harness." "Nelly" was declared by the attendant groom to be "as gentle as an eight-day clock"—and so she really is, under ordinary circumstances. We had a little misgiving when it was suggested that we had better "draw sabre" before leaving the yard, and the gentle filly shrunk tremblingly away when we "prepared to mount."

We achieved the saddle, however, without difficulty, and then we essayed to draw our "trusty blade." That was an exercise which she was quite unused to, and it was more than one man could do to keep her in her tracks. The sabre was hardly "returned" in military style, but it was accomplished after a fashion, and she got the word "go," and went. Our equine skill, which had lain dormant so long, came to our help very quickly, and after a few minutes of rather active excitement with us both—with a little doubt, perhaps, which would come out a-top—she calmed down, and was as pleasant as we could wish

☞ The Breckinridge Democrats of Maine, in convention at Bangor, Sept. 2, nominated a full electoral ticket, organized themselves as the Democratic party of the State, and heard speeches from Hon. Manasseh H. Smith and Caleb Cushing. Their address denounces Douglas and squatter sovereignty.

SYRIA.—Military operations in Syria would commence after the hot weather.

Achmet Pasha, Osman Bey, and Mustapha Bey, who betrayed the Christians at Hasbeya, and Osman Bey, who commanded the troops during the massacres, were shot on the 8th.

☞ In the island of Madagascar the reigning Queen has very suddenly changed her religious policy. She has all at once, by the most solemn form of proceeding known in the kingdom, declared in favor of that son as her successor, who is the avowed friend of Christianity.

A TEN MILE TROT.—At Manchester, N. H., last Saturday afternoon, the "Brock Colt" and the mare Zaidee trotted ten miles at the Elm street Park for $50 a side, to harness. The colt won, making the whole distance in 35:37.

☞ Garibaldi's morning costume is a red shirt, a dirty pair of jean trousers, and worn out boots, writes a correspondent of the London Times. Whether he eats out of a tin plate or not isn't stated.

DEFEAT OF THE PAPAL ARMY.

The following official dispatch had reached Turin:—

JESI, Sept. 18.—Gen. Lamoriciere, with 11,000 men, attacked the positions lately taken by Gen. Cialdini at the Castle of Fidaldo. The fight was short and desperate, with the following results:—The junction of Lamoriciere's corps with the remainder of his troops at Ancona is prevented; 600 prisoners have been made, six pieces of artillery and a flag taken. The wounded, among whom was Gen. Pointlent, fell into the hands of Cialdini. The loss of the enemy is considerable. A column of 6000 men made a sortie from Anconu, and took part in the fight, but were compelled to retire, and are being pursued by the Sardinian troops.

The Sardinian and Neapolitan fleet had open fire upon Ancona.

The 600 prisoners of war taken at Spoletto, are Irishmen. The Sardinian Government wished the British Minister to take charge of them and send them home, but he declined, saying he could not regard them as British subjects.

No foreign Minister except the French had been ordered to quit Turin.

Advices from Turin asserts that a letter had been addressed by Garibaldi to Victor Emanuel demanding the immediate dismissal of Cavour and Farini and also asking for 3000 Sardinian troops to garrison Naples. The letter is couched in the most respectful but energetic terms. The above conditions are specified by Garibaldi as the *sine qua non* of a good understanding between him and Victor Emanuel. The King immediately dispatched a note to Garibaldi, the contents of which are not known.—The Ministry will communicate to the Sardinian Parliament the demands of Garibaldi, and will request its approval of their conduct. Should this approval be withheld the Cabinet will resign. If the request of Garibaldi is granted, the King will place himself at the head of his army and march for Naples. Much agitation prevails at Turin.

After the battle of the 18th the greater portion of the Pontifical army capitulated. The foreign troops will return to their respective countries. Gen. Lamoriciere, with a few horsemen, succeeded in reaching Ancona. There is not a single Pontifical battallion left.

Gen. Lamoriciere's defeat will hasten the departure of the King of Naples from Gaeta.

The Herald's Paris correspondent is informed that a manifesto by the Pope announcing his determination to withdraw from Rome is already prepared.

The Times quotes the following from a Turin letter:—"If Garibaldi persists in attacking the city of Rome while the French troops and the Pope are there, Victor Emanuel will repulse the attack in concert with its allies, no matter what may be the consequences." The same letter says that complete anarchy reigns in Sicily, and administrative disorder at Naples.

Seventy-four Austrian vessels of war, mounting 900 guns, had been ordered to rendezvous off the island of Lizza, in the Adriatic.

The Austrian protest against the invasion of the Roman States had reached Paris. She will not interfere at present unless Venetia be attacked, but holds herself free to choose her own time of attacking.

There is always a great outcry at a detected plagiarism in a small author. Plagiarism, like other crimes, is often estimated according to the rank of the offender. In a great man it is a small sin; in a small man, a great sin. In Shakespeare and Byron it is called "conquest;" in an inferior writer, "stealing"—which is, indeed, the proper name for it at all times. Besides, the rich thief is far safer in his larceny than the poor one. The very obscurity of an unpopular author, makes it safe to plunder him of his fair thoughts; while the celebrity of famous writers warns all poachers off the premises.

A little son of Charles Goit of East Lanesboro', aged five years, died a few days since, from the bite of a spider. The little fellow awoke in the night crying, and on his parents seeking the cause of his grief they found a small black spider was biting the calf of his leg, and appeared to be sinking itself into the flesh, where it hung very tenaciously till removed. The leg swelled to a very large size, and his sufferings increased till they terminated in death, about forty-eight hours after he was bitten.

☞ The greater portion of the light wooden tooth-picks sold in our land by the million, are made in Portugal and Madeira. Singularly enough, the trade in them is not direct.

The N. Y. Herald, having embraced every political party that has existed for many years, is now discarded by all, and seeks a living as a street-walker—leering here and blaspheming there, as its winks and nods are tolerated or scorned.—*Post.*

☞ The Philadelphia Ledger says the anthracite coal tonnage the past week, as compared with the previous week, shows an increase of about 12,700 tons. The season's business is nearly six millions of tons!

The missionaries in the Friendly Islands say that out of a population of 4300 they have converted to Christianity all but ten, and naively announce that one effect is a great increase in the number of native children.—*Boston Post.*

☞ At a recent ball in San Francisco, two thousand eight hundred and eighty people were simultaneously "bobbin" around.

The Valley Tan, the Anti-Mormon paper, which was started at Salt Lake City to beard the lion in his den, has been sold under execution and gone into possession of Hiram Clawson, a son of the Church.

☞ The Philadelphia papers are urging one session at school instead of two—the boys desire a greater reform, viz: no session at all.

NEW YORK, Oct. 3.—Ship Erie, of this port, which arrived to-day from Monrovia, was captured off the African coast by the U. S. steamer Mohican, with nearly 900 slaves on board, 860 of whom were landed at Monrovia, 30 having died on the passage up the coast. The Erie is in charge of Lt. Drumington, and has three prisoners on board, who are supposed to be the captain and 1st and 2d mates.

The Erie reports that the U. S. frigate Niagara arrived at Loando the first week in August—all well.

CINCINNATI, Oct. 2.—Hon. Herschell V. Johnson spoke here last night. He adhered to the non-intervention doctrine, and in reply to a question by a Republican, whether he thought Lincoln's election a sufficient cause for a dissolution of the Union, he answered "No!"

☞ It is stated that Hon. Edward Everett is engaged to marry the widowed daughter of Judge Pettigrow of South Carolina. The lady is described as a blonde, attractive, intellectual, wealthy, and about thirty-three years of age.

WHOEVER IT IS!

Mr. Everett "a rich Southern widow" soon weds.
And whoever it can be," makes fools rub their heads;
But why mystery's made of the thing I can't tell,
As he's followed, for months, a well-known South ern Belle.—*N. Y. Sunday Times.*

"Forgive and forget! Why, the world would be lonely
The garden a wilderness left to deform,
If the flowers but remembered the chilling winds only,
And the fields gave no verdure for fear of the storm."

Royal Menagerie

—AND—

GREAT MORAL EXHIBITION.

For attraction, a Menagerie surpasses anything that can possibly be gotten up. The innocent recreation and instruction that it affords are universally acknowledged on all sides. It derives its support from the learned, the moral, and the religious. Menageries are regarded as orthodox, and the Elephant and the Monkey find an audience in places where equestrian exercises are prohibited by legal statute.

MONEY, AND THE EFFECT OF IT.

"The love of money is the root of all evil." Still a supply of the article is very agreeable, and even necessary. With it, your society is sought and courted; your "friends" hover round you by the hundred; but without it, disguise it as you may, you are simply *nobody!* You are passed upon the street, with an averted eye, or a cold nod; you are spoken of with a shrug of the shoulders. Those whom you have served, remind you that ingratitude, though the greatest of crimes, is still a very common one, and you have nothing left but to "chew the cud of bitter reflection."—And yet there is a chance of retaliation, or if you please, of "heaping hot coals upon the heads" of your sunshine acquaintances. Courage! Keep cool! Save your dimes and quarters, and send, say $2 50, $5, $10, or $20, to Messrs. WOOD, EDDY & Co., of Wilmington, Delaware, or St. Louis, Missouri, for a part or whole ticket in one of their legalized Lotteries, and you may soon be enabled to smile at your "friends of prosperity," and resume your proper position in society.

Bronchitis.—This sure forerunner of Consumption can be instantly relieved and permanently cured by the use of Dr. J. R. Stafford's Olive Tar and Iron & Sulphur Powders. The Olive Tar allays pain and heals soreness an inflammation, and the Iron & Sulphur Powders convert the waste or worn out particles of the blood into gases, which are ejected from the body by the pores instead of being deposited as Phlegm. The testimonials of many prominent and well-known persons are contained in a pamphlet, which will be sent *free by mail* to any address. See advertisement in this paper.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints. It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

FOR SORE, WEAK, INFLAMED EYES AND EYELIDS!

A true specific, and invaluable remedy has been at last discovered. Dr. Humphreys argues that these affections invariably result from a constitutional disease, of which the local affection is the only outward manifestation. Hence, HUMPHREY'S SPECIFIC HOMEOPATHIC OPHTHALMIA PILLS are only taken internally, and yet cure the worst forms of obstinate sore eyes and eyelids, which have resisted all other treatment. All cases of sore and inflamed eyelids, or failing, weak or defective sight, will be promptly benefitted, and the cure of the worst cases is only a question of time.

Price, 50 cents, with directions.

Sent by mail or express, free of charge, on receipt of the price.

Wistar's Balsam of Wild Cherry.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases of *Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Asthma, Inflammation of the Lungs;* while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

From the Editor of the Portsmouth (N. H.) Journal, Aug. 11, 1860.

WISTAR'S BALSAM.—There are but few medicines of which we can express an opinion from personal knowledge. Among such we place prominently WISTAR'S BALSAM OF WILD CHERRY, which should always be kept on hand. It is an excellent medicine not only for *Coughs* and *Colds*, but also for neuralgic affections. We have known suffering from the nerves of the stomach effectually relieved by the soothing influence where other medicine has been ineffectually used.

Gents:—For a long time I have suffered more or less with that distressing affliction—*Phthisis*—in its worst forms; and have considered to various so called remedies, but to no purpose as affording the desired relief. Deprived of my sleep by reason of the severity of the disease, it was only too evident that I was fast breaking down under it. I resorted to DR. WISTAR'S BALSAM OF WILD CHERRY with but little confidence as to its curative properties, but the use of one bottle has entirely rid me of this monster; and to the public I can safely commend it as every worthy their confidence. Most resp'ly, S. I. MERRILL.

THE ENCAMPMENT AT NASHUA, OR "CAMP GOODWIN."—We learn that the arrangements are nearly all perfected for this display of a portion of the volunteer companies of the State, which is to occur at Nashua on the 11th and 12th of October. It is called a State Encampment, the Manchester Mirror says, but will not embrace all Companies now organized. It is now positively certain that there will be twelve Companies on the line, besides the Horse Guards and Amoskeag Veterans, making about 1006 troops in all. Besides this, the Ancient and Honorable Artillery will be on the field, two hundred strong, although it is not probable that they will go upon the line.

The tents for the encampment comprise one hundred and sixty in all. Col. John H. Gage of the 1st Regiment N. H. V. M., is to be in command, acting as Brigadier; while Gen. Stark is to command the Horse Guards, and Col. T. T. Abbott the Amoskeag Veterans.

The troops assemble in Railroad Square 10 o'clock of the 11th, and thence will go into camp, and at 12 o'clock will be formed into line. The first day will be devoted to instruction, drill, and preliminary arrangements; and on the second day will be the inspection by Adjutant General Abbott, and the review by his Excellency, Governor Goodwin. The camp is to be known as Camp Goodwin, in honor of the Commander-in-Chief.

The Encampment promises to be one of the most brilliant and attractive occasions known in the State for ten years.

There is to be an officers' ball at Nashua on the 5th of October.

☞ At the last meeting of the Common Council, at which (as is too often the case) there was no quorum—it was stated by the President, that the Board would adjourn for one week; and each member present was desired to request the attendance of other members he might meet, at the regular weekly meeting this (Thursday) evening, Oct. 4th,—so that a full Board might be secured.

☞ U. S. ship Marion, from the coast of Africa, arrived in our lower harbor on Wednesday.

☞ Prof. Harrington, the Ventriloquist and Wizard, gave first class entertainments of his peculiar humor and uncommon skill in sleight of hand, at the Temple Monday, Tuesday and Wednesday evenings, to delighted audiences.

STONE DIGGER AND WALL LAYER.—We were invited to witness yesterday at Yonkers a trial of a machine for digging stones and building walls. The novelty of a machine for such labor excited a great deal of incredulity as to the possibility of substituting mechanical for manual labor in this, the hardest of farm work, and it was difficult to believe the statement of Mr. Knapp, who is introducing the machine into the river counties of this State, that it would take rocks of five tons weight out of the ground, without digging around them.

But seeing is believing. And at 9 o'clock yesterday morning we saw the machine in actual operation, taking out bowlders weighing from one to five tons, and from one-half to seven-eighths under ground, at the rate of one every three minutes. The machine is a compact and stout iron windlass on wheels, drawn by one pair of oxen, while another pair immediately in front of them are hitched to a rope which works the windlass through cog-wheels, multiplying the power some twenty times. The windlass can also be worked by hand, in which case the power is multiplied twice or three times as much. Two very heavy chains are fastened to and reeled upon the barrel of the windlass; they support a hook in whose jaw is hung a piece of chain which can easily be lengthened or shortened. This chain is reeved through the shanks of the huge hooks which take hold of the rocks.

The rocks are previously fitted for the machine by drilling holes in the opposite sides, three-quarters of an inch deep. The machine is driven over a rock; the man at the windlass, which is so high that a rock of five or six tons can be lifted two feet from the ground, lowers the great grappling hooks; the man below adjusts their points in the sides of the rocks, lengthening or shortening the chain holding the hooks as the rock is larger or smaller; the man at the windlass then tightens the slack, while the man below gets upon the machine; then both heave at the windlass. If they do not start the rock, the driver helps them, and if the three cannot, it is given up as liable to break the machine. If they do start it, they tell the driver to go ahead, and he drives on the forward team, winding up the windlass. The rock rises out of the ground, and the team yoked to the machine then draw it wherever it is wanted. It can be laid as the bottom stone of a wall, or, if the bottom stones are laid, the machine can be backed up to the wall, and the rock pulled over by the other pair of oxen, and laid on the wall.

This all seems very simple and easy, and it is easier than it seems. The holes drilled in the rock were so shallow that we were expecting all the while that the hooks would slip or would break away the rock when the enormous lifting power required to lift it and tear away the earth which wedged many of them down, came to be applied. But they did not, and in some cases the hooks were applied even without drilling holes for them. It is a wonder that among all the inventive Yankees who have spent so many life-times digging out rocks with spades, and levers, and chains, and oxen, nobody should have thought of this before. Mr. S. Bolles of Plymouth, Mass., the inventor of the machine, got his patent for it five years ago, but it is only lately, and through an enterprising farmer, that it has been brought to the notice of the public.—*N. Y. Tribune.*

☞ The editor of the Savannah Republican has seen fine samples of Florida lemons, and pronounces them superior to the fruit from Sicily.

ANOTHER BUNKER-HILLER is reported now living in Deerfield, N. H., named Abijah Ring, so that Mr. Farnham is not to wear the honor alone, Bring him on—duly attested.

THE MAIDEN'S PURITY.

Thou art very pure, oh Ethel Vane,
Very pure, in thy maiden feeling;—
With the lips that know no spot or stain
And the gentle eyes to all appealing.
Very pure—but, Ethel Vane,
Look not with scorn on the things beneath thee!
There are other things that pure remain,
And something of *them* thy lover would breathe thee!

Pure are the hearts—wherever they be,
That wish all good to every comer,
And spread around them blessings free,
Like the sun and dew of gentle summer,
And pure—most pure, oh Ethel Vane,
Is many a thing that art supplies us,
Weaving around us comfort's chain,
And filling our hearts with sweet surprises.

There is something I love, oh Ethel Vane;
Tho' you for this shall ne'er be a lacker;
I love, and the love has nothing of pain,—
GOODWIN'S PATENT PRESS'D TOBACCO.
Fragrant, almost, as your loving breath,
Pure as the air you have ever stood in,
My hopes, till the very day of my death,
Shall be all devoted to you,—and GOODWIN.

LYMAN'S
Improved Patent Metallic Soles.

PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and that, if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. **J. C. CARR.**

Executor's Sale of Real Estate

IN NEWCASTLE.

Under license from the Judge of Probate for this County, will be sold at public auction,

On Saturday, the 6th day of October, 1860,

at three o'clock P. M., upon the premises in New Castle, a certain piece or parcel of LAND with the STORE and WHARF thereon, belonging to the estate of George Neill, situate in New Castle, adjoining land of J. W. K. Card, James Davidson and Benjamin White.

The proximity of the spot to the deep waters of the Piscataqua River, and the excellent view that it affords, render it a desirable location for business purposes or a residence.

Terms of sale; cash.—the purchaser to have one week in which to arrange for the payment of the purchase money, &c. By order of

HANNAH BELL, Executrix.

ZOLLICKOFFER'S ANTI-RHEUMATIC CORDIAL,

A PREPARATION FOR THE CURE OF

INFLAMMATORY AND CHRONIC RHEUMATISM, RHEUMATIC GOUT, NEURALGIC RHEUMATISM, SCIATICA, AND LUMBAGO.

Hundreds of testimonials to the good resul from the use of this Cordial could be offered—the following will suffice:

PORTSMOUTH, N. H., Sept. 6, 1860.

I hereby certify that I have used a variety of preparations for the cure of Rheumatism, but have found none of them whose effect was *so immediate and lasting* as *Zollickoffer's Anti-Rheumatic Cordial*, and would advise all afflicted with that painful disease to give it a fair trial.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c, &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness: and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent mother, that the great diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation* and *Relieving all Pain. FOR DISEASES AT-TENDING TEETHING*, such as *Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic, and Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, which is the importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, the little sufferer is relieved instantaneously, as if by magic; and in this dread complaint alone, its importance is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are fully warranted in saying cannot be said of any other preparation for sale by druggists at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the sad and blighting consequences which are certain to result from the use of narcotics disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions. Here in DR. EATON'S INFANTILE CORDIAL differs from every other remedy.

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, thru' its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts. per bottle.

Prepared only by **CHURCH & DUPONT.**
No. 403 Broadway, New York.
And sold by them, and all respectable Druggists.

ATWOOD'S

QUININE TONIC BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of Peruvian Bark, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.

It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems, and in wasting diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best of preparations of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may continue themselves of its superior merits.

For further particulars reference is made to the printed circulars.

THE Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhœa, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, authentic and reliable in effect, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger allayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being THE BEST IN USE, THE MOST SIMPLE AND CONVENIENT, THE MOST PRESENT AND RELIABLE.

Thousands and hosts have been using them for some five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirum Tremens, Intemperance. It Stimulates; Exhilarates; Invigorates, but will not intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any kind of Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them gay, lively, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the roseate cheek.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS of IRON

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSUMPTION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOUS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if recruited from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In DEBILITY AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for the reason that the old oxides, it is vigorously tonic, without being exciting nor over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being so drastic purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally follow the INCIPIENT STAGE OF THIS remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most carefully balanced preparations of iodine, without any of their well-known liability to

The attention of females cannot be too confidently invited to this remedy, as a restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which excite such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, without any unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 40 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

American and Foreign Patents.

E. H. EDDY, Solicitor of Patents, Late Agent of U. S. Patent Office, Washington, Under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and all accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them a patent, and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. E. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWIRE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. R. H. EDDY.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street,** opposite the New Museum.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.

The nature of this invention consists of a metal lic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device is fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

It is obvious to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of Eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. J. C. CARR.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all who have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudices aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing me a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely exhausted. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which this I attribute my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself is not a little.

You can publish this if you think proper.
Yours, very respectfully,
J. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which I think use no you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, in fact, he thought it best to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement: I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.
Yours, &c.,
THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, OCTOBER 5, 1860.

FILLIBUSTER WALKER. — By details published in the New Orleans papers, it appears that Gen. Walker, between his evacuation of Truxillo on the 21st of August, and his surrender to the English on the 4th of September, fought two engagements with the natives, beating them on both occasions, and killing a large number. His own total loss was about twenty. When the British appeared, the fillibusters were entrenched in an adobe house which they had fortified. The English party to whom Walker surrendered, numbered between two and three hundred marines.

It is said that Walker and Rudler would not consent to claim the protection of the United States flag. They claimed to be citizens of Nicaragua, and out of this grew the difficulty in regard to their disposition. Had they claimed to be American citizens, they would also have been given up with the rest.

The Montgomery (Ala.) Mail says that Walker, before starting on his last expedition, stated to persons in Montgomery that he *had assurances of assistance from the French Government*, if he should be able to regain control of Nicaragua. He alleged that there was a perfect understanding between that Government and himself, that if he would establish the institution of slavery, by law, in Nicaragua, the French Government would see that the French commercial marine should bring to Nicaragua as many slaves from Africa, as could be profitably carried there. The statement is an improbable one.

GEN. WALKER'S DEATH.—The Havana Diario contains an account of the execution of Walker. He was notified on the evening of the 11th of his sentence. At 8 o'clock the following morning he was led to the place of execution with a crucifix in his hand, listening to a psalm which a priest was reciting in his ear. On entering the hollow square of soldiery, he said: "I am a Roman Catholic. The war which I made upon Honduras, in accordance with the suggestions of some of the inhabitants, was unjust. Those who accompanied me are not to blame. I alone am guilty, I ask pardon of the people. I receive death with resignation. Would that it may be for the good of society." Walker died with remarkable fortitute.

[We think it quite doubtful whether Walker said any thing like it.]

WEIGHT OF THE PEOPLE.—At the Mechanics' Fair, in Boston, 10,000 adult people were weighed on Howe's standard scales—and the average weight of the women was 116 lbs. 9 oz., and of the men 146 lbs. 13 oz. Upon the same scales, at the State Fair in Maine, 3820 persons were weighed, the women averaging 126 lbs. 5 oz., and the men 152 lbs. This shows the women of Maine to weigh 9 lbs. 7 oz., and the men 5 lbs. 3 oz. more than in Massachusetts. If they had been measured they would have been found taller; and any investigation would have shown them healthier. Their habits and pursuits of life make this difference.

ELECTORAL TICKET OF THE CONSTITUTIONAL UNION PARTY OF NEW HAMPSHIRE.—At a meeting of the State Central Committee of the Constitutional Union party, held in Manchester, Sept. 11th, the following named gentlemen were nominated for Electors:

Charles B. Haddock, Lebanon; Isaac Riddle, Manchester; John S. Moses, Exeter; Enoch G. Wood, Boscawen; George Lancaster, Salem.

☞ Crinoline has its perplexities. It has caused the managers of the New York Renfrew ball to reduce the number of ladies about one-fourth from the number first intended. This has been brought about by the exertions of the floor committee, after a careful measurement of the area of the Academy of Music, and the comparison of this with the expanse which would be covered by seventeen hundred and fifteen ladies in full dress.

☞ The Emperor of China is represented to be in a state of drunken, helpless imbecility. The chief censor, an officer whose duty it is to rebuke the faults of the highest Chinese officials, protested some months ago against the conduct of the Emperor—against his drunkenness and dissipation, his attachment to actors and love of low society. This reproof to Majesty was published in the Pekin Gazette, and circulated throughout the length and breadth of the empire.

☞ Henry H. Smith's iron-grey stallion Ajax, of New Market, won a $100 prize at Concord, the other day, in default of any other horse entered being on hand in condition to compete; and $50 at Manchester, over Monarch of Nashua, mile heats, in 2:46, 2:45, 2:41, over a very heavy track.

☞ The town elections in Connecticut, many of which occurred on Monday, show Republican gains.

NEW HAMPSHIRE STATE FAIR, AT MANCHESTER.

On the second day, Wednesday, at 8 o'clock, the gates were opened, and a crowd began to assemble at once, and swelled during the day to over 15,000.

The exhibition of the various articles, fruit, live stock, was equally as good as the previous day's indications warranted. It is not so large as might be expected, though even more so than is ordinarily the case in this State; but the quality of everything is far superior to anything of the kind exhibited in this State for many years.

The farming implements on exhibition are some of them of great value, including mowing machines, reapers, and rakes of every description.

Among the articles of interest on exhibition are some antiquated rings, spoons, &c. The first is 190 years old, and the latter 115. An old apron, made 100 years ago, is also to be seen.

On this day, Gov. Banks delivered his address. Remarks of interest were also made by Hon. John P. Hale, Hon. Walter Harriman, Hon. Amos Tuck and Hon. G. W. Morrison.

Immediately after the address an exhibition of ladies' horsemanship took place. There was, of course, the liveliest interest manifested in this, and it was an arduous duty of the marshals, to keep the eager crowd back. Miss Cynthia P. Sanford of Goffstown, 11 years old, Miss Rosa Morse of Manchester, Miss Dunham, Miss Perris Gove of Weare, Miss Mary A. Gove of Weare, and Miss Ann Garvin of Manchester, competed for the prizes for riding in the saddle; and Miss Melissa Stevens of Manchester, Mrs. Butterfield of Manchester, Mrs. Dr. Winegar of Manchester, Miss Colby of Bow, Miss Martha Noyes of Bow, and Harriet J. Colby of Concord, competed for best horsemanship as drivers.

The silver cup was awarded to Miss Rosa Morse of Manchester; second to Miss Mary Gove of Weare. In the driving the first premium of a silver medal was awarded to Miss Cynthia P. Sanford of Goffstown. Miss Butterfield of Manchester was given $10 for best horsemanship in wagon; and the second of $6 was given to Miss Martha Noyes of Bow; the third premium of a medal was given to Miss Melissa Stevens of Manchester.

☞ Mr. Seward when he was received at St. Joseph, Missouri, made a speech, which concluded in the following language:

The Democratic principle that every man ought to be the owner of the soil that he cultivates, and the owner of the limbs and the head that he applies to that culture, has been adopted in some of the States earlier than others; and where it was adopted earliest it has worked out the fruits of higher advancement, of greater enterprise, of greater prosperity. Where it has not been adopted, enterprise and industry have languished in proportion. But it is going through; it is bound to go through. As it has already gone through eighteen States of the Union so it is bound to go through all of the other fifteen. It is bound to go through all of the thirty-three States of the Union, for the simple reason that it has gone through the world.

THE EQUINOX.—Prof. Loomis stated before the American Scientific Association that there is not always a heavy storm at the time of the equinoxes, for statistics show that such seasons are more often marked by fair weather that foul. He accounts for the popular opinion by the fact that the change from warm to cold weather, or the reverse, was generally attended by great storms, which frequently occur near the time of the vernal and autumnal equinoxes.

☞ The Third Company of Horse Guards, located in Portsmouth, will soon be filled, and all uniformed. Two measures for uniforms for new recruits were sent to the contractors at Boston, Thursday; and it is now expected that all the members from this city and vicinity who have uniforms, (about twenty,) will attend the Encampment at Nashua next week.

THE REVOLUTIONARY VETERAN AT BUNKER HILL.—The Common Council of Charlestown have voted to appointed a committee to invite Mr. Ralph Farnham of Acton, Me., the revolutionary veteran, to visit Bunker Hill upon his visit next week to Boston, and to make arrangements to receive him in a becoming manner.

☞ The students of Princeton College are in a state of insubordination, because the tutors, according to an old custom of the institution, have renewed their visits to the rooms of the students. Among other rebellious demonstrations they set fire to one of the outbuildings of the college, worth about $200, which was destroyed. Many of them have been sent home.

PHYSICAL TRAINING.—Leander Wetherell delivered a lecture before the Boston Young Men's Christian Union, in which he ably advocated physical training for Christian young men, as well as for all others, that they might thereby increase their power to do good.

Mrs. Burdell Cunningham's California husband has run away from her. We should expect he would.

☞ Steamship Connaught brings Galway dates to Sept. 25.

Ancona had been bombarded nine hours by the Sardinian ships, and replied vigorously, when hostilities were suspended for a conference.

Garibaldi's troops were concentrated at Volturna.

Queen Victoria embarked for Prussia, on the 23d. She will meet the Prince Regent at Calrusch. Lord John Russell accompanies the Queen, and will, it is said, have a political conference with Baron Schlemitz, the Prussian Minister for Foreign Affairs.

Four submarine cables between Valencia and the islands of Ivica, Majorca and Minorca, and thence to Barcelona, have been successfully laid.

Prince John of Bourbon publishes an appeal to the Spanish people relative to his rights to the Spanish throne.

The Emperor and Empress of France reached St. Cloud from Algiers on the 23d. The Emperor, in a speech at Algiers, promised to use his best efforts to forward the interests of the colony.

The Sardinian Ambassador had left Paris, leaving the business of the Legation to the Secretary.

There have been no further movements by Garibaldi.

Turin, Sept. 22.—The Sardinian government has decided that the French soldiers of the Papal army, who have been made prisoners, shall be immediately returned to their homes.

Paris, Saturday.—A report was current to-day on the Bourse that the Austrians had crossed the Mincio. The Commissioner of the Police of the Bourse gave an official denial to this report.

Paris, Saturday Evening.—The Patrie says we can affirm the complete falsity of the report that the Emperor had expressed a wish to be invited to Warsaw. The same journal adds—Garibaldi, in his letters to Signor Almeco, published in the official journal of Naples, says: "Although I am quite disposed to sacrifice all personal feeling on the altar of freedom, I can never be reconciled with the men who have sold an Italian province." Nevertheless, a decree of the Dictator promulgates the Sardinian Constitution for Naples and Sicily, without fixing a day for the execution.

Baron Brenier is to leave Naples on Thursday next. Mr. Elliott will remain in that city.

The Moniteur de la Armee says there is nothing in the state of European politics to prevent the usual six months' furlough being given on the 1st of October.

☞ The Hon. John Sherman of Ohio said in a recent speech:—

Now let us have three cheers for Douglas. (Immense laughter but no cheers.) What? are there no Douglas men here? He would tell them why he called for cheers for Douglas; it was for the great service that gentleman had done in breaking up the Democratic party. (Vociferous cheers and laughter.)

☞ A firm in Amherst, Mass., are manufacturing about fifteen hundred pounds of artificial leather daily, from scraps of leather and old pieces of rope. It has not been introduced out of New England, yet the demand is reported to be greater than the supply. The process of making is similar to that of manufacturing paper.

☞ The Mechanics and Traders Bank in this city have just issued bills from beautiful new plates, of the denomination of 1s, 2s and 3s. We were willing to keep taking their old ones, but they thought the plates too much worn.

ANATOMICAL APPOINTMENT.—Dr. David W. Cheever of Boston, formerly of Portsmouth, and son of the late Dr. Charles A. Cheever, has been appointed Demonstrator of Anatomy in the Massachusetts Medical College, Harvard University.

☞ Mis Janette Hutchinson, a milliner of Farmington, had her pocket picked of two hundred and fifty dollars, at Boston, last week. The citizens of Farmington, with characteristic liberality, raised one hundred or more dollars for her aid.

CONVICTED NEGROES.—A suggestion is made in the Galveston News, that as every negro who, convicted of crime, is hung, is the loss of so much productive capital to the State, it be provided by law that such persons be sent to the penitentiary for life, the State making remuneration to the planter for his loss.

☞ In Rochester, N. Y., a magistrate has sentenced a man named Rodney to imprisonment for life for committing an assault upon Miss Pearson, a respectable farmer's daughter.

☞ The City Phalanx, Capt. Sides, have procured a handsome uniform from Boston, and are drilling each evening preparatory to their visit to Camp Goodwin, at Nashua next week.

☞ The complaint at *all* the Fairs this year, is of the small show of neat stock.—Can it be that the farmers are yet afraid of that bugbear, "the cattle disease."

☞ At Newark, N. J., on Monday, a notorious burglar who was pursued by the police jumped into the Passaic river, and in the endeavor to swim across was drowned.

☞ The Count of Aquila, uncle of the Ex-King of Naples, has purchased a mansion in Paris for $300,000. His wife is a Brazilian Princess and prodigiously rich.

☞ The Great Eastern has the permission of the Postmaster General to take mails to Europe, provided she sails from Norfolk.

Of what use are forms, seeing that at times, they are empty. Of the same use as barrels, which, at times, are empty too.

☞ The annual meeting of the stockholders of the Concord & Portsmouth Railroad was held at the Court House in this city, on Thursday. Col. Charles L. Frost of New York, President, called the meeting to order, and presided. The call for the meeting and the Report of the Directors were then read by William H. Hackett of this city, Clerk of the Road. The report gives a statement of the receipts and earnings of the Road—alludes to the fact that there is no doubt that the lessees have well used the property—refers to the settlement of the expense of organization—the amount of capital stock, &c. A statement in regard to the "spring" that has made considerable excitement in this locality, is also made, and a full review of the adjustment of the accounts of the Trustees for the Bondholders of the P. & C. Railroad occupies considerable space.

Considerable discussion was had between A. R. Hatch, Esq. and the President in relation to the matters contained in the report. Remarks were also made by Messrs. Haven, Richard Pickering, March, Gilmore and others.

Messrs. W. H. Y. Hackett of this city, T. L. Tullock of Concord, and Geo. H. Williams of Roxbury, were appointed Committee to collect votes for Directors, and after a vote, the stockholders elected Charles L. Frost of New York, S. Plumer Dow of Newmarket, Stephen Kenrick of Franklin, and Joseph Blake of Raymond, Directors. Mr. Charles Thompson of Boston had 1122 votes, and failed of an election; A. W. Haven of this city had 971; J. W. Pierce, 266; Clement March, 632; T. L. Tullock, 37; P. Jenness, 246.

The Annual Report was referred to the new Board of Directors, as was the matter of the Spring, and the meeting, after a lively speech from the President, (Hon. Chas. Thompson in the Chair,) upon the affairs of the Corporation in general and the Aquaduct controversy in particular, dissolved.

A DEMOCRATIC QUESTION AND ANSWER.—While addressing a crowded Douglas meeting in Boston last week, Geo. Sennott, Esq., was rudely interrupted by a Breckinridge man as follows:

"Aint you an Abolitionist? Didn't you go down to defend John Brown?

Mr. S. (promptly and with emphasis)—"Am I a thief because I defended you from a charge of larceny, and kept you from the House of Correction, where you belong?"

This keen and cutting retort immediately "brought down in the house" in a roar of applause, and the speaker proceeded in his argument without any danger of further interruptions from his inquisitive opponents.

☞ The Boston Atlas of Thursday says: "We have received reliable information from Pennsylvania, New York and Indiana, as to the condition of political parties in those States, The triumph of Republicanism is certain as anything that human power can accomplish. In Pennsylvania, the election of Gov. Curtin is a conceded point; he will have from 10,000 to 20,000 majority. With these facts before us, the Republicans of New England must strive to swell the majorities, in order to keep pace with other States.

☞ The U. S. ship Marion, Capt. Brent, came up the river and anchored off the Navy Yard, Thursday afternoon; and the usual salutes were exchanged. The ship brings home several invalids from the African squadron; and four of the crew of the slave-ship Erie, captured by the Mohican.

SUDDEN DEATH.—At a prayer meeting in Philadelphia, recently, Mr. John C. Weher, an aged merchant, was observed to be fanning himself nervously as if suffering from intense heat, and soon fell foaming at the mouth. When those present reached him, he was found to be dead.

LOUISVILLE, KY., Oct. 2.—The State Central Committee of the *Bell* party have published an address, in which they recommend their party in Indiana, Ohio and Pennsylvania to abandon their gubernatorial candidates, and cast their votes so as to defeat Lincoln.

☞ The owner and crew of the famous yacht "Viking," with invited guests, sat down to a capital supper at the Market Street House, Wednesday evening. All present report a grand time.

Scene on the Pacific Railroad (when finished)—Baggage Master: "Any baggage sir?" Venerable Camanche: "Yes, three strings of scalps, a carpet bag and a bottle of Schnapps. Be particularly careful with the scalps and Schnapps, if you please."

☞ There Were nearly 12,000 torches in the Wide Awake procession, in New York, Wednesday night.

AUGUSTA, Ga., Oct. 3.—Private dispatches say that Escalbia county, Florida, has gone overwhelmingly for the Bell and Everett candidates for Governor, Member of Congress, and Representatives to the Legislature.

ELMIRA, N. Y., Oct. 3.—The trot at the State Fair to-day, between Flora Temple and Patchen was won by the former in three straight heats.

☞ The authorities of Worcester continue to seize contraband liquor. None of a good quality has as yet been captured.

WASHINGTON, Oct. 3.—The President gives a civic reception to-morrow, in honor of the Prince of Wales.

"JACK IN THE FORECASTLE."

This is the title of a delightful book just published by Crosby, Nichols, Lee & Co., of Boston, and for sale in Portsmouth by J. H. Foster.

It gives the incidents in the early life of Hawser Martingale, and is in short a most interesting autobiography of the author, who was well known here as Capt. John S. Sleeper, in Exeter as the editor of the News Letter, and in Boston for many years as the editor of the Boston Journal.

It is a stout volume of 450 pages, full of first rate sea stories, told by a good sailor and a good writer. It is well illustrated, and will go off like hot cakes.

UNION TICKET IN NEW YORK.—*Albany, N. Y. Oct. 3.*—A union ticket has finally been formed. Greene C. Bronson is substituted for Henry S. Randall as Elector at Large, and William C. Cram is nominated for Lieut Governor in place of Allen. The Douglas State Committee have endorsed fusion. The Chairman of the Breckinridge State Committee expresses his determination to oppose the ticket and Mr. Brady will stump the State against it.

DISAPPEARED. — We learn that Mr. John A. Merrill, who kept a market house on Pleasant street, disappeared on Saturday last, and has not since been heard from by his anxious friends. He was seen in the neighborhood of the Eastern depot late in the afternoon. He had in his possession three or four hundred dollars. No cause for his disappearance is given, unless possibly he may have been decoyed by black legs who have before this made his purse their prize.—*Newburyport Herald.*

WASHINGTON, Oct. 3.—Rev. Andrew G. Caruthers, of this city, has been appointed Consul at Turks Island.

Baron Renfraw arrived at 4 o'clock.—Gen. Cass received him at the station, and welcomed him in the name of the President. At the White House the Prince received a cordial welcome. The proceedings being quite private, the gates being closed against intrusion and guarded by policemen.

One of the sanitary policemen of New York, while examining some premises in an unclean locality, proceeded to interrogate one of the occupants a Hibernian matron, as to the number of persons inhabiting the premises. On her part she attempted to learn the object of his inquiry, adding—"Shure we have had the issaus taken twice already." The officer replied that he could not help that: it must be done again.—"But, why?" asked the crone. "Are you going to come upon us, and tax us to pay for the Japanese?"

ONE OF THE CARS.—The great Car which was built for the late Rockingham Fair in Portsmouth, was procured by the managers of the Merrimac Co. Fair, to go Concord. The Patriot thus speaks of it:

One of the most attractive features of this Fair was the exhibition of the working oxen (44 yokes) upon the track in one team, drawing an ornamental and allegorical Car, of immense proportions, on which rode a score or two of young ladies and men, with the Concord Band discoursing sweet music as the long team wended its slow way around the grounds. This Car came from. Portsmouth, and was designed by Mr. J. H. Head.

It is an undoubted truth, that the less one has to do, the less one finds time to do it in. One yawns, one procrastinates, one can do it when one will, and, therefore, one seldom does it at all; whereas, those who have a great deal of business must buckle to it; and then they always find time enough to do it in.

The earliest black frost in this city in 36 years occurred on Oct. 15th, 1834, the latest Dec. 2d, 1839. But on *low* grounds in the country, there is not a month in which ice is not sometimes formed.—*Traveller, 1st.*

IN BOARD OF ALDERMEN, Thursday eve. Ald. Kimball in the chair—Petition of Chas. W. Browster and others, asking that the side-walk near the corner of Bridge street be raised and rebuilt. Ref. to Committee on Streets.

Petition of J. P. Bartlett and others asked for a gas-light at the corner of Court and Atkinson streets. Ref. to Com. on Gas Light.

No quorum in Common Council, as usual.

No more puny children, decayed teeth, or yellow bread, if you will use Herrick Allen's Gold Medal Saleratus. There is nothing equal to it. It is far superior to soda to use with cream tartar. Bread or Biscuit raised by it is more easily digested than by any other. Try one paper, and you will not fail to use it ever after. Have the Gold Medal or none. Grocers and Druggists keep it.

There is another article in the market put up in similar colored papers. Do not be deceived by it. See that the name of HERRICK ALLEN is on the wrapper, and no mistake can occur. Manufactured by Allen & Taylor, corner of Canal and Centre streets, New York, and sold at wholesale by Israel Nash & Co., Boston. M&E is

WILD CHERRY BALSAM.—The memory of Dr. Wistar is embalmed in the hearts of thousands, whom his *Balsam of Wild Cherry* has cured of coughs, colds, consumption, or some other form of Pulmonary disease.

Bronchitis.—This sure forerunner of Consumption can be instantly relieved and permanently cured by the use of Dr. J. R. Stafford's Olive Tar and Iron & Sulphur Powders. The Olive Tar allays pain and heals soreness as inflammation, and the Iron & Sulphur Powders convert the waste or worn out particles of the blood into gases, which are ejected from the body by the pores instead of being deposited as Phlegm. The testimonials of many prominent and well-known persons are contained in a pamphlet, which will be sent *free by mail* to any address. See advertisement in this paper.

FOR SORE, WEAK, INFLAMED EYES AND EYELIDS!

A true specific, and invaluable remedy has been at last discovered. Dr. Humphreys argues that these affections invariably result from a constitutional disease, of which the local affection is the only outward manifestation. Hence, HUMPHREY'S SPECIFIC HOMEOPATHIC OPHTHALMIA PILLS are only taken internally, and yet cure the worst forms of obstinate sore eye and eyelids, which have resisted all other treatment. All cases of sore and inflamed eyelids, or failing, weak or defective sight, will be promptly benefitted, and the cure of the worst cases is only a question of time.

Price, 50 cents, with directions.

Sent by mail or express, free of charge, on receipt of the price.

Address, DR. F. HUMPHREYS & CO., 562 Broadway, New York.

Sold in Portsmouth by THACHER.

See advertisement in another column.

Wistar's Balsam of Wild Cherry.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases of *Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Asthma, Inflammation* of the *Lungs*; while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

From the Editor of the Portsmouth (N. H.) Journal, Aug. 11, 1860.

WISTAR'S BALSAM.—There are but few medicines of which we can express an opinion from personal knowledge. Among such we place prominently WISTAR'S BALSAM OF WILD CHERRY, which should always be kept on hand. It is an excellent medicine not only for *Coughs* and *Colds*, but also for neuralgic affections. We have known suffering from the severe *Tic* to be so much effectually relieved by its soothing influence where other medicine has been ineffectually used.

From a highly respectable Merchant.

FALMOUTH, ME., Aug. 10, 1860.

MESSRS. S. W. FOWLE & CO.,—

Gents:—For a long time I have suffered more or less with that distressing affection—*Phthisis*—in its worst forms, and have resorted to various so called remedies, but to no purpose as affording the desired relief. Deprived of my sleep by reason of the severity of the disease, it was only too evident that I was fast breaking down under it. I resorted to Dr. WISTAR'S BALSAM OF WILD CHERRY with but little confidence as to its curative properties, but the use of one bottle has entirely rid me of this monster; and to the public I can safely commend it as every worthy their confidence. Most resp'ly, S. I. MERRILL.

GREAT MORAL EXHIBITION.

For attraction, a Menagerie surpasses anything that can possibly be gotten up. The innocent recreation and instruction that it affords are universally acknowledged on all sides. It derives its support from the learned, the moral, and the religious. Menageries are regarded as orthodox, and the Elephant and the Monkey find an audience in places where equestrian exercises are prohibited by legal statute.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when perseverd with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS,

these Wafers are peculiarly valuable; they will in one day remove the most severe occasional hoarseness; and their regular use for few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long felt want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhœa, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other fatal disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being so small, simple, so free from all care when to take—pleasant, so as to cause no repugnance—safe, and hence occasioning no risk, while the curative effects are positive and decisive, they are taken, and at once the spell is broken and the danger allayed.

Experience has amply confirmed the use of these remedies for families and private practice, as being THE BEST IN USE, THE MOST SIMPLE AND CONVENIENT, THE MOST PRECISE AND RELIABLE.

Thousands are and have been using them for some five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and efficacy, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

ATWOOD'S

QUININE TONIC BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of Quinine, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various tonic and stomachic, and cannot fail to meet the wants of the debilitated.

It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently useful in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

MOTHERS

It must be obvious not only to you, but to every attentive mother and nurse, that the first diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for Infantile complaints, and this fact alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relieving all Pain. FOR DISEASES ATTENDING TEETHING*, such as *Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic, and Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, the little sufferer is relieved *instantaneously*, as if by magic; and in this dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are fully warranted in saying cannot be said of any other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are beginning to appreciate this truth, and of the sad and blighting consequences which are certain to result from the use of narcotics disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction and constipation of the bowels, ending otherwise in convulsions. Here in DR. EATON'S INFANTILE CORDIAL differs from every other remedy. It

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, through its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts. per bottle.

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor.—It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirum Tremens, Intemperance, It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are troubled with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find a dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take a teaspoonful of this Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual system, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS & IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, deprivation of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would receive credence for. Invaluable as this medicine has become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if arrested from premature decay and transported from distant lands. Some very signal instances of this kind are attested of female sufferers, emaciated victims or apparent consumptives, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old cuddle, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most indolent cases, including the attendant *Costiveness*.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, its effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent heats, often generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians in several very gratifying and pointedly instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great agent of and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and incalculable benefit.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 48 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, Under the act of 1837.
70 STATE, OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents of inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The extensive practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Boston, Jan. 1, 1860. R. H. EDDY.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with fine Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has been his attendant lot; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at 17 Pleasant Street, opposite the New Custom House.

J. E. SMALL.

Portsmouth, August 6, 1860.

TEMPERANCE
Oyster and Refreshment Saloon.

The subscriber would respectfully inform his friends and the public generally that he has leased, refitted and repaired the

Saloon No. 57 Congress Street,

and is now prepared to furnish

Fruits, Confectionery, Oysters, Pastry, &c., as cheap as the cheapest, as good as the best. Oysters served up in every variety of style, to suit customers. Families and Parties furnished at short notice, in the best manner, on reasonable terms. H. F. FULLER.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.

The nature of this invention consists of a metal sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so that it not interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require a comment.

It is adapted to every one that sole leather is porous, absorbing water, and that the soles of boots and shoes are often damp when they appear dry, causing cold feet, chills, neuralgia, rheumatism, consumption, &c.

Physicians of eminence have pronounced this Metallic Sole an invaluable discovery, and state that, if generally used, it will cause an immense saving of human life.

The right to manufacture and sell the above Improved Metallic Sole for the County of Rockingham has been purchased by the subscriber.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. J. C. CARR.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of scrofulous, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and bring it back to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I cheerfully owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonin Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 percent more in proportion, and retails for $3 a bottle.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, OCTOBER 6, 1860.

GARIBALDI AND COUNT CAVOUR.—It is reported that the quarrel between the Sardinian government and Garibaldi had arrived at such a pitch that Victor Emmanuel determined to proceed to Naples for the purpose of having a personal interview with Garibaldi.

The Neapolitan Ministry has resigned.—It is reported that Signor Conforto has been entrusted with the duty of forming a new one.

The details of the battle between Lamoriciere and Cialdini, in the official bulletins, agree with those previously published.—Among the six hundred prisoners taken by the Sardinians, were upwards of thirty officers, some of high rank. In consequence of this victory, four thousand of the Papal troops, mostly foreigners, and fifty officers, the guards of Lamoriciere, capitulated and laid down their arms. Six guns, a large quantity of ammunition, &c., also fell into the hands of the Sardinians.

GOOD FEELING IN POLITICS.—We are glad to notice the evidence of good feeling between gentlemen of different political opinions evinced in the old Bay State. A Boston paper informs us that an organization called the Lincoln and Hamlin Horse Guards has been formed in Charlestown.—The company is commanded by Capt. Gideon Haynes, and at a parade for drill on Tuesday evening, about sixty men mustered in the saddle. As the Guards passed the residence of Hon. Charles Thompson, Douglas Democratic candidate for Lieutenant Governor of Massachusetts, the company were ordered to halt, and the command was given for "three cheers for the Hon. Charles Thompson," which were given with a degree of good will that showed that Charlestown politicians, even in the excitement of a State and national campaign, do not lose sight of that courtesy among gentlemen which it is always gratifying to witness.

CHIVALRY AFRAID OF A WOMAN.—The Charleston (S. C.) Courier states that Mrs. Catherine Bottsford, "a female of rather prepossessing appearance," has been imprisoned in that city on a charge preferred against her by several respectable citizens, of having disseminated seditious sentiments among the slaves. She was not able to obtain the bail ($300) required to secure her good behavior. During the investigation she admitted entertaining the abolition sentiments attributed to her, and of being an admirer of John Brown. She denied, however, any attempt to circulate her opinions. The woman has resided in Charleston for nine months, engaged as a seamstress.

CONCENTRATED LEAVEN.—We would call the particular attention of our readers to this new and important article for the culinary department. For making bread, tea and breakfast rolls, and all kinds of cake and pastry, it is said by those who have tested its qualities to be very superior. In its preparation, Messrs. Chamberlain & Co. seem to have accomplished what has been long desired, and their Concentrated Leaven will hereafter, if it realizes all that is claimed for it, become a necessity in every family that desires to eat sweet, wholesome and nutritious bread. For full information see advertisement in another column. We presume it may be had of all grocers.

☞ The new company of Granite State Guards, which have organized at Nashua, under Capt. George Bowers, a captain in the ninth regiment of U. S. infantry in the war with Mexico, are having a handsome set of uniforms made in Boston, in which the company will appear at Camp Goodwin in Nashua next week. It is expected that the gallant Bowers will have a well disciplined company under his command at the muster.

☞ A friend who attended the jubilee of the American Board of Foreign Missions, at Boston, estimates the ministers in the city at 2000. Three large churches were open at the same time, to accommodate the multitudes. Among the ministers there, was the Rev. James Hobart of Vermont, 95 years old, with his voice firm and strong, offering a prayer in a public service. Mr. Hobart is remembered as a former preacher in Nottingham, New Castle, and other towns in this county.

☞ Frederick Seeley, lately of the bark Cochituate of Boston, who was brought home in the sloop-of-war Marion, was brought before Commissioner Webster, in this city on Friday, charged with an attempt to commit a revolt on board said bark. He waived an examination, and was ordered to recognize in $300 for his appearance at the U. S. Court at Exeter on Monday next, Marshall, U. S. Attorney, for the Government; Hackett for the respondent.

RUTLAND, Oct. 4.—John Whitcomb, the mail robber, plead guilty. He will be sentenced to-morrow.

NEW YORK, Thursday, Oct. 4.

The Wide Awake parade last night was a grand affair. Nearly 20,000 persons participated in the procession, which was over four miles long and included some 6000 delegates from Connecticut and Massachusetts, and fifty rail-splitters from Portland, Me.

The different clubs paraded ten men abreast, and their excellent discipline elicited general admiration. An artillery company with their cannon, was at the head of each division.

The "White House," drawn by eight horses, with the motto, "Lincoln and Hamlin—at Home March 6, 1861," and "Old Abe's Log Cabin," inscribed "Uncle Sam's rich enough to give us all a farm," were prominent in the third division.

Some merriment was occasioned amongst the half million of spectators, by the mottos, "As goes *Maine* so goes the *Union*," and "*Truth* crushed to earth will rise again—but *eggs* wont," the application of which is slightly ambiguous. NEWINGTON.

☞ News from Europe by steamer Baltimore, from Queenstown Sept. 27:—

The Sardinians continue to advance into the Papal States.

The fortress of Santo Leo surrendered after some hours firing, and was occupied by the Sardinians.

Ancona was bombarded nine hours by the Sardinian fleet. A vigorous fire was kept up in return. Later dispatches say that the cannonade by land and sea continued at intervals.

The official Roman journal contains Antonetti's note, claiming assistance from the Catholic Powers.

Garibaldi had concentrated his troops on the heights of Valturno, preparatory to attacking the Neapolitan forces.

The Garibaldians had met with some reverses near Capua, losing about 200 men.

Garibaldi in a fresh proclamation, indicates that he will join the Sardinian troops in their march upon Rome and then will march against Venice.

The antagonism between Garibaldi and the Piedmontese Government continued.

The King of Naples had published decrees at Gaeta, ordering a state of siege in all the provinces where the revolutionary struggle exists, and cashiering all the officers of the marine, as guilty of high treason, except those of one vessel which went to Gaeta.

The Republicans were gaining ground at Naples, and their influence upon Garibaldi was increasing.

It is reported that Victor Hugo had arrived at Naples.

Cardinal Sforsea had been expelled from Naples by the Dictorial government.

Breadstuffs were advancing in France.

The English news is unimportant. There had been a severe storm on the southern and eastern coasts and some shipwrecks.

The weather had been broken, but was fine and promising when the City of Baltimore sailed.

There had been two failures in the grain trade, viz: Wm. Archer & Sons, London, for £45,000, and Thomas Nooks for £20,000.

Letters announce the failure of the great house of Mellow and Sowsea, hide and cattle dealers at ———, for nearly a half a million sterling.

Cape of Good Hope mails have arrived in England.

Prince Albert was at the Cape and was met with an enthusiastic reception. Business at the Cape was dull.

The steamship Baltimore has 582 passenger and a large cargo.

THE CONCENTRATED LEAVEN, an article advertised to-day, is, beyond peradventure, a valuable discovery—an important improvement in the means of living. The certificate of Dr. Hayes leaves no room to doubt its efficacy, economy and wholesomeness. If a barrel of flour will make 40 lbs. more bread with this yeast than with any other, or even 20 lbs. more, then the experiment is worth trying—and it is easily tried.

☞ As soon as Gen. Walker was placed in prison at Truxillo he was heavily ironed, and asked if he wanted anything. He only asked for water. He then sent for the Chaplain of the port, and protesting his faith as a Roman Catholic, he was seen thereafter almost constantly kneeling at the feet of the priest in front of a small altar, on which by the dim light of the tapers the image of Jesus was distinguished. His whole party looked like corpses, and some of them were apparently in the last agonies.

FROM CALIFORNIA.—*St. Joseph, Mo., Oct. 4.*—The Pony Express from San Francisco the 22d, has arrived.

Steamer Uncle Sam sailed on the 21st for Aspinwall, with 204 passengers, and $1,200,000 in treasure.

Several vessels had cleared for Melbourne and Liverpool, with 30,000 sacks of wheat, 16,000 quarter sacks of flour, wool and other products.

Ship Pampero had cleared for New York, with 14,500 sacks of wheat, 9000 hides, wool and other products.

Since June 1st, equal to 172,000 barrels flour had been exported.

Ship David Brown had cleared for Liverpool with 1800 tons produce.

Eighteen thousand five hundred dollars worth of gold dust arrived at San Francisco on the 21st, being eight days' product of Fremont's Mariposa quartz mines.

The People's Reform Society in San Francisco have nominated a non-political municipal ticket.

At the Agricultural Fair at Sacramento, the display of stock and produce was large.

There has been no election of Senators in Oregon, it being doubtful whether the Sergeant-at-Arms, having been chosen without a quorum, had power to arrest absentees.

NEW HAMPSHIRE FAIR.—The attendance on the last day of the State Fair at Manchester, was somewhat diminished by the threats of rain.

There was a splendid show of horses, better than which has not been seen in this State for many years.

A trial of speed for three prizes—first, $30; second, $20; and third, $5—took place between six-year old stallions. Ajax made the mile in 2:49 1-2; Monarch, 2:50; and Lightfoot, 2:57. In the second class, for stallions between four and six years old.—Ethan Allen made the time in 2:59 1-4; Leo, owned by James L. Gove of Weare, made the mile in 3:01.

The plowing exhibition took place during the forenoon in a neighboring field. There were five ox teams and two horse teams.—David D. Perkins of Newmarket, for best plowing by oxen, $8. John Robie of Weare, best plowing by horses, $6.

At 1 o'clock the award of premiums was made known at the judges' stand.

Working Horses—D. D. Perkins, Newmarket, $4.

Colts—Geo. F. Walker, Newmarket—best three year old colt—$10.

The trot for citizens' purses of $100, $50 and $25, open to horses from any State, which was the biggest feature of the day, took place at 2 o'clock P. M. The contest was mile heats, best 3 in 5, to harness, and the contestants were roan stallion Romeo, entered by Ben. Thurston of Lowell; bay mare Lady Shaw, by Stephen White of West Cambridge; and by mare Fanny Fern, by Robert Wood of Lowell. Fanny Fern took the lead on the first turn, and maintained it through the heat, winning in 2:44. Romeo was a length behind Fanny Fern, and Lady Shaw was third.

On the second heat, Romeo took the lead, but Lady Shaw took it away from him on the second turn, and won in 2:45. Romeo was a length behind, and Fanny Fern third.

The third heat was won by Romeo in 2:48, and Lady Shaw was but a length behind, while Fanny Fern lapped the latter.

Romeo won the fourth heat in 2:50. Lady Shaw was second, and Fanny Fern third.

Lady Shaw won the fifth heat—time, 2:51. Romeo was second, and Fanny last.

☞ In Boston, on Wednesday, while Lincoln and Hamlin clubs were passing through some of the streets in different sections of the city, they were assaulted with stones thrown by reckless boys. But this time they did not escape with impunity.—Seven young scamps were arrested, as follows: John Kelly, Frank Stevens, James McDonald, Patrick Coleman, Dan'l Murphy, John O'Hara and Michael O'Hara.—McDonald was sentenced to 30 days imprisonment in jail; Kelly and Stevens were each fined $20 and costs, from which they appealed, and were held in $100 each.

CONCENTRATED LEAVEN,

FOR MAKING

Bread, Tea Cakes,

All kinds of Pastry, &c., &c.,

MANUFACTURED BY

EDW. CHAMBERLIN & CO.,

Proprietors of Shawmut Chemical Works,

NO. 33 INDIA STREET, BOSTON.

CONCENTRATED LEAVEN is the result of careful chemical researches. All its ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process, and the manufacturers submit it with entire confidence to the judgment of discriminating house-keepers, bakers, &c., &c.

Bread of all kinds, made by using CONCENTRATED LEAVEN, is lighter, more digestible and nutritious; has an agreeable, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, as at sea. In all climates, and under all circumstances it may be adopted, thus obviating all difficulty of procuring yeast or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the common process, much of the saccharine of the flour is lost by being converted into carbonic acid gas or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough. By using CONCENTRATED LEAVEN, this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a part of the flour or meal, and, in consequence, a barrel of flour weighing 196 pounds, which by the common method ordinarily makes about 260 lbs. gives by this process 290 lbs., thus effecting the very important saving of 10 per cent. in the quantity of flour. By conformity to the directions on each package, any person capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES,

Assayer to the State of Massachusetts.

"I have analyzed the Concentrated Leaven manufactured by Messrs. Edw. Chamberlin & Co., with regard to its purity and efficiency of action producing the effect of yeast in distending dough and thereby rendering it fit for making bread. This article is skillfully compounded, and perfectly pure materials, which leave nothing but a vegetable salt, which is essentially a desirable food in the bread. It raises the dough without consuming the sugar or any other principle in the flour, perfectly; and the same weight of flour will produce more sweet, palatable bread than can be obtained through the aid of yeast, while for cakes and pastry it is invaluable, as it saves all risk, and much time of the pastry cook.

The experiments made by me confirm the statements of the manufacturerers, and prove this compound worthy of public approval and extended use. Respectfully,

A. A. HAYES, M. D., *State Assayer.*

16 Boylston st., Boston, Sept. 25, 1860."

HOW TO USE IT.

We append a few recipes, but it may be used with great advantage in all other kinds of cake, also in fruit puddings and other pastry.

BREAKFAST AND TEA ROLLS.—Two or three teaspoonsfuls of Leaven (according to the quality of the flour,) to one quart of flour; mix thoroughly by passing two or three times through a sieve; rub in a piece of butter or half the size of an egg, and make the paste the paste with cold milk or water, (milk is preferable,) barely stiff enough to permit rolling out. Much kneading should be avoided. Cut into desired form, and place immediately into a hot oven, and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; omit the butter, and make the paste stiff enough to knead into a loaf, and bake immediately in a slow oven.

GRAHAM BREAD.—Three teaspoonfuls of Leaven to one quart of meal, sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake in a slow oven.

BROWN BREAD.—Three teaspoonsful of Leaven in one pint of flour, and one pint of corn meal, all well sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake slowly.

BUCKWHEAT CAKES.—Flour and milk sufficient to make one quart of batter; add one egg, then three teaspoonsfuls of Leaven; beat to a froth, and cook quick.

DUMPLINGS.—Sift together one quart of flour and two teaspoonsfuls of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water, and boil ten minutes.

CHAMBER STREET CAKE.—Sift together two large cups of flour and two teaspoonsfuls of Leaven; put in half a cup of butter and a cup and a half of sugar; mix with cold water or milk to a stiff batter, and spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar, beaten with the yolks of six eggs—the whites of six eggs beaten to a froth; then beat all together; add three cups of sifted flour, one cup of water, and three teaspoonfuls of leaven; flavor with two teaspoonsful of essence of lemon, and bake in a quick oven.

JUMBLES.—Sift together one quart of flour and three tea spoonfuls of Leaven; rub in one teaspoonful of butter; add a cup each of white sugar, and spice to suit the taste; mix stiff enough to roll out, and bake quick.

ELECTION CAKE.—One quart of flour and three teaspoonsfuls of Leaven sifted together; add a cup of butter, one pound of currants, two cups of white sugar, and one teaspoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

CORN CAKE.—One pint each of flour and Indian meal, and three tesspoonfuls of Leaven, sifted together; add one gill of molasses and two eggs; mix thin with milk, and bakein a slow oven.

CUP CAKE.—Five cups of flour and three teaspoonfuls of Leaven, sifted together; add one cup of butter, two of sugar, and two eggs, all well beat together; mix with milk; then add a cup of currants, and spice to suit the taste. Bake about half an hour.

LADIES' CAKE.—Three quarters of a pound of flour and four teaspoonfuls of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the white of eight eggs beaten, and the juice of one lemon; mix with mick.

WEBSTER CAKE.—Five cups of flour, three teaspoonfuls of Leaven, three cups of sugar, one of butter, one of milk, and two eggs; fruit and spice to the taste. Bake about half an hour.

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints. It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

Bronchitis.—This sure forerunner of Consumption can be instantly relieved and permanently cured by the use of Dr. J. R. Stafford's Olive Tar and Iron & Sulphur Powders. The Olive Tar allays pain and heals soreness an inflammation, and the Iron & Sulphur Powders convert the waste or worn out particles of the blood into gases, which are ejected from the body by the pores instead of being deposited as Phlegm. The testimonials of many prominent and well-known persons are contained in a pamphlet, which will be sent *free by mail* to any address. See advertisement in this paper.

FOR SORE, WEAK, INFLAMED EYES AND EYELIDS!

A true specific, and invaluable remedy has been at last discovered. Dr. Humphreys says that these affections invariably result from a constitutional disease, of which the local affection is the only outward manifestation. Hence, HUMPHREY'S SPECIFIC HOMEOPATHIC OPHTHALMIA PILLS are only taken internally, and yet cure the worst forms of obstinate sore eyes and eyelids, which have resisted all other treatment. All cases of sore and inflamed eyelids, or failing, weak or defective sight, will be promptly benefitted, and the cure of the worst cases is only a question of time.

Price, 50 cents, with directions.

Wistar's Balsam of Wild Cherry.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases of *Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Asthma, Inflammation of the Lungs;* while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

From the Editor of the Portsmouth (N. H.) Journal, Aug. 11, 1860.

WISTAR'S BALSAM.—There are but few medicines of which we can express an opinion from personal knowledge. Among such we place prominently WISTAR'S BALSAM OF WILD CHERRY, which should always be kept on hand. It is an excellent medicine not only for *Coughs* and *Colds*, but also for neighbring affections. We have known suffering from the nerves of the stomach effectually relieved by its soothing influence where other medicine has been ineffectually used.

Messrs. S. W. FOWLE & CO.,—

Gents:—For a long time I have suffered more or less with that distressing affliction—*Phthisis*—in its worst forms, and have resorted to various so called remedies, but to no purpose in affording the desired relief. Deprived of my sleep by reason of the severity of the disease, it was only too evident that I was fast breaking down under it. I recorted to DR. WISTAR'S BALSAM OF WILD CHERRY with but little confidence as to its curative properties, but the use of one bottle has entirely rid me of this monster; and to the public I can safely commend it as every worthy their confidence. Most resp'ly, S. I. MERRILL.

Local.

A Relief in Travelling.—"What shall I do with my band-box?" is no longer a source of anxious inquiry to the lady visitor in Boston. By a new system of baggage express introduced upon the Eastern Railroad, the care and trouble of baggage is saved to those going to Boston. As the train reaches Lynn, on route for Boston, a baggage-express-man, whose responsibility and faithfulness are amply vouched for, passes through the cars and takes the passengers' checks, and for a very moderate compensation delivers all the baggage and bundles entrusted to his care at any part of the city the owner may designate. To those persons who go to Boston by the early trains, and spend a day and leave in the afternoon from other stations, this saves much time and expense, and it is an important feature in the economy of travel.—When the track of the Suffolk Horse Railroad is laid from Causeway street to Tremont Row, it will be a very easy affair for a lady to go to Boston with even a McFlimsey amount of baggage, which will be no more care, and hardly any more expense, than if she went with really nothing to wear.

The system of baggage-express has long been in vogue upon railroads centering in New York, and we expect to see it ere long become in general use on all the roads that terminate in Boston.

☞ We learn that the bridge over the Salmon Falls & South Berwick Branch Railroad, will be built at once, and that the trains will be able shortly to run over the road without detention. This road is a very important one to the business interests of Portsmouth, and notwithstanding the reduction of freight by the Boston & Maine Road to divert the trade of Great Falls and other places from this city to Boston, no inconsiderable amount of goods are being sold by our merchants, which find their way into Carroll and Strafford counties by this means of transportation.

☞ There was quite a pretty little excitement at the C. & P. Railroad annual meeting, at the Court House in this city, Thursday; and the supporters of the old and new managements of that unfortunate corporation had good opportunity to air their eloquence. The result of the voting is claimed to be, in the main, an endorsement of the present policy; but at any rate, there can be no harm in discussing and examining all such matters, and perhaps it might often be to the advantage of corporation stockholders more generally and thoroughly to attend to this earlier—so that they might better understand matters. Let who may question the discretion or policy of the President of the Road, none will doubt his zeal or devotion to the interests of his trust.

☞ A bag or ball of valuable hosiery, worth about $150, was taken by mistake from among Jackson & Co.'s goods at the depot, Thursday evening, and carried to one of the hotels, with a gentleman's baggage; and the express-men, in the evident probability of theft, were very naturally not a little concerned, and were at considerable trouble in searching and watching for the missing package—which turned up next morning, having been disowned by the traveller at the hotel, when taken to his room by the porter.

☞ One extremely urbane, benign, amiable and affable friend of the Ballot, airs his good-nature at considerable length, in his last paper, respecting the late Rockingham Fair. What he says is partly true, but more of it untrue—but he don't care for that, and we are sure we don't. It was and is to be expected, that he would oppose the Fair, of course—for don't he oppose and find fault with everything? But when he stated that the Fair was held in Portsmouth, only at the solicitation and through the management of, the Trustee who resides in Portsmouth,—this we pronounced, and do still pronounce, utterly and entirely false; and we appeal to the Board, whether it was not the unanimous wish and preference of the acting members living elsewhere, to hold the Fair here. This is all the question we have at issue with the Ballot—and we have already devoted too much time and space to the matter.

We certainly did not personally desire the Fair to be held here, for we knew there would be fine opportunity for us to perform considerable labor in preparation, for no recompense save the good of the cause and the city; but when called upon, we agreed to "do what we could"—and we did it. The Fair is over; and we have heard of nobody dissatisfied except him of the Ballot—and as he began by growling, and only ends with the same, why we don't see that there is much harm done. But he has not corrected that false statement he made, as yet.

☞ Our record of Births would be much more complete, did not "the happy parents," in numerous instances, send us requests, *not* to Chronicle "the children which God hath graciously given" them. There are many good reasons why births should be published, and none why they should *not*—save and except this over-modest (or rather undermodest) objection of parents, which of course we are bound to respect.

Executor's Sale of Real Estate

IN NEWCASTLE.

Under license from the Judge of Probate for this County, will be sold at public auction,

On Saturday, the 6th day of October, 1860,

at three o'clock P. M., upon the premises in New Castle, a certain piece or parcel of LAND with the STORE and WHARF thereon, belonging to the estate of George Bell, situate in New Castle, adjoining land of J. W. K. Card, James Davidson and Benjamin White.

The proximity of the spot to the deep waters of the Piscataqua River, and the excellent view that it affords, render it a desirable location for business purposes or a residence.

Terms of sale, cash,—the purchaser to have one week in which to arrange for the payment of the purchase money, &c. By order of

HANNAH BELL, Executrix.
